Ordered also that a copy of the Resolution, with a copy of the Report, be submitted to the Government of India, in the Department of Finance and Commerce, for information.

Ordered also that a copy of the Resolution be forwarded to the Superintendent of Government Printing, Bengal, for information

By order of the Lieutenant-Governor of Bengal,

E. N BAKER,

Offg. Secy to the Govt of Bengal

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1897-98.

No 2155Marine.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT

Dated Calcutta, the 24th November 1898.

RESOLUTION.

READ—

The Administration Report of the Commissioners of the Port of Calcutta for the year 1897-98

The total amount of the loans which have been raised by the Port Commissioners from time to time, including the consolidated loan from the Government of Rs 60,25,100 and the Dock loan of Rs 2,87,70,566, amounted to Rs. 4,58,10,666, and the total amount outstanding on these loans on the 31st March 1898 was Rs 4,09,50,346. The total investments at credit of the sinking funds have been raised from Rs 16,15,500 at the beginning to Rs. 18,34,000 at the close of the year

2 Against the debt (consisting of the unpaid portion of the consolidated loan from the Government), together with the book debt on account of the Port block transferred by the Government to the Commissioners in 1871, the Dock loan and the six debenture loans, amounting in all to Rs 4,27,84,346 the Commissioners hold block of the value of Rs 3,34,31,736, and reserve funds amounting to Rs 29,72,772, in addition to the valuable Strand Bank lands extending from Chandpal Ghât to Aheerreetollah Ghât, for which they pay to the Government an annual quit-rent of Rs 37,292.

3 The year opened with a revenue balance of Rs. 8,53,280, and the income for the year under review amounted to Rs. 61,84,908. The expenditure, including sinking funds, renewals and improvements amounted to Rs 61,04,613, leaving a balance of Rs 9,33,575 on the 31st March 1898 The income of the year exceeded the expenditure by Rs. 80,295.

4 The income under the head "Jetties" amounted to Rs. 16,93,905, or Rs 1,26,727 less than that of the previous year. The expenditure amounted to Rs 9,96,258, showing a decrease of Rs 2,25,311, as compared with that of the previous year The net revenue under this head was Rs. 6,97,647, as compared with Rs 5,99,063 in 1896-97

5 The income derived from the Petroleum Wharf at Budge Budge amounted to Rs 4,06,349, against Rs 3,33,797 in the previous year. The quantity of kerosine oil imported was 43,748,516 gallons, as compared with 40,205,153 gallons during 1896-97.

6 The importation of oil from Russia was 47½ per cent. of the total quantity imported in the year under review

7 The total number of packages of tea amounted to 713,054 chests, against 776,397 in 1896-97 The receipts, which were Rs. 1,07,620 in the previous year, amounted in the year under review to Rs. 95,010. The decrease was due partly to the unfavourable crop in the Duars, and partly to the diversion of some of the rail-borne tea to the docks for direct shipment.

8 During the year 214 vessels with a tonnage of 557,706 were berthed at the jetties, against 200 with a tonnage of 500,513 during 1896-97 The average number of days each vessel occupied the jetties was 9 2.

9 The income of the Harbour Master's Department amounted to Rs 5,75,531, against Rs. 5,16,357 in 1896-97. The increase was due to larger receipts from mooring hire and Harbour Masters' earnings. The expenditure amounted to Rs 6,49,861, against Rs 5,75,334 in the preceding year The increase was due to heavy expenditure in connection with working expenses, which included the cost of additional mooring materials.

10 During the year there were 13 casualties to vessels, against 10 in the previous year This gives a percentage of 1 05 calculated on the number of vessels which arrived in the port.

None of the casualties were of a serious nature either with reference to the vessels concerned or to the conduct of the Assistant Harbour Masters In eight of these the officers concerned were warned, and in four cases exonerated from blame. In the remaining case no enquiry could be held as the vessel left port

11 The work of examining boats plying for hire was regularly attended to by the Surveyors, and during the year 185 passenger boats and 155 cargo boats were called in for survey. Of these, 80 passenger boats were found to have become defective through wear and tear, and 55 had come so by accidents Of the cargo boats, 96 have become defective through wear and tear, and 59 from the effects of accidents.

12 The receipts from port dues amounted Rs. 4,61,715, against Rs 4,05,521 in 1896-97. The expenditure for the year amounted to Rs 5,87,598, against Rs. 5,07,651 in the previous year The excess expenditure was due to the cost of extensive repairs to the several light vessels, as well as to the proportionate cost of a steam-launch for the Deputy Conservator and to the blowing up of wrecks.

13 The survey of the western channel of the Sandheads, which had partly been undertaken in 1896-97, was completed during the year The five fathoms' contour of the western sea reef has extended two miles to the southward, and has also curved bodily the same distance to the westward The eastern brace has joined the western sea reef, another three fathoms contour has gone one mile south, and over two miles, to the westward

The five fathoms' contour line of the western brace receded 1½ miles to the northward, and the three fathoms' contour no less than three miles, but both have gone westward 2½ miles. Thus there is a general tendency for all the sands and channels to move to the westward This is particularly noticeable in the channel between the western brace and the sola buoys

14 The principal changes which occurred in the river were at the Beaumont's Gut, Kaukhali Crossing, Eden Bar, Upper Bar, Rungfulla Channel and the James and Mary shoal. The other channels were fairly steady during the year

15 A sum of Rs. 11,27,752 was obtained from special tolls levied under section 108 of the Calcutta Port Act, 1890, against Rs 9,15,101 in the previous year

16 The result of the working of the Kidderpore Docks was as follows —

Receipts.	Rs.	*Expenditure.*	Rs.
Graving Dock ..	1,25,730	Traffic Establishment	1,89,867
Rent and Miscellaneous ...	49,771	Working expenses	7,91,208
Imports	1,49,768	Repairs ..	31,357
Exports	8,56,462	Municipal taxes	1,41,080
		Interest	11,50 823
Total	11,81,731	Total	23,07,335

In view of the ever growing size and number of steamers visiting the Port of Calcutta, a scheme has been introduced, and is now in force, for turning to the best account the existing accommodation.

The dominant feature of the new system is that the jetties are permitted to be used only for the discharge of general import cargoes brought by Liner steamers, the latter, after discharging at the jetties, proceed to the Docks to load export cargoes, or they may load from boats in the stream if this course is found more convenient than going to the Docks The only obligatory part of the scheme is that steamers must not load at the jetties

The scheme includes also the following.—

(1) The construction of three bonded Salt Golas at the Docks, on the banks of the boat canal.

(2) The provision of three berths in the boat canal to serve the coal export trade, there being no more room for that trade at the Docks under the new system

(3) The doubling of the single railway line, between the Docks and jetties, for 1 400 feet of its length, near Fort Point

(4) The erection of new sheds at the jetties to receive those goods only which are intended to be railed to the Docks for shipment there

(5) The provision of a powerful tug to assist vessels to the Docks from the jetties

(6) The jetties to be reduced in number from seven to six, and lengthened

(7) Additional electric lighting at the Docks.

17. The thanks of the Government are due to the Commissioners for their efficient management of the affairs of the Trust and for their assiduous improvement of the conveniences of the Port

By order of the Lieutenant Governor of Bengal,

A D McARTHUR, *Colonel*, R E.,

Secretary to the Govt of Bengal

REPORT ON THE STATE OF THE SALT MARKET FOR THE SECOND QUARTER OF 1898-99

No 887B, dated Calcutta, the 17th November 1898

From—E M KONSTAM, Esq, LC S, Offg Secy to the Board of Revenue, L P,
To—The Secretary to the Government of Bengal, Financial Department

SALT

THE HON BLE MR W H GRIMLEY

I AM directed to submit the following report on the state of the salt market for the second quarter of 1898 99, comprising the months of July, August and September 1898

2 The quantity of salt of every description cleared during the quarter under review, amounted to 26,25,392 maunds, as compared with 28 36,853 maunds in the previous quarter, and 28,26,349* maunds in the corresponding quarter of the previous year, and the net amount of duty levied thereon was Rs 61,01,897, as against Rs 67,29,251 in the previous quarter, and Rs 66,70,781† in the corresponding quarter of the previous year

* Revised figures

† Revised figures

3 The quantity of locally made salt removed from the *golas* in Orissa during the quarter under review, and the quantity which remained in store at the close of the quarter, are shown in table I below —

TABLE I

No transactions in sea-imported salt have been reported for the quarter from Cuttack and Puri

WEATHER AND CROP REPORT

For the week ending the 28th November 1898

Burdwan.—No rain Weather seasonable Harvesting of *aman* paddy continues The crop is a bumper one throughout the district Sowing of *rabi* crops and planting of potatoes nearly over A few cases of cattle-disease reported Fodder and water sufficient Common rice selling as follows —

	Srs	
Sadar	15 to 17	per rupee
Kalna	14 „ 17	
Katwa	17	
Raniganj	16½	

Birbhum—No rain Weather seasonable Harvesting of *aus* completed Reaping of *aman* commenced Sowing of *rabi* continues Price of common rice at Sadar 16½ to 18 seers, and at Rampur Hât 16½ seers per rupee Fodder sufficient

Bankura—No rain. Weather occasionally cloudy at the beginning of the week Harvesting of *aman* has commenced in places Sugarcane and other standing crops doing well Fodder and water sufficient Common rice sells at Sadar 20 seers and at Vishnupur 16 seers per rupee

Midnapore—No rain Prospects of standing crops very good Cattle disease reported from Nayagram Prices of common rice —

	Srs	
Sadar	13 to 16	per rupee
Contai	16 to 17	
Tamluk	14 to 15	
Ghatal	15 to 16	

Hooghly—No rain Prospects of *aman* and *rabi* crops good Cattle disease prevails in some parts Common rice sells from 11 to 13 seers per rupee

Howrah—No rain Weather cloudy during the beginning of the week Harvesting of *aman* commenced Fodder and water sufficient Common rice sells at 12 to 14 seers per rupee

24-Parganas—Rainfall nil Weather seasonable Prospects of winter and *rabi* crops good Harvesting of *aman* paddy continues, and ploughing and sowing of *rabi* crops going on No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	Srs	
Sadar	12	to 13	per rupee
Barasat	17½		
Basirhat	15½		
Diamond Harbour	16		

Nadia.—Rainfall nil *Rabi* sowings completed Sugarcane and *kalai* pulse doing well Harvesting of *aman* paddy continues Common rice selling at 12 to 16 seers per rupee Fodder and water sufficient Cattle pox in thana Tehatta

Jessore—No rain Weather fine and cold. Harvesting of early *aman* going on Sowing of indigo still continues No cattle-disease reported Fodder and water sufficient Common rice sells as follows —

	Srs	
Jessore	16 to 20	per rupee
Jhenida	18 „ 20	
Magura	18 „ 20	
Narail	20	
Bangaon	17 „ 18	

Khulna—Rainfall nil Weather seasonable Cultivation of *rabi* crops continues Harvesting of *aman* paddy commenced Prospects good Fodder and water sufficient Common rice sells as follows —

	Srs.	
Sadar	19 to 22	per rupee.
Bagerhat	20	
Satkhira	16 and 18 (new *aus*)	

Rajshahi —No rain • Prospects of crops good Sowing of *rabi* crops in progress Harvesting of *aman* paddy going on No cattle-disease Fodder and water plentiful Rice sells from 15 to 25 seers per rupee

Dinajpur —No rain Weather fine and fairly cool Harvesting of winter rice and sowing of *rabi* crops progressing No cattle disease Fodder and water sufficient Rice 16 to 17 seers a rupee

Jalpaiguri —Rainfall at Sadar ·21, Alipur Duars 22 Weather seasonable Harvesting of *haimanti* paddy commenced Transplantation of tobacco and cultivation of *rabi* crops going on Fodder and water sufficient Price of common rice stationary

Darjeeling —Rainfall at Darjeeling 05, Kurseong 40, Siliguri 2 Weather seasonable *Hills—Haimanti* paddy and *kalai* are being harvested, *phaphar*, wheat, barley, and *tori* are progressing well *Terai—Haimanti* paddy is being harvested, mustard and potatoes are doing well, sugarcane is being cut Coarse rice sells as follows —

		Srs	
Hills	•	9 to 12	per rupee
Terai		13 to 18	

Bhutta sells at Darjeeling 19 seers and at Rangit 10 seers per rupee

Rangpur —No rain Weather fine and cool Cultivation of *rabi* crops and transplanting of tobacco going on Prospects good Common rice selling at 13 to 15 seers per rupee Fodder and water sufficient

Bogra —No rain *Rabi* crops still being sown Winter rice is being harvested Prospects good Common rice selling from 17½ to 23½ seers per rupee Fodder and water ample

Pabna —Rainfall nil Weather fine Crop prospects excellent Price of common rice 14 to 20 seers per rupee

Dacca —Rainfall nil Weather seasonable Harvesting of *aman* continues Prospects good Fodder available No cattle disease Common rice 14 to 22 seers per rupee

Mymensingh —Rainfall nil Weather seasonable *Aman* is being harvested Sowing of *rabi* in progress Prospects good Rice selling from 15 to 22 seers per rupee No cattle disease reported Fodder and water sufficient

Faridpur —No rain Weather seasonable Prospects of crops good Rice 20 seers a rupee

Backergunge —Rainfall nil Weather fine Prospects of crops good Common rice sells from 12 to 18 seers (old *aman*), 15½ to 18½ seers (new *aman*), and 16 to 23½ seers (*aus*) per rupee

Tippera —No rain *Aman* being harvested, prospects excellent *Rabi* being sown Common rice 16 to 23 seers per rupee

Noakhali —Rainfall nil Crops good except in Hatia and Sandip No cattle diseases Fodder and water good Price of rice—*aman* 12 to 18 seers and *aus* 16 to 28 seers per rupee

Chittagong —Rainfall nil Weather seasonable *Aman* being reaped *Rabi* crop sown Rice selling at 16 seers per rupee Water and fodder sufficient

Patna —No rain Sowing of *rabi* and harvesting of black paddy going on Poppy sowing commenced Prospects of paddy good In Patna common rice sells at 23 seers a rupee Fodder and water for cattle sufficient

Gaya —No rain Harvesting of paddy continues Prospects of *rabi* and poppy good Prices are—Common rice 17 seers, wheat 16 seers, gram 23 seers, *arhar* 20 seers, and *makai* 25 seers per rupee

Shahabad —No rain Weather seasonable *Rabi* sowing continues Paddy being harvested Rice sells at Arrah 15 seers per rupee Fodder and water sufficient

Saran —No rain Weather seasonable *Rabi* and poppy doing well Cutting of paddy commenced Average price of common rice 17·1 seers and of *makai* 26·7 seers per rupee

Champaran.—No rain *Rabi* sowings still continue Harvesting of *aghani* rice has begun in places Poppy sowings nearing completion, germination good, and young plants doing well Common rice sells at 15½ seers and maize at 24½ seers per rupee

Muzaffarpur —Rain fall nil Harvesting of winter rice commenced in places *Rabi* sowings still in progress. Prospects good No cattle-disease Prices are—Common rice 11 to 17 seers, wheat 16 to 17 seers, barley 25 to 30 seers, maize 25 to 30 seers, gram 19 to 21 seers, *rahar* 22 seers, and *marua* 25 seers per rupee

Darbhanga —No rain Weather cool Paddy harvest has commenced *Rabi* doing well Weather continues favourable for poppy, about two-thirds sowings completed Common rice selling at Sadar 15 seers per rupee

Monghyr —No rain Weather seasonable Harvesting of winter rice and sowing of *rabi* crops still going on Sugarcane pressing in progress Prospects of crops good Poppy seedlings thriving the early sown crops germinate well, later sowings coming on satisfactorily No cattle disease Common rice sells as follows —

	Srs	
Monghyr	13	per rupee
Begusarai	13 to 15	
Jamui	16	

Bhagalpur —Rainfall nil Weather seasonable Prospects of standing crops satisfactory Winter rice and sugarcane being harvested in Banka *Rabi* sowing still going on in Supaul Fodder and water sufficient Cattle-disease reported from Supaul Common rice sells at 20¼ seers and Indian-corn at 40¾ seers per rupee Prices of other food-grains nearly stationary

Purnea —Rainfall at Sadar 01 Weather seasonable Harvesting of *aghani* rice has commenced, outturn good *Rabi* crops in progress Cattle disease abating in Araria One recovery from *kala dukh* reported from Kishanganj Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	18	per rupee
Kishanganj	20	
Araria	20	

Malda —No rain Weather clear and cool Harvesting of winter rice has commenced *Rabi* crops growing well *Kalai* pulse in flower Coarse rice (*bhadoi*) selling at 20 seers per rupee Fodder ample

Sonthal Parganas —Rainfall nil Weather bright and cool Harvesting of rice continues Prospects good *Rabi* doing well Fodder sufficient Price of rice varies from 16 to 28 seers and of maize from 35 to 40 seers per rupee

Cuttack —Rainfall nil Weather seasonable *Laghu sarad* being harvested *Guru sarad* maturing Sugarcane commencing to be cut *Rabi* and mustard growing and in flower in places *Arhar* in flower and pods Tobacco and *dalua* being planted Wheat, barley, and coriander being sown Condition of cattle generally good, but disease still lingering in Banki Fodder and water sufficient Common rice sells as follows —

	S	ch	
Cuttack	18	6	per rupee
Jajpur	17	1	
Kendrapara	21	0	
Banki	22	11	

Balasore —Rainfall nil Harvesting of *bcali* and *sarad* continues Sugarcane being pressed. *Rabi* crops growing well Cattle disease reported from Basudevpur circle Rice sells from 16 to 22 seers per rupee in the interior, and at 18 seers at Balasore and Bhadrak Fodder sufficient

Angul —No rain Winter rice being reaped Prospects of *rabi* crops good Common rice selling at 26 seers per rupee in Angul and 18 seers in Khondmals

Puri —No rain *Sarad* in ear and ripening in places *Laghu* being reaped. Prospects of *arhar*, sugarcane, *kulthi* and other miscellaneous crops good Land being ploughed for next summer rice Fodder and water sufficient Cattle-disease reported from parts of the district Price of common rice almost stationary

Hazaribagh —Rainfall nil. Weather seasonable Harvests in progress *Rabi* crops are being sown Common rice 12 to 18 seers per rupee

Lohardaga —No rain Paddy harvesting continues State of standing crops good Rice sells at Ranchi 16 seers, and in the interior from 16 to 24 seers per rupee Cattle disease continues in the interior Fodder and water sufficient Grain in stock sufficient

Palamau.—No rain Weather seasonable Harvesting of paddy in progress Other crops doing well Cattle disease prevailing Fodder and water sufficient Rice sells at 20 seers per rupee

Manbhum.—Rainfall nil Weather seasonable Prospects of crops on the ground are excellent Cattle-disease reported from thana Purulia Fodder and water sufficient Average price of common rice at Sadar 22 seers 9 chittacks per rupee Supply sufficient

Singbhum.—Rainfall nil Prospects of crops good Prices stationary

General Summary.—'There was slight rain in Jalpaiguri and Darjeeling during the week The general agricultural prospects continue favourable The rice harvest is in rapid progress, and a good outturn is generally expected The sowing of all cold weather crops, including poppy, is nearly complete, and the young plants are thriving well Reports of the sugarcane crop are satisfactory, and pressing has begun in some districts Prices generally show a tendency to fall There is no outbreak of cattle disease, but cases are reported from some districts The supply of fodder for cattle is reported to be sufficient in all districts

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 29th November 1898.

F A. SLACK,
Offg Secretary to the Govt. of Bengal.

The total fall of rain from 20th to 26th November 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0 01
The total fall from 1st January to 26th November 1898	59 52
The average fall of the corresponding period for 24 years, Surveyor General's Office	65 15

The mean pressure, temperature &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground

The 5th December 1898.—The following advertisement by the Indian Plague Commission is published for general information

E N BAKER,
Offg Secy to the Govt of Bengal

ADVERTISEMENT

The Indian Plague Commission will shortly visit Bengal with the object of inquiring into—

(1) the origin of the different outbreaks of plague,
(2) the manner in which the disease is communicated,
(3) the effects of curative serum, and
(4) the effects of preventive inoculation

The Commissioners will be glad to examine persons who are in a position to assist them in arriving at a conclusion regarding the questions under investigation, and any such person who desires to bring any facts before the Commission is requested to submit without delay to the Secretary of the Commission, a statement in English showing what opportunities he has had of observing matters connected with Plague and the facts to which he can testify The Commissioners will then determine whether they will call and examine such person

C J HALLIDAY,
Secy, Indian Plague Commission

NOTIFICATION.—No 6949Medl

The 6th December 1898.—The following notice issued by Mr E R Henry, the officer in charge of the arrangements for despatching pilgrims desirous of proceeding to the Hedjaz during the ensuing season, is published for general information

E. N BAKER,
Offg Secy to the Govt of Bengal

PILGRIMAGE TO MECCA

NOTICE TO BENGAL, BIHAR, AND ASSAM PILGRIMS

THE Government, while desirous of impressing upon intending pilgrims that they would be well advised in deferring their purpose until another season, in view of the stringent quarantine rules imposed by the Turkish Government and the inconvenience to which it is

likely they will be subjected on arriving in Arabia, have decided to permit the pilgrimage to the Hedjaz, subject to certain conditions —

1st —No person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Chittagong

2nd —All intending pilgrims shall proceed to Chittagong, avoiding Calcutta, and shall at Chittagong be received into a camp, where they will remain for a period of 10 days or until a steamer is ready for their reception

3rd —Every pilgrim seeking admission to the Chittagong camp is required to have with him or her money enough to cover the cost of the journey to Jeddah, and is advised to have enough for the return journey from the Hedjaz also

4th —Haji Kasim of Bombay has arranged that the S S "*Jubeda*," late "*Pekin*," which has accommodation for over 750 pilgrims, shall leave Chittagong for Jeddah on the 25th January 1899 The rate of passage-money for the voyage to Jeddah has been fixed at 80 rupees Only children under three years of age will be received free, children between three and twelve years will be charged half fares

5th —Tickets for the steamer journey must be purchased at the Chittagong camp, and on leaving the camp pilgrims holding these tickets will be given certificates that they have undergone 10 days' quarantine, and are free from all suspicion of infection

6th —Intending pilgrims need not bring with them food for the journey, as the steamer will be required to keep a stock of all necessary articles of food to be sold at rates which have been authoritatively approved

7th —The camp will be ready on 4th January 1899

8th —After the despatch of the S S "*Jubeda*," if there are a sufficient number of pilgrims to fill another steamer, Haji Kasim has arranged to have either the S S "*Mirzapore*" or "*Akbar*" or "*Afghan*" ready for despatch from Chittagong on the 15th February

CALCUTTA, E R. HENRY, I C S

No 1349, Simla, the 18th November 1898

NOTIFICATION—By the Government of India, Home Department

THE following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 4, sub-section (3), of the Petroleum Act, 1886 (XII of 1886), as amended by section 3 of the Petroleum Act, 1898 (VII of 1898), is published for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration by the Governor-General in Council on or after the 1st January 1899

2 Any objection or suggestion, which may be received from any person with respect to the draft before the date aforesaid, will be considered by the Governor General in Council —

Draft Notification

In exercise of the power conferred by section 4, sub-section (3), of the Petroleum Act, 1886 (XII of 1886), as amended by section 3 of the Petroleum Act, 1898 (VII of 1898), the Governor General in Council is pleased to direct that the following addition be made to Part III of the schedule to the said Petroleum Act, 1886 —

"6 *Application of the test to viscous fluids or preparations*—If the flashing test has to be applied to substances of a viscous or semi-fluid nature which cannot be poured (such as solutions of India-rubber in mineral naphtha or thick paint made with that material) the mode of proceeding is as follows —

About a tablespoonful of the substance to be tested is placed in the cup, and the cover is put on The air-chamber in the water-bath is filled with water to the depth of 1½ inches, and the temperature of the water-bath is raised to 76° Fahrenheit (for which purpose, the scale of the thermometer to be used in the water bath should range from 60° to 180°) The cup is then put into the bath and the temperature of the water bath maintained at 76° Fahrenheit throughout the test After the lapse of fifteen minutes the test flame is to be applied If no flash occurs, the heating is continued for another fifteen minutes and the test flame again applied, and so on until a flash takes place, or the temperature in the cup has reached 75° If a flash has not taken place, when that temperature is reached, the test need not be continued The temperature at which a flash occurs, is the observed flashing point of the substance, and, subject to correction for atmospheric pressure as hereinbefore described is the true flashing point"

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M, in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday if it falls on a Saturday, the said notes must be redeemed by 1-30 P M, or, on the other hand failing such redemption by the time aforesaid, then the lot or lots for which no Bank

DEPOSIT

When the amount bid is less than Rs 1,200 per chest Rs 400 per chest
On bids of Rs 1,200 and upwards, but less than Rs 1,600 per chest Rs 500 per chest.
On bids of Rs 1,600 and upwards but less than Rs 2,000 per chest Rs 600 per chest
And so on Rs 100 being added to the deposit for every bid additional, to the extent of Rs 400

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re sale shall be had or not, or whether there shall be a loss on such re sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3 30 P M of the fifth day following the day of sale, or 1 30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1 30 P M, and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re sale, and the liability for the loss or differen c of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed shall have the option of naming the number of lots of their purchase which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book, or his authorized agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue — No 1, certificate of the opium advertised for sale, No 2, report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1897-98, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment

By order of the Board of Revenue, L P,

Advertisement of Sale.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 9th January 1899, corresponding with 26th Pous 1905 B S

Conditions of Sale.

1st —The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd —If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once

4th —If the amount of purchase money exceed Rs 100, one-fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale

Nadia Collectorate the 1st December 1898 MANMATHA CHANDRA SEN, Deputy Collector, in charge

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate situate in the district of Bankura, will be put up to sale at the Bankura Collectorate on Friday, the 20th January 1899, corresponding to 7th Magh 1305 B S

Conditions of Sale.

1st—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity

2nd—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities

3rd—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once

4th—If the amount of purchase-money exceed Rs 100, one fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

A Dictionary of the Economic Products of India

By Sir. Geo. WATT, C I.E.,

Reporter on Economic Products.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing No. 8, Hastings Street Calcutta and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India 8 annas per volume; for England, Rs. 2-8 per volume For copies bound in half calf or half morocco, Re 6 and 8 shillings, respectively, will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics markets, &c The work is arranged alphabetically

according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the subject of a product, even when the botanical name is unknown to the

An important feature of the [illegible] that distinguishes it from [illegible] under quotations from, and with a reference to, the original publication. Numerous [illegible] ever, furnishing the results of [illegible] firmed the vernacular names. As also the [illegible] is not only a complete compilation of [illegible] tion, but has been [illegible] inventions and discoveries.

Volume I containing the letters A and B, and consisting of royal 8vo pages, Vol. II containing the letters D, E, F and [illegible] Vol IV, [illegible] half of G to middle of L; and Vol. V containing the latter half of L to end of O; Vol. VI, (which consist of four parts), Part I, containing letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol VI); but a tenth volume has been issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index is practically a Glossary of the Vernacular and Botanical names of the plants, animals and minerals of India, and, as such, is a work of reference, which, it is hoped, will prove of considerable value.

Index to ditto ditto, 8vo Re. 1 (4s.)

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as described in the conditions of sale below, to the undermentioned estates situate in the district of Murshidabad, will be put up to sale at the Murshidabad Collectorate on Thursday the 12th January 1899, corresponding with 29th Pous 1805.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th—If the amount of purchase money exceed Rs 100, one-fourth of the amount and to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to the Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of the original sale.

NOTICE TO MARINERS—No 353.

[First Publication.]

NEW ZEALAND—COOK'S STRAIT

French Pass—Sandbank

THE British Admiralty has given notice (No 660 of 1898) of the existence of a sand-bank, discovered by Mr McLean, Master of the S S *Penguin*, situated at the eastern entrance to French Pass, Cook's strait

This bank is composed of fine sand and shells, with patches of dwarf kelp Its length within the 3-fathom line is a quarter of a mile E.N.E. and W.S.W, and a quarter of a cable broad, the least depths being 2¼ to 2½ fathoms, low-water springs. From the eastern limit of the 3-fathom line, the south extreme of Reef Point bears E.N E., distant 3¾ cables, and Colliuet Point, S.E. ¼ S

Approximate position, lat. 40° 55′ 10″ S., long. 173° 51′ 45″ E

It is intended to mark this bank by a buoy

There is a channal with 8 to 10 fathoms, one cable wide, between the west end of the bank and Reef Point, and another, 2¼ cables wide, with 9 to 12 fathoms water, between the east and and Colliuet point

(*Variation 18° Easterly in 1898*)

PACIFIC OCEAN—(1) SANTA CRUZ AND (2) MOTUITI ISLANDS

(1) Shoal discovered

THE British Admiralty has given notice (No 619 of 1898) that information dated 4th August 1898 has been received from Lieutenant and Commander C W. S. Leggett, H M S *Goldfinch*, [illegible] about 35 miles south-westward of the Duff or Wilson group he obtained a sounding of [illegible] fathoms shortly afterwards in approximately lat 10° 14 [illegible] depth of 3 [illegible] placed in this position on the [illegible]

(*) *Motuiti island—Non-existence of.*

Also, that Motuiti (or Kennedy) island (supposed to have been discovered by the *Nautilus* in 1801, and unsuccessfully searched for by the *Curoa* in 1883) was carefully searched for without success a distance of 60 miles both east and west of its assigned position, a cast of 75 fathoms, no bottom, having been taken on its charted position, and no sign of land being visible from the masthead. This island, the existence of which has always been considered doubtful, has in consequence been erased from the Admiralty Charts.

Approximate position, lat 8° 38′ S., long. 167° 48′ E.

EASTERN ARCHIPELAGO—SUMATRA—LINGA ISLAND.

East Domino (Selentang island)—Reefs.

THE British Admiralty has given notice (No. 621 of 1898) that the following information has been received as to the reefs extending off and in the vicinity of East Domino (Selentang) island:—

The reef surrounding the island, which dries at low water, extends from its north-east side to a distance of nearly three-quarters of a mile, on the east side a quarter of a mile, and on the south side one-fifth of a mile.

At a quarter of a mile S. 48° W. from the south point of the island is a patch with a least depth of one fathom, and 8 to 10 fathoms close to.

At 1½ miles S. 6° W. from the same point is a shoal with a least depth of 1½ fathoms.

The reef marked (D) on the Chart, and situated about 3½ miles S. ¾ E. from the island does not exist, and has been erased from the Charts.

There is good anchorage in 8 fathoms on the west side of Selentang island.

Approximate position, Selentang island, lat. 0° 6′ 30″ S., long. 104° 57′ 30″ E.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE BHAGALPUR DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—(MISCELLANEOUS)

Calcutta, the 5th December 1898

RESOLUTION—No 3491

READ—

The Annual General Administration Report of the Bhagalpur Division for the year 1897-98

MR W B OLDHAM was in charge of the Division for the greater part of the year, Mr O'Donnell officiating for him for three months The present report is submitted by Mr. Carstairs There were changes of District Officers in all districts with the exception of the Sonthal Parganas, but the transfers of officers in charge of subdivisions were less frequent.

2. *Tours and inspections*—Mr Oldham spent 34 and Mr O'Donnell 40 days on tour, all the district offices being inspected except that at Purnea, and 6 out of 13 subdivisions were visited Special attention appears to have been given to the state of the municipalities in the Division The tours of the different Collectors were of suitable scope and duration, covering the usual inspections It is not stated whether they were settled in consultation with the Commissioner as required by the standing orders of Government, and the same omission was noticed in the previous year In Bhagalpur and the Sonthal Parganas the attention of the District Officers in the early part of the year was specially directed to the supervision of the relief operations, and in Monghyr and Malda to enquiries whether the organisation of relief was necessary The tours of the

Subdivisional Officers of Jamui in Monghyr, and Dumka and Godda in the Sonthal Parganas, are mentioned as having been insufficient, but the reasons alleged are in no case altogether satisfactory.

The necessary inspections of the district offices and treasuries were made by the Collectors concerned, but by an oversight the treasury at Purnea was only inspected once. District Officers also duly inspected the subdivisional offices under them. It is not mentioned if Subdivisional Officers inspected their own offices.

3 *Weather and crops · Material condition of the people · Public health* —The rainfall of the year was slightly below the normal in Malda, and considerably so in the Sonthal Parganas, in the remaining three districts it was in excess, but everywhere it was seasonable and well distributed, with the result that the *bhadoi* harvest in the Division was a full average one, and the winter rice a bumper crop. The outturn of the cold-weather crops was also good, and the year an excellent one generally. Following on the poor harvests of the previous twelve months, the year opened badly, and in the districts of Bhagalpur and the Sonthal Parganas relief measures were undertaken by Government In the remaining districts the prevailing high prices and the apprehension of scarcity rendered the general condition of the people anything but favourable With the good crops, however, of the year under report, prices fell considerably, though at the close of the year they were still slightly above normal rates, and although the opinion is expressed regarding the Sonthal Parganas that the depletion of grain-stocks during the famine has not yet been completely made good, there seems little doubt that by the end of the year the condition of the people was improving rapidly, and with favourable seasons during the current year should be well up to the normal standard.

In the districts of Malda and the Sonthal Parganas the year was more unhealthy than that preceding, though the registered figures in the latter district in both years appear of doubtful accuracy. The Deputy Commissioner observes that the famine left the people in a condition predisposed to disease, and their lowered vitality was also shown by a decrease in the registered birth rate In Monghyr, Bhagalpur and Purnea (excluding the Sadar station) the year appears to have been fairly healthy The prevalence of a kind of fever known as *kala dukh* in the north-east of Purnea, of a deadly type though fortunately not widespread, has formed the subject of special enquiry since the close of the year.

4 *Manufactures Mines and Commerce.*—The area under poppy cultivation in Monghyr declined from 30,604 bighas during the previous year to 29,508 bighas, and the outturn similarly from 2,875 maunds to 2,232 maunds. The season was unfavourable at the time of the collection of the drug. The statistics of indigo cultivation in the Division are very incomplete, but the season generally seems to have been adverse, and the prices realised were poor The European silk factories in Malda produced 47,202 lbs of silk, or 4,631 lbs in excess of the outturn of the previous year, although the estimated value was less by Rs 10,061, the native filatures turned out silk to the value of Rs 9,00,000, or one lakh of rupees more than in the preceding season The manufacture of firearms at Monghyr, which is an industry of long standing, seems flourishing, and 3,013 guns and pistols were exported, of which 1,125 went to Calcutta. The output of the mica mines in Monghyr was 9 tons only in comparison with 44½ tons during 1896 97, one coal mine and two surface quarries in addition to stone and slate quarries, were worked in the Sonthal Parganas.

The registered trade of the Division by road, rail and river in the 24 principal articles usually reported on, showed a total of 67,32,000 maunds imported and 80,03,000 maunds exported The traffic in food grains showed a total of 11,31,000 maunds imported and 46,36,000 maunds exported, large supplies having been drawn from the Division in the early part of the year for the distressed districts of Bihar and the North-Western Provinces, although the drain was less than in the autumn of 1896, at which time the apprehension of famine was first felt, prices were rising rapidly, and the export of food grains was continuous. There was a large importation of coal and coke into the Division, aggregating 36,04,000 maunds, of which more than half went to

Monghyr The trade in jute is said to have been dull both in Purnea and Malda, prices ruling low. As regards the trade of the Division with Calcutta, the export of rice and paddy rose from 22,265 maunds to 76,054 maunds during the year under report, and in grain and pulse similarly from 5,52,500 maunds to 7,12,000 maunds; the export of wheat, however, declined considerably, as also did that of other grains, and the total amount of food grains despatched, rather over ten lakhs of maunds, was about the same as in the previous year. The export of oilseeds showed an advance of 6,95,000 maunds In the case of imports from Calcutta, there were no noticeable fluctuations The trade with Nepal is reported to have been rather duller than in the preceding year, which is attributed to better crops in both territories. More than six lakhs of maunds of food-grains were imported from Nepal and about 20,000 maunds exported to it.

5 *Civil Justice.*—A decrease in civil litigation was noticed in the Resolution on the report for the previous year and was continued during the period now under review, except in the matter of Small Cause Court cases disposed of by Munsifs, which rose from 10,600 to 11,376. The number of suits disposed of by the superior Civil Courts decreased from 2,028 to 1,622, the falling off being largest in the case of money suits. 3,326 witnesses in all were examined, but the proportion detained over two days, 14 7 per cent, was large and higher than in the previous year. All classes of ordinary suits disposed of by Munsifs showed a decrease, and noticeably money and rent suits The promptness with which witnesses were examined showed an improvement, the number detained over two days being 10 74 per cent of the number examined

6 *Crime Criminal Justice and Police.*—There was a heavy increase in cognisable crime from 16,076 cases during 1896 to 27,669 during the year under report, although non cognisable cases fell to 12,299 from 14,725 during the previous year. The increase in cognisable cases was very marked under the heads of burglary and theft, and is attributed to the scarcity A wholesale case of arsenic poisoning in the Sonthal Parganas is mentioned, in which 51 persons were poisoned, of whom 30 died; the murderer was hanged Dacoities increased from 22 and 28, in the two preceding years respectively, to 69, the number in Purnea being large, and a special report has been submitted on the precautionary measures to be taken The Lieutenant Governor hopes that with the disappearance of famine and with the exercise of vigilance on the part of the local officers, this outbreak of lawlessness will speedily disappear. Out of 769 cases declared false, prosecutions were instituted in 10 per cent. only, the proportion is less than in the previous year, although special attention was then directed to the matter, 51 per cent of the prosecutions ended successfully

11,781 cases were disposed of by the Stipendiary Courts and 3,889 by Honorary Magistrates, the corresponding figures for the previous year having been 12,143 and 4,004, respectively. The depositions of 47,995 witnesses were recorded by Stipendiary Magistrates, or 1,105 in excess of the number during the previous year, but the proportion detained over two days, 4 8 per cent, was practically the same In the Resolution on the Report for 1896 97, the bad results in this respect exhibited at Monghyr and Malda formed the subject of special comment. During the year under review a distinct improvement was effected at Malda, the ratio being 2 9 per cent. only, its place as regards unsatisfactory results being taken by the Sadar and Kishanganj subdivisions of the Purnea district, where the figures were 9 4 and 11 0 per cent, respectively The results at the Jamui and Begusarai subdivisions of Monghyr (14 8 and 17 per cent, respectively) were still very unsatisfactory, matters are said to have gone from bad to worse, and need the serious attention of the District Magistrate.

The number of witnesses examined by Honorary Magistrates increased by 730 in comparison with the previous year, while the ratio detained over two days declined from 9·3 to 6·7 per cent; the improvement is so far satisfactory, but the figures in the three subdivisions of the district of Monghyr (16 2, 13 3 and 22 7 per cent, respectively) reflect little credit on the Honorary Magistrates concerned. The Lieutenant-Governor has seen with much pleasure the list of

gentlemen in the Division who as Honorary Magistrates were very regular in their attendance the explanation now supplied, with reference to the Begusarai Bench, that the Honorary Magistrates frequently merely attend Court in order to sign the diary and adjourn all cases on the plea of no time, possibly affects the statement made in the Resolution of the previous year that their standard of attendance was excellent

The total demand on account of criminal fines during the year amounted to Rs. 1,01,834, of which Rs 69,494 were collected and Rs 10,604 remitted The balances outstanding were specially heavy in the districts of Bhagalpur (Rs 6,559) and the Sonthal Parganas (Rs 8,934).

The percentage of convictions obtained in cases before the Courts of Session increased from 69·6 during 1896 to 73·3 per cent. The results with reference to the number of persons committed to trial were less satisfactory and incurred the unfavourable comment of the High Court as to the care with which the enquiries preliminary to commitment were conducted The work of the police in the districts of Monghyr and Purnea is unfavourably reported on, elsewhere it is said to be up to the usual average. The increase of indigo riots in North Monghyr and of dacoities in Purnea all point to a certain laxity of criminal administration, in removing which the Lieutenant-Governor hopes that no time will be lost.

7 *Land Revenue and Cesses.*—There was an increase of Rs 8,924 in the current demand on account of land revenue, which amounted to Rs. 33,79,605, while there was an arrear of Rs. 84,427 outstanding at the commencement of the year 98·1 per cent of the current and 89·8 per cent. of the arrear demand were realised, the total collections being 103 per cent. of the current demand The usual comparison is made below between the prescribed standard of collections in the three classes of Government estates and the actual results attained in the proportion of current collections to current demand —

	Permanently-settled estates.	Temporarily settled estates.	Estates under direct management
Standard	99	95	90
Monghyr	99 74	88 60	56 46
Bhagalpur	99 66	85 44	90 01
Purnea	99 72	89·04	86 63
Malda	99 90	96 56	57 04
Sonthal Parganas	99 91	98·22	92 93

The prevailing scarcity is assigned as the cause of the deficiencies in collections, and considering the character of the season, the results are on the whole satisfactory The reconciliation of the tauzi accounts with those of the khas mahals in Bhagalpur, referred to last year, has not yet been effected, but its completion during the current year is promised The number of estates which became liable to sales for arrears was 1,184, or 95 less than in the previous year The Lieutenant-Governor regrets to observe that in three out of the five districts the standing orders as to holding the sale of one list before the date of the next were not adhered to. The certificate work, as in the last year, was heavy, 13,575 cases in all were disposed of during the year and 4,127 left pending at its close. The number was largest in Monghyr, although disposals kept pace with institutions There were also a considerable number (204) of land acquisition cases for disposal, mostly in connection with the different railway projects, but the progress made was good, and all but 28 were disposed of. The division is always a heavy one for partition work, of which 56 new cases were instituted during the year, and 125 were pending at its commencement, 54 cases being disposed of

Of the total demand on account of Road and Public Works cess, 83·9 per cent was collected Under the Land Improvement Loans Act, Rs. 7,975 were advanced, mostly in the Sonthal Parganas, and Rs. 53,650 were also given under the Agriculturists' Loans Act, the greater part in the same district and in Bhagalpur Special attention was drawn last year to the matter of sanitary and agricultural improvements in Government estates From the details now furnished, it would still seem that the expenditure under this head amounted to Rs 15,410 (of which Rs 9,798 was in the Sonthal Parganas alone), or about

5 per cent on the current demand on account of Government estates in the Division. It should be stated in future what, under the existing Government orders, was the amount of the allotment for improvements and how much of it was not utilised during the year, the reasons for the balance being given

8. *Wards and Attached Estates.*—Of the seven estates mentioned last year as being under the charge of the Court of Wards, that of Sukraj Rai in Bhagalpur was released, and charge was newly assumed of the small estate of Ghati in the Santhal Parganas. Out of a total demand of Rs. 5,56,503, only some 63 per cent. was collected, the proportion was approximately the same as in the preceding year, and is sufficiently explained by the prevailing scarcity. The outstanding balance in the Lagma estate in Bhagalpur is still in excess of the current demand, and in the Khagra estate in Purnea the arrears are also heavy. Rupees 13,824 in all was remitted as compared with Rs. 2,824 during the previous year, and it is said that attention is being directed towards the clearance of the accounts of irrecoverable balances. The sum of Rs. 20,154 was spent on improvements to the estates, and measures were also taken in those in the Santhal Parganas for the relief of the distress.

9. *Excise. Stamps. Income-tax.*—Unlike the experience elsewhere, the decrease in the excise revenue, occasioned by the famine, was 2 per cent only The incidence of the revenue was highest in the district of Monghyr (3 annas 4 pies) and lowest in that of the Santhal Parganas (1 anna 6 pies). The Madras system of a tree-tax on tari palms was in force in Monghyr and Bhagalpur, a shop-rent being also levied. It appears that owing to competition amongst vendors the sale of ganja increased, that drug being found a cheaper intoxicant than liquor There was a general decrease in the number of detected offences against the law.

The total stamp revenue fell off by 2·3 per cent., the only districts which showed an increase being those of Bhagalpur and the Santhal Parganas. In the latter the increase was very slight, and in the former it is attributed to larger purchases of stamps for money bonds and partition papers

The total demand on account of income-tax amounted to Rs. 2,79,244, or Rs 8,779 more than in the previous year The large profits made by grain dealers during the famine resulted in the discovery of a certain number of new assessees

10. *Railways and Public Works.*—Good progress was made with the South Bihar Railway, but on the Hajipur-Katihar extension of the Tirhut State Railway, little was done in Bhagalpur and Purnea, though some work was completed in Monghyr. The provision of sufficient waterway in the alignment in the Bhagalpur district was the subject of some discussion during the year. Some attention seems paid to arboriculture by all the District Boards in the Division, although more might be done in Purnea.

11. *Education.*—There were 5,401 schools of all kinds in the Division, containing 112,274 pupils, the loss of 29 schools and 772 pupils as compared with the previous year was less than might have been expected considering the unfavourable circumstances of the year. As might have been anticipated, the falling off was largest in Bhagalpur and the Santhal Parganas The Lieutenant Governor regrets to observe the gradual and steady decline in the popularity of female education As remarked in connection with the Bhagalpur district, the schools appear to depend entirely on the grants received from public funds, and possess no inherent elements of stability. In Monghyr, where over one fourth of the total allotment for primary education is devoted to the maintenance of girls' schools containing some 3,000 pupils only, the District Board found it necessary to curtail the expenditure, which at once reacted unfavourably upon the attendance. The fact that the year was an auspicious one for marriages also led to many pupils being withdrawn There was a decrease of 4 per cent in the number of Muhammadan pupils and of 11·2 per cent. in those of aboriginal races The Magistrate of Purnea remarks as regards his district that while primary education is making steady progress, higher education is very unpopular. The proportion of boys at school to those of a school-going age in the Division generally was only 17 per cent. The total expenditure upon education amounted to Rs 5,24,207, of which about 36 per cent was met from Provincial revenues and the funds of District Boards and Municipalities.

12 *Hospitals and Dispensaries* —Three new dispensaries appear to have been opened during the year—two in Monghyr and one in Bhagalpur, one former institution in the latter district being also closed. The want of more dispensaries in the Purnea district, where only four exist, is especially noticeable The total number of patients treated was 195,087, or 14,680 more than during 1896 97 The total income from all sources increased to Rs 78,295, although the expenditure appears to have exceeded it by Rs. 794. There was a decrease of over Rs. 6,000 in the income from private subscriptions and endowments, but the income will doubtless revive with better seasons

13 *Local Self-Government Institutions* —The administration of the Monghyr Municipality continues to be successful, a water-supply for drinking and a system of masonry drains with flushing arrangements are mentioned as the most pressing wants of the town. With reference to the relations between the Jamalpur Municipality and the local authorities which was referred to last year, Mr. Oldham, who inspected the office last year, was satisfied that the management of their affairs was in competent and responsible hands. The confusion in the finances of the Bhagalpur Municipality will doubtless be gradually remedied under the guidance of the present Chairman. The history of the other municipalities in the Division seems generally to have been uneventful but satisfactory The District Boards in the four regulation districts appear to have worked smoothly and that of Bhagalpur incurred an expenditure of Rs 66,012 in connection with famine relief.

14 *Conduct of Zamindars* —With a few exceptions, the zamindars of the Division are reported to have shown great consideration to their raiyats and to have helped liberally in works of public utility The assistance rendered by them during the famine has already been acknowledged by Government

15 The Lieutenant-Governor desires to express his thanks to Mr Oldham and Mr O'Donnell for their able and successful management of the Division and to Mr Carstairs for his careful report

Extracts from the Commissioner's report are herewith published for general information.

By order of the Lieutenant-Governor of Bengal,

F A. SLACK,

Offg Secy. to the Government of Bengal.

Extract from the Annual General Administration Report of the Bhagalpur Division for the year 1897-98

* * * * * * *

III.—WEATHER AND CROPS

37 The following is the usual statement showing rainfall and outturn of the crops —

District	Rainfall		Outturn of crops, taking 16 annas as the average outturn			Remarks
	Average of 10 years	In 1897-98	Bhadoi	Winter rice	Rabi	
1	2	3	4	5	6	7
Monghyr	49 43	51 74	13⅜	15½		The figures in column 2 are taken from the Bengal Administration Report Those in column 3 from the District Reports Those in columns 4 and 5 from the Director of Land Records and Agriculture's final reports They differ very slightly from those given by the District Officers in their Table II Final forecast of the *rabi* crop has not been received from the Director of Land Records and Agriculture as published in the *Calcutta Gazette*
Bhagalpur	48 79	49 78	17⅜	18		
Purnea	60 12	72 59	15⅝	15½		
Malda	56 59	54 17	15⅞	18		
Sonthal Parganas	64 39	54 52	14½	17		
Divisional average	55 86	56 56	15¼	16⅛		

38 The average rainfall of the district of Monghyr was 51 71 inches against 41 80 and 33 64 in the two preceding years The average is taken from all the nine rain-registering stations of the district The rainfall was fairly distributed throughout the district The highest rainfall was 57 16 at Chakaye in the south, and the lowest, 43 19, at Shaikpura in the west

39 The outturn of all the crops was greater than that of the preceding year The increase is due to the timely rainfall and seasonable weather The poppy crop was damaged to some extent by the heavy rainfall and strong west wind The sudden rise of the Ganges did some damage to the *bhadoi* crops on the low lands Export was very brisk in all parts of the district, as the people were anxious to avail themselves of the high prices, which prevailed during the year, by disposing of their surplus stock

Bhagalpur

40 The average rainfall of the Bhagalpur district was 49 78 inches against 39 53 and 44 86 in the two preceding years The fall was a little above the normal average—48 91 inches. The variation was from 58 61 inches at Pratabganj to 41 70 inches at Madhipura The local distribution of rain was fairly equal and seasonable for agricultural requirements The *bhadoi* crop, which forms the staple food of the lower classes of the people in the district, was a bumper one, and went a great way to relieve the stress of the scarcity felt in the preceding year The *aghani* and *rabi* crops also derived benefit from the opportune rainfall, and the outturn of the winter rice crops was 17⅜ annas The total yield of the district of all the crops was more than the local requirements, and left a large surplus for export

works were constructed at a total cost of Rs. 657. Eight miles of new road were constructed at a cost of Rs. 1,[illegible]. Twenty-one [illegible] were constructed at a cost of Rs. 4,898. For repairs to old bridges Rs. [illegible] were spent. The expenditure incurred by the Local Boards on village roads was Rs. [illegible],963

205. The cost of maintenance of the roads under the District Board of Bhagalpur was Rs. 42,536, and that of the roads under the Local Boards Rs. 7,648.

Bhagalpur.

206 The District Board of Purnea spent Rs. 12,473 on original works and Rs. 58,972 on repairs, and the Local Boards spent Rs. 14,615 on repairs.

Purnea

207 The total expenditure on the maintenance of the 92 district roads, aggregating 535 miles in length, cost Rs. 28,005 On village roads Rs. 40 only were spent. There are in this district 378 miles of river communication. The total expenditure incurred in removing snags of 149 miles was Rs. 212. There are two steamer services, of which one plies between English Bazar and Rajmahal during the rainy season, and the other between English Bazar and Rampur Boalia. The District Board of Malda paid a subsidy of Rs. 1,030 to the former.

Malda

208 From the Road Fund Rs 884 were spent in improving bridges and culverts on the Dumka-Deoghur road From the donation given for famine relief by Raja Ram Ranjan Chakravarti, of Hitampur, Rs 804 were utilised in improving two roads. From the Estates Improvement Fund Rs. 4,421 were spent on the improvement of roads and construction of bridges and roads in the Damin-i-koh

Sonthal Parganas

209 In the district of Monghyr about 24,218 fruit-bearing trees and a few timber trees were maintained at a cost of Rs 3,194 The District Board of Bhagalpur planted 117 young trees and maintained 10,459 established ones at a cost of Rs, 1,364 The Local Boards spent Rs 193 in planting and maintaining trees on the roads in their charge In the district of Purnea 372 trees were planted at a cost of Rs 357, and nursery gardens were maintained at the head-quarters subdivision and in the subdivision of Araria at a cost of Rs 57 On the Ganges and Darjeeling road 334 trees were planted at a cost of Rs. 475 In Malda Rs, 204 were spent in planting 69 trees and in supplying gabions

Arboriculture

In the Sonthal Parganas 1,115 new trees were planted during the year, but there was a loss of 1,633 trees owing to drought. The number of established trees on the roads is now 22,297, the maintenance of which cost Rs. 186, excluding the pay of *mals*. In the Court of Wards' estates in this district the number of trees on the roads at the beginning of the year was 11,145; the number planted during the year was 805, 146 were destroyed. There remained 11,804 at the end of the year

210 The Superintending Engineer, Mr Cibete, rendered the same cordial assistance to my predecessors in office as he did in previous years. Mr. Oldham retained his high opinion about the work of Mr. James Robinson, the District Engineer of Bhagalpur

* * * * * * *

XXX—LOCAL SELF GOVERNMENT INSTITUTIONS.

258 *Municipalities* —As in the year before, there were two municipalities in each of the five districts of the Division The statement below shows the number of their meetings, the attendance, and their demand and collection of taxes —

No.	Name of Municipality	Number of meetings	Percentage of attendance.	Total demand.	Collection	Percentage of collection	Total expenditure.	Remarks.
1	2	3	4	5	6	7	8	9
				Rs.	Rs.		Rs.	
1	Monghyr	15	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
2	Jamalpur	7	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
3	Bhagalpur	13	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	*Including expenditure of Rs. [illegible] for ex[illegible] water-works scheme, for which the Municipality obtained a loan from Government of Rs 3,00,000.
4	Colgong	16	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
5	Purnea	18	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
6	Kishenganj	25	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
7	English Bazar	14	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
8	Old Malda	19	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
9	English	17	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	
10	Sahibganj	10	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	

259 The pressing wants of the Monghyr Municipality are—

(*a*) A supply of drinking-water for the town

(*b*) A system of pucka drainage with flushing arrangements, for which a scheme was prepared and submitted to Government for administrative sanction. Government by its order No 2684M, dated 5th May 1898, withheld its sanction to the scheme, as it did not appear to be financially sound

260. As noticed in the last year's report, the Vice-Chairman, Babu Shivandan Prasad Singh, who also acted as Chairman for several months during Mr. Marriott's absence, continued to take the keenest interest in the welfare of the Municipality, and he and his father, Rai Camalishwari Prosad Singh, Bahadur, have great influence, which is reported to be always used for the good of the town.

261. The Municipality of Jamalpur obtained a loan of Rs. 3,000 from Government under orders No 1959M., dated 29th March 1898, for remodelling the bazar drains. A culvert and 1½ miles of drain costing Rs. 5,092 were made

262. The Municipal Commissioners have since resolved to extend the drainage works, and asked for a further loan of Rs. 3,000 from Government to complete the scheme.

263. This Municipality was inspected by Mr Oldham on the 26th February 1898, and I quote below his remarks :—

"As regards the relations of this Municipality with the controlling authorities, which, so far as they have been unfortunate, I attribute entirely to the weakness of their office establishment"

"It is the deliberate policy of the present executive (Mr B W Rendell, the Chairman, and Mr Tobyns Browne, the Vice-Chairman) to spend every pice of their revenue which they can afford on useful public works, and it is by the good work which they know that they are doing that they console themselves for the very considerable worry which their municipal duties give them, trenching on their onerous official duties as they do, and occasionally bringing them into annoying conflict with the authorities. * * * * But I think there is little chance of friction so long as the municipal administration is vested in the competent and responsible hands in which it now rests"

* * * * * * *

267. The Colgong Municipality is small, but is well managed It has a compact area. Last year for the first time the Municipality elected a non-official Chairman who is doing well, as was seen by Commissioner Mr Oldham on the 6th February 1898.

268 The boundaries of the Purnea Municipality were revised during the year, and the villages noted in the margin were excluded from it Part IX of the Municipal Act has been extended to this Municipality in the end of the year under report Great attention is paid to cleanliness. The Municipal Commissioners, especially the Vice-Chairman, Babu Jogendra Nath Mukerjee, are intelligent and zealous.

Baruppani, Baijnathganj, and Gokulganj

* * * * * * *

270. As to the two Municipalities (English Bazar and Old Malda) in the district of Malda, the Magistrate writes that both the Municipalities worked as well as could be expected. They rejoice in having no history for the year

271. The Deputy Commissioner of the Sonthal Parganas reports that the two Municipalities at Deoghur and Sahebganj continued to work well, and at both places considerable interest is said to be taken by the Commissioners in municipal affairs.

At Deoghur too much of this interest is given to debate.

At Sahebganj Mr. Cowley, District Traffic Superintendent of the East Indian Railway, is Chairman, and Babu Pasupati Bose, Civil Hospital Assistant, is Vice-Chairman, and to him and Babu Hari Das Marwari, Municipal Commissioner, credit is due for their energy and zeal. The sanitation of the town has been greatly improved within the last few years.

District Board

272 There is a District Board in each of the four Regulation districts of this Division The table below shows the income, expenditure and the balance of each —

District	Opening balance at the beginning of the year	Total receipts of the Board during the year.	Total income including the opening balance	Total expenditure.	Balances.			Remarks.
					Deposit.	Actual balance	Total	
1	2	3	4	5	6	7	8	9
	Rs	Rs.	Rs.	Rs.	Rs.	Rs	Rs.	
Monghyr ..	23,593	2,54,088	2,76,681	2,40,617	14,429	21,595	36,064	
Bhagalpur ..	14,272	2,10,986	2,96,660	2,79,619	3,718	13,331	17,047	
Purnea	67,916	1,53,098	2,51,014	1,85,303	...	65,711	65,711	
Malda	22,202	91,848	1,23,550	93,367	918	29,265	30,183	
Grand Total	108,444	8,39,467	9,47,911	7,98,906	19,105	1,29,903	1,49,005	

Monghyr

273 The District Board of Monghyr held 12 meetings, against 13 in the previous year. There were 25 members in all, including the Chairman The average attendance was 13 3, against 14 in the previous year. The three Local Boards at Monghyr, Jamui, and Begusarai have 38 members, of whom only 2 were officials Altogether 36 meetings were held by them, against 33 in the previous year in five of these meetings there was no quorum. There was no change in the powers exercised by them. The amount spent by the Board under heads "Education" and "Medical" were Rs. 32,290 and Rs 13,960, respectively Rupees 1,54,583 were spent under head "Civil works," of which Rs. 5,858 represent the expenditure incurred in improving the water-supply of the district.

Bhagalpur

274 The District Board of Bhagalpur held 17 meetings, against 15 in the previous year. There was no change in the total number of members (31) The average attendance was 14 7, against 14 5 in the previous year. Rupees 25,394 were spent by the Board on education and Rs. 44,220 on sanitation, the bulk of which, Rs 42,655 was spent on works, which also afforded relief. The total expenditure incurred by the Board for the latter purpose under all the heads was Rs 66,012 The four Local Boards at Sadar, Banka, Madhipura, and Supaul had a total strength of 54 members, of whom 6 were officials Fifty two meetings in all were held by them The largest number of meetings was held at Supaul, viz, 16, and the other Local Boards held 12 meetings each At Banka the attendance was the best, whilst at Supaul 5 meetings had to be adjourned for want of a quorum.

Purnea

275 The Purnea District Board has 25 members, including the Chairman Of the 19 meetings held by it, 5 were special, only 1 meeting was unsuccessful for want of a quorum, and 2 had to be adjourned The average attendance of members was 12·4, against 12 5 in the preceding year Rupees 25,156, Rs 3,206, and Rs 1,26,382 were spent by the Board under heads "Education," "Medical," and "Civil works," respectively The three Local Boards in this district at Sadar, Araria, and Kishanganj held 43 meetings, 5 of which were adjourned The highest number of adjourned meetings was at Kishanganj, which is due to the fact that the members of this Board have to travel long distance, and are unwilling to undergo the consequent trouble and expense.

Malda.

276 The District Board of Malda held 16 meetings, of which 8 were special, 5 ordinary, and 3 adjourned. The average attendance of members at each meeting was 6 6, out of the total number of 13, including the Chairman. The amounts spent by the Board under heads "Education," "Medical," and "Civil works" were Rs 17,083, Rs 4,336, and Rs 49,730 respectively This district has no sub division and therefore no Local Board.

General

277. Mr Ritchie, the Magistrate of Bhagalpur, writes:—

"The functions of the District and Local Boards are now well defined, and these bodies work smoothly and satisfactorily"

278 Mr. O'Brien writes:—"The District Board here is a distinctly useful body." The District Officers are unanimous in their opinion that the members take great interest in their work, and some render great assistance

279. The Magistrate of Malda, Mr. Yusuf, writes —

"The fact that the expenditure of the Board is beyond its income will require being carefully watched."

* * * * * * *

XXXIII(5).—FAIRS

Monghyr

299 The biggest gatherings held during the year chiefly for religious purposes were at—

Kashtaharini Ghât, Monghyr Fort and Sitakund ...	30,000	on the *Kartic Purnimashi* day
Ditto ditto	10,000	on the *Maghi Purnimashi* day
Bari Bazar, Monghyr, *Ram Lila* Maidan .	15,000	
Gowri Sankar Ghât ..	11,000,	*Kartic Purnimashi* day
Ditto ditto . .	3,000,	*Shee Panchami* day
Simaria Ghât .. .	30,000,	*Kartic Purnimashi* day
Ditto .	32,000,	*Maghi Purnimashi* day.

There was an outbreak of cholera at Simaria There were 14 cases and 3 deaths The gathering was dispersed under orders of the District Magistrate, dated the 6th November 1897. On the requisition of the Subdivisional Officer of Begusarai to the zamindar, the latter appointed a doctor and several mehtars

Bhagalpur

300 Fairs were held at Sultanganj, in charge of Mr Hammond, Tintanga (spoilt by rain), Bausi (Banka), Singhesai (Madhepura), with gatherings of 25,000 and 30,000, (the Magistrate being present at the latter) and Kabilas (Supaul)

Purnea

301 Khagra fair was attended by 10,000 daily and Karagola by 25,000 Good sanitary precautions were taken The plague scare reduced the attendance at the former, and the latter was broken up because of a small outbreak of cholera (4 cases)

Malda

302 The fair at Ramkeli near Gour held in June was attended by 15,000 people, and there was also one at Chanchal in March.

Santhal Parganas

303 In the Santhal Parganas the fairs mentioned in the previous year's report were held, but the number of persons attending each varied in some cases, as will be seen from the following table:—

Subdivision.	Fairs.	Gatherings in—	
		1896 97	1897-98
1	2	3	4
Dumka	Hijla .	20,000 to 30,000	20,000 to 30 000
Deoghur ...	Sripanchami	20,000	15,000
	Srivaratri	23,000	20,000
	Bhadra Purnima	12,000	10 000
Godda	Bastara .	25,000	35,000
	Dharmsai ..	14,000	14,000
Jamtara .	Karamdoha	8,000	More than 4,000
Pakour ..	Pakaur . .	10,000	10 000
	Maheshpur ..	10,000	10,000
Rajmahal ...	Ghuddi Kata *mela*	8,000	Number not reported

Besides the above, several other unimportant fairs were held

304 As reported last year, the Hijla *mela* at Dumka was held under the management of the Dumka Jubilee Institute, and there was a show of animals, produce, and industrial work, for which prizes were awarded from the *Mela* fund raised by subscriptions and donations

There were also sports and amusements. Raja Sites Chandra Pande contributed largely to the expenses.

The Subdivisional Officer of Deoghur reports that, owing to the scarcity, as compared with the previous year, all the gatherings were small this year, which also suffered from plague precautions.

305 At all the fairs the necessary conservancy arrangements were made, and there was no outbreak of any disease except as noted.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—MISCELLANEOUS

Calcutta, the 5th December 1898.

RESOLUTION—No 3490.

READ—

The Annual General Administration Report of the Orissa Division for the year 1897-98

Complaint is again made by the Commissioner, of some difficulty and delay in obtaining complete and correct figures from District Officers

The late Mr Cooke was in charge of the Division throughout the year Of the three districts, that of Cuttack, and of the four subdivisions that of Kendrapara, were the only ones in which there were no changes of the officers in charge during the year.

2 *Tours and Inspections.*—As required by the Government orders, the duration of the tours of District Officers was fixed by the Commissioner in consideration of the circumstances of each district, but it is not stated whether the tours of Subdivisional Officers were similarly controlled by their respective Collectors. The time spent by officers in camp appears to have been usefully employed. In the early part of the year in Puri, and to a less extent in Cuttack, the subject of relief operations engaged special attention

The Commissioner visited all the district offices and all the subdivisions except Jajpur, but the treasuries at Balasore and Puri and the sub-treasury at Khurda were not inspected The different Collectors made the necessary inspections of their own offices and of the subdivisional offices under them, but no district treasury appears to have been inspected more than once,—a neglect of existing orders that must not recur, and which apparently has escaped the Commissioner's notice The Subdivisional Officers of Jajpur and Kendrapara do not seem to have inspected their own sub treasuries,—an omission for which no explanation has been given The Lieutenant-Governor trusts that the rules relating to these very necessary inspections will be strictly followed in future

3. *Weather and Crops Material condition of the people Public Health.*—The average rainfall for the Division was 54 89 inches, or about 5 inches below the normal, the deficiency being common to all districts. The fall was, however, well distributed, and while avoiding the one extreme of long intervals of drought, escaped the other, equally disastrous in a country like Orissa, of an excessive downpour and heavy floods. The season in consequence is described as having been most propitious, and the outturns of both the autumn and winter rice were above the average The other harvests, too, were generally excellent, and not only was their yield per acre in excess of that of the previous year, but, with the small exception of summer rice, a much larger area was sown under each crop. The after-effects of the damage done to the harvests of the previous year by successive inundation and drought continued to be felt with increasing severity for the first four or five months of the year 1897-98, and the turning point was not reached till the new crops were cut, since when matters have been steadily improving The pinch of scarcity in the early part of the year was felt least in Balasore, in Cuttack assistance was given from the Indian Famine Charitable Relief Fund, but in Puri relief works were opened on the part of Government, mostly in the tracts adjoining the Chilka lake. Prices fell considerably towards the end of the year under report, but failed to reach the normal level To those on fixed incomes some hardship must have been thereby caused, but the Commissioner observes that there are few who do not in addition hold some arable land. The demand for unskilled labour on the railway is said to have raised the rates of ordinary cooly hire, as also of the skilled labour of masons, blacksmiths, carpenters, &c., in Cuttack. The Commissioner writes that "the condition of the people at the close of the year was satisfactory, and with good harvests in 1898-99 the losses of 1896-97 will be more than made good"

With the exception of Balasore, the year in the rest of the Division was less healthy than its predecessor, and it is noticeable that the death rate in the three districts has varied directly with the comparative intensity of the distress in each Cholera caused many deaths in Cuttack and Puri, and there is no doubt, as the Commissioner remarks, that the condition of the people predisposed them to this disease In the Division generally, the recorded death-rate was 34 01 per mille, as compared with 28 81 in the previous year.

4 *Manufactures Mines and Commerce.*—In spite of the large quantity of salt accumulated at the factories on the Chilka lake, the manufacture was continued as a relief measure, less pans were however worked, and only 1,62,351 maunds were manufactured, as against 1,95,000 maunds during the previous year, of which 17,047 maunds were sold, the corresponding quantity for 1896 97 being 46,224 maunds. The opening of the East Coast Railway is said to have enabled Madras salt to compete favourably with that locally manufactured, to which it is in some respects superior

The trade of the Division might usefully have been analysed in greater detail, the statistical statements which encumber this portion of the report being relegated to the appendices The value of the imports by sea into the Division increased from Rs. 87,06,278 to Rs 82,56,109, and of exports from Rs 90,24,065 to Rs 96,44,928. The important fluctuations were in the trade of the Balasore ports, cotton twist, kerosene oil, salt and railway materials among the imports, and rice and paddy, and hides among the exports, all showing a large increase, on the other hand, the value of pulses exported decreased by over two lakhs of rupees. The figures of the traffic with Calcutta by road, river and canal are incomplete, and of little value for purposes of comparison The export of food grains by country boats along the canals amounted to 12,07,134 maunds as compared with 7,81,645 maunds in the previous year

5 *Civil Justice*.—There was a marked increase in civil litigation, noticeably in money suits, and it is probable that with improving prospects more creditors entered the Courts for the recovery of dues for realising which, even if decreed, the bad prospects of the previous year held out little hope Six hundred and ninety-seven original suits were tried by District and Subordinate Judges, and 20,245 in the lower Courts, in comparison with 318 and 15,739, respectively, during the preceding year. There was a corresponding increase in the number of rent suits disposed of by Revenue Courts from 4,984 during 1896 to 5,817, but although the total number of witnesses examined was less than in the previous year, the Lieutenant Governor regrets to observe that a larger proportion were detained over two days.

6 *Crime Criminal Justice and Police*.—Cognisable cases increased during the year from 6,474 to 10,723 and non-cognisable cases from 6,461 to 6,806 Although the increase in the former is partly accounted for by differences of classification in the returns adopted since the previous year, there was a real increase in the number of true cases reported under all headings except that of "Minor offences against the person," although most marked under that of "Minor offences against property." It was observed last year that the scarcity and high prices had not led to any serious increase of crime, but this, however, was not the case during the year under report.

A percentage of 2·8 of the cases reported were declared false; the corresponding figure in the previous year being 4 per cent. Prosecutions were instituted in only 20 per cent. of such cases, and in only 37 5 per cent of these were convictions obtained Compensation under section 560, Criminal Procedure Code, was awarded in only 36 cases in comparison with 55 during 1896, although in the Resolution on the report of the preceding year it was remarked that more use might be made of this section. Attention is again invited to the matter.

There was an increase of 19 3 per cent. in the number of cases tried, as compared with the previous year. Stipendiary Magistrates disposed of 6,272 cases in the course of which 18,444 witnesses were examined, and Honorary Magistrates of 2,196 cases during which 3,484 witnesses deposed before them. The Lieutenant-Governor is glad to observe that although more witnesses were examined in stipendiary Courts, the proportion detained over two days fell from 3 9 during 1896 to 1 7 per cent The corresponding percentage in the

Courts of Honorary Magistrates was slightly worse than in the year preceding, being 3 4 as against 2 9 per cent. The Cuttack Sadar Bench showed the worst results (8·2), the next being that of Puri (6 2. The attendance of Honorary Magistrates is reported to have been fairly regular

There were 66 cases disposed of in the Courts of Sessions, of which 78 7 per cent. ended in conviction—on the whole, a satisfactory result There is still room for improvement in the realisation of criminal fines, of which the balance outstanding at the close of the year was as much as Rs 17,66) In the Khurda subdivision of Puri considerably more was outstanding than was imposed during the whole year, and the unrealised balances at all three Sadar stations were heavy. It is requested that very early attention may be given to this matter Arrangements for the introduction into the Division of the Chaukidari Act, VI of 1870 continue to be made, and the Lieutenant Governor would strongly impress on District and Subdivisional Officers the need of their personally examining locally, when on tour, the fairness of the village assessment lists The conduct of the police is reported to have been, on the whole, as satisfactory as could be expected.

7 *Land Revenue and Cesses*.—The current demand of Rs 18,61,991 on account of land revenue was only Rs 1,022 in excess of that of the preceding year, and the year opened with an outstanding arrear of Rs 1,10,804 Of the total demand 89 5 per cent and of the current demand 89 4 per cent was collected The proportion of current collections to the current demand in the different districts is compared below with the usual standards, for the different classes of estates in the Division —

	Permanently-settled estates	Temporarily-settled estates	Estates under direct management
1	2	3	4
District Standard	99	95	90
Balasore	100	99 98	51 97
Cuttack	99 99	99 42	91 10
Puri	100	63 84	73 88
Angul			99 1

The poor collections in Government estates in Balasore have not been explained; the deficiencies in Puri were, no doubt, due to the scarcity in the district, large remissions, to the extent of Rs. 84,513, being given there in Government estates. A sum of Rs. 12,729 was expended on improvements in Government estates, but more detail might well have been furnished of the objects to which it was applied, and the proportion of the final expenditure to the allotments made Only 28 estates, or shares of estates, were sold for arrear of revenue out of 1,765 which became saleable, and good progress was made with the operations for the settlement of the new land revenue

The disposal of certificate work, which was unfavourably noticed last year, did not show much improvement, it is true that only 1,814 cases were left pending at the close of the year, as against 2,336 at the end of 1896 97, but on the other hand, 806 fewer cases were filed during the year than in that preceding The land acquisition work in the Division, mostly for railway projects was heavy, but would appear to have been kept well in hand

8. *Wards' Estates*.—As in 1896-97, there were six estates under the charge of the Court of Wards, one of which was, during the year, released The year opened with the large arrear demand of Rs 4 06,946, while the current demand amounted to Rs. 3,74,582. Of this, Rs 4,31,109 were collected, being a percentage of 55 14 of the total, and 114 9 of the current demand The results were considerably better than in 1896 97 The sum of Rs 68,343 was remitted, and Rs 2,80,007 were outstanding at the close of the year The bulk of this (Rs. 2,37,316) was due to the Kujang Estate, which still continues to show an outstanding balance largely in excess of the current demand, in

spite of the remarks made last year on the point. The Commissioner has not specially noticed the matter, and attention is again invited to it. The sum of Rs 60,748 was spent on improvements, which is Rs. 18,723 in excess of the expenditure of the preceding year, but no particular reason has been given, neither has the nature of the works undertaken been specified.

9. *Excise Stamps · Income-tax.*—The excise revenue increased during the year under report from Rs 6,27,769 to Rs 6,62,779, the increase being shared by all districts This is somewhat unusual, considering the experience of other parts of the Province and the unfavourable conditions of the early part of the year Sixty five per cent. of the revenue was derived from opium, and 18 per cent from *ganja* In Cuttack the number of prosecutions for breaches of the law decreased to 14 as compared with 149 in the preceding year, due, so it is said, to greater vigilance, which would, however, ordinarily have resulted in the detection of more cases, not fewer; and it is also said that the prohibition of the use of Gurjat *ganja* and *siddhi* is now more widely known. The correctness of the explanation is doubted, and attention is invited to the point.

The stamp revenue, amounting to Rs. 4,98,613, shows an increase of 13 8 and 21 per cent., respectively, over the figures for the two previous years. The most noticeable increase was under the heads of court-fees and impressed stamps, the former being attributed to the settlement operations, and the latter to the large number of deeds of mortgage which were executed at the commencement of the year The law is either well observed, or more vigilance is necessary for the detection of breaches of it, only eight persons being prosecuted in this connection during the year

There was a small increase of 96 assessees and of Rs 4,399 in the final demand on account of income-tax The collections were slightly deficient in Puri, but otherwise were satisfactory.

10 *Railways and Public Works.*—Work on the Calcutta-Midnapore Cuttack extension of the Bengal-Nagpur Railway made satisfactory progress The area irrigated by the Orissa Canals increased from 185,048 acres during 1896 97 to 193,600 acres The demand accordingly rose from Rs 2,69,800 to Rs 3,21,119 during the year under report, the collections being very satisfactory, amounting to 99 79 per cent. The total length of metalled roads in the Division maintained by District and Local Boards and Municipalities was 198 miles, and of unmetalled roads 1,506 miles. The proposals for feeder roads in connection with the new railway, to which reference was made last year, were still under consideration, and the Commissioner expresses a doubt whether funds will be available for their construction, and a hope that the District Boards concerned will not act precipitately in the matter. While immature proposals should of course be avoided, it is certain that the construction of the new lines must have created a need, which did not perhaps exist before, for feeder roads, and it is hoped that it will be found possible at least to construct those concerning the necessity for which there should be little or no doubt Arboriculture appears to receive some attention in Cuttack, but to be neglected in Balasore and Puri

11 *Education* —The educational statistics showed a decrease of 298 schools and 6,231 pupils, chiefly in lower primary schools in the districts of Cuttack and Puri The falling off is ascribed to the scarcity and to some extent to the outbreak of epidemics of small-pox and cholera. The total educational charges amounted to Rs 4,50,195, or Rs 4,394 less than in the preceding year. Of this about half was met from fees, and from Provincial revenues and District Board Funds 17 per cent. each. Of the boys of a school going age, some 26 2 per cent were at school, Balasore being the most advanced district in this respect, and Puri the least. There was a small decrease during the year, both in the numbers of girls and Muhammadans under instruction.

12 *Dispensaries and Hospitals.*—One new outdoor dispensary was opened during the year, and the number of medical institutions was thus raised to 31, with a total income of Rs 43,275, of which 44 per cent. was derived from private subscriptions and endowments, 28 per cent from Government, and the balance from District Boards and Municipalities The Lieutenant-Governor regrets to remark that the Cuttack General Hospital is still in want of funds. A total of 140 329 patients were treated, or 16,048 more than in the previous twelve months, owing no doubt to the greater unhealthiness of the year.

13 *Local Self-Government Institutions.*—The wants of the town of Cuttack in the matter of drainage and conservancy are specially commented on but that the town is, as a rule, free from the outbreak of epidemics seems rather due to its naturally healthy situation than to its cleanliness Want of funds is attributed as the reason for the neglect to do more, and at the close of the year, it would seem that the liabilities of the Municipality considerably exceeded its balance in hand; but, as the Commissioner points out, full use is not made of the legal powers of taxation. Moreover, unless undue leniency was exercised, it is incredible that, at the revision of the assessment made in 1896, the final demand should have been reduced. As remarked, the railway must have benefited the town considerably, and there is no reason for supposing that a decline has begun in its material prosperity The condition of the town of Puri is reported as good, but the District Magistrate refers to certain matters that still require attention The percentage of ordinary income devoted to primary education was 4 2 in the Division generally, being highest in Jajpur (5 9), and lowest in Puri (3 6).

The administration of the District and Local Boards presented no new features. There appears more room for regularity of attendance among the members The five village unions in Balasore have not, so far, proved of much use.

14 *Conduct of zamindars.*—The Commissioner does not give an altogether satisfactory account of the relations between landlord and tenant in the Division generally In places relations were openly strained, and in others the good-feeling of former years is said to exist no longer Some of the old families are reported to be heavily encumbered or broken up by internal dissensions, outside proprietors with but little sympathy for their tenants, have been introduced, and absenteeism is as elsewhere an unmitigated evil Exceptions, however, exist, and relations are reported to be quite peaceful in Balasore and in Puri, where Government is a large landholder and on satisfactory terms with its raiyats

15 *Political.*—As in the previous year, a short account is given of the administration in Angul. Mr Wylly and Mr McL Smith held charge during the year, and between them spent 166 days in camp. The rainfall, though less than in the previous year, was well distributed in the Sadar subdivision though less so in the Khondmals The *bhadoi* crop was an excellent one everywhere, and the winter rice, though estimated at 12 annas in the Khondmals, was a bumper one in Angul itself The people, on the whole, were, therefore, well off The number of civil suits increased, but not largely, from 367 during 1896 to 429 Both cognisable and non cognisable offences also rose slightly The strength of the regular police was reduced, but the cost increased for which the Commissioner observes, that no explanation has been furnished As a force, they are not well reported on. The arrear and current demands of land revenue amounted to Rs. 76,900, of which 98 8 per cent was collected The excise revenue rose from Rs 25,302 during 1896-97 to Rs 33,371, but the Deputy Commissioner expressed the opinion that illicit manufacture of country spirit goes on to a large extent,—a subject that is being enquired into The number of schools and pupils fell off slightly

16. The Lieutenant Governor has already placed on record his sense of the loss to the Administration by the death of the late Mr Cooke, and would express his thanks to Mr. Stevenson for the present report, in which, however, the place of many of the statistical statements inserted might advantageously have been taken by the supply of greater detail as to the facts and fluctuations of the year.

By order of the Lieutenant-Governor of Bengal,

F. A SLACK,

Offg Secy to the Govt. of Bengal.

Extracts from the General Administration Report of the Orissa Division for 1897-98.

* * * * * * *

III.—WEATHER AND CROPS.

22. The average rainfall in the Division during the year under report was much less than in either of the two preceding years, it being 54·89 in 1897-98 against 64·01 in 1896-97 and 63·30 in 1895-96. As compared with the year 1896-97, the rainfall of 1897-98 was short in all the three districts of Cuttack, Balasore and Puri, as indicated by the returns of all the registering stations except Soro (Balasore) and Puri, Satpara and Banpur (in the district of Puri). The statement below compares, month by month, the actual and normal rainfall in each district:—

Month	Cuttack		Balasore		Puri.		Average for Division		Remarks
	Actual	Normal	Actual.	Normal.	Actual.	Normal	Actual	Normal	
1	2	3	4	5	6	7	8	9	10
April 1897	0·88	1·08	2·06	1·82	0·13	0·41	1·03	1·63	
May "	1·31	4·57	2·52	5·12	1·19	3·35	1·67	4·34	
June "	8·95	9·92	9·65	8·97	4·10	8·35	7·57	9·08	
July "	14·16	11·77	11·85	12·09	12·23	10·94	12·75	11·60	
August "	13·02	12·84	10·74	11·80	10·21	12·06	11·32	11·27	
September "	7·89	10·26	5·90	11·32	7·45	10·74	7·08	10·74	
October "	8·92	5·85	14·18	5·09	10·12	6·91	11·06	5·95	
November "	1·91	2·09	0·20	1·41	4·12	3·03	2·10	2·18	
December "	0·14	0·38	0·12	0·20	0·22	0·44	0·16	0·29	
January 1898 "		0·37		0·85		0·30		0·34	
February "	0·04	0·73	0·25	1·02	0·19	0·71	0·16	0·82	
March "		1·20		1·46		0·87		1·18	
Total	57·22	60·51	57·42	60·05	50·02	58·14	54·89	59·55	
Total for 1896-97	64·68	60·51	69·12	60·05	58·02	58·14	64·01	59·55	

It will be seen from the above statement that the average for the Division was below the normal in all months but those of July and October, and was less than in 1896-97 in all months except April, October and November.

23. The year under report, however, affords a good illustration of the truth of the saying that it is not the amount of rainfall but its distribution which really affects the harvest. The rainfall of 1897-98 while less in the aggregate was very evenly distributed. There were no long interspaces of dry weather, nor were there heavy downpours in Orissa itself or in the hilly country to the west, such as usually result in destructive floods. Above all the rainfall in October, at the critical time when the ears of grains are filling, was ample. As might be expected under such circumstances, the year was a most propitious one for the agriculturist as is indicated by the figures below which set forth in the old form the outturn of different crops as compared with the years 1896-97 and 1895-96:—

	1895-96 Annas	1896-97 Annas.	1897-98. Annas.
Beali	13	8	16·88
Saradh	15	7	16·88
Pulses	12	8	13·28
Cotton	13	11	14·66
Oilseeds	13	7	15 33
Laghu race	15	8	15·16
Sugarcane	13	8	13 44
Mandia	12	5	13·66
Dalua paddy	12	12	12·11

These satisfactory results are not confined to one district only.

24. There was an increase not only in the outturn but also in the area under different crops. The statements below, prepared from the crop estimates of the Director of Land Records and Agriculture, show this.

Statement showing area under different crops sown in districts of the Orissa Division during 1897-98.

Name of Crop	Name of district	Acreage.		Remarks
		1896-97	1897-98	
1	2	3	4	5
Bhadoi or Beali paddy	Cuttack	116,000	166,000	
	Balasore	87,900	89,500	
	Puri	85,000	90,000	
	Total	288,900	345,500	
Winter or Saradh „	Cuttack	721,000	1,028,100	
	Balasore	611,900	651,900	
	Puri	489,600	502,600	
	Total	1,822,500	2,182,600	
Dalua or summer „	Cuttack	51,700	38,600	
	Balasore	4,000	400	
	Puri	5,000	6,000	
	Total	60,700	45,000	
Pulses	Cuttack	91,500	97,900	
	Balasore	21,700	21,600	
	Puri	30,800	62,200	
	Total	144,000	181,700	
Oilseeds	Cuttack	29,600	38,000	
	Balasore	8,500	9,700	
	Puri	7,300	9,200	
	Total	45,400	56,900	
Mandua or Ragi	Cuttack	12,200	14,500	
	Balasore			
	Puri	22,000	28,000	
	Total	34,200	42,500	
Wheat „	Cuttack	1,000	2,100	
	Balasore	300	100	
	Puri			
	Total	1,300	2,200	
Sugarcane „	Cuttack	4,300	4,600	
	Balasore	4,000	3,900	
	Puri	3,000	4,000	
	Total	11,300	12,500	

Cuttack has shown a decrease in the area under "dalua" only, Balasore, in that under "dalua," "pulses," "wheat" and "sugarcane," while there is an increase in area under all other crops in all districts

* * * * * * *

V.—MATERIAL CONDITION OF THE PEOPLE.

34 Orissa is a province dependent in the main for its prosperity on agriculture as the material condition of the agricultural class reacts upon all other classes, and is a safe general index to the prosperity or otherwise of the whole community

35 The year 1897-98 opened badly Harvests in the year preceding had been poor owing to floods followed by drought, with the result that prices rose high and the people felt the pressure, so that in parts of the Division relief measures had to be resorted to before 31st March 1897

36 The state of matters became worse and worse until September 1897, when the *bhadoi* harvest gave considerable relief. This was the turning point, and from that time onwards things improved rapidly, the well-distributed rainfall insuring good crops of all kinds The district of Balasore escaped most easily, Cuttack coming next, and it was in Puri only that Government assisted Special relief works were found necessary, *e.g.*, in the tracts adjoining the Chilka.

Any individual cases of distress in Balasore were easily dealt with by the District Board, while in Cuttack it was found necessary to give relief from the Indian Famine Relief Fund also.

As a rule, except in Puri, the working classes found sufficient employment on road and embankment repairs rendered necessary by the flood damages of the preceding year, and on the railway. There was also an unusual demand for field labour, the result of a larger area than common being brought under *bhadoi*, cold weather rice and, indeed, all crops in the hope of making good the deficiencies of the harvests of the year preceding.

37 In spite, however, of the extension of cultivation and of good crops, prices did not fall so much as expected. This, as usual, has been felt by persons who hold no rice land at all and who are in receipt of fixed incomes. This class is not, however, a numerous one. Every one who can, holds some paddy land—not a few in Cuttack town, for instance, who could not get arable land near, leasing some in Khurda The demand for such land seems steadily rising, and I understand that it is making itself felt here even in the more remote tracts towards the coast

38 High prices to the agriculturist, on the other hand, should mean better times, even though a large part of his crop has to go to the *mahajan* in the first instance, and though he of course gets nothing like the prices charged by the *bania* to the public

39 It is, however, difficult to estimate the extent to which the producer—the *raiyat*—benefits, as he not infrequently, with his inborn improvidence, will, for the sake of a small sum down, agree beforehand to dispose of his expected crop at a figure which is sure to be below, if not well below, what is the selling price at harvest time

40 Speaking generally, the condition of the people at large at the close of the year under report was satisfactory, and, with good harvests in 1898 99, the losses of 1896 97 will be more than made good.

* * * * * * *

VII.—PRICES OF FOOD AND LABOUR.

46 The price of common rice, which was abnormally high at the commencement of the year, continued to rise during the first six months of 1897 98 until the *bhadoi* crop came upon the market, though even then the fall was not so great as might reasonably have been expected from the good

harvest This no doubt was largely due to the fact that the creditors of the raiyats did not fail to realize all they could from the first crop. The year 1897 98 does not, therefore compare very favourably in the matter of prices with 1896-97, the average price of common rice being 16 seers 12 chitaks and 13 seers 8 chittaks, respectively, during the corresponding periods of the two years.

47. As in the case of rice other food staples were cheapened but slightly, wheat selling on an average at 9 seers 10 chitaks against 8 seers, gram or kalai at 12 seers 14 chitaks against 13 seers 15 chitaks and salt at 10 seers 14 chittaks against 10 seers 4 chittaks according to the last fortnightly returns of March 1897-98 and 1896-97 respectively. Wheat and gram are not, however articles of food which are in request by the people at large. That salt sold at a cheaper rate than in the two preceding years is deserving of notice especially as this coincided with the abolition of the local salt manufacture This cheapening of salt was common to the districts of Balasore and Puri, but has not been accounted for.

48 The cost of ordinary cooly labour is said to have been enhanced because of the demand for unskilled labour on the new railway lines There has been a larger demand than usual for domestic servants on account of the influx of railway employés, and the wages of this class have in consequence shown a tendency to rise

49 A rise in the wages of artizans, such as masons, blacksmiths and carpenters, is also reported from Cuttack district and is attributed to the demand for their labour in the Bengal Nagpur Railway extension At the same time the local handicraftsmen are reported to be very inferior to their fellows from the Bombay Presidency, and from the Punjab, and large numbers of artizans from these parts of India were imported by contractors

* * * * * * *

IX.—TRADE AND COMMERCE

54 The table below compares the value of the sea borne trade of the Orissa ports during the last two years —

CUTTACK

Name of port	Value of imports.		Value of exports.		Total value of trade		Remarks
	1896-97	1897-98	1896-97	1897 98.	1896-97	1897 98	
1	2	3	4	5	6	7	8
Cuttack ..	Rs (a)66,709	Rs. 86,174	Rs 26,42,465	Rs 27,27,180	Rs 26 09 173	Rs 27 03 354	
Balasore ..	66,39,243	82,19,935	60,38,109	64,66,578	1 26,61 352	1,46 76 513	
Puri ..	1,827	(a) ..	4,58,491	(a)4,61,170	4 59,818	4,61,170	
Total ...	67,06,378	83,56,109	90,24,065	96,44,928	1,57,30,343	1,79,01,037	

(a) Adopted from the report of the Collector of Customs, Calcutta, for 1897-98.

55. The aggregate value of the trade of the Division was Rs 1,79,01,037 against Rs. 1,57,30,343 during 1896-97, showing an increase of Rs 21,70,694 during the year under report. This is chiefly due to the increased value of both the import and export trade of Balasore The fluctuations are explained below in their proper places.

CUTTACK.

56 Cuttack shows a decrease in its import and an increase in its export trade The decrease is attributed to there being no importation of kerosine oil during the year, while the increase has not been accounted for by the Collector

57 The following statement shows imports by sea into Cuttack during 1896-97 and 1897 98 —

Drugs and medicines—Other sorts	136 ,,	376	..			376

59 The passenger traffic of the canal system shows an increase during the year. The increase is said to be partly due to a larger influx of pilgrims by the Kendrapara Canal, and partly to the extra traffic on the High Level Canal due to the railway works in progress.

BALASORE

60 As stated above, there was an increase in the value of both imports and exports. The increase in the former is reported to be due to the greater expansion of trade in cotton twist, piece goods, kerosine oil, salt, railway materials, machinery, "other sorts," provisions, spices, "other sorts," cocoanut oil and sugar (refined), though no reason for this expansion is hazarded, and that in the latter to large exports of rice to Mauritius and Columbo, the district having had a bumper crop during the year.

61 The following statement shows the fluctuations in the imports by sea into the district of Balasore during 1896-97 and 1897-98 —

Articles.	1896-97		1897-98.		Increase	Decrease

(a) These figures are taken from the Collector of Customs, Calcutta's report for 1897-98.

PURI.

63 The subjoined table compares the sea borne import trade of this district during the last two years :—

Articles.	1896-97		1897-98		Increase	Decrease
	Quantity	Value.	Quantity	Value		
1	2	3	4	5	6	7
		Rs		Rs	Rs	Rs
Beer ..	12 gals.	28				33
Whisky	3 ,,	31				31
Claret	2 ,,	23		--		23
Oilman store	2 Cwt 18 lbs	240				240
Lamp ..	6	1,000				1 000
Steel trunk	,,		1 cwt 1 qr	49	49	

There was, it will be seen, a great falling off in imports during 1897-98

This is attributed to gunny bags, the principal article of import, being now obtained from Cuttack by rail, in place of being imported direct by sea from Calcutta

64 The following table shows the sea borne export trade of Puri during 1896 97 and 1897 98 —

Articles	1896 97		1897 98		Increase	Decrease
	Quantity	Value.	Quantity	Value		
1	2	3	4	5	6	7
Foreign Produce		Rs.		Rs.	Rs	
Nil						
Indian Produce.						
Rice and paddy ..	59,637 cwt.	4,82,491	109,988 (a) cwt	4,61,170	2,679	

(a) Taken from the Collector of Customs, Calcutta's report for 1897-98.

The increase in the exports is due, it is said, to the better harvest of the year

65. Statements in forms Nos. III and IV showing the trade with Calcutta carried on by road, river (country boat and steamers) and canals are annexed for Cuttack as required by paragraph 5 of Government Circular No 1 of 20th April 1896. As figures for only 10 months of the year 1897-98 are available, it seems needless to endeavour to compare them with those of 1896 97 The Collector of Balasore has not submitted the statements at all, as the statistics

required for those have not been yet published for the whole year in the *Calcutta Gazette* The statements for the district of Puri are blank.

Statement III—Showing the trade between Calcutta and the district of Cuttack, Orissa Division, carried by road, river (country boat and steamer) and canal during the year 1897-98 as compared with the preceding year

EXPORTS FROM CUTTACK DISTRICT (OR DIVISION) TO CALCUTTA.

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS

193 In order to bring the Puri railway station nearer Puri town, the Khurda Puri branch line of the East Coast Railway has been extended towards the sea coast.

194. Work in connection with the Calcutta Midnapore Cuttack extension of the Bengal Nagpur Railway is reported to have made satisfactory progress In the district of Cuttack practically all land required has been handed over to the Railway Department, earthwork has been nearly completed except in a few places. Stone has been quarried in large quantities and much has been brought to the site The large bridges over the Kuakhai, Kathjari, Mahanadi, Birupa, Brahmini and Byturni are in hand In the case of the four first-named bridges, which are close to Cuttack, a fair start has been made with well sinking On the Brahmini and Bytarni well sinking has been nearly completed some of the piers have been furnished, and it was expected that girders would be placed in position on the Brahmani bridge before the rainy season.

195. In north Balasore all earthwork is said to have been completed and the rails laid; nearly all the small bridges are completed and the bridge over the Subarnarekha river is expected to be finished shortly Stations are being constructed In the southern portion of the same district earthwork has been completed and rail-laying had begun during 1896 97 Most of the bridges are reported to have been completed The piers have been built for the bridge over the river Burabalang, but the girders had still to be placed in position

196 Railways apart, no other new public works are reported to have been in hand in the districts of Cuttack and Balasore during the year under report In Puri a new combined Post and Telegraph Office was built at a cost of Rs 12,050 and an additional barrack was constructed in the Reserve Police Lines at a cost of Rs 2,609.

197 The table given below compares the area irrigated and the financial working of the Orissa canals during the last three years:—

DISTRICT	Area irrigated in acres.			Total demand, including arrears (exclusive of miscellaneous demand)			Total collections.			Remissions written off			Balance			Percentage of total collections		
	1895-96.	1896-97	1897-98.	1895-96	1896-97	1897-98	1895-96	1896-97	1897-98	1895-96.	1896-97	1897-98.	1895-96.	1896-97	1897-98	1895-96	1896-97	1897-98
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19
				Rs	Rs	Rs	Rs.	Rs.	Rs.	Rs.	Rs	Rs	Rs	Rs	Rs			
Cuttack	111 084	158 492	154,405	2,60,340	3,33,147	3,68,706	2,60,151	3,14,208	3,67,498	4,139	12,540	5 077	35,214	4 319	123	99 4	94 1	99
Balasore	10 239	26,556	30,195	29 925	37 715	42 611	31,496	32,308	41 633	696	4,959	649	1 180	378	1	97 1	87 1	97
Total	121 323	185 048	184,600	2,90,265	3,70,862	4,11,317	2,91,647	3,46,516	4,09,131	4,835	17,499	5 726	34,394	4,697	124	98 1	91 4	99

The figures for 1895-96 and 1896-97 shown in columns 2 and 3 of last year's statement were approximate only.

They were ultimately corrected in the canal revenue report and the figures now supplied are the correct ones. The figures in column 4 of the above table are also but approximate, the measurement of lands under *rabi* crops and irrigated during 1897-98 not having been finished as yet

198 The increase in the demand in Cuttack is said to be mainly due to the increased *kharif* area irrigated, and that in Balasore to the execution of new leases Collections have been very satisfactory, being 99 79 per cent against 99 70 in the year 1896-97. Of the uncollected balance shown in column 16, Rs 203 being irrecoverable has since been remitted, and the sum of Rs 153 realized on 31st March 1898 was paid into the treasury after the close of the year, leaving Rs. 368 only to be collected during 1898-99

XXIV.—ROADS AND COMMUNICATIONS

199. Government roads running through the districts of this Division are reported to be generally in good condition But the Collector of Balasore remarks that in the rains the Grand Trunk road is said to become at places almost impassable for wheeled traffic.

200 The table given below shows the length of metalled and of unmetalled roads maintained by District and Local Boards and by Municipalities in this Division —

Roads.	Cuttack.				Balasore.				Puri.			
	By whom maintained.				By whom maintained				By whom maintained			
	District Board.	Local Board.	Municipality.	Total.	District Board.	Local Board.	Municipality.	Total.	District Board.	Local Board.	Municipality	Total
1	2	3	4	5	6	7	8	9	10	11	12	13
	Miles	Miles	Miles	Miles	Miles.	Miles.	Miles.	Miles.	Miles	Miles	Miles	Miles.
Metalled road	26		25	51	44·25	1·	19·	64·25	78·25		4·75	83
Unmetalled road	433	425	67	925	270·75	184·25	8·75	463 75	75 25	40	2	117 2
Total	459	425	92	970	315·	185 25	27·75	528	153 50	40	6 75	200 25

207 Besides the roads maintained by the District Board, 22 roads, with a length of about 120 miles, were maintained out of the Estate Improvement Fund in the Khurda Government estate A sum of Rs 2,620 was spent out of this fund in repairing the above roads and renovating bridges and inspection bungalows In addition to the above a new road from Sunakhalla to Ankula, which was started as a famine relief work during 1896-97, was taken up by the Improvement Department during the year under report About three fourths of this road have, it is said, been completed

208 During the year under review a suggestion was received from the Agent and Chief Engineer of the Bengal-Nagpur Railway Company for the construction or repair of some 20 feeder roads lying partly in the districts of Cuttack and Balasore, and partly in the Tributary States of Mohurbhanj, Nilgiri, Keonjhar and Dhenkanal which might be expected to bring traffic to this railway The District Board of Cuttack has ordered a survey to be made and plans and estimates to be prepared of such roads in that district, but it is doubtful how far funds will be available for construction and repair The District Board of Balasore has also resolved to take in hand some of these roads at once as far as funds will permit My predecessor advised the above two District Boards to apply for provincial grants in aid of this work They will not, I trust, act too precipitately in the matter.

209 The Boards have already a greater length of roads than they can keep in proper repair, and except in cases as to which there can be no reasonable doubt, it will be so far for them to defer action till experience shows that a feeder road is actually required

210 The allotments made and the expenditure incurred in respect of works in the districts, during the year under review, are compared with the figures of the preceding year in the statement given below —

District	Original works.		Repairs.		Establishment.		Tools and plant.		Water-supply and drainage works		Total expenditure.		Total allotment.		Percentage of expenditure	
	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97.	1897-98	1896-97.	1897-98	1896-97	1897-98	1896-97	1897 98
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
	Rs	Rs.	Rs	Rs.	Rs.	Rs.	Rs.	Rs	Rs	Rs.	Rs.	Rs.	Rs.	Rs.		
Cuttack	5 046	11,163	40 [illegible]	[illegible]	[illegible]	[illegible]	104	130	47	7 550	69,756	70,065	68,279	88 450	67 68	80 25
Balasore	28 718	10 209	13,834	14,[illegible]	[illegible]	[illegible]	.....	..	3 135	1,878	32,687	31,290	62,903	45 250	82 8	69 8
Puri ...	8 280	9,358*	14,548	13,[illegible]	[illegible]	[illegible]	110	66	337	2,[illegible]	26,248	26,261	25,105	21 098‡	90 8	104 0
Total	40 044	30,732	70,404	[illegible]	[illegible]	[illegible]	314	191	4,509	13,913	1,41,187	1,28,616	1,56,277	1,55 707	76 9	81 98

Includes Rs 7 047 spent on famine relief. † Undertaken as famine relief works. ‡ Further allotment has been applied for

211 From this table it will be seen that expenditure was considerably less than the allotment in the districts of Cuttack and Balasore, whereas in Puri it was in excess. The Collector of Cuttack explains that some contractors did not appear to receive payment of the amounts due to them before the 31st March 1898; and certain original works not having been completed within the year, the accounts of these could not be made up The Collector of Balasore does not assign any reason for the short expenditure in his district, nor does the Collector of Puri explain why the allotment was there exceeded Their attention has been invited to this.

212. The total expenditure incurred in arboriculture amounted to Rs 1,691, Rs. 678 having been spent by each of the District Boards of Cuttack and Balasore and Rs. 335 by Puri.

The total number of trees planted was 2,840, of which by far the most, viz 2,121, were planted in Cuttack, against 479 in Balasore and 240 only in Puri

XXV.—WORKING OF THE PURI LODGING-HOUSE ACT

213. The subjoined table compares the receipts and expenditure under the Act for the past two years and gives the number both of licenses granted and of lodgers allowed by these licenses:—

Name of funds	Receipts		Expenditure		Number of *chuttics*	Number of licensed persons	Number of lodgers to be accommodated
	1896-97	1897-98	1896-97	1897-98			
1	2	3	4	5	6	7	8
	Rs	Rs.	Rs	Rs			
Lodging-house Fund of *chuttics* along the Jagannath road in Cuttack	2,747	4,464	4,355	3,355	25	189	1,115
Lodging-house Fund of Chandbali	664	561	913	1,226	1	50	1,908
Lodging-house Fund of *chuttics* along the Jagannath road in Balasore	2,493	2,817	2,738	3,199	35	121	2,528
Lodging house Fund of the Puri town and the *chuttics* along the Jagannath road in the district	12,233	8,828	12,790	11,609	17	253	8,186
Lodging-house Fund of Jajpur	434	447	294	314	1	50	794
Total	18,571	17,117	21,090	19,694	79	663	14,831

There was an increase of one *chutti*, the number of these being 79 against 78 in 1896-97, and this was due to the extension of the Puri Lodging-house Act to Barang *chutti* in the district of Cuttack, this place being the present terminus of the East Coast Railway

214 The aggregate receipts show a decrease, although there was a considerable increase in the income of the Pilgrim Lodging house Fund in Cuttack This increase was, however, of but a temporary nature and was the result of a sum of Rs. 2,058-8 being paid by the Bengal Nagpur Railway a compensation for the acquisition of the Gopalpur rest-house

215. The variations in receipts and expenditure of the several funds do not call for special remarks.

216. Lodging-houses were regularly inspected by the Health Officer The District Officer of Cuttack inspected some of the *chuttics* along the

Jagannath road and found them in fair condition. There was no disease of an epidemic character in any of the *chutties* to which the Act has been extended

217 In Cuttack, the wells along the Jagannath road were cleaned, repaired and disinfected with permaganate of potash. Fifty-five wells in the town of Puri and the wells along the Jagannath road in that district were thoroughly cleaned and disinfected. One tank in Puri itself was filled up as its water had become offensive

218 According to the five years' scheme of wells sanctioned under Bengal Government No 1669M, dated 22nd March 1898, steps have been taken to sink wells in those parts of Puri town where good drinking water is required The opening of the East Coast Railway has, by diverting to a very large extent pilgrim through traffic from the Jagannath road, told prejudicially on the income of the fund from the roadside *chutties* between Puri and Cuttack town so far as that is derived from lodging houses and house rent.

The same must be expected in Balasore and in Cuttack district north of the river Mahanadi when the Bengal-Nagpur Railway extension is completed

XXVI.—EDUCATION.

219 The statistics under this head show a decrease of 293 schools and of 6,221 pupils In 1896-97, 289 schools were closed, but the number of pupils rose by 927, so that during these two years there has been a net loss of 587 schools and of 5,294 pupils. The decrease in 1897-98 occurred chiefly in lower primary schools and in the districts of Cuttack and Puri, this class of school showing an increase in the district of Balasore. The falling off is seldom in the main due to the dearness of food grains and in part to the occurrence of cholera and small-pox. The fluctuations in the number of schools of other descriptions and in the number of pupils attending these do not call for remark

220 Sixty-three private institutions also ceased to exist which involved a loss of 175 pupils The causes assigned are the same as above stated The total expenditure on schools of all classes (excepting the Ravenshaw College) amounted to Rs 3,83,529 in 1897-98 against Rs 3,86,971 in 1896-97, a further sum of Rs 66,636 being spent on account of inspection, scholarships, buildings and other miscellaneous charges The total sum of educational charges thus amounted to Rs 4,50,165 in 1897-98 against Rs 4,54,5 9 the year before

The table below shows from what sources and in what proportion the above expenditure was met during the two years 1896-97 and 1897-98:—

Expenditure from—	Percentage	
	1896-97.	1897-98
1	2	3
Provincial Revenues	19·1	17·7
District Boards	18·9	17·5
Municipalities	1·3	1·2
Fees	49·4	49·8
Other sources	14·3	14·8
Total	100·0	100 0

The fluctuations here indicated have not been accounted for It is, however, worthy of note that the income from fees shows but a slight falling off not withstanding a considerable decrease in the number of schools and of pupils

221 As in 1896-97, the major portion of the contribution from Provincial revenues was spent on secondary and special education, District Board and Municipal grants being on the other hand principally devoted to primary education

222 The cost per head of pupils during 1897 98 varied from 2 4 in lower primary schools to 103 6 in special schools

223 The proportion of boys attending school to the number of boys of school-going age in 1897-98 was 35 6 in Cuttack, 44 2 in Balasore, and 29 3 in Puri, against 39·2, 43 2 and 31·3 respectively in 1896 97 Taking the Division as a whole, some 36 2 boys out of every hundred of school-going age seem thus to have been under instruction during 1897-98, as compared with 38 2 in 1896 97

Special institutions.

224. The Cuttack Training Medical and Survey Schools and the Alalpar Industrial School call for no special remark There were on the rolls of these institutions, on the 31st March 1898, 67, 99, 84 and 24 students respectively, against 70, 112, 73 and 23 at the close of 1896-97

225. There were 64 students attending the Ravenshaw College classes at the close of the year under report against 71 at its commencement The average daily attendance in 1897-98 was 73·2 against 76 0 in 1896-97 Income from fees and fines, including the half-fee payments made from the Mohsin Fund, amounted to Rs 4,448 in 1897-98 against Rs 4,365 in the year before The total expenditure on the College for the year was Rs 19,688 against Rs 22,883 in 1896-97, while the grant from Provincial revenues was Rs. 14,340 in 1897-98 against Rs 17,623 in 1896 97.

226 Sixteen candidates competed at the B A and 34 at the F A University Examinations held in March 1898 Seven of the former and 22 of the latter proved successful. Three candidates appeared at the B.L Examination held in November 1897, and a like number at the Pleadership Examination held in March 1898—all failed

227 The Collegiate school numbered 307 pupils on the 31st March 1898 against 266 a year before. The average daily attendance during 1897 98 was 286 3 against 227 in 1896-97 The total receipts and expenditure during 1897 98 amounted to Rs. 6,173 and Rs. 9,970 respectively against Rs 5,947 and Rs 8,604 in 1896 97, the contribution from Provincial revenues during these two years being Rs 3,797 and Rs 2,657 respectively Seventeen candidates went up for the last Entrance examination of whom 13 passed. The work of providing more hostel accommodation was completed during the year under review at a cost of Rs 7,187, which leaves Rs 4,000 still in hand for further improvements The hostel can now accommodate 50 boarders, and the monthly average was 30 6 in 1897-98 against 21 1 in 1896-97

Mr E. F. Growse, the Collector of Cuttack, took much interest in this work

228. The number of girls' schools decreased by 8 in Cuttack and increased by 1 and 2 respectively in Balasore and Puri, there being thus a net loss of 5 schools representing 83 pupils The decrease occurred in Lower Primary schools. Eight girls (4 from Cuttack and 4 from Balasore) passed the Middle Scholarship examination, 4 with Middle English and 4 with Middle Vernacular certificates; while 9 passed the Upper and 87 the Lower Primary Scholarship examinations.

229 The number of Muhammadan boys under instruction is reported to have been 3,378 in 1897-98 against 3,501 in the year preceding—a decrease of 123 boys. Four Muhammadan boys passed the Middle English, 5 the Upper Primary and 15 the Lower Primary examinations

230. Pupils belonging to aboriginal races numbered 220 in 1897 98 against 198 in 1896-97 One hundred and forty-two of those—mostly Santhals—belonging to the district of Balasore, 1 a Khond studying in Cuttack, and 77 Khonds and Sabars in Puri. Eight special schools for pupils of this class existed during 1897-98—5 in Balasore and 3 in Puri. No such boy passed any of the departmental examinations.

231. There were altogether 3 low-caste schools—2 in Cuttack and 1 in Balasore. Two low-caste pupils, 1 from Cuttack and 1 from Balasore, passed the Lower Primary Scholarship examination, the former obtaining a scholarship.

232 The table below shows the number and character of the various indigenous institutions with the numbers of their pupils, district by district —

District.	Advanced				Elementary				Teaching the Koran		Other Sorts.				Total.	
	Arabic or Persian		Sanskrit.		For boys		For girls				For boys.		For girls.			
	Schools.	Pupils.	Schools	Pupils.	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
Cuttack	27	423	16	120	386	1,967			—	—	5	84		—	434	2,723
Balasore	6	70	5	32	231	910			1	10	—		—		243	972
Puri	7	73	30	286	699	4,015			—	—	—		—		736	4,373
Total	40	516	51	438	1,316	7,007			1	10	5	84			1,411	8,138

233 Most of the Arabic or Persian schools are reported to teach anything but an advanced course.

234 Sanskrit learning is far from occupying the position it should in a province like Orissa, and, as a rule, the tols are not flourishing

235 So far as has come to notice, discipline was fairly well maintained during the year

XXVII.—DISPENSARIES AND HOSPITALS.

236 The table below shows the number of dispensaries and hospitals in each district, their income and its sources, and the total number of patients treated during the year 1897 —

District	Number of dispensaries and hospitals.	Income from—					Total number of patients treated		Ratio per cent of out to in-patients.
		Government.	District Board.	Municipality	Subscription.	Total.	In-patients.	Out-patients.	
1	2	3	4	5	6	7	8	9	10
		Rs	Rs	Rs	Rs	Rs			
Cuttack	18	7,320	2,190	2,351	12,868	24,729	1,176	90,310	1 30
Balasore	7	541	2,554	1,884	4,755	9,244	922	25,440	3 52
Puri	6	2,167	1,344	4,878	1,403	9,292	1 176	20,895	5 76
Total	31	10,028	6,088	9,113	19,021	43,275	3,264	137,045	2 4

237 The number of institutions was augmented by one outdoor dispensary opened at Patamundi in the district of Cuttack. The zamindar of Utikan provided the building and has promised an annual subscription of Rs. 360, the District Board providing the balance

238. As in last year's report, the foregoing statement includes the temporary cholera hospital at Puri, which is really a branch of the Puri Pilgrim Hospital During the year under review it was necessary to open the temporary hospital twice only, *i.e.*, on the occasions of the Car and of the Panchak festivals The proposal to amalgamate the Hukitola and False Point Lighthouse dispensaries in the district of Cuttack, referred to in paragraph 292 of last year's report, is under the consideration of Government

239 The total income shows an increase of Rs. 2,862 which accrued in the districts of Cuttack and Puri, there being a falling off in Balasore. The increase in Cuttack occurred in the income derived from Government and in private subscriptions; District Board and Municipal grants showing a decrease, which in the case of the District Board is apparent rather than real, and is due to the fact that in the appendix and statements furnished by the Civil Surgeon last year the income derived from the district, port and all other

local funds and from wards' estates was shown in the lump against the District Board The foregoing statement shows separately the actual amount contributed by the District Board, by each of the other local funds and by wards' estates, as also the aggregate of private subscriptions Other fluctuations have not been accounted for. In explanation of the increase in the income derived from Government and of the decrease in Municipal grants in Balasore, it is said that the Municipal contribution towards the pay of a Civil Hospital Assistant for some months was in fact credited into the treasury, but was left out of account in calculating the payments made by the treasury, while the entire pay of the said Civil Hospital Assistant for those months was shown as a Government grant The Collector has omitted to state in what proportion this amount should be shown as debitable to the Government grant and to the Municipality His attention will be invited to this matter. No reason has been assigned for the falling off in private subscriptions and in revenue from endowments The district of Puri shows an increase in income from all sources except District Board grants, but the fluctuations have not been accounted for.

240 The table below compares the percentages of income derived from different sources during the year under report with the figures of 1896-97 —

Income derived from—	1896-97	1897-98
1	2	3
Government	19 1	28·1
District Board	21 4	14 0
Municipality	20·5	18 7
Private subscription, Endowments, &c	38 5	44 0

The fluctuations in each district have already been accounted for

241 The opening of the railway seems to have given an impetus to the Cuttack Medical School as it is said to give employment to many of its successful students. The Cuttack General Hospital maintained its already high reputation. Its available resources do not however keep pace with its requirements in spite of liberal donations, as of Rs. 1,000 by the Rani of Kanika for the purchase of instruments, and of a sum of Rs. 100 by a few gentlemen for the purchase of some cots.

242. The table below compares the number of indoor and of outdoor patients treated who attended the dispensaries in each district during the years 1896 and 1897 —

District.	Total number treated				Total	
	In-patients.		Out-patients			
	1896.	1897.	1896	1897.	1896	1897
1	2	3	4	5	6	7
Cuttack ..	1,047	1,176	76,202	90,210	77 249	91, 386
Balasore ..	587	932	25,849	26,440	26,078	27,372
Puri ..	990	1,176	19,564	20,395	20,454	21,571
Total ...	2,535	3,484	121,247	137,045	123,781	140,329

There was an increase in both classes of patients and this in all districts. The cause was apparently the greater unhealthiness of the year 1897.

* * * * * * *

DISTRICT BOARDS

259. The statement below shows the attendance of members of the District Boards in this Division during the year 1897-98 as compared with 1896 97 —

Name of District	Number of members	Number of meetings held in—		Average percentage of attendance	
		1896 97	1897-98	1896 97	1897 98
1	2	3	4	5	6
Cuttack	21	13	15	46 6	39 5
Balasore ..	16	13	12	51 46	50
Puri ..	13	24	22	36 9	39 2

Except in Cuttack the average percentage of attendance shows an improvement The worse result in Cuttack is attributed to the fact that several members, town as well as mufassal, were irregular in attendance, the Civil Surgeon, for instance, not attending a single meeting during the year under review The average attendance of members of the Puri District Board has never been very good, and, though in 1897-98 the percentage showed some improvement, the District Officer writes —

"Almost the whole of the work devolves upon the Chairman and the Vice-Chairman, and it is vain to look to the non-official members for suggestion, much less active co-operation."

260 The District Officer, Balasore, makes no remarks.

261 The meetings adjourned for want of a quorum in the several District Boards during 1897-98 are as follows —

Cuttack ..) . .	3
Balasore .	1
Puri . ..	5

262 There were, as in the previous year, 4 Sub Committees under the District Board of Cuttack, 4 under that of Balasore and 2 under that of Puri

263 The Sub Committees under the Cuttack District Board held 28 meetings during the year under report against 31 in 1896-97 Of the 28 meetings, 8 proved abortive for want of a quorum. There is much room for improvement No doubt, as the District Officer states, to have 9 successful meetings of the Finance Committee is better than to have had 3 only as in 1896 97, but it is to be remembered that the members of this Committee do not do their duty unless they meet monthly to audit accounts

In Balasore the number of meetings held by the Sub-Committees during 1897-98 was 22, against 15 in the preceding year.

The Sub Committees under the Puri District Board held 13 meetings during the year under report, against 11 in the preceding year.

264. The statement given below shows the income and expenditure of the three District Boards during 1897-98 as compared with 1896 97 —

District Boards	Income in—		Expenditure in—	
	1896-97	1897-98	1896-97	1897-98
1	2	3	4	5
Cuttack	1,22,200	1,30,120	1,15,085	1,28,915
Balasore	94,668	74,860	93,873	74,686
Puri	59,041	57,922	62,815	63,324
Total	2,75,959	2,62,902	2,72,773	2,66,875

Both the total income and the total expenditure show a decrease as compared with the preceding year. The net decrease in the aggregate receipts is the result of an increase in Cuttack more than counterbalanced by a decrease in Balasore and Puri In the total expenditure there was an increase in Cuttack and Puri and a decrease in Balasore As regards the decrease in Balasore both in income and expenditure, it is explained that the District Board had no such Government grant in 1897 98 as it had in 1896 97 (Rs 17,892) for completing the Chandbali road. The decrease in the income of the Puri District Board was due to a fall in the income from ferries in consequence of the opening of the railway.

LOCAL BOARDS

265 The table given below shows the attendance of members of all Local Boards in the Division as compared with the previous year —

Name of Local Boards.	1896-97.			1897-98		
	Number of members	Number of meetings held	Average attendance of members at each meeting	Number of members	Number of meetings held	Average attendance of members at each meeting
1	2	3	4	5	6	7
Cuttack	15	15	6 5	15	11	5 3
Jajpur	13	14	5·9	13	13	4 7
Kendrapara	13	15	7 5	13	20	6 3
Balasore	12	8	8·0	12	12	6 1
Bhadrak	11	6	4·2	11	11	3 2
Puri	8	11	3 7	8	8	3 0
Khurda	12	4	5 1	12	6	6 5

Results are thus worse everywhere except in Khurda.

266 There was no change in the powers exercised by the several Local Boards in the Division Expenditure by District Boards during 1897 98 is classified under its chief heads in the table subjoined —

District Boards.	Civil Works		Sanitation.	Medical	Education
	Original	Repairs.			
1	2	3	4	5	6
	Rs.	Rs.	Rs	Rs	Rs
Cuttack	11,165	37,379	7,550	4 871	38,503
Balasore	12 087	14,469	20	2,592	29,064
Puri	2,308	13,629	1,322	4,345	18,652

267 The expenditure on primary education amounted to Rs 29,874 in Cuttack, Rs. 23,168 in Balasore and Rs. 11,631 in Puri, giving for 1897 98 a ratio of 22 9,38 8 and 3·2 respectively to the total incomes of the three District Boards in the Division.

XXXII.—POST OFFICES AND TELEGRAPH

271 In the district of Cuttack there were six branch offices opened and three closed during the year. The two branch offices opened experimentally in the Puri district during 1896 97 not having proved a success, were closed during 1897 98 The number of post offices in the Balasore district was the same as in 1896 97

272 The statistics for the last two years of inland money orders, exclusive of revenue and rent money orders, are compared in the following table The figures for 1896 97 shown against Puri have undergone alterations in this statement owing to the number and amount of telegraphic money orders having, according to the Collector, been shown twice over in his report for last year

273 The divisional total for 1897-98 shows an increase in the number and amount of orders issued, as also in the value of orders paid, though in the number paid there is a decrease :—

Name of District	1896-97				1897-98			
	Issued		Paid		Issued		Paid	
	Number	Amount	Number	Amount.	Number	Amount.	Number	Amount
1	2	3	4	5	6	7	8	9
		Rs.		Rs.		Rs.		Rs
Cuttack	48 423	9 75 803	122,916	16,85,682	58,908	11,91,972	130 771	16 49 098
Balasore	34,879	7 70,254	23,234	3,90 561	35,451	9,21,295	22 686	5 54 137
Puri	22,576	4 78,716	17 510	4,26,408	22,243	5,73 368	18,414	5 08 429
Total	105 898	22,22,273	173,660	27,10,377	116,602	26,86 635	179 141	27 12 704

The increase in the number and value of orders issued has taken place in Cuttack and in Balasore accompanied by a falling off in the number paid, while in Puri the reverse was the case.

274 With regard to the above results, the Collectors concerned make the following remarks —

Cuttack —"There was an increase in the total number and amount of money orders issued and a decrease in those paid. The increase is almost certainly due to the fact that a large number of foreigners who work in the railway remitted money home out of the district, and the decrease may be due to the fact that on account of high prices and partial scarcity more persons left the district in 1896 97 in search of employment in Calcutta and elsewhere who remitted money home than in the year under report, but the decrease is small and really requires no explanation."

Balasore —"The increase in the issue of money orders is believed to have been principally due to the railway and settlement operations in progress during the year, and the decrease in the payment of money orders to the return of people to their homes on account of the good harvest during the year who had left the district in search of employment and remitted their earnings for the support of their families at home during the previous year"

Puri —"The decrease in the number and amount of money orders issued as attributed to the great falling off in the remittances made by the Pandas of the town to their agents in different parts of India This was doubtless due to the plague, the Pandas considering that there was very little prospect of inducing people to make the pilgrimage to Puri"

275 The increase in the payment of money orders in Puri is attributed to larger remittances made by rice merchants to their agents at Puri, and this explanation seems borne out by the increased value of exports to Madras

276 In Savings Bank transactions there has been a decrease shared by all the districts as shown in the following table :—

Name of District	Deposits						Withdrawals						Total number of accounts opened on 31st March—		Total amount in deposit on 31st March—	
	Number of accounts opened during—		Number of deposits made during—		Amount deposited during—		Number of withdrawals during—		Amount withdrawn during—		Number of accounts closed during—					
	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
					Rs. A. P.	Rs. A. P.			Rs. A. P.	Rs. A. P.					Rs. A. P.	Rs. A. P.
Cuttack	1	0	15	5 216	1 16 067 0 0	1,27,[illegible] 0 0	[illegible]	12 442	1 06 067 0 0	1,25,067 0 0	460	286	2,268	2,093	5 25 467 0 0	5 51,391 0 0
Balasore	4	35	2 412	2 454	76,318 0 0	85,[illegible] 0 0	[illegible]	1,109	69 183 0 0	76,067 0 0	223	213	1,816	1 939	1 87 224 0 0	2 14,081 0 0
Puri	1	21	1 1	1 434	43 771 0 0	45,361 0 0	[illegible]	715	33 814 0 0	37 295 0 0	104	149	1,017	1 128	1 36 183 0 0	1 54,760 0 0
Total	1 0	1 92	11 15	9 104	2 37 356 0 0	2,58 [illegible] 0 0	[illegible]	4,269	1 91 424 0 0	2,38 427 0 0	787	648	6,101	6 700	8,80,874 0 0	9 81 171 0 0

The smaller number of transactions in Cuttack is attributed to the prevalence of scarcity during the year, and the increase in the amounts deposited and withdrawn to investments in Government securities under the Savings Bank Rules

277 The cause of the decrease in the number of accounts opened and of the increase in the number and amount of withdrawals in Balasore is said to be the dearness of food-grains for some months of the year The increase in the amount deposited is said to be due to the railway and settlement operations in progress.

The Collector of Puri states that the fluctuations in that district are due to ordinary causes

278 Sixty-five miles of new telegraph line were erected and seven new telegraph offices opened during the year for the use of the Bengal Nagpur Railway extension in the district of Cuttack. As regards the Government Telegraph Department, there is no change to note

* * * * * * *

XXXVII.—GENERAL REMARKS

319 All matters usually dealt with in the annual report have been so in the foregoing paragraphs Besides these there is little calling for remark

320 Scarcity was formally declared to exist in the district of Puri, where only was relief required on anything like an extensive scale Distress existed, however, in some parts of Cuttack district and also in a portion of Bhadrak subdivision of the Balasore district. Everywhere, however, the tracts most affected were scattered, and as a rule they were such, as from their position and the character of the country, suffer more or less every year from either flood or drought. It so happened that in 1896 the floods were exceptionally heavy, general, and prolonged, while the evils of an unusually protracted drought were superadded.

321 In Puri only had local resources to be eked out by Government funds

322 In Cuttack all the relief necessary was afforded by the Indian Charitable Relief Fund Committee and by liberal contribution from the wards' estates which suffered.

323. In Balasore also local funds amply sufficed to meet all demands for relief The measures taken were everywhere successful Details have been reported in this office No 1218., of 10th February 1898, to Government and need not be reproduced here. A separate report was duly submitted to the Honorary Secretary, Bengal Executive Committee of the Indian Famine Charitable Relief Fund.

324. The Diamond Jubilee of Her Majesty the Queen Empress was celebrated in all places of importance with loyal enthusiasm as reported to Government in this office No 2155R of 27th September 1897

325. The earthquake of 12th June 1897 was fortunately felt but slightly in this Division, and practically no damage was done.

NOTE ON THE EARLY COTTON CROP IN BENGAL.

THE following is published for general information

F A SLACK,

The 6th December 1898. *Offg Secy to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Note on the early cotton crop in Bengal, 1898

Explanatory.—Two cotton crops are grown in these Provinces, viz, the early crop which is sown during the monsoon rains and harvested during the cold weather, and the late crop which is usually sown at the close of the rainy season and harvested in the hot weather Estimates of area and outturn of the former crop are furnished in this report. Estimates of the late crop will be published separately in a later report

2. *Character of the season* —In July, the rainfall in all the early cotton-growing districts was generally below the normal There was an excess only in Lohardaga and Palamau In August, on the other hand, heavy rain fell in most of the early cotton growing districts This proved in some cases to be unfavourable to the cultivation of the crop. Heavy rain continued generally throughout September In October, the rainfall was above the average in Orissa and in Midnapore and Singhbhum, and less than the average in all the other districts of Bengal. During the first three weeks of November, there was no rain except slight showers in Jalpaiguri and Puri.

3 *Area sown* —The total area sown in early cotton this year appears from the returns annexed to this note to be 100,600 acres, against 105,300 acres estimated to have been sown last year The decrease of 4,700 acres this year occurs chiefly in Palamau and Manbhum, and is accounted for by excess of rain There is a nominal increase in the area sown this year, as compared with that of last year in Jalpaiguri and Puri In the former district, the increase is said to be due to the immigration of Mech cultivators who adopted the cultivation of the early cotton crop, and in the latter district, the increase is attributed to good rainfall at the time of sowing

4 *Character of the crop*.—Out of the 14 early cotton growing districts of Bengal from which returns have been received, Cuttack only, with a small area of 3,000 acres, estimates a crop above the normal, four districts (including Lohardaga, for which estimates have been made by this Department in the absence of returns from the local officer) estimate normal crops (100 per cent), seven estimate crops varying from 75 per cent to 99 per cent, and three districts estimate crops below 75 per cent In the Chittagong Hill Tracts, which is the only cotton-exporting district in these Provinces, the crop is reported to have failed, the outturn being estimated at 6 per cent, which was also the estimate for last year Unseasonable heavy rain is reported to be the cause of the failure this year, but further enquiries will be made Comparing this year's crop with last year's crop, and taking into consideration only 14 districts as mentioned above, four districts report better crops, six report equal crops, and four report worse crops. The outturn for the Province as a whole is estimated by this Department at 75 per cent of the normal crop, against 80 the corresponding estimate for last year.

5 *Gross outturn*.—The gross outturn of the early cotton crop in Bengal this year amounts to 7,229,700 lbs, against 8,169,200 lbs estimated for last year. The corresponding average yield of the preceding four years amounts to 6,052,600 lbs

N N BANERJEE,
Asst Director of Land Records and Agriculture, Bengal

(Countersigned.)

P C LYON,
Director of Land Records and Agriculture, Bengal

CALCUTTA;
The 1st December 1898

Forecast of the early Cotton Crop of Bengal, 1898

1	2	3	4	5	6	7	8	9
Districts.	Division.	Approximate normal area under early cotton.	Approximate area sown last year.	Estimated area sown this year.	Taking 100 to represent the acreage that has been sown, how much will be represented this year's outturn?	Taking 100 to represent the acreage, how much will represent this year's outturn?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
		Acres.	Acres.	Acres.				
Rungpur	Rajshahye	1,000	1,000	1,500	95	95	The prospects are very gloomy owing to excessive and heavy rain before and after sowing.	
Bogra								
Dinajpur								
Pubna	Rajshahye	400	400	800	95	95	The increase in area is attributed chiefly to new records of the Mech tribes in Kharid from elsewhere.	
Rajshahye								
Malda								
Chittagong	Chittagong	17,000	17,000	17,000	0	0	The decrease in the outturn is due to unseasonable heavy rain.	The complete failure of the crop in this district is not understood, but further enquiry will be made as to the accuracy of the return

WEATHER AND CROP REPORT

For the week ending the 5th December 1898

Burdwan —No rain. Weather seasonable Harvesting of *aman* paddy continues Sowing of *rabi* crops nearly over Prospects of sugarcane favourable A few cases of cattle disease still reported in Kalna Fodder and water sufficient Common rice selling as follows —

	Srs	
Sadar	15 to 17	per rupee
Kalna	14 „ 15	
Katwa	17	
Raniganj	18½	

Birbhum —No rain Weather seasonable Harvesting of *aman* continues Sowing of *rabi* completed Price of common rice at Sadar 16 seers, and at Rampur Hât 17 seers per rupee Fodder sufficient.

Bankura —No rain Weather fair and cold Harvesting of *aman* briskly going on Sugarcane and other standing crops promising well No cattle-disease reported. Fodder and water sufficient Common rice sells at 16 seers per rupee at Vishnupur

Midnapore —No rain Prospects of standing crops very good Common rice sells as follows —

	Srs	
Sadar	15 to 18	per rupee
Contai	14 to 16	
Tamluk	13 to 15	
Ghatal	14 to 16	

Hooghly —No rain. Reaping of winter rice crop going on and prospect of *rabi* good Cattle disease prevailing in some parts Common rice sells from 11 to 14 seers per rupee

Howrah —No rain Weather seasonable. Harvesting of *aman* continues Outturn favourable Sowing of *rabi* going on. Fodder and water sufficient. Common rice sells at 12 to 14 seers per rupee

24 Parganas —Rainfall nil Weather seasonable Prospects of standing crops good Harvesting of *aman* rice commenced. No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs.	Srs.	
Sadar	12	to 16	per rupee
Baraset	17½		
Basirhat	13½		
Diamond Harbour	16		

Nadia —No rain Harvesting of *aman* continues Standing crops doing well Common rice selling at 11 to 17 seers per rupee Fodder and water sufficient Cattle-pox in thanas Meherpur and Tehatta

Jessore —No rain. Weather fine and cold Harvesting of *aman* paddy going on Sowing of indigo and *rabi* crops still continues in some places. Prospects of standing crops good No cattle-disease reported Fodder and water sufficient. Common rice sells as follows —

	Srs.		
Jessore	16	to 20	per rupee
Jhenida	18	„ 20	
Magura	18	„ 22	
Bangaon	17	„ 18	

Khulna —Rainfall nil. Weather seasonable *Aman* is being harvested, and sowing of winter crops continuing Prospects good Fodder and water sufficient Common rice sells as follows —

	Srs.	
Sadar	19 to 22	per rupee.
Bagerhat	20	
Satkhira	16 and 20 (new *aus*)	

Rajshahi—No rain Harvesting of *aman* paddy in progress. Sowing of *rabi* crops going on Prospects of crops good. No cattle-disease Fodder and water ample Price of common rice ranges from 16 to 30 seers per rupee

Dinajpur.—No rain Weather fine and cool. Harvesting of winter rice continues *Rabi* crops getting on well. No cattle-disease Fodder and water sufficient Rice 17 to 18 seers a rupee.

Jalpaiguri—Rainfall at Sadar nil, Alipur Duars 15 Weather seasonable, but cloudy Harvesting of *haimanti* paddy going on. Transplantation of tobacco and cultivation of *rabi* crops nearly finished Fodder and water sufficient Price of common rice stationary

Darjeeling—Rainfall at Darjeeling ·56, Siliguri 41 Weather seasonable *Hills*—*Kalai* and *haimanti* paddy being harvested, wheat, barley, and *phaphar* progressing *Terai*—*Haimanti* paddy and sugarcane being harvested, mustard, potatoes, and *kalai* doing well Coarse rice selling as follows —

	Srs.	
Hills	11 to 12	per rupee
Terai	14 to 18	

Bhutta sells at Darjeeling 26 seers and at Poolbazar 40 seers per rupee

Rangpur.—No rain Cultivation of *rabi* crops and transplantation of tobacco in full swing Reaping of winter rice commenced in places Prospects fair. Common rice (new) sells at 12 to 20 seers per rupee Fodder and water sufficient

Bogra—No rain Harvesting of *aman* in full swing *Rabi* crops doing well Common rice selling from 17 to 25 seers a rupee Fodder and water ample

Pabna.—Rainfall nil Weather fine and cool Winter crops are being harvested and *rabi* sown Common rice 14 to 20 seers per rupee

Dacca—Rainfall nil Weather seasonable. Harvesting of *aman* continues Prospects good Fodder available No cattle disease Common rice 14 to 22 seers per rupee

Mymensingh—Rainfall nil. Weather seasonable Prospects of crops good Harvesting of *aman* continues Rice sells from 15 to 21 seers per rupee Fodder and water sufficient

Faridpur—No rain. Weather seasonable Prospects of crops good Rice 20 seers a rupee

Backergunge—Rainfall nil. Weather fine. Prospects of crops good Common rice sells from 13 to 18 seers (old *aman*), 12½ to 20 seers (new *aman*), and 16 to 22 seers (*aus*) per rupee

Tippera.—No rain *Aman* harvest in progress *Rabi* being sown Common rice 15 to 26 seers per rupee

Noakhali—No rain Crops good except in Hatia and Sandip Harvesting of *aman* continues Lands being cultivated for *rabi* crops No cattle disease Fodder good except in Lakhimpur Water good Price of rice—*aman* 12 to 20 seers and *aus* 16 to 28 seers per rupee

Chittagong—Rainfall nil. Weather seasonable *Aman* still being reaped and *rabi* crops sown. Prices steady Water and fodder sufficient

Patna.—No rain. *Rabi* and poppy sowings nearly over, prospects favourable Harvesting of paddy going on Prices falling Common rice in Patna sells at 24 seers per rupee Condition of cattle good. Fodder and water for cattle sufficient

	Inches
The mean pressure of the seven days	30·021
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	30·008
	Hours
The total number of hours of bright sunshine	63·4
The maximum possible number of hours of sunshine	79·8
	°
The mean temperature of the seven days	68·1
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	70·9
The extreme variation of temperature	28·6
The maximum temperature	82·3
	Miles
The highest velocity of the wind in one hour	10
	%
The mean relative humidity	69
The average relative humidity of the corresponding period for 24 years, Surveyor General's Office	71
	Inches
The total fall of rain from 27th November to 3rd December 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·04
The total fall from 1st January to 3rd December 1898	59·52
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·19

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground

D, dew

* There are no separate leases for sugarcane on the Sone Canal. Area cultivated with that crop now comes under one of the other heads

† An area of 2-0 36 acres being unirrigable has been deducted from the figure (38) shown in the return for September 1898

CALCUTTA,
The 6th December 1898

A H C MACCARTHY,
Under Secy to the Govt of Bengal

* Added No of passengers 9 130 and deducted Rs 4,925 } on account of difference between the approximate and audited figures for the weeks ended 1st
† Ditto Mds 1 01 714 and 12,486 } and 8th October 1898
‡ Deducted 1 783 }

(a) The decrease is in outward traffic chiefly at stations on the A, B and C districts
(b) The decrease is chiefly due to less quantity of opium despatched from Patna City and Ghazipur to the Port Trust Railway and cotton wheat edible grains and sundry commodities exported from Cawnpore City and some of the principal stations on the B and D districts

NOTIFICATION—No 6905 Med

The 5th December 1898 —The following advertisement by the Indian Plague Commission is published for general information

E N BAKER,
Offg Secy to the Govt of Bengal

ADVERTISEMENT

The Indian Plague Commission will shortly visit Bengal with the object of inquiring into—

(1) the origin of the different outbreaks of plague,
(2) the manner in which the disease is communicated,
(3) the effects of curative serum and
(4) the effects of preventive inoculation

The Commissioners will be glad to examine persons who are in a position to assist them in arriving at a conclusion regarding the questions under investigation, and any such person who desires to bring any facts before the Commission is requested to submit without delay to the Secretary of the Commission, a statement in English showing what opportunities he has had of observing matters connected with Plague and the facts to which he can testify The Commissioners will then determine whether they will call and examine such person

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 600 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M. of the day fixed by previous notification and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M., and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4 Each lot shall contain five chests.

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchaser at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank

DEPOSIT.

When the amount bid is less than Rs 1 200 per chest, Rs 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest
On bids of Rs 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest
And so on Rs 100 being added to the deposit for every bid additional, to the extent of Rs 400.

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulters, whilst any profit accruing from such re sale shall be forfeited to Government

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1 30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No. 6.

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1 30 P.M , and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in such certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorised agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any stupid lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 600 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue — No 1, certificate of the opium advertised for sale, No. 2, report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1897-98, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L P,

H. J McINTOSH,
Offg. Secretary

MILITARY SECRETARY'S OFFICE

NOTIFICATIONS

Viceroy's Camp, the 5th December, 1898

No 2488M.—THE RIGHT HONOURABLE THE LORD CURZON OF KEDLESTON will hold a Levée at Government House, Calcutta, on Saturday, the 7th January, 1899, at 9-30 P M

All Civil, Naval, and Military Officers, Members of the Consular body, Gentlemen whose names are borne on the Government House List, or who have already been presented at the Court of St James, and Native Officers of the Native Regiments of the Garrison are invited to attend

Gentlemen who propose to attend the Levée are requested to send their cards to the Aide de camp in Waiting, not later than Tuesday, the 27th December, 1898, *after which date no cards will be received*, and to bring with them to the Levee two cards with their names clearly written on them—one to be given on entering Government House, and the other to the Aide-de-camp in Waiting at the time of presentation

Gentlemen who propose to present others must send in *in writing* for approval the names of such Gentlemen to the Aide-de-Camp in Waiting, not later than Tuesday, the 27th December, when, if they are approved, presentation cards will be forwarded

Gentlemen who present others must themselves attend the Levée.

Gentlemen wearing uniform will appear in full dress

Gentlemen not entitled to wear uniform will appear in evening dress

Clergymen being University Graduates and other gentlemen entitled to wear robes or gowns on account of judicial or academical office or status should appear in such robes or gowns

The carriages of Gentlemen having the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs, and pass out by the North-West Gate.

The 6th December, 1898

No 2494M.—THE RIGHT HONOURABLE THE LORD AND THE LADY CURZON OF KEDLESTON will hold a Drawing Room at Government House, Calcutta, on Thursday, the 12th January, 1899, at 9-30 P M.

Ladies whose names are borne on the Government House List, or who have already been presented at the Court of St. James, proposing to attend the Drawing Room are requested to send their cards to the Aide-de-Camp in Waiting, not later than Monday, the 2nd January, 1899, *after which date no cards will be received*, and to bring with them to the Drawing

Room two cards with their names clearly written on them—one to be given on entering Government House, and the other to the Aide-de Camp in Waiting at the time of presentation

Ladies who propose to present others must send in *in writing* for approval the names of such ladies to the Aide-de-Camp in Waiting, not later than Monday, the 2nd January, 1899, when, if they are approved, presentation cards will be forwarded

Ladies who present others must themselves attend the Drawing Room

Ladies attending the Drawing Room will appear in full dress, but need not wear trains or feathers

Only Gentlemen having the Private Entree themselves, and accompanying Ladies to the Private Entrée will be admitted to the Throne Room

Gentlemen accompanying Ladies by the Public Entrée will leave them at the Entrance to the Eastern Gallery and rejoin them in the Ball Room.

The carriages of those who have the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North East Gate, set down under the Grand Stairs, and pass out by the North-West Gate

By Command,

A DURAND, *Colonel*,
Military Secretary to the Viceroy

Offg Secy to the Govt of Bengal

NOTIFICATION

No 7040M —The 7th December 1898 —It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Mr J Baxter to be a Commissioner of the Garden Reach Municipality, in the district of the 24-Parganas, *vice* Mr J Moyer, resigned

E N BAKER,
Offg Secy. to the Govt of Bengal

NOTIFICATION

No 7042M.—The 6th December 1898 —Whereas a notification No 4565M, dated the 27th July 1898, was published at pages 133 and 134, Part IB of the *Calcutta Gazette* of the 3rd August 1898, declaring the intention of the Lieutenant Governor to revise the boundaries of the Colgong Municipality, in the district of Bhagalpur, and whereas no valid objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that in accordance with the recommendation of the Commissioners of the said Municipality, made at a meeting, and in exercise of the power vested in the Local Government by section 9 (c) of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to revise the boundaries of the said Municipality so as to include the south-eastern portion of the town lying outside its limits

The revised boundaries of the Municipality after the inclusion of the said area will be as follows —

On the north-west —The high bank of the Ganges

On the south-west —The Koa Nala

On the north-east —A line commencing from the bridge No 125 on the East Indian Railway, and running along the boundary between the *mal* and *lakhiraj* lands of mauza Colgong up to the road leading from Colgong to Gangaldas Factory, then along that road in a south-westerly direction up to the boundary between Khairaliag and Pathanpura, thence along the north eastern boundary of Pathanpura to Kali Charan Bhattacharjee's *lakhiraj*, thence along the eastern and north eastern boundary of that *lakhiraj* up to its north eastern corner, then by a straight line running in a north west-north direction to the high bank of the Ganges

On the south-east —The East Indian Railway from culvert No 125 running as far as its north distant signal post, then a line running up to the western *addu* of *lakhiraj* Rosa Chiragi garden, including the camping-ground garden, the zamindari of Babu Sri Mohan and other Thakurs, and then again running towards the south up to the eastern boundary of the Road Cess bungalow crossing the Colgong-Barahat Road, and thence along the southern boundary of the said bungalow joining the East Indian Railway old pucka wall which forms the south-eastern boundary of that railway, up to Ferry Fund Road, leading to Maheshamunda, and then turning towards the west joining again the East Indian Railway line at culvert No. 129 and running along the line up to Koa Nala railway bridge

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern

E N BAKER,
Offg Secy to the Govt of Bengal

DECLARATION

No 7120M—The 13th December 1898—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz, for a night-soil depôt at Kagaitala, in the village of Kagaitala, pargana Jahangirnagar, zilla Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 cottahs and 7½ dhurs of standard measurement is required. The land is bounded on the north by the land of Arman Kawal and a tank, on the south by a lane, on the east by the wall and land of Sheik Ismail, and on the west by the land of Arman Kawal and a lane

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern, in supersession of the declaration No 3995M, dated the 4th July 1898, published at page 118, Part 1B of the *Calcutta Gazette* of the 6th idem

A plan of the land may be inspected in the office of the Collector of Dacca

E N BAKER,
Offg. Secy to the Government of Bengal

Shahabad Collectorate, Arrah, the 2nd December 1898

C A BELI Collector

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Murshidabad, will be put up to sale at the Murshidabad Collectorate on Thursday, the 12th January 1899, corresponding with 29th Pous 1305

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale

1st —The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale The purchasers of these estates will be considered as the proprietors of the estates and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity

2nd —The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd —If the amount of purchase-money do not exceed Rs 100 the whole amount to be paid down at once

4th —If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to the Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of the original sale

NOTICES TO MARINERS

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

NOTICE TO MARINERS—No 261

[First Publication]

JAPAN—Noto Peninsula

North Nanao harbour—Non-existence of rock—additional soundings

In continuation of Notice to Mariners No. 218, dated the 24th October last, issued by this office, the British Admiralty has given further notice, that an examination of the spot shows that the rock, with 3½ fathoms on it, reported to lie 2 cables southward of Fudou saki, Nanao harbour, does not exist, soundings of 9 fathoms having been obtained near the assigned position, the local fishermen, moreover, have no knowledge of any rock in that locality, it has therefore been erased from the Charts

Approximate position, lat. 37° 10′ 50″ N., long. 136° 59′ 55″ E

Also, that the following shoal soundings have been obtained on the Okinami bank —

a A depth of 3 fathoms with Toyogadake bearing N W by N ⅝ N, distant 18¼ cables, and south extreme of Hechiwa saki W ⅞ S

b A depth of 5½ fathoms with Toyogadake bearing N W ⅝ N, distant 15¼ cables, and Hechiwa saki W by S, ½ S.

c A depth of 5 fathoms with Toyogadake bearing N W by N ⅝ N, distant 20¼ cables, and Kagata hana W. ¼ S.

d A depth of 6¼ fathoms with Toyogadake bearing N W by N, distant 29¾ cables and Bagaura saki W. by S. ⅝ S. or approximately in lat 37° 10′ 45″ N, long. 137° 3′ 55″ E

CHINA SEA—Rhio strait approaches

Irene rock—Non existence of

The British Admiralty has given notice (No 678 of 1898) that during a recent survey an unsuccessful search was made for the Irene rock at the approaches to Rhio strait the area around its assigned position, for some miles, being sounded over without finding any indication of shoal water, and as moreover the Masters of vessels trading between Lunga and Singapore state that they have no knowledge of the existence of a rock hereabouts and the original report has received no confirmation, this rock has therefore been erased from the Admiralty Charts

Approximate position, lat 0° 24′ 15″ N, long. 104° 8′ 45″ E

CHINA—Pescadores islands

Shoals discovered

The British Admiralty has given notice, (No 685 of 1898) of the existence of the following shoals north eastward of Pescadores islands, Formosa:—

(*a*) A rock named Ito sho, with a depth of 4 fathoms on it, lies with North island bearing N 53° W, distant 5-$\frac{5}{10}$ miles, and North head, Pehu island, S 65° W

Approximate position, lat 23° 42′ 0″ N, long 119° 40 50″ E

(*b*) A rocky patch with a depth of 2½ fathoms on it, with North island bearing N 39° W, distant 6-$\frac{3}{10}$ miles, and North head, Pehu island, S 76° W

Approximate position, lat 23° 40 45″ N., long 119° 40′ 10″ E

NEW ZEALAND—COOK'S STRAIT

French Pass—Sandbank

THE British Admiralty has given notice (No 660 of 1898) of the existence of a sand bank, discovered by Mr. McLean, Master of the S S *Penguin*, situated at the eastern entrance to French Pass, Cook's strait

This bank is composed of fine sand and shells, with patches of dwarf kelp Its length within the 3-fathom line is a quarter of a mile E N E and W S W, and a quarter of a cable broad, the least depths being 2½ to 2¾ fathoms, low water springs. From the eastern limit of the 3-fathom line, the south extreme of Reef Point bears E N E, distant 3¾ cables, and Collinet Point, S E ¼ S

Approximate position, lat 40° 55′ 10″ S., long 173° 51 45″ E

It is intended to mark this bank by a buoy.

There is a channel with 8 to 10 fathoms, one cable wide, between the west end of the bank and Reef Point, and another, 2½ cables wide, with 9 to 12 fathoms water, between the east end and Collinet point

RESOLUTION ON THE PROGRESS REPORT OF THE FOREST ADMINISTRATION IN THE LOWER PROVINCES OF BENGAL, FOR THE YEAR 1897-98

REVENUE DEPARTMENT—FORESTS

Calcutta, the 7th December 1898.

RESOLUTION—No 2702

READ—

The Progress Report of Forest Administration in the Lower Provinces of Bengal for the year 1897-98.

Read again—

The Progress Report of Forest Administration in the Lower Provinces of Bengal for the year 1896-97, and the Government orders thereon

Mr A E. Wild was in charge of the Bengal Forest Circle up to the 16th of March 1898, when he went on furlough, and was succeeded by Mr E G Chester, by whom the Report was submitted on the 8th October, seven days later than the assigned date.

2 The following statement shows the area of each class of forest in the Circle —

Forest	At commencement of the year.	Added	Excluded.	At close of the year.	Percentage—	
					Of total forest area.	Of the area of the province (151,625 square miles)
1	2	3	4	5	6	7
Reserved	Sq miles.	Sq miles.	Sq miles	Sq miles.		
Protected		4			44	5·3
Unclassed		95	14		20	2·3
					36	4·3
Total	15,[illegible]	99	14	22,274	100	6·8

* Allowing for fractions.

The Tumchar forest was notified as a reserve on the 5th of July 1897, and forms the only real change in the area of reserved forests. Other minor changes involving the exclusion of 173 acres have been mooted, but no notifications under section 26 of the Act have issued.

The additions under protected forests are more apparent than real, as in former years information regarding many areas could not be given owing to the fact that reliable estimates were not procurable. During the year under report the redemarcation of village boundaries in the district of Palamau and operations by the Settlement Officer in Manbhum have rendered it possible to add 95 square miles to the area of which estimates have been formed An area of 14 square miles was transferred from the Forest Department to the Commissioner in the Sundarbans to be leased out to cultivators.

3 *Settlements.*—The Tumchar forest (area 5 square miles) was settled during the year under report, while the Paglajhora forest in the Kurseong Division and eleven areas aggregating 842 square miles in the Chittagong Division were under settlement A notification regarding the former has been issued since the close of the year under section 19 of the Act, and it is expected that the latter areas will be demarcated and ready for notification early next year All the boundaries of reserved forests which require artificial demarcation have been completed, excepting 17 miles in the Singhbhum district, where progress has been made in demarcating permanently the boundaries of blocks, these having been only temporarily and vaguely marked off by the Revenue Settlement Officer.

4 *Working Plans.*—As remarked in last year's Resolution, the working plan of the Tista Division (212 square miles) received the approval of the Inspector General during the year under report Working plans for the forests in the Tista Valley and Jalpaiguri are almost complete, but it is disappointing to find that no fresh plan of this nature was put in hand during the year under report The reason assigned for the delay in pushing on this important matter is the difficulty of procuring for the work a duly qualified officer, but the Lieutenant-Governor feels confident that the Conservator will press on arrangements to secure the preparation of working plans for the remaining areas as quickly as possible. The Lieutenant-Governor has been much impressed with the looseness of the information in the departmental records as to the character and contents even of forests, which have been brought within the influence of railways Without the definite information which plans of even the rudest and most summary description give, it is difficult for the Department to judge what can in an individual forest be done, and what it is wise to leave undone, and without them it is altogether impossible for the Government to judge whether or not the action of the Department is right. The area of reserves for which working plans have still to be taken in hand is 3,343 square miles, and it is only by the most persevering and persistent efforts that effectual progress will be made.

The means at present available for exporting produce from forests difficult of access no doubt to some extent prevent a strict adherence to working plans, and the Lieutenant-Governor will therefore be glad if the Conservator would submit proposals for cheapening and extending the existing methods of transport in the Darjeeling and Tista Divisions, where the hindrance seems to be most acutely felt Not the least simple and promising suggestion is to concentrate the transport into the dry season, when the roads are good and draught labour lightest

5 *Buildings and Communications.*—The following statement shows the expenditure on roads and buildings in 1896-97 and 1897 98 and the budget estimates for the latter year —

Description of work	Buildings.			Roads and Bridges			Total.		
	Actuals of 1896-97	Budget estimates of 1897-98	Actuals of 1897-98.	Actuals of 1896-97	Budget estimate of 1897 98	Actuals of 1897-98	Actuals of 1896-97	Budget estimates of 1897-98	Actuals of 1897 98
1	2	3	4	5	6	7	8	9	10
	Rs	Rs	Rs.	Rs.	Rs	Rs.	Rs.	Rs	Rs
New construction	12 407	26,900	21,508	19,480	18 710	11,522	22 887	44 910	3 1(0
Repairs	10,131	12,636	11 241	14,220	12,190	10 745	24 358	25 240	22)86
Unapportioned ..	664	2,564	1,585	461	7 200	120	1,105	9 764	1 515
Total	23,202	41 900	34,304	34 147	38,300	22,457	48,350	79 940	56 01

There was an increase of Rs 11,101 in the expenditure on buildings, and a decrease, for which no reason has been given, of Rs. 2,600 on that for roads and bridges.

In the Darjeeling Division an inspection bungalow was built, and in the Kurseong, Singhbhum, Angul, Puri, and Jalpaiguri Divisions rest houses were erected In the Buxa Division the Divisional Officer's bungalow, which had been wrecked in the earthquake, was reconstructed, and in the Sundarbans the erection of quarters for the Divisional Officer of Khulna was commenced.

Sixty-seven miles of new roads and paths were made during the year as against 72 in the previous year, and repairs were carried out along 881 miles of road, the corresponding figures for 1896-97 being 775 Of the new roads, 35 miles were meant to facilitate export, while 32 miles were for purposes of inspection.

6 *Breaches of Forest Law.*—Three hundred and seventy-nine cases were taken into Court during the year under report as against 280 in 1896 97 This increase is most marked in the Sonthal Parganas, Singhbhum, and Chittagong, and is ascribed to the more vigilant supervision of the local officers

Of the cases disposed of, 92 per cent. ended in conviction as against 87 8 in the previous year. Prosecutions were instituted in 40 cases for offences with regard to fire, of which 31, involving 86 persons, ended in conviction, and 4, involving 7 persons, resulted in acquittal. The remainder were pending at the end of the year. Of the total cases of this kind, 29 occurred in Singhbhum, 4 in Angul, and 2 in Palamau, while Darjeeling, Tista, Jalpaiguri, Buxa, and Chittagong had one case each. No less than 173 cases of injury by fire were undetected as against 47 the previous year, and 83 of these undetected cases occurred in Singhbhum These figures, even allowing for the difficulty of

detection, are far from satisfactory, and the Lieutenant-Governor trusts that the officers in the Forest Department will spare no efforts to obtain better results in future

The number of cases compounded by Forest Officers amounted to 1,631, involving 3,441 persons as against 1,158 cases involving 1,937 persons the previous year The amount received as compensation was Rs 11,532 as compared with Rs 7,021 the previous year. The average compensation received for each case was Rs. 7 1 2 and for each person Rs. 3-5 7 The compensation received for each person involved varied between Re 0-10 4 in Singhbhum and Rs. 17-12 in Palamau. It is stated that the high averages in Palamau and Jalpaiguri were due to a few heavy cases having been compounded, but omitting these, no explanation has been offered of the wide variations in other divisions. In the Sundarbans the average compensation for 655 persons involved was Rs. 7-5-8, in the Tista for 439 persons Rs. 2-11 2, in Puri for 549 persons Rs. 4-11-7, whereas for Singhbhum for 465 persons it was, as above stated, only Rs. 0-10-4. These variations are probably due to the fact that in the Sundarbans, boats, big and small, are used by the offenders for transporting the wood and that elsewhere thefts of forest produce usually take the form of head loads. The total number of offences increased from 1,527 to 2,230, and of these the Tista Division contributed 496 cases, while the Darjeeling, Sonthal Parganas, and Sundarbans all contributed over 300 cases.

7 *Grazing* —Three hundred and ninety-three square miles of reserved forests were open to all animals for the whole year, while 177 square miles in Palamau were opened as a means of relief to 1,500 head of cattle belonging to *bonâ fide* khas mahal cultivators The result of the enquiries now being made as to the best method of instituting a rotation of grazing areas in protected forests (which are at present all open for grazing) is awaited The fees received from grazing amounted to Rs. 14,783 in reserved forests and Rs 7,359 in protected forests as against Rs. 12,031 and Rs. 7,177, respectively, last year These figures are incomplete, since fees received under the commutation system are not shown. The Conservator remarks that the heavy increase in the number of head of cattle grazing is not a matter for congratulation, as the forests grazed are already called on to support far more cattle than they can continue to do. This remark is not fully understood, and the Conservator should, therefore, submit a report showing what measures, in the light of existing orders, he would adopt to lessen the injury alluded to. The number of cattle impounded was 2,851 as against 2,484 the previous year.

8 *Forest Fires* —The year under report was a disastrous one in the matter of fires, like every alternate year during the past five, because after a good year there is apparently more forest to burn and fewer clearer spaces to check the progress of fire Protective measures against fire were taken for 1,953 square miles, of which 529 square miles, or 27·1 of the entire protected area, were burned, a slight improvement on the results obtained in 1895-96 In Singhbhum the percentage of area burnt to protected area was 59 6, and but for this abnormal proportion the percentage for the circle would have been the very fair average of 7·5 instead of 27 1. It is, therefore, to Singhbhum that the Conservator's attention should be principally directed There have already been increased precautions and an increased establishment The result is not reassuring Looking at the statement given by the Conservator, the Lieutenant-Governor doubts whether the gravity of this offence was clearly brought to the notice of the trying Magistrates, otherwise he fails to understand the lenient sentences imposed in some of the cases The attention of the Commissioner will be drawn to this matter The Conservator states that the question of reducing the number of gun licenses is under consideration, and a report on the subject is awaited

9 It would appear that for the circle no less than 108 fires as against 62 in the previous year were fired intentionally, damage being done to 241,652 acres as against 39,609 in 1896-97. Prosecutions were instituted in 19 of these cases, of which 2 ended in acquittal.

10 *Yield and outturn of forest produce* —The following statement gives details of the forest outturn of the year :—

Class of forest and agency by which produce was removed	Timber.	Fuel.	Total wood	Bamboos	Minor produce
1	2	3	4	5	6

Right holders	229,103	14,436,047	14,665,150	4,000,000	12,374
Total	682,536	17,283,793	17,966,329	4,123,089	1,34,384
Unclassed					
Government	21,138	5	21,143	10,306	
Purchasers	248,479	46,738	295,217	6,929,630	7,036
Free grantees . .		. .			
Right-holders .	. .	. .	.		
Total	269,617	46,743	316,360	6,939,926	7,036
GRAND TOTAL IN 1897-98 .	4,904,846	30,128,991	35,033,837	19,827,312	274,606
GRAND TOTAL IN 1896-97	5,396,702	30,277,688	35,674,390	18,160,514	252,421
Difference in 1897-98	—491,856	—148,697	—640,553	+1,666,798	+22,185

The total outturn of timber and fuel was 35,033,837 cubic feet, showing a decrease of 640,553 on the outturn of the previous year. The decrease is explained by the closing of the operations in the Singhbhum district for the supply of sleepers to the Rai Bareli-Benares Railway, the supply during the year being only 94,102 cubic feet as against 538,767 in the previous year, and also by the fact that the figures of the previous year included the standing produce, about 122,000 cubic feet, of 500 acres of land which were sold to a tea-planter. Such fluctuations will always occur with the varying demands, which Railway undertakings make upon the forests. There was an increase of 1,666,798 in the yield of bamboos, while the value of grazing fodder, &c., rose by Rs. 22,185. The decline in the demand for fuel in the Chittagong Division is ascribed to the cyclone having blown down many trees, thereby placing a large quantity of fuel in the hands of the villagers. The reduction in the amount of fuel supplied by departmental agency to the troops at Darjeeling is due to reduction in their numbers. The want of means of carriage for timber is ascribed as the cause of the decrease in the amount

removed by purchasers and, as before remarked, this is a subject regarding which a separate report should be submitted. Though there was some increase in the quantity removed, [illegible] Sundarbans, [illegible] is said to have again affected the demand.

11. *Financial Results.*—The following statement shows the financial results during each of the last six official years:—

Financial year	Receipts.	Charges.	Net revenue.
1	2	3	4
	Rs.	Rs	Rs
1892-93	7,44,683	3,81,808	3,63,274
1893-94	8,01,611	4,04,043	3,97,568
1894-95	7,96,673	3,98,601	3,97,072
1895-96	9,18,709	4,66,068	4,52,641
1896-97	13 70,842	6,90 042	6,80,807
1897-98	11,89,285	6,53,437	5,35,848

It will be seen that, with the exception of 1896-97, the results during the year under report both in gross receipts and net revenue have been better than those of any of the preceding years. The decrease in net revenue during 1897-98 is almost entirely accounted for by the reduction in the sale of sleepers for the Rai Barch-Benares Railway.

12. The following table shows the result of the last two financial years, division by division:—

Division	Receipts.		Charges.		Surplus.		Deficit	
	1897-98.	1896-97	1897-98.	1896-97	1897-98.	1896-97	1897-98.	1896-97
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs	Rs	Rs.	Rs.	Rs
Darjeeling	72,852	75,396	76,956	71,092	...	3,903	4,035	
Tista	33 936	42,215	34,140	33 721	...	13,987	2,950	
Kurseong ...	40 970	38,938	32,224	31,988	8,746	6,750		
Jalpaiguri ...	42,124	44 908	27,405	30,703	14,719	14,205

Sonthal Parganas	18,691	11 766	15,276	14,190	3,165	.....		2 424
Direction	14,513	13,940	42,989	30,630	.....	...	28 116	42,770
Palamau	8,981	8,137	11,223	11,047	...	...	7,984	8 910
Singhbhum ...	5,52,709	5,13,193	2 96,619	3,71,429	2,56,090	3,60,743		
Angul	7,998	10,975	12,150	15,389	...	...	4,617	5,614
Puri	20,713	21,551	23,008	23,788	2,295	...		236
Sundarbans ...	4,89,184	5,01 004	97,324	97,113	3,91,860	4,03,889		
Chittagong ...	76,150	72,005	23 422	29,692	52,727	42,313		...
Total ...	11,99,355	12,70,940	6,53,437	6,90,042	5,35,918	7,70,057	52,979	56,260
Net surplus ...	... ...	... ...		... ...	5,35,848	6,80,807	...	

The Sundarbans Division has again the largest surplus, and is followed by Singhbhum. The Chittagong revenue has again declined, but five divisions (the Sonthal Parganas, Puri, Direction, Palamau, and Angul) show improved results. The Sonthal Parganas and Puri Divisions for the first time show a surplus.

13. *Miscellaneous.*—Mr. Wild was on tour for 97 days and Mr. Chester (by whom the Report is submitted) for 33. The Lieutenant-Governor attaches much importance to frequent rounds by the Conservator in his divisions. His personal guidance and advice to the Divisional Officers is all the more necessary so long as the deficiency of working plans remains so great. There were changes of charge in seven divisions, the most numerous instances occurring in the Chittagong Division.

One forester was sentenced to 12 months' rigorous imprisonment for embezzlement and a clerk was dismissed the service. The loss occasioned by

the cyclone, which uprooted most of the trees in the Sitapahar plantation, was very great. One of the elephants belonging to the department died during the year. The [illegible] reorganisation of the office establishment of the [illegible] pending receipt of the opinion of the Committee appointed to consider the question of the system of accounts and reports and the relief in the matter of clerical labour which may thereby be afforded. On the whole, the year was, except in the one matter of the prevalence of forest fires, to be said to have been successful, and the thanks of the Lieutenant-Governor are tendered to Mr. Wild for his administration of the Department and to Mr Chester for his Report.

By order of the Lieutenant Governor of Bengal,

F A. SLACK,

Offg. Secy to the Govt of Bengal.

RESOLUTION REVIEWING THE DIVISIONAL REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING 1897-98.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERMENT

Calcutta, the 8th December 1898.

RESOLUTION—No. 6992L.S.G.

READ—

The reports from Commissioners of Divisions on the working of the District Boards in Bengal during 1897-98.

Read again—

The Resolution reviewing the Divisional Reports on the working of District Boards in Bengal during 1896-97.

It is satisfactory to observe that all the Divisional Reports were received within a week of the date fixed for their submission to Government, viz 31st July, except in the case of the Orissa, Rajshahi and Presidency Divisions, which were respectively nine, eleven and twelve days late. The improvement, as compared with the last two years, is considerable.

2. *Constitution of District Boards*.—As in the previous year, the 38 District Boards in Bengal contained in all 794 members. Of these, 186 were appointed *ex-officio*, 280 were appointed by Government, and 328 were elected by Local Boards, against 182, 287 and 325, respectively, in 1896-97. The European and Eurasian members numbered 183, and natives of the country 611. During the year 571 meetings were convened, or 16 less than in 1896-97. The District Board of Puri heads the list with 22 meetings, Saran comes next with 21, and the District Boards of Jessore and Jalpaiguri follow with 20. On the other hand, the District Board of Murshidabad met only nine times, and no explanation has been given of the neglect in this instance of the rule that a meeting shall be held at least once a month. The attendance was best in Chittagong and worst in Backergunge and Saran. The attendance of the official members was 3·7 against 3·6 in 1896-97, and that of the non-official members 7·0 against 7·3. The number of meetings that were adjourned, together with those that were entirely abortive, owing to the absence of a quorum, amounted to 61 against 54 in the preceding year, these failures were too frequent in Saran, Puri, Jalpaiguri, Faridpur, Gaya and Muzaffarpur.

3. *Constitution of Local Boards*.—The 104 Local Boards were composed of 1,253 members, or two less than in the previous year. Of these, 39 were *ex officio* members, 801 were nominated and 413 elected, against 43, 794 and 418, respectively, in 1896-97; officials numbered 151 and non-officials 1,102, while the total of Europeans and Eurasians amounted to 103 against 1,150 natives of the country. The total number of meetings held was 1,165, or 16 more than in 1896-97. Of these, 202, as compared with 182 in the previous year, had to be adjourned, or proved abortive owing to failure to form a quorum. Only 32 Local Boards, as against 38 in the previous year, held more than 12 meetings, the Jajpur Local Board standing first with 20 meetings. No less than 54 Local Boards failed to meet once a month, and four of these, viz., Satkhira, Dinapur, Siwan and Ramganj held four meetings or less during the year. The Ramganj Local Board indeed met once only during the year, the reason assigned (which the Commissioner and the Chairman of the District Board rightly consider inadequate) being that there was not sufficient business

to require any other meeting, since the executive functions of the Board were generally exercised by the Chairman and the Vice Chairman There was a falling off generally in the attendance of non-official members, which is attributed chiefly to want of interest in their work

4. *Elections.*—No general elections were held in any district during the year, except in the Ghatal subdivision of the district of Midnapore In two out of the three thanas of this subdivision, the elections failed and the members had, therefore, to be appointed by Government.

5 *Occupation of members.*—The figures showing the occupations of the members of District and Local Boards are given in the following table Compared with the figures of the previous year, the variations are very slight

	Government servants.		Zamindars, &c.		Pensioned and retired servants.		Planters		Missionaries.		Government pensioners.		Other occupation		Total number of members
	Number	Ratio per cent.	Number	Ratio per cent.	Number	Ratio per cent.	Number	Ratio per cent.	Number	Ratio per cent.	Number	Ratio per cent.	Number	Ratio per cent.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
District Boards	207	29 3	244	34 7	172	24 3	66	7 4	4	·5	12	1 8	48	5 7	704
Local Boards	194	15 3	571	45 5	333	26 4	47	3 7	4	·3	33	2 6	111	8 8	1 263

6. *Powers of Local Boards.*—The powers delegated to the Local Boards remained unchanged during the year, except that the Narainganj Local Board, in the district of Dacca, was not entrusted, as in previous years, with the supervision of the sanitary arrangements at the Nangalbund Fair, and that the Rampur Hat Local Board was relieved of the management of eight scheduled roads, a management which was found to be only nominal, since the real control was exercised by the District Board through the District Engineer

7 *Union Committees.*—The subjoined table shows the constitution, income and expenditure of the several Union Committees,—

Name of District	Name of Union	Date of establishment.	Area in square miles.	Population.	Number of members.	Number of meetings held.	Income					Expenditure				
							Receipts under the Cattle Trespass Act.	Contribution by the District Board	Receipts under section 113 of the Act.	All other receipts.	Total. The conduct of the Daspur Union Committee in submitting false bills supported by false vouchers was noticed in last year's Resolution. This Union was abolished during the year. The only other change made was in the district

of Pabna, where the Shazadpur Union was brought into working order This Committee is, however, reported to have been dilatory and wanting in energy The number of the members (469) and the number of meetings held (302) show respectively an increase and decrease of one as compared with the previous year. The total income during the year rose from Rs 18,921 to Rs. 19,881 in consequence of larger contributions from District Boards, while the total expenditure increased from Rs 13,222 to Rs 17,481 The Commissioner of Burdwan reports that the Union Committees at Contai and at Panskura worked satisfactorily during the year, but that the remaining three Unions in the district of Midnapore took very little interest in their work The Chanditola Union, in the district of Hooghly, expended the whole amount allotted to it, and is well spoken of, but the Pandua and Balagar Committees were inefficient. The Basudebpur Union, in the 24-Parganas, and all the Union Committees in Khulna are said to have worked well, and the same is said of all those in Tippera, except that at Laksham The Union Committees in the Noakhali district are reported to have had insufficient funds at their disposal, and the Commissioner thinks that, if the District Boards cannot furnish them with more funds, they might be dispensed with. In Balasore the five new unions formed in 1896, with the exception of that at Remuna, appear to have done little or nothing The Commissioner of Burdwan makes the following remarks —

"The Union Committees are as yet but infant institutions, but, judging from the working so far, it cannot be said that their utility has been in any degree commensurate with the trouble they cause to District Boards and local officers So long as they have only infinitesimal sums to manage,—and it is practically only by local taxation, which will never be adopted, that these sums can be increased,—I fail to see why we should expect anything from these Union Committees It is impossible for District Boards to increase their allotments to any extent, and it is in only a very small number of cases that these Committees are likely to do good I except cases like that of Contai, where a Subdivisional Officer directly works the Committee"

8 Owing to the scarcity which prevailed in Bengal during the years 1896 and 1897, it was not considered advisable to proceed with the formation of Union Committees. Since then the Lieutenant-Governor has had before him statistics of the working, for an entire year, of a number of Unions which were constituted in certain districts in the year 1895-96 These illustrate the financial and administrative difficulties which have to be met, and throw some doubt upon the expediency or possibility of extending the system to any substantial extent without seriously interfering with the financial resources of the District Boards Sir John Woodburn has, therefore, decided that for the present no more Union Committees shall be formed, and that, as regards those already constituted, their working shall be carefully watched and reported on fully in the annual reports on District and Local Boards, in order that it may be seen whether any further extension of the system is possible in the future

9 *Financial Results.*—The income and expenditure of the District Boards under the various heads during the past two years are shown in the following statement —

Total ..	70,93,454	69,07,397

10 The year opened with a credit balance of Rs. 15,88,769 (corrected figures), and the total amount available for expenditure was Rs. 86,93,834 against Rs 86,79,666 in the previous year. The year closed with a credit balance of Rs 17,86,437. Out of this sum, however, more than one and a half lakhs consisted of deposits The closing balances were more than one third of the year's income in Hooghly, Howrah, Jalpaiguri, Rangpur, Dacca, Purnea, Cuttack, Tippera, Gaya and Muzaffarpur. No reason for keeping so large a balance has been given in the cases of the Hooghly, Rangpur, Howrah and Jalpaiguri District Funds. In the case of Tippera it is explained that a large contribution made by Government for the construction of a new telegraph office, some new buildings in the Jail compound, and some out-houses of the circuit-house, remained unexpended In Gaya, the large balance is said to be due to the budget allotments for original and repair works not having been fully expended, and in Muzaffarpur to the fact that the amount set apart from the savings from other works for payment of compensation for lands anquired for famine relief works, was not spent during the year As regards Dacca, the Chairman says that the balance is much in excess of what is required, but that, as the Board has a working programme which will absorb all its resources for some years to come, no difficulty will be felt in deciding how to reduce it The heavy balance in Purnea is said to be due to the District Engineer not having been able to work up to the allotment for earth-work in consequence of the scarcity of labour and want of materials, while in Cuttack it is explained that the actual income exceeded the estimated receipts, and the District Board found itself unable to spend the whole amount allotted to original and repair works

INCOME

11 *Provincial Rates* —The proceeds of the road cess credited to District Funds, after deducting the cost of collection and of periodical revaluation, increased from Rs 37,73,615 to Rs. 39,16,230 during the year, chiefly owing to revaluations and to better collections All the districts in the Orissa Division, however, show a decrease, which in the case of Balasore is not explained; in the case of Puri is said to be due to increased expenditure on process fees, and in the case of Cuttack is merely put down to short collection of road cess.

12 *Interest* —The income under this head shows a slight increase, which is attributed, as in the preceding year, to the larger collection of arrears of road cess

13 *Pounds.*—There was an increase of 147 during the year in the number of pounds, but a decrease of Rs. 3,720 in the total income derived from them This occurred in the Rajshahi, Presidency, and Bhagalpur Divisions, in the case of the first it is ascribed to the effects of the scarcity and the earthquake, in the case of the two latter different explanations are given for different districts. In some few districts it is reported that the new pound forms have caused improvement, but the general complaint still is that the pound farmers and their representatives are too illiterate to understand,

or else too negligent to keep up these forms Leases of pounds were granted for more than one year in certain districts of the Presidency and Bhagalpur Divisions, in Muzaffarpur, in Sirajganj, and in other places, and in these instances a better class of pound farmers was obtained Pounds were inspected, as usual, by Government and District Board officials. The Magistrate of Hooghly complains of the perfunctory character of the inspections made by Sub Inspectors of Schools and sub-overseers, and says that a wholetime officer responsible for the proper management and improvement of pounds would be of great use. Special Inspectors of Pounds were employed in some districts, but were not in all instances found satisfactory. At Birbhum this official was suspended and fined during the year, and at Midnapore the appointment was abolished, and the duties, so far as the sadar subdivision was concerned, given to a lately appointed Veterinary Assistant, while in Faridpur the Commissioner of Dacca points out that the District Board spent over Rs 1,000 a year on their special Inspector, although their average annual income from pounds is only Rs 5,000. Irregularities on the part of pound farmers and pound-keepers are reported from Jessore, Dinajpur, Pabna, Backergunge, Gaya, Monghyr, Balasore and Puri. The worst case was at Bhola in the Backergunge district, where the servants of the pound farmer were sent out to seize cattle, and attempted to impound 50 buffaloes. Three of the culprits were sentenced to six months' imprisonment.

14 *Education* —The receipts under this head rose from Rs 53,99 to Rs 65,879. This increase is said to be due to a larger number of boys attending the schools, larger collection of fees at the Lower Primary Scholarship examinations, larger receipts from the sale of articles manufactured in the workshops of the technical schools, and to donations from private individuals

15 *Medical.*—The increase of income under this head was chiefly due to larger contributions made by private individuals to hospitals and dispensaries

16 *Scientific and other Minor Departments* —Receipts under this head are reported from four districts only, viz., 24-Parganas, Dacca, Gaya and Saran to meet the cost of certain sanitary arrangements made at fairs in those districts.

17 *Miscellaneous* —By far the largest increase under this head occurred in Darbhanga, and was mainly due to adjustments of account connected with famine expenditure

18 *Minor Works and Navigation.*—There was a falling off in the canal revenue in Chittagong in consequence of the heavy loss sustained by the farmers from the cyclone The rent derived from the fishery in the drainage channel along the Diamond Harbour Road declined from Rs 200 to Rs 140

19. *Civil Works* —Of the several items which make up the total under this head, receipts from ferries alone call for notice. Compared with the previous year there was a falling off of Rs. 1,840. A decrease occurred in 20 districts viz, Birbhum, Midnapore, Hooghly, Nadia, Murshidabad, Jessore, Rajshahi Jalpaiguri, Rangpur, Bogra, Dacca, Mymensingh, Faridpur, Tippera, Noakhali, Patna, Muzaffarpur, Bhagalpur, Balasore and Puri No explanation of this is given in the case of Hooghly, Rajshahi and Bogra, in the other districts the reasons assigned are various. The most remarkable of these is that given for Rangpur and Mymensingh, where large remissions had to be granted to the ferry farmers in consequence of the earthquake of June 1897, many ferries being rendered fordable by the upheaval of the beds of the rivers The ferry boats and the landing-stages to the approaches to the ferries appear generally to have been kept in good order Ferry farmers were prosecuted during the year in Murshidabad, Pabna and Puri Complaints of delay in crossing mails are reported only from Gaya and Cuttack in both of which districts the boatmen in fault were punished In Darbhanga the farmer of a ferry resigned his lease, and took it again in the names of his servants on a considerably reduced *jama*, but the case was enquired into, the *benamidars* agreed to pay the original *jama*, and no further proceedings were taken. The Chairman of this District Board states that *benami* transactions with regard to ferries are so numerous that steps are being taken to ascertain the solvency or otherwise of each farmer before giving him lease. The Lieutenant-Governor would have supposed that this precaution would always be taken in any case.

20 *Contributions* —The grants made by Government and contributions from private individuals for special works fell off from Rs. 10,46,159 to Rs 7,13,853 The contributions made by Government to equalize the assets and charges of the several District Boards also decreased from Rs 5,13,012 to Rs. 5,11,128. In both cases the decrease was chiefly due to smaller grants made by Government

21 *Loans* —The sum of Rs 7,000 shown against Chittagong represents the balance of the contribution of Rs 13,000 made by Babu Prosanna Kumar Rai for the re excavation of Sagolbaha Canal.

22 *Deposits and advances.*—The sums deposited as security for the payment of revenue by ferry farmers, contractors and others, and the recoveries and adjustments on account of advances made from District Funds increased from Rs 5,07,780 to Rs 5,24,827 This increase was due to casual variations of no special importance.

EXPENDITURE.

23 *Refunds* —The sum of Rs 187 shown under this head against Murshidabad represents the refund in that district of road cess collections which were not legally realizable.

24 *Administration* —The expenditure under this head fell from Rs 2,98,761 to Rs 2,82,770 The various reasons assigned for the decrease are the abolition and amalgamation of posts, the appointment of new men on salaries lower than those which the old incumbents drew, and the transfer of the amounts charged in the accounts under the head "Payment of establishment for offices of account and control" to the head "Contributions to Provincial" in accordance with instructions from the Accountant-General, Bengal.

25 *Rules for the management of Provident Funds.*—A new rule directing that no public account may at any time have more than Rs 10,000 at its credit, exclusive of interest, and that no interest will be allowed on any sum in excess of Rs 10,000, was added by the Government of India to the Post Office Savings Bank Rules. As this rule affected all Municipalities and District Boards, in whom the management of Provident Funds is vested, Commissioners of Divisions were requested to impress upon those bodies the necessity of arranging with the Comptroller-General for the investment in Government securities of all deposits exceeding the prescribed maximum limit of Rs 10,000

26 *Pounds* —The expenditure on cattle pounds amounted to Rs 21,234 against Rs 10,873 in 1896 97 The largest increase was in Patna, and is said to be chiefly due to the repairs which were undertaken during the year

27 *Education.*—The following abstract, which has been compiled from Appendix B, shows the educational expenditure of District Boards during the last two years —

	1896-97	1897-98.
	Rs.	Rs
Inspection		
Sub-Inspectors	1,83,180	1,92,691
Inspecting Pandits	90,527	89,025

In all the districts of the Patna Division, and in the Jessore, Jalpaiguri, Backergunge, Chittagong, Monghyr, Bhagalpur and Purnea districts, the percentage of expenditure on education was below the average for the whole province, which was 20·3. The proportion was highest in Balasore, where 41·3 per cent of the income of the District Board was spent on education; in Bankura, Pabna, Dacca, Faridpur, Cuttack and Puri it was 30 per cent or more, while 17 other districts show an expenditure of 20 per cent and over. In Shahabad the proportion was below 10 per cent. of income. With regard to the proportion spent on primary education, Balasore has a ratio of 32·1 per cent, while in Bankura, Dacca, Faridpur, Noakhali, Cuttack and Puri the expenditure was 20 per cent or more. In Jalpaiguri, Gaya, Shahabad, Saran and Muzaffarpur it was below 10 per cent.

29 The number of schools maintained by District Boards, as shown in Subsidiary Table III appended to the Departmental Report on Education, fell off from 179 to 174. The number of pupils, however, increased during the year from 11,023 to 11,487, the increase occurring chiefly in high and middle schools. The number of schools aided by District Boards decreased by 3,324, and the number of pupils attending them by 71,279—a result which is to be ascribed to the scarcity that prevailed during the year. The number of industrial schools maintained by District Boards was six, as in the previous year, but the number of scholars in them increased from 211 to 247. The following table, which compares the number of girls' schools aided by District Boards and the number of pupils attending them during the past two years, shows that there was a marked falling off during the year under review:—

	1896-97.		1897-98.	
	Schools.	Pupils.	Schools.	Pupils.
Upper Primary	71	1,703	53	1,089
Lower „	1,939	31,000	1,682	27,579
Total	2,010	32,703	1,735	28,668

30 In Circular No. 538 513T. G., dated the 15th September 1897, Government expressed a desire that in certain districts, where the Muhammadan population preponderated, a proportion of the Sub-Inspectors of Schools should if possible, be qualified Muhammadans. No opportunity occurred of giving effect to this during the year in Dacca, Mymensingh or Faridpur, but in Backergunge, on a vacancy occurring, a Muhammadan was chosen to fill the post. The District Boards of Bhagalpur, Monghyr and Purnea are reported to have their due proportion of Muhammadan Sub-Inspectors.

31 The Director of Public Instruction has recorded the following observations regarding the educational work of District and Local Boards in his Annual Report for the year 1897-98:—

"*District Boards*.—Harmonious relations between the District Boards and the Department are reported from the Presidency Division. No friction of any kind is reported from any of the districts of the Burdwan Division, but delay in the transaction of educational business is reported as a general failing, more particularly in regard to the passing of grant-in-aid and reward bills, this was remarkably so in the case of the office of the Midnapore District Board, where primary school bills were so much delayed that cheques issued for more than Rs. 11,000 remained uncashed at the close of the year. From the Rajshahi Division relations are described as having been 'generally cordial.' Harmony is also reported from the districts of the Dacca and Chittagong Divisions. From the Patna Division the report is that 'relations have been of the most cordial and satisfactory nature in practically every district throughout the year.' Harmonious relations between the Boards and the Department are also reported from the Bhagalpur and Orissa Divisions.

"Instances of considerate and well-timed charity are reported from the districts of Patna Gaya, Saran, Champaran and Muzaffarpur, where the Boards granted relief to the poorer masters, drawing less than Rs. 50 a month, by allowing them to have educated one son free and one son at half the usual rates in schools under their control

"*Local Boards.*—The work of these bodies is generally confined to the award and transfer of stipends allotted for primary schools and the passing of reward and stipend bills and the issue of cheques in payment for the same. They are also supposed to check the work of inspecting pandits, but I believe this is a duty which they perform in a very unsatisfactory manner In my opinion it would be better not to require Local Boards to deal with any educational matters. All business of this kind had much better be transacted by the District Boards aided by their Educational Sub-Committees

"The allotments from District Funds were Rs 7,46,616, against Rs 7,53,21[illegible], but the savings effected by the Boards came to very nearly 10 per cent of their allotments in 1897 98 It is no doubt true that these bodies found that there were excessive demands upon their purses for other purposes, but yet I hardly think that the cause of primary education should have been allowed to suffer to so very great an extent It is particularly unsatisfactory to find that the miscellaneous charges were allowed by the Boards to increase from Rs 2[illegible],194 to Rs 24,348, while their direct payments to the teachers of the schools were allowed to fall from Rs 5,49,961 to Rs. 4,93,126

"It seems to be beyond question that the District Funds are in most instances, so inelastic that it will be impossible for District Boards to make larger allotments for primary education than were made in the year 1896-97 I trust that ere long Government may be able to see its way to increasing its assignment to the Boards When this can be done, it should be made a special condition of the grants that the Boards are to keep up their former payments for primary education, and that the new allotments are to be regarded as supplementary to the grants formerly given by the Boards for this purpose This condition should be kept in view by the Department, and Deputy Inspectors of Schools should be required to keep the Inspectors informed when this special condition is being lost sight of In case extra allotments are made, the districts which will require the lion's shares will be the very backward districts of the Divisions of Patna, Bhagalpur, Rajshahi, Chota Nagpur, and the Tributary Mahals of Orissa"

32 *Special Schools* —The following details are gathered from the Divisional Reports The Maisadal Raja's technical school, which is managed by the District Board of Midnapore, was during the year affiliated to the Sibpur Engineering College, as was also the technical school at Barisal The number of pupils in the Apprentice Department of the Comilla Elliott Artizan School, which is also affiliated to Sibpur, increased by ten, and six pupils obtained certificates of proficiency The District Boards of Howrah, Midnapore, Cuttack, Tippera and Noakhali continued to award scholarships to pupils to enable them to study at Sibpur The Noakhali District Board also gave a native of the district a scholarship tenable at the Calcutta School of Art, and the Cuttack District Board granted four scholarships for education at the Jobra Workshops With the exception of Purnea, all the District Boards in the Patna and Bhagalpur Divisions continued to award scholarships for the Bihar School of Engineering The District Board of Rajshahi opened a sericultural school at Rampur Boalia during the year

33 *Female Medical Education.*—Scholarships to female medical students were granted by the District Boards of the 24-Parganas, Dacca, Mymensingh Backergunge, Faridpur, Tippera, Patna, Shahabad, Rangpur and Darbhanga The District Boards in the Burdwan Division and the Muzaffarpur, Noakhali and Chittagong District Boards offered scholarships, but no candidates came forward The District Board of Gaya continued to pay for the employment of a native midwife and menial staff in the Female Ward attached to the Gaya Pilgrim Hospital with the object of training them in midwifery The employment of the female student attached to the Motihari Municipal Dispensary was discontinued at the beginning of the current year

34 *Medical* —The total outlay under this head amounted to Rs 3,03,657, being Rs 91,494 more than in the previous year, an increase being found under all heads except that of scholarships in medical schools More than half this increase, however, is attributable to the expense of the construction of the plague observation camps at Mairwa and Chausa Leaving this out of account, all the Divisions show an increase in their medical expenditure, although in Dacca and Rajshahi the increase is very small

35 The following table shows the proportion of total income which was expended by each District Board on medical charity.—

Names of District Boards	1896-97.		1897-98.	
	Total medical expenditure	Percentage of medical expenditure on ordinary income.	Total medical expenditure.	Percentage of medical expenditure on ordinary income

Total	2,42,163	3·7	3,03,597	4·1

36 A new dispensary was opened at Budge-Budge in February 1898, the total cost sanctioned for its maintenance being Rs. 900, of which Rs. 300 were contributed by the District Board of the 24-Parganas, Rs. 500 by the

Port Commissioners and Rs 100 by Messrs Bird and Company. Two new dispensaries were opened by the District Board of Khulna at Kaliganj and Tala during the year five by the District Board of Backergunge at Tazumuddi, Nazirpur, Manpura, Rajapur and at Bakai two by the District Board of Champaran at Dhaka and at Kisseria two by the District Board of Monghyr at Sangrampur and at Baktiarpur, and one by the District Board of Cuttack at Patamundai. The District Board of Backergunge provided for ten additional minor dispensaries, which it was decided to open in the course of the current year. As regards Veterinary science, Veterinary Assistants were employed during the year by the District Boards of Cuttack and Tippera, and in Birbhum a Veterinary Assistant was employed for a short time during an outbreak of cattle-disease at Murarai This officer, although he found difficulty in persuading the people to adopt his remedial measures, treated 274 cases of rinderpest, 186 of which resulted in cure, 4 in relief, and 84 in death. The District Board of Cuttack agreed to subscribe a sum of Rs 40 per mensem towards the maintenance of a Veterinary Institution The District Boards of Hooghly, Bogra, Chittagong, Shahabad and Cuttack granted monthly stipends to students to enable them to study in the Veterinary Institution at Belgachia. As regards the treatment of women, the Bankura and Hooghly District Boards contributed Rs. 275 and Rs 1,200, respectively, towards the maintenance of branch hospitals established by the Dufferin Fund The District Boards of Burdwan, Bogra and Jalpaiguri continued to contribute towards the pay of the lady doctors and midwives attached to the local hospitals, midwives were also employed at the cost of the District Boards of Noakhali, Birbhum and Pabna, and the Local Boards of Tangail, Netrokona, and Kishenganj, and a lady doctor by the Local Board of Jamalpur As regards cholera, the District Boards of Midnapore, Bogra, Noakhali and Cuttack gave gratuitous medical relief to patients, and the District Board of Chittagong employed Hospital Assistants to suppress the epidemic of cholera which appeared after the cyclone The District Board of Bhagalpur distributed packets of drugs to the people in the interior, and in Backergunge the District Board have purchased boxes of simple medicines, which they intend to entrust to panchayats for distribution as required The District Board of Chittagong entertained 12 paid vaccinators during the year, and the District Board of Cuttack spent Rs. 660 in aiding to combat an epidemic of small-pox.

37 In the year under review many exceptional demands were made upon District Funds, and the increased allotment for medical expenditure is, therefore, the more satisfactory In last year's Government Resolution it was stated that it was doubtful whether any substantial increase could be looked for unless means could be found of adding materially to the resources of the Boards Within the limits of the Board's existing resources, however, the demands of medical charity must be allowed their full share, and an endeavour must be made gradually to work up to something more nearly approaching the scale of medical expenditure which obtains in other provinces

38 *Sanitation*.—Particulars of the sanitary works undertaken by District Boards during the year are given in Form No IV annexed The total expenditure of the year amounted to Rs 2,64,743 against Rs 1,86,060 in 1896 97 as shown in the margin. The advance is satisfactory, but the total sum spent still represents only 4 4 per cent of the ordinary income of the District Boards during the year. In some districts, too, the expenditure is insignificant, in Bogra [illegible] and in Jalpaiguri only Rs 480, while in Balasore only Rs [illegible] increase is shown in the sums spent [illegible] Divisions except Patna and Burdwan [illegible] head, although in 19 districts [illegible] was not attained Quarterly [illegible] Government throughout the [illegible] is being paid to this

	1896-97 Rs	1897-98. Rs
Improvement of water-supply	1,51,268	2,56,544
Ditto of village sites	7,816	7,005
Conservancy of towns and villages	897	3,084
Sanitation at fairs	8,295	7,888
Other sanitary expenditure ..	17,794	24,272
Total ..	1,86,060	2,64,743

important subject The largest amount was expended by the District Board of Bhagalpur, where Rs 42,655 were spent on the excavation and improvement of tanks as relief works in Supaul and Madhipura In the 24-Parganas there was a decrease, as the necessity for expenditure caused by the drought of the preceding year did not exist. The Chairman of the Howrah District Board complains that a tank excavated by the District Board at Khalna, on the understanding that it would be reserved for drinking purposes, was found to be used also for bathing, he complains also of mischief done to tube and ring wells To prevent this, an attempt should be made to give effect to the suggestion made in last year's Resolution that some person of local influence might be induced to take charge of the wells in his own village. The Magistrate of Faridpur also regrets the unpopularity of well as compared with tank water, since to excavate a tank costs Rs. 1,000, and re-excavation, which may very likely fail, Rs 500 In Dacca, on the other hand, it is stated that the conspicuous success of tube-wells at the Nangalband fairs seems at last to have decisively influenced public opinion in their favour. The expenditure rose from Rs 17,368 to Rs. 27,962 in Mymensingh. The money was devoted to the excavation or improvement of 60 tanks and 98 wells, unfortunately many of these were damaged by the earthquake In Backergunge Rs. 14,644 were spent against Rs 7,320 in the previous year, and it is proposed to reserve at least one tank in each of the 509 chaukidari villages in the district

39 The two registers of water supply prescribed by Government under orders dated 15th May 1896, are reported to have been completed in all districts except Faridpur, Bankura, Hooghly, Midnapore, Pabna, Puri, Malda and Purnea, and in the Patna Division from which no information has been furnished Till these have been completed, no general statement showing the progress throughout the province can be prepared.

40 The expenditure on sanitation at fairs is chiefly composed of grants of Rs 3,370 by the District Board of Saran towards Sonepur and the other smaller fairs in the district, Rs. 2,750 by the District Board of the 24-Parganas towards the Ganga Sangor and Harwa *melas*, and Rs 336 by the District Board of Birbhum for the Kenduli and Bakreswar *melas*. The greater part of the expenditure on other sanitary objects is accounted for by a contribution of Rs 10,000 by the Gaya District Board towards the Chausa Inspection Camp, and a contribution of Rs. 5,000 by the Shahabad District Board to the Arrah Municipality for conservancy and other measures.

41 *Scientific and other Minor Departments.*—Two bulls at Pabna and Sirajganj were still maintained by the District Board of Pabna, but it is reported that no use was made of them during the year. The District Board of Shahabad continued to maintain an Arab stallion at Buxar, but declined a donkey sire offered them by the Government Veterinary Department.

42 *Stationery and Printing* —The total outlay under this head was Rs 49,282, which is Rs. 3,851 less than the previous year's expenditure

43 *Miscellaneous.*—Miscellaneous charges fell from Rs 62,607 in 1896-97 to Rs 47,087 in 1897-98, chiefly owing to the transfer of the charges for staging bungalows to the proper head under "Civil Works."

44 *Famine Relief.*—The total expenditure was Rs. 1,90,592 against Rs 2,86,990 in the previous year, Rs 59,882 being spent on charitable relief, Rs 1,08,874 on public works and Rs 21,836 on miscellaneous works The District Board of Bhagalpur spent Rs. 66,012 and the District Board of Bankura Rs 35,492.

45 *Civil Works* —The following table shows the expenditure on public works during the past two years:—

Year.	Establishment, contingencies and refunds.	Original works.	Repairs.	Establishment and contingencies.	Tools and Plant.	Water-supply and water-works.	Drainage works.	Total.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1896-97 ..	26,[illegible]	[illegible]	19,81,779	6,93,973	30,826	95,973	12,744	40,23,157
1897-98 ..	20,[illegible]	[illegible]	20,07,903	5,72,[illegible]	24,5,5[illegible]	1,29,770	5,370	37,56,713
Difference ..	—7,[illegible]	—[illegible]	+26,124	+6,[illegible]	+3,[illegible]	+33,797	—7,374	—2,66,444

The total expenditure shows a decrease of Rs 2,36,445, which occurred chiefly under the head of "Original Works." The decrease was largest in the Patna Division, where it was necessary to curtail the allotments for these works, in order to provide funds for famine relief. The most important works taken in hand during the year were the construction of a new Court-house for the Magistrate of Burdwan at a cost of Rs 40,694; the construction of a girder bridge over the Paimer river on the Gaya-Nawada road, at a cost of Rs. 27,821, the construction of a Subdivisional Court house at Patuakhali at a cost of Rs 10,099, the construction of an iron bridge over the Tushkhali Matharia khal at a cost of Rs 12,751, the construction of a portion of the road from Jamalpur to Madarganj at a cost of Rs 9,814, the improvement of the Sonbarsa road, which is an important feeder road to the Sitamarhi station on the Tirhut State Railway, the arching of thirteen timber-topped bridges and culverts in the district of Muzaffarpur and the construction of a school building at Monghyr

46 An examination of Appendix C will show that throughout the province the average proportion which the cost of Civil Works bore to the total expenditure of District Boards was 56 9, the percentage rising to 72 5 in Jessore and 71 2 in Burdwan, and falling to 29 7 in Saran and 30 7 in Bogra The percentage of the cost of establishment on total expenditure (column 10) was 9·4 for the whole province against 9 1 in 1896 97 It reaches 15 0 in Jalpaiguri and 13 2 in Gaya, while in Bogra it stands at only 4'8 For the province generally the salary of the District Engineer represents 36 per cent of the total cost of establishment, though in Rajshahi it mounts to 53 7 per cent Column 12 of the statement shows what proportion is borne to the expenditure on original works and repairs by the cost of establishment The mean for the province is 22·5, but this is exceeded by 18 districts, and in Saran the percentage reaches 77·1. The ratio borne by the District Engineer's salary to the expenditure on original works and repairs is shown in column 13. The average is 8 1 per cent, but 10 per cent is exceeded in 10 districts, Saran, Purn, Champaran and Shahabad in the order named showing the highest figures

47 *Village Roads*.—The total expenditure on village roads in each Division decreased during the year, as shown by the statement in the margin The decrease is shared by all divisions except the Presidency and Patna All the scheduled roads under the Local Boards in the districts of Monghyr, Bhagalpur and Purnea are now being treated as district roads, and, with the exception of Rs. 40 spent in Malda, no expenditure was incurred by the District Boards on the maintenance of village roads in the Bhagalpur Division. The Magistrate of Birbhum remarks that the division of the village road allotment into equal shares amongst all the village roads, irrespective of their requirements, of which he has known an instance, merely results in waste of money, while, on the other hand, if the expenditure is restricted to the important roads only, the minor roads are neglected. Distribution of the annual allotment amongst a few village roads taken in rotation, according to their importance and requirements, and with reference to the amount spent on them in previous years, is, in his opinion, best calculated to ensure the proper maintenance of the roads. This view is obviously correct and it is the plain duty of the Magistrate, who is also Chairman of the District Board, to prevent so absurdly wasteful an arrangement The Magistrate of Midnapore observes that during his tour he has hardly seen a single village road in a state of decent repair, and in his opinion, the Local Boards neglect all supervision of the work on those roads. The Lieutenant-Governor would take this opportunity to draw the attention of all District Boards to the remarks made on the subject by the Commissioner of the Burdwan Division, which were reproduced in paragraph 48 of the Resolution for the year 1895 96.

		1896 97 Rs	1897 98 Rs
Burdwan	Division ...	86,898	81,8·2
Presidency	,,	31 925	81,242
Rajshahi	,, ...	19,492	18,656
Dacca	,, ...	73 472	68,551
Chittagong	,,	41,006	90,681
Patna	,,	38,722	44,229
Orissa	,,	22,579	19,046
	Total	2,64,103	2,34,235

48. *Water communication*.—The District Board of Pabna undertook the improvement of the Telkapi khal in the Sirajganj subdivision, and also

subsidized a service of *gayna* boats on the line between Pabna and Kushtia on the Eastern Bengal State Railway, with a view to its eventually supplanting the costly steamer service The District Board of Dacca expended Rs. 3,087 on the improvement of the Buriganga, Dhaleswari and Ichamati rivers The District Board of Mymensingh undertook the survey of certain khals with a view to their improvement, and have under consideration projects for clearing certain important water channels of the district, which were blocked up by the earthquake of June 1897. In Dacca a new tow-path from Jamalpur to Kaliganj, a length of about 4½ miles, was constructed along the right bank of the Lakhya river, and the tow-path from Barama to Lakhyapura on the bank of the Banar river was repaired. In Noakhali it is stated that all the important navigable artificial channels were during the rains cleared of obstruction The opening of the Sikal Baha Canal in Chittagong is said to have much facilitated communication with the southern part of the district.

49 *Steam communication.*—The District Board of Dacca continued to maintain steam communication between Narainganj and Munshiganj, which during the year yielded a net profit of Rs 2,57.. to the Board In Noakhali the District Board continued their subsidy of Rs 2,400 to the steamer service between Barisal and Noakhali, and the District Board of Pabna their subsidy of Rs 5,000 to the service between Pabna and Kushtia. A temporary service was also kept up with Sandwip during the cold weather

50 *Miscellaneous Public Improvements.*—The statement below shows the expenditure incurred by the several District Boards in the maintenance of trees on the sides of roads —

	Rs.		Rs.		Rs
Burdwan	4,050	Dinajpur .	866	Chittagong	1,707
Birbhum	1,320	Jalpaiguri ...	319	Gaya	1,359
Midnapur	90	Rangpur	1,139	Shahabad	705
Hooghly	378	Bogra ..	187	Saran	426
Howrah .	497	Pabna ...	1,008	Champaran	2 5
24 Parganas	838	Dacca .	795	Monghyr	3,173
Nadia	501	Mymensingh ..	602	Bhagalpur	1,497
Murshidabad	145	Faridpur .	106	Purnea	1,130
Jessore	639	Backergunge	82	Malda	204
Khulna	275	Tippera ...	815	Balasore	90
Rajshahi ...	243	Noakhali .	1,515	Puri	335

The District Board of Backergunge also maintained the Public Works embankment at Bhola at a cost of Rs 86, and spent Rs 155 in repairing the jetties at Patuakhali and Bhola The District Board of Purnea spent Rs 601 on the survey and gauge reading of the Kosi river, and Rs. 431 on the maintenance of the Bolwa and Kosi bunds

51 *Railway feeder roads.*—The District Board of the 24-Parganas spent Rs 1,256 on the metalling of the southern section of the feeder road to Akra Station on the Budge Budge Railway, and Rs. 1,084 on the acquisition of land required for the construction of a feeder road from the Halishahar Railway Station on the Eastern Bengal State Railway to the village of Halishahar The repairs to the Kissenganj-Hanseda feeder road, in the district of Nadia, which were begun in 1896-97, were nearly completed during the year The road leading to the Khoksa Railway Station, and other existing feeder roads in the same district and the three railway feeder roads in the district of Khulna, were maintained in good order. The important feeder road from Tangi to Kaliganj in the district of Dacca was much improved during the year at a cost of Rs. 5,392 In Burdwan land was acquired for the construction of a feeder road from Debipur Railway Station to the village of Debipur, and work commenced during the year In Tippera four feeder roads were constructed at a total cost of Rs 3,853, in Noakhali three at a cost of Rs. 3,592, and in Chittagong eight at a cost of Rs. 8,434. A feeder road was constructed by the District Board of Purnea from Kasba bazar to Kasba Railway Station.

52 *Railways and Tramways.*—Some progress was made during the year in the construction of the Ranaghat-Krishnagar Tramway, and it is hoped that the line will be opened by the 31st of March next. The construction of a steam tramway from Baraset to Basirhat has not yet been commenced, nor the

railway from Garhara to Katihar in the district of Bhagalpur Tenders have been invited by the District Board of Burdwan for the construction of a steam tramway over the existing road from Memari to Chakdigi with the prospect of extending it to Tarkeswar. Nothing has been done in connection with the projected railway line from Ahmadpur to Bhagalpur *vid* Suri and Dumka. A proposal for the construction of a steam tramway from Chandrakona to Burisa *vid* Ghatal is under the consideration of the District Board of Midnapore. The Howrah-Sheakhala Steam Tramway was finally completed and opened throughout its whole length in November 1897, one portion having been opened in August of that year and a second in September. The Howrah Amta Tramway was opened during the year to the extent of 16½ out of 30 miles It is stated that the line promises to be a great success financially

53. *Amendment of the Bengal Local Self-Government Act* —In view of the late famine and the measures required to guard against plague it was not considered advisable to proceed during the year with the Bill to amend the Bengal Local Self-Government Act

54 *General Remarks* —The remarks recorded by the several Commissioners of Divisions on the working of the several District and Local Boards in their respective Divisions are reproduced below.

Mr J. Kennedy, Officiating Commissioner of the Burdwan Division, writes —

"Having taken charge of the Division after the close of the year, I possess no personal knowledge of the working of the District Boards during that period It is clear, however, from the comments quoted above, that the District Boards discharged their duties in a satisfactory manner, and rendered useful assistance to District Officers as consultative bodies, a special feature of their deliberations being an entire absence of factious opposition and party spirit The attendance of the members, too, appear on the whole to have improved As regards Local Boards, there is a consensus of opinion as to their inutility, little as they had to do, that little seems to have been perfunctorily done, and, though this result is in some measure due to their want of sufficient power and scope of work, the fact remains that they have not fulfilled the expectations formed of them, and are therefore valueless as auxiliaries to district administration I fail to see how anything much can be expected from them under present circumstances, and the tendency of Local Boards to regard their overseers and sub overseers as dependent entirely on them, and not as subordinates of the District Engineer, is calculated to injuriously affect work"

Mr. C. E Buckland, Commissioner of the Presidency Division, states —

"There is a consensus of opinion that the District Boards do satisfactory work their local knowledge is valuable, and many of them have fair experience of official business But hardly one has a good word to say for Local Boards they have little money at their disposal to spend, and it is not unnatural that the members take so little interest in their unimportant duties They might well be abolished without any detriment to the district administration"

Mr P. Nolan, Commissioner of the Rajshahi Division, observes —

"I find that the official Chairmen are practically allowed to conduct the administration with little interference. Such assistance as the other members of the Board give is generally useful, though in some matters, such as the increase of establishments, their influence is not for good Where the work generally is good, the Chairman deserves most of the credit, and where it is otherwise, it is he who should take the blame

"Mr Clark, of Rangpur, says :—

"'When the bulk of the members of the District Board take a certain amount of what, for want of a better word, may be called theoretical interest in the proceedings, few, if any of them take a practical interest in the way of superintending work Personal questions, of which unfortunately we have several, arouse far deeper interest than work estimates, for example, regarding which, as a rule, no questions are asked'

"Mr Clark's view of the matter, and he is in charge of the largest district in the Division, seems to me to be correct. I may add that the residential members of the Board contribute very useful information, and that they preserve administrative traditions in such districts as Dinajpur, where the officials are constantly changed."

Mr. H. Savage, Officiating Commissioner of the Dacca Division, remarks —

"On the whole, it seems that the District Board have done good work, and have been, as in previous years, particularly valuable as advisers of the executive on account of the local knowledge of the members. Local Boards are equally useful as consultative bodies, but their executive is weak and their funds are too often wasted for want of supervision"

Mr G E Manisty, Officiating Commissioner of the Chittagong Division, says —

"Not having joined the Division till the end of the year, I do not offer any remarks of my own on the working of the District and Local Boards My predecessor's remarks for 1896 97 will be found in paragraphs 84 and 85 of the report for that year I will only say that I consider Sub r Local Boards a superfluity and a mistake"

Mr F. R S Collier, Officiating Commissioner of the Patna Division, records the following observations —

"It will be observed that the District Officers are unanimous in testifying to the interest shown in their duties by the members of the District Boards and to the value of their opinion as consultative bodies My own experience is entirely in accordance with their remarks Their criticisms as to the Local Boards are less favourable The funds which it is possible to place at the disposal of Local Boards are so small that it is unreasonable to expect the members to take any very absorbing interest in their working

"A very common criticism of the working of District Boards in this Province is that they are merely consultative bodies, and that the actual work is left to the Chairman and the paid officers of the Boards The criticism would have much more force if it were accompanied by examples of similar local authorities in other countries in which a different state of things exists I do not know where such examples are to be found, and such criticisms appear to me to refer to a utopian standard and to have, therefore, very little practical value"

Mr R Carstairs, Officiating Commissioner of the Bhagalpur Division, makes the following remarks —

"Mr O'Brien, the Chairman of the Purnea District Board, observes —

* * * * * * * * *

"'As regards the Local Boards, it will be time to expect them to take an interest when they are given something to take an interest in In Assam each Local Board performs the functions of a District Board within a subdivision, being credited with the local rates raised within its jurisdiction Thus decentralisation is most successful, and accounts for the apparent paradox that in matters of Local Self-Government, Assam is far ahead of the Bengal mufassal'

"I have no personal knowledge of the working of the District Boards in this Division during the year I sympathise with Mr O'Brien's views on decentralisation, where possible"

Mr G Stevenson, Officiating Commissioner of the Orissa Division, comments as follows —

"Having joined the Division only after the close of the year under report, I have nothing special to add here. My predecessor has left nothing on record as regards Local Self-Government"

55 The Lieutenant Governor has little to add to the remarks of Sir Charles Elliott quoted in last year's Government Resolution The year under review has been one in which the District Boards have been severely tried, and it was not, therefore, one in which constitutional reforms of any magnitude could be inaugurated. For the present no further step in the direction of decentralization will be taken, and District and Local Boards will continue unchanged. It is hoped that it will be found possible at no very distant date to take up the question of increasing their resources.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Offg. Secretary to the Government of Bengal.

FORM No I (*a*)

Statement showing the constitution of the District Boards in Bengal during the year ending 31st March 1898

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHOTA NAGPUR DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—MISCELLANEOUS

Calcutta, the 8th December 1898

RESOLUTION—No. 3615

READ—

The Annual General Administration Report of the Chota Nagpur Division for the year 1897-98

Mr Forbes was in charge of the Division throughout the year and has submitted the present report; there were no changes of District Officers, and the only office affected by transfers was that of the Subdivisional Officer of Gobindpur in Manbhum. The Division was exceptionally fortunate in this respect

2 *Tours and Inspections.*—Mr Forbes has given an interesting account of his tour which, extending over 172 days, included visits to all the districts of the Division with the exception of Palamau and to the Native States of Bonai, Gangpur, Raigarh, Udaipur, Sergujah and Jashpur. His arrangements during the early part of the year were seriously interfered with by the necessity for the supervision and control of the famine relief operations, and subsequently by the compilation of the report regarding them; and, as remarked by him, in the present state of communications in the Division, it is a physical impossibility for all parts of it and the Native States to be visited in one and the same year As it was, the Commissioner was only able to make a complete inspection of the Hazaribagh office and partially of that of Manbhum, including a thorough enquiry into the affairs of the Pachete, Barabhum and Patkum encumbered estates

The time spent by the Deputy Commissioners of Hazaribagh and Lohardaga in camp, fell slightly short of the period prescribed in consultation with the Commissioner The tours of the District Officers generally seem to have been well planned and useful, and the necessary inspections were made The Subdivisional Officers also spent the requisite time on tour.

3 *Weather and Crops, Prices, Material condition of the people*—Mr Forbes has given a full account of the vicissitudes of the different seasons of the year, the harvests reaped, and the condition of the people both in the early part of the year when famine was prevalent, and after the new crops were reaped and their prospects began to mend The statistics of rainfall are of peculiar interest as showing clearly that the prospects of the season depend upon the distribution rather than the actual quantity of the rainfall The rain measured was in every district less than the normal fall, and in Hazaribagh, Lohardaga and Singhbhum less than that of the preceding year, which had occasioned the disastrous crop failure that marked the Division, yet thanks to the timely occurrence of the showers, the different harvests in the Division generally were excellent although, at one time in Palamau and parts of Manbhum, temporary cessations of the rain raised fears of a repetition of a second famine year

Writing of the character of the different crops, the Commissioner remarks —

"On the whole, the past year, from an agricultural point of view, has been an unusually good one The autumn and spring crops were on the whole fully up to the average while the winter rice, the principal crop of the year, was everywhere a bumper one Added to this the *mahua* almost next in importance as regards food-supply to the rice crop, has been fully up to the standard in most of the districts, while the mango crop was almost the largest ever known Oilseeds and sugarcane also did fairly well, being nowhere much under a three quarter crop, and averaging for the Division 15 and 13¼ annas respectively Opium was about the least fortunate crop of the year, with a 12 annas outturn in Hazaribagh and 14 annas in Palamau. In neither district, however, is the quantity grown large."

The effects of the famine upon the people of the Division has already been discussed in a published Resolution of Government At the commencement of the year under review prices had already reached an abnormal level, and famine had declared itself As stocks ran out and the inaccessible nature of the Division rendered communication and importation difficult, prices rose still higher until they touched a pitch unequalled elsewhere in the history of the famine in these Provinces With the harvesting of the new and excellent crops they gradually fell, although, on the 31st March 1898, they were still above the normal rates Wages did not rise and, even for a time, under the stress of famine, fell The material condition of the people was, therefore, most unfavourable, with the new harvest it improved greatly, and all signs of scarcity rapidly passed away, but the Commissioner is of opinion that the famine has had effects in embarrassing the circumstances of the poorer cultivators from which it will take them more than one year of good crops to recover

The year was a most unhealthy one, the condition of the people, debilitated from want of food, was aggravated by the resort to unwholesome jungle products as a substitute for grain, and the early cessation of the rains of 1896 resulted in a deficiency of wholesome water-supply The recorded death-rate rose to 39 6 per mille from 27·3 in 1895 and 30 7 in 1896, deaths by small pox increased from 282 during the previous year to 648, by cholera, from 5,352 to 28,686, and by fever from 102,707 to 114,067 In Hazaribagh and Lohardaga the unusually high death rate of over 46 per mille was recorded

4 *Emigration and Immigration* —The statistics of the number of emigrants from the Division are necessarily very imperfect; such as they are, the figures of coolies recruited during the last three years in all districts except Palamau, under the provisions of Act I of 1882, were 15,350, 24,690 and 26,468 respectively Statistics regarding free emigration for the same period show annual totals of 11,156, 17,364 and 19,285 emigrants, the figures for Palamau being wanting The effect of the famine is seen in the increase of emigration of both descriptions The abuses of the cooly traffic are dwelt on by the Deputy Commissioner of Lohardaga, and the abolition of recruitment through *arkatis* advocated With that proposal the Commissioner agrees, but considers that the extent of the abuses has been over-estimated, and that emigration in the Division has now been in force for so long that there are few who, through their friends or relations, are not acquainted with the details of the system of recruitment and the prospects offered The matter is being separately discussed

5 *Manufactures, Mines, and Commerce* —The year was again unfavourable to the lac industry, the price of manufactured lac fell heavily, and the Calcutta market was overstocked and dull, with the result that in Lohardaga four out of six factories were closed, and in Manbhum, although 13,000 maunds were manufactured, in comparison with 13,771 maunds during the previous year, the value of the outturn declined from Rs. 6,68,500 to Rs 3,90,000 during the year under review.

The weather during the year was fairly favourable for tea cultivation, but the Commissioner remarks that the prospects of the industry in the Division are not hopeful, and that the climate and soil are not such as to produce tea of a superior quality. The famine told heavily upon the silk weavers of Manbhum, although special measures were taken for their relief

The outturn from the coal mines of the Giridih subdivision (664,694 tons) was slightly less than in the preceding year, from the Gobandpur coal fields there was a marked decrease in the output, from 1,281,294 tons in 1895 and 562,990 tons in 1896 to 417,588 tons during 1897. An important coal-mining concession was given during the year in the Gangpur Tributary State to a Bombay Syndicate. The mica industry, mostly in the mines in the Government protected forests of Hazaribagh, is increasing in importance Experience has shown that it will be probably necessary to make considerable modifications of the conditions of lease.

The Commissioner again draws attention to the isolated character of the Division generally and the want of improved railway communication, a want which was clearly felt during the recent famine when, in the Lohardaga and Palamau districts, the importation of food-grains had to be stimulated by the measure, almost exceptional in India, of the grant of loans and bounties The

figures of rail borne traffic, therefore, do not furnish a complete analysis of the trade of the Division However, so far as they go, the figures show a total export of 4,05,75,639 maunds by rail, as compared with 3,35,06,354 maunds in the previous year, and imports to the extent of 17,75,899 maunds in comparison with 14,68,687 maunds The apparent large excess of exports over imports is purely due to the large export of coal and coke, excluding the figures on this account, the balance of trade is reversed The effects of the famine are clearly seen in the increase in the amount of rice brought into the Division from 2½ and 3¾ lakhs of maunds in 1895-96 and 1896-97, respectively, to 4¾ lakhs of maunds during 1897-98

6 *Civil Justice.*—The number of original civil suits disposed of by Deputy Commissioners and Subordinate Judges was 686, or 12 less than in the previous year Fewer witnesses were examined, and only 6 03 per cent. were detained over two days as against 10 3 per cent. during 1896.

Six thousand seven hundred and seventy-eight cases were disposed of by munsifs, or 490 more than in the year preceding. The increase was chiefly under the head of title suits. The ratio of witnesses detained over two days declined from 9 2 to 7 5 per cent., although the total number examined was greater The number of rent suits disposed of rose from 5,292 to 5,490 during the year under review, there was some improvement in the promptness with which witnesses in this class of cases were examined, a matter that had been the subject of unfavourable comment in the Resolution on the Report for 1896 97

7 *Crime, Criminal Justice, and Police.*—The number of cognisable cases reported during the year was 15,642 in comparison with 8,899 during 1896, the increase of 75 per cent. over the figures for the preceding year was common to all districts of the Division, but most noticeable in Manbhum, Lohardaga and Hazaribagh The famine and the high price of food grains are given as the explanation of this very large fluctuation in crime, and although offences rose under all of the major classified heads, the increase was most marked in the case of the serious and minor offences against property which were in excess by 111 5 and 99 3 per cent. respectively of the corresponding figures for the previous 12 months. Dacoity cases rose from 45 in 1896 to 145 in 1897; robberies from 28 to 42, burglaries from 2,189 to 4,446, and thefts from 2,504 to 5,109 These figures coupled with the history of many of the cases detected, the increase in crime as the pressure of the scarcity grew more intense, and its comparative cessation when the new crops were harvested, all bear out the Commissioner's opinion that hunger was the compelling cause in a majority of offences. The corresponding increase of nearly 80 per cent. in the cognisable cases disposed of was to be expected, but it is satisfactory that, while the Magisterial staff was not strengthened, the promptness with which cases were disposed of showed an improvement, only 15 3 per cent. being remanded four times and over, as compared with 21·8 per cent. during 1896 Of cases committed to the Courts of Session, 56 2 per cent. ended in conviction, but the results were poor in Manbhum.

There was a decrease of 714 in the number of non cognisable cases instituted, contributed by the Districts of Hazaribagh, Palamau, and Manbhum, the effects of the famine are also seen in these figures.

Eight thousand two hundred and seventy-seven cases, in which 30,653 witnesses were examined, were disposed of in the Stipendiary Courts, and 1,835 cases, involving the examination of 2,541 witnesses, by Honorary Magistrates The proportion of witnesses detained over two days in the two classes of Courts was 4 7 and 6·5 per cent., respectively, as against 5 6 and 4·5 per cent, respectively, in the previous year; the results on the whole show an improvement, as more witnesses were examined in either instance. The attendance of Honorary Magistrates seems to have been on the whole fair, although more regularity might have been observed among the members of the Giridih, Ranchi, Gobindpur and Chaibassa Benches.

The realisation of criminal fines was not altogether satisfactory, and the balances outstanding at the close of the year in Lohardaga (Rs. 11,376) and Singhbhum (Rs 3,117) were especially large.

The Commissioner expresses his opinion on the working of the Police force as on the whole favourable, in comparison with other Divisions of the Province, and in striking contrast with the administration in the Native States. The isolated character of the Division places restrictions upon the class of men recruited, and close and effective supervision is handicapped by the size of the areas under the charge of individual officers. Special measures for the patrolling of the roads were taken during the famine, and are said to have been efficacious in keeping down crime. Of the total demand on account of chaukidari cess, 71 per cent; and of the current demand, 83 per cent, in all was collected. The Commissioner is of opinion that the prevailing scarcity may be accepted as some excuse for this deficiency in the sums realised, but considers that the bad results in Manbhum were in part due to the absence of efficient supervision.

8 *Land Revenue and Cesses.*—Owing chiefly to the resettlement of the Kolhan Estate in Singhbhum, the current demand on account of land revenue in the Division rose from Rs 4,16,150 to Rs. 4,27,700 during the year under review. The year at the same time opened with an arrear demand of Rs 43,122. The total collections during the year aggregated 97·2 per cent of the current, and 89·5 per cent. of the total demand. The proportion of current collections to current demand in the three classes of estates is compared below with the usual standards —

District.	Permanently settled estates.	Temporarily settled estates	Estates under direct management
Standard ...	99	95	90
Hazaribagh	99·66	98 50	95 80
Lohardaga ...	99 92	95·93	75 81
Palamau ...	91 14	84·28	52 16
Manbhum .. .	96·80	100	. .
Singhbhum ..	60 41	.	100

The short collections in permanently settled estates in Singhbhum have not been explained; the demand was, however, small and the balance insignificant, as also was the case with temporarily-settled estates in Palamau. The balance unrealised in the Government estates of the Palamau district was large, and although the Deputy Commissioner represents the impoverished condition of the raiyats in consequence of the famine, the Commissioner appears to consider that undue leniency was shown in the collections.

The collections of Road and Public Works Cess were on the whole satisfactory and amounted in all to 107 per cent of the current demand. A general re valuation of the districts of Lohardaga and Palamau was sanctioned during the year.

The certificate work in the Division is not heavy, but 37·7 per cent of the total number of cases for disposal were pending at the close of the year, although the majority was for less than six months. The settlement operations in the Mahta and Kollapal estates in Manbhum were under revision during the year, and the operations in the Palamau Government estates and in the important Kolhan estate in Singhbhum were concluded during the period under review.

9 *Wards and Encumbered estates.*—There were altogether 70 Wards' and Encumbered estates under management during the year, as against 71 in that preceding. The revenue and cesses due to Government were paid in full in all instances, except in those of the Barabhum and Patkum estates in Manbhum. The total collection of rent and cesses due to the estates under management amounted to 89·2 per cent. of the current demand and, considering the circumstances of the year, the Lieutenant-Governor agrees with the Commissioner that the result is satisfactory. Of a total debt of Rs 27,18,091 due by the Encumbered estates in charge of the Revenue authorities, the sum of Rs. 2,84,605 was discharged, or Rs. 37,385 less than the amount provided in the sanctioned schemes of management. The deficiency is explained by the Commissioner.

In the previous year attention was specially drawn to the expenditure of a suitable portion of the income of the estates under management upon the improvement of the property, as a matter equally incumbent upon Government

as the discharge with reasonable expedition of the encumbrances incurred by the proprietors The Commissioner lays special stress upon the necessity for the undertaking of surveys and records of right in these properties, the more so as when they come under the control of the Revenue authorities, their affairs are usually in a state of disorder. The Lieutenant-Governor is glad to observe that the total expenditure upon improvements increased from Rs 20,736 during 1896 97, to Rs 28, 382 during the year under review.

10 *Excise, Stamps, Income-tax.*—In the Resolution on the Report for the year 1896-97, it was remarked, as an unexpected circumstance, that in spite of the unfavourable harvests during that year, the total excise revenue still showed an increase The effects, however, of the scarcity during the year now under review are clearly shown, the revenue falling from Rs. 11,07,737 to Rs 7,84, 3 1, the decrease being common to all districts. Ninety-three per cent of the total loss of revenue was under the head of country spirit, the indifferent *mahua* crop, from which this liquor is distilled, being a special cause conducing to this result The Commissioner expresses the opinion that the offence of illicit distillation is still widely prevalent, especially in Manbhum

The stamp revenue, which amounted to Rs. 4,58,464, showed a small decrease of Rs 5,133, although the receipts were still in excess of those of 1895-96 The decrease, which was confined to the districts of Hazaribagh, Lohardaga, and Palamau, is attributed generally to the effects of the scarcity and incidentally to local and accidental causes. Considerably fewer persons were prosecuted for breaches of the law

There was a falling off of 173 in the number of persons finally assessed to income tax, but an increase of Rs 141 in the amount finally realisable from them The increase was in the Singhbhum district only, where the impetus to the grain traffic and the work on the Sini-Midnapore Railway led to the discovery of new assessees The percentage of collections, excluding costs and penalties, &c , was 96 7, which may be considered satisfactory

11 *Railways and Public Works.*—As already mentioned, the need for more railways in the Division is one which was prominently brought to notice during the recent famine, and some progress was made during the year All the earthwork and bridges, except one, were completed upon the Sini Midnapore extension of the Bengal-Nagpur Railway. The survey of the Baroon Daltonganj line in Palamau was finished, and that of the proposed line from Midnapore *vid* Bankura to Jharia and Ramgurh, with branch lines to Ranchi and Lohardaga, was commenced.

The famine relief operations enabled considerable improvements to be effected in connection with water supply and irrigation, and, exclusive of the sums expended by municipalities and in Government and Wards' estates, Rs 56,113 was spent on these objects by Government, and Rs. 89,127 by zamindars as loans under the Land Improvement Loans Act. Three hundred and seventeen miles of roads were also repaired and 200 miles newly constructed at a total cost of Rs 1,71,673 by famine labour. Except in the district of Palamau, considerable attention, the Lieutenant-Governor observes with pleasure, is paid to arboriculture, and the Commissioner has recently drawn attention to the advantages of planting mango trees to a greater extent both as a source of shade and future income.

12 *Education.*—The decline both in the number of schools in the Division and of the pupils attending them, that occurred last year continued also in the one under report. As compared with that year, there was a loss of 287 in the number of schools open, and of 6,292 in the pupils under instruction. The existence of famine, and epidemic disease in its wake, and the measures taken in some cases for the re-grouping of existing schools by the closing of those which were inefficiently managed, afford sufficient explanation of the general falling off, though it is curious that there was a small increase in the number of private schools in every district, except Lohardaga The cause of female education fared badly, and only 108 schools with 2,826 pupils were in existence in comparison with 194 schools and 4,380 pupils in the previous year. The total expenditure upon education amounted to Rs. 3,55,740, or Rs. 3,683 less than in the previous year The grant from Provincial Revenues remained approximately the same (Rs. 1,73,740)

With only 18 4 per cent of the boys of a school going age actually under instruction, the general condition of the Division, from this point of view, still remains very backward.

13 *Hospitals and Dispensaries.*—The number of public dispensaries and hospitals, exclusive of institutions under private management, was 18, or the same as in the previous year. The number of patients treated at them increased from 60,013 to 63,769, and the expenditure incurred, from Rs 23,961 to Rs 34,673 Of their total income 54 4 per cent was derived from private subscriptions. The Lieutenant-Governor has read with marked interest the account of the Leper Asylums in the Division, noticeably that maintained at Purulia by the Dublin and Edinburgh Mission to lepers in the East, in which there were 488 patients maintained at a cost of some Rs. 26,000, in addition to a home for untainted children of lepers, kept up at a cost of Rs. 2,000, in which 61 children were accommodated. The Commissioner speaks in high terms of the management of the institution and the admirable work it effects.

14. *Local Self-Government Institution.*—None of the municipalities in the Division possess large incomes, but on the whole they seem to have discharged their duties satisfactorily. In the matter of sanitation, there appears to be special room for improvement in those of Chatra and Purulia The Commissioner has submitted proposals for the extension of the Local Self Government Act to the Division, minus the elective system.

15 *State of public feeling and conduct of zamindars* —The Deputy Commissioner of Lohardaga Mr Streatfield) gives an interesting account of the state of feeling among the Kols and Uraons on the subject of agrarian difficulties, the benefits to be expected from the recent Act for commutation of predial services appear to be doubted, but further experience has yet to be gained of its working The release from jail of Birsa Munda, who claims to be an incarnation of the deity, caused a certain amount of temporary excitement which has since subsided

16 The Commissioner has given in some detail the history of the recent famine, which has, however, already been separately reviewed by Government

17 Sir Alexander Mackenzie has already recorded his high appreciation of the services of Mr. Forbes in connection with the relief operations, and the thanks of Sir John Woodburn are due to him for his able administration of the Division in other respects, and for his present most interesting report

By order of the Lieutenant-Governor of Bengal,

F A SLACK,

Offg. Secretary to the Govt of Bengal

Extract from the General Administration Report of the Chota Nagpur Division for 1897-98.

* * * * * * *

III.—WEATHER AND CROPS

17. Before proceeding to consider the general conditions of the weather during the past year, and its effects on the crops, it may be of interest here to note the share taken by each of the principal crops, viz., the *bhadai*, the winter rice, and the *rabi*, in contributing to the total food-supply in each district. This is a matter particularly deserving of consideration in a Division like Chota Nagpur, where the food staples grown necessarily vary considerably with the physical features of the country. The following statement, which I reproduce from my final report on the late famine (where I have explained how the figures have been arrived at), gives this information.

Statement showing the approximate share, in annas, of the total food-supply (= 16 annas) of each district, which is contributed by each of the three main crops (bhadai, winter rice and rabi)

Description of Crops	Hazaribagh	Lohardaga	Palamau	Manbhum	Singhbhum	Divisional average
1	2	3	4	5	6	7
	Annas	Annas	Annas	Annas	Annas	Annas
Autumn crops or *bhadai*	4·5	3·20	1·2	1·6	2·5	4 51
Winter rice ...	10·	9·72	9·4	12·3	13·6	10 14
Spring crops or *rabi* ...	1·5	0·02	5·4	2·2	·7	1 35
Total ...	16·0	15 0	15 0	16·1	16·0	16 0

18. It will be seen that although, taking the Division as a whole, the rice crop gives about two-thirds of the total food-supply, the *bhadai* crops something over a quarter, and the *rabi* not more than one-twelfth, yet the relative importance of each crop varies considerably in the different districts. Thus, while in Palamau an average *rabi* crop may be taken as equivalent to about a four months' food-supply, in Lohardaga its yield is quite insignificant. Again, in Lohardaga and Palamau a good *bhadai* harvest means a four and-a-half and a three months' supply of food in each district respectively, while in Manbhum it will give only a few weeks' supply. This is a matter of considerable importance when the effects of a failure or otherwise of one or other of the above crops have to be considered in reference to the different districts.

19. The general character of the weather during the past year is illustrated by the following statement showing the actual as compared with the normal rainfall, month by month, in each district:—

Months	Hazaribagh.		Lohardaga		Palamau.		Manbhum		Singhbhum.		Average for the Division.	
	Actual	Normal	Actual	Normal	Actual	Normal	Actual	Normal	Actual	Normal	Actual	Normal

20 It will be observed that the total fall in every district was under normal, the average for the whole Division being even less than in the disastrous year preceding. The result, as regards the outturn of the different crops, is an illustration of the widely different consequences of a favourable or unfavourable distribution, in point of time, of the rainfall In the preceding year the character of the rainfall was most capricious, heavy falls occurring when least needed, often doing more harm than good, and much of the water running to waste During the year of report the exact opposite was the case, and, indeed, the regulation of the rainfall can only be properly described as *providential* The different heavy falls came precisely when most needed for the crops, in some instances just in time to save them There were no *excessive* falls, but every drop told and there was no running to waste The generally beneficial results as regards the three principal crops are summarised below

The *bhadai* crops.

21 The only parts of the Division that gave cause for anxiety in respect to this crop were the district of Palamau and the Gobindpur subdivision and certain other portions of the Manbhum district. In Palamau the *ante*-monsoon showers, which enable the lands to be prepared for the *aus* paddy and other *bhadai* crops, were very disappointing, the result for the six weeks ending 26th June, being a total fall of only 4 51 inches as compared with a normal fall of 7 40 inches By the middle of July there had been no improvement, and matters were looking very serious indeed. Then, fortunately, in the third week of that month a good fall of over 5 inches came, just in time to save the crop from dying There was then another bad break, and by the end of July, with a total fall of only 14 85 inches, as against a normal of 21 55, prospects had again become very threatening Then came another sudden fall of 5 inches during the first week in August, which for a second time saved the situation, and, at last, after still another ten days' drought, while the other districts were getting rain in plenty, a third good fall of nearly 6 inches during the week ending 21st August practically preserved the district from a second year's famine, in comparison to which the one it had just experienced would have been child's play For the eventual result, after the vicissitudes passed through, we cannot be too thankful

22 In the Gobindpur subdivision and other parts of Manbhum the rainfall was, for a time, almost as capricious as in Palamau, and in the result less favourable The last half of July in that district was particularly trying, being marked by abnormal heat and an entire absence of rain in places, and the *gondli* and other crops were in consequence considerably damaged by insects The result was a rush, at the end of August, to the relief works, which had to be kept open for some six or seven weeks longer than in any other district of the Division. It is to be remarked, however, that this was not merely due to the failure of the *bhadai*, but also, and mainly, to the small extent to which autumn crops are grown in the Manbhum district, as will be seen by a reference to the statement in paragraph 17 above.

23 In the other districts the conditions were, on the whole, all that could be wished. The rains in May, June and July, it is true, were somewhat short, but they were very well distributed, and good falls during the first and third weeks in August secured for the *bhadai* crops a general outturn, except in Manbhum, of fully 16 annas

Winter rice.

24 The good falls in August, noticed above, enabled the transplantation of the rice seedlings to be everywhere completed It is true that in most of the districts there was a deficiency at the end of that month, of 5 or 6 inches, as compared with the normal. This, however, was compensated for by each successive fall having come just when wanted; and—given a short allowance—the distribution in point of time could not have been more favourable In September the general fall was again somewhat below the normal, as had been the case in the previous year. But between 1896 and 1897 there was this marked difference, viz, that while in 1896 the stoppage occurred in the middle of September, and was then followed by a continued drought, in 1897 there was a good fall during the *last* week of that month, which was exactly what was wanted. Following this, in October, there were unusually copious *hatya* rains, averaging 5·83 inches (for the month) against a normal of only 2 83, which everywhere secured a bumper rice harvest.

25 The heavy *hatiya* rains noticed above gave good moisture everywhere for the *rabi* sowings, but the usual showers in December and January held off, and it was not until February that any fall worth mention occurred. The result was, however, a full average crop in all the districts except Lohardaga and Palamau, the returns from which districts gave about a 12 annas outturn The most favourable report was from Manbhum, where the estimate was 18 annas.

Rabi crops

26 On the whole, the past year, from an agricultural point of view, has been an unusually good one The autumn and spring crops were, on the whole, fully up to the average, while the winter rice, the principal crop of the year, was everywhere a bumper one. Added to this, the *mahua*, almost next in importance, as regards food supply, to the rice crop, has been fully up to the usual standard in most of the districts, while the mango crop (now just over) has been almost the largest ever known Oilseeds and sugarcane also did fairly well, being nowhere much under a three quarters crop, and averaging, for the Division, 15 and 13½ annas respectively Opium was about the least fortunate crop of the year, with a 12 annas outturn in Hazaribagh and 14 annas in Palamau In neither district, however, is the quantity grown large.

IV.—PUBLIC HEALTH

27 The general health of the Division during the past year was worse than ever known before since the days of statistics. Not only was there a very severe outbreak of cholera, which prevailed during the months June—September, but the mortality from small pox, fevers and bowel-complaints was much larger than usual This was only as might have been expected amongst a people predisposed to disease from the effects of scarcity But there can be no doubt that there also exists in these districts a special cause for the general lowering of the tone of the system during a time of famine, viz, the large extent to which the people have recourse to jungle roots and berries to satisfy their hunger These forest products when taken with their usual accompaniment of rice or other wholesome grain, form a valuable supplement to the ordinary food supply, but when eaten by themselves, without the customary medium, and especially in an uncooked state, have a particularly irritating effect on the digestion, which soon renders the people more susceptible than usual to any form of prevailing sickness There was also the fact that the first grain to ripen in the rains was *gondli*, a millet which is notoriously unwholesome when eaten without a proper admixture of rice. This—coming after a time of scarcity, when rice stocks had run very low—was recklessly indulged in, and no doubt was directly or indirectly responsible for many deaths from cholera and bowel-complaints. Moreover the early cessation of the rains in 1896 had caused a large number of wells, tanks and other reservoirs of water to run dry during the hot weather months of the year under report, so that the deficiency in the supply of wholesome water intensified the outbreaks of cholera, fevers and bowel complaints.

28 The cholera epidemic in Hazaribagh commenced in April in the neighbourhood of the Grand Trunk Road and extended to thanas Chowparan, Bagodar and Dumri. The really severe epidemic of cholera started in the town of Hazaribagh and simultaneously in the Barkagaon thana at the end of June It became very severe in these parts in July, and in August the epidemic spread over the central and southern parts of the district. The disease accounted for 6,386 deaths, against 988 in the previous year.

In the other districts the cholera epidemic followed much the same course as in Hazaribagh, the mortality attaining its maximum in August, excepting in Manbhum, where the largest number of deaths occurred in the month of June In all of the districts the effects lasted until the middle or end of October, excepting in Manbhum, where it practically disappeared by the end of September. The total number of deaths registered from this cause in all the districts amounted to 28,686 as compared with 5,852 in the preceding year Details for the different districts are given in the statement in paragraph 30 below. One notable incident showing the growth of confidence

in prophylactics, was the large number of candidates for treatment by inoculation under Dr. Haffkine's method. In Manbhum alone the operations numbered 8,319, whilst in Ranchi and Hazaribagh a very considerable number of persons both amongst the well to-do and the cooly classes were also inoculated.

* * * * * * *

V.—MATERIAL CONDITION OF THE PEOPLE

32 The reply to this question, for the first half of the year under review, can be best inferred by a reference to the figures of the following statement —

Statement showing the normal and actual average price for common rice for the last fortnight of each month, April—September 1897, in the different districts of the Chota Nagpur, Division

Months	Hazaribagh (Sadar)		Lohardaga		Palamau		Manbhum (Sadar)		Singhbhum

May ...		6 15		7 3	...	6 13	...	7 14		9 0
June		6 5		6 15		6 7		7 10		8
July ..	13 11	6 6	14 13	5 8	13 10	6 4	14 10	7 5		7 0
August ..	...	6 2		5 14		6 0		7 10		8 0
September		7 0		7 6		6 13	..	8 9		10 0

It seems needless to say more than that, during the above months, except in Singhbhum, famine was over the land It made itself first felt in Palamau, Hazaribagh, and parts of Manbhum In Lohardaga stocks at first seemed more plentiful than elsewhere, and the Deputy Commissioner did not apprehend much actual scarcity As time went on, however, stocks ran out, the effects of insolation from the railway system told their tale, and scarcity throughout a large portion of the Lohardaga district became extremely acute, so much so that in the end of July at 101 out of 188 *hats* in that district rice had risen to 5 seers or under *per* rupee, and at a number (29) of these it was selling at the unheard of price of 4 seers and less, or at nearly four times the normal price In Palamau and parts of Hazaribagh and Manbhum the distress was for a time scarcely less severe, though owing to the considerable quantity of jungle edibles in the first district and to the other two being partially served by the railway, there was not so much cause for real anxiety on their account Singhbhum up to the end of June was an exporting district, but in July this ceased, prices hardened to 7 seers per rupee, and in August Singhbhum also began to import. I may mention that, in order to relieve the situation in Lohardaga, Government sanctioned, during August, the payment of Re 1 per maund bounty on imports of rice *viâ* Purulia. A similar concession, at a rate of 8 annas per maund, had been considered necessary in the case of Palamau from an early period of the distress

33 By the time that relief was at hand—with the advent of the *bhadai*—the general condition of the population had naturally fallen to a very low ebb Matters had further been aggravated by the insuperable lethargy of the aboriginal population and their great dislike to any form of compulsory labour, which made many of them prefer excessive privation to working on piece work wages. An escape from such uncongenial labour was, at the same time, offered by the means at hand of finding food in the jungles, and large numbers managed to sustain life in this manner, though at the cost of reducing themselves to a state of great debility.

34 From the month of September, thanks to the good *bhadai* harvest, matters began steadily to improve, and with the succeeding plentiful rice crop and the good outturn of the *rabi*, *makua* and mango crops, all signs of scarcity soon passed away, and the people appeared to quickly recover their normal

condition, so far as regards their physique and general state of health. But I fear that the circumstances of many of the poorer cultivators will be affected by the late scarcity for some time to come, and that it will require another year, or perhaps two years, of good crops before they are able to make good their losses Writing on this subject, Mr Streatfeild, the Deputy Commissioner of Lohardaga, offers the following remarks, with which I am disposed to agree After mentioning that a considerable number of whole families have left many of their villages in the most affected tracts of his district, either for Assam and to take up waste lands in the Native States, he continues.—

"Even where the crops were good the exactions of the landlords and mahajans have prevented the people from recovering their normal condition of prosperity The crops of 1896 97 not having in many cases sufficed to enable the raiyat to pay his rent and to repay any grain debts he might have, he was compelled to pay up all outstandings from last year's (1897 98) crop, leaving himself a very narrow margin for his own support. Moreover, loans made during the times of scarcity have been made to carry the most exorbitant interest

"On the whole, though the condition of the people gives no present cause for anxiety, there is no doubt that the commencement of the year 1898-99 finds the district far from prosperous."

VI —EMIGRATION AND IMMIGRATION.

35 The following table compares the number of emigrants recruited and registered under Act I of 1882 during the last two years in the districts of Hazaribagh, Lohardaga, Manbhum and Singhbhum. There were no emigrants registered under the Act in the district of Palamau, where coolies are recruited under the free labour system from certain thanas for the tea districts of Jalpaiguri and Assam —

District.	1896-97	1897-98
Hazaribagh	7,437	3,729
Lohardaga	5,704	9,488
Manbhum	9,429*	13,022*
Singhbhum	120	229
Total	22,690	26,468

* These figures are for the calendar year

There has been a considerable increase in the number of registered emigrants in the districts of Lohardaga and Manbhum, which is principally due to the scarcity In Lohardaga the increase is also due to the fact that two gentlemen who had hitherto despatched coolies without registration took out local agents' licenses towards the end of the year under report The large decrease in the number of emigrants in Hazaribagh has not been explained by the district officer, but it is, I think, probably due to a larger number having been despatched under the free labour system of which no account has been furnished by the Deputy Commissioner. In Manbhum many of the registered emigrants came from other districts, especially from the Central Provinces. In this district 117 coolies withdrew their consent at the time of registration, and were repatriated at the cost of the contractors who brought them

36 As noticed in last year's report, besides the emigrants registered under Act I of 1882, a large number of coolies are recruited every year under the free labour system. The exact number so recruited cannot be ascertained, as no records are available, but from returns obtained from the local contractors, it appears that 2,844 free emigrants were recruited in Hazaribagh, 1,859 in Lohardaga, 14,201 in Manbhum, and 381 in Singhbhum, making a total of 19,285 from these four districts, as compared with totals of 17,364 and 11,156 for the preceding and next preceding years respectively. The number of coolies recruited under this system from Palamau has not been furnished by the district officer The figures for the district of Singhbhum relate only to those who passed through Chaibasa, as all emigrants from Dhalbhum and the portions of the district near the railway lines go direct to Purulia or Midnapore for registration.

37 It is also to be remembered that besides emigrants properly so called, a very considerable number of the population, especially from the district of Lohardaga, and consisting principally of Uraons, migrate after the winter rice harvest to the districts of Eastern Bengal to find employment on the roads, &c Their number is reported to have been unusually large during the year under report owing to the scarcity.

38 The cooly depôts and rest-houses in the several districts of the Division are reported to have been duly inspected, and proper arrangements made to ensure the health and comforts of the emigrants. The general health of the coolies was good during the year, with the exception of a very severe outbreak of cholera in certain of the Manbhum depôts, in which there were 90 attacks with 71 deaths. The Government orders requiring one side of each enclosure to consist of an open iron or wooden railing have been complied with in each case

39 In Hazaribagh only one emigrant was prosecuted under section 163 of Act I (B.C.) of 1882, but the case was compromised There were three cases in which emigrants were the accusers Two of these were under section 363, Indian Penal Code, and resulted in the conviction of two out of four accused The third case was under sections 341 and 342, Indian Penal Code, against two accused, both of whom were convicted and sentenced to one month's rigorous imprisonment each.

40 In Lohardaga only one serious offence in connection with emigration was before the Courts, and is still under trial In two cases the Deputy Commissioner has recommended the cancellation of agreement of two boys under section 11A of the Assam Labour and Emigration Act, but he now reports that in one of these his recommendation will have to be reconsidered, as later information shows it was not justified

41 In Manbhum 58 cases in connection with emigration were reported during the year, of which 54 were brought to trial. Of these, 13 were against emigrants and 41 against recruiters and others The cases against the emigrants were with the exception of one, which was under section 151, all under section 163 of Act I of 1882, and were all struck off In the 41 cases against recruiters and others 81 persons were brought to trial, of whom 31 were convicted by the Magistrate, 13 committed to the Sessions, 27 acquitted, and 10 remained under trial at the close of the year Of the persons committed 2 were convicted and 11 acquitted In Singhbhum 17 cases, including 5 pending from the previous year, were before the Courts, of which 6 cases ended in conviction In Palamau only two cases connected with emigration were instituted. One case with four accused ended in conviction and one case with two accused in acquittal.

* * * * * * *

Immigration

44 There was no immigration worth the name into the districts of Hazaribagh, Lohardaga, Palamau and Singhbhum In Manbhum the collieries in the Gobindpur subdivision attract, as reported in previous years, a large number of immigrants from Bihar and the North-Western Provinces, but statistics of their numbers are not available. The coal market having been very dull during the year, several collieries in this district remained closed, their coolies having to seek work elsewhere.

VII.—PRICES OF FOOD AND LABOUR

45 Owing to the prevailing scarcity the prices of all kinds of food grains ruled unprecedentedly high during the first-half of the year, and it was not till September and October, when the *bhadai* was harvested and the prospect of the winter rice assured, that prices began to fall, and by the close of the year the average price of common rice in the Division fell to between 12 and 13 seers per rupee, against about 9½ seers in the corresponding period of the preceding year During the interval, however, several of the districts had gone through

	Srs	Chs
Hazaribagh ...	8	2
Lohardaga	6	8
Palamau	5	15
Manbhum ...	7	0
Singhbhum ...	7	0

a crisis, the average prices of common rice having risen in the different districts for a time (during July or August) to the rates shown in the margin At the end of July in certain parts of the Lohardaga district the price of common rice rose to the phenomenally high rate of less than 4 seers per rupee * The following table compares the average prices of wheat, common rice and gram in the several districts of the Division during the last fortnight of March in the past three years —

* This however did not last long, as the importation of rice from Purulia under the bounty system brought down prices to 6 to 7 seers per rupee by the beginning of September

Districts	Wheat			Common rice			Gram		
	March 1896	March 1897	March 1898	March 1896.	March 1897	March 1898.	March 1896	March 1897	March 1898

46 Wages of labour in the towns remained for the most part unchanged, but in the interior of the districts there was for a time a distinct fall, both in the rates for skilled and unskilled labour, owing to the general impoverishment of the agricultural classes Expenses had to be cut down to a minimum, and both the village artizans and especially the field labourers were obliged to take work on practically starvation wages. In many of the lands where rice is usually transplanted, the crops, in order to save the cost of labour, were sown broadcast, and where this was not done the employers are reported to have endeavoured in many instances to put their labourers off with an anna a day in cash instead of the customary seer of rice On the whole, I think that the rate of wages may be taken to have fallen during the period of scarcity by about 25 per cent.—a hardship which made itself exceptionally felt in the present instance, owing to the greatly increased cost of food The persons amongst the menial classes who were probably the best off were the servants of Europeans and educated native gentlemen, who were, as a rule, allowed compensation by their masters on the principle adopted by the Government in the case of its own menial servants.

* * * * * * *

IX —TRADE AND COMMERCE

Trade routes

58 The only part of the large area of 43,000 square miles comprised in the five British districts and nine Native States under this Commissionership which is served by the railway is its eastern extremity. There the Bengal-Nagpur Railway bisects the Manbhum district, passing through the civil station of Purulia and onwards through the Singhbhum district and the Native State of Gangpur, while branch lines from the Sitarampur and Modhupur junctions on the East Indian Railway tap the Gobindpur subdivision to the north of Manbhum and the Giridih subdivision in the extreme north-east corner of Hazaribagh The rest of the above large area is completely isolated, the divisional head-quarters at Ranchi and the civil station at Hazaribagh being 75 and 73 miles distant from the railway (by metalled roads to Purulia and Giridih), while Daltonganj, the head quarters of the Palamau district, is 190 miles (by unmetalled road from the nearest railway station at Gaya. There are no navigable rivers or canals, though boats of a small size occasionally get up the Sone and Koel rivers as far as Daltonganj But any trade by this means is of a very insignificant and uncertain character, being only possible at intervals, for a few days at a time, after heavy falls of rain.

59 The great inconvenience and danger of this state of general isolation were brought into prominent relief during the late famine, and, as noticed elsewhere in this report, it was found necessary for Government to come forward

and assist the trade by granting a bounty on imports of rice into the Palamau and Lohardaga districts, besides making large advances to keep the small local dealers of the former in funds But notwithstanding the most strenuous efforts to stimulate supplies, the prices of food-grains throughout the greater portion of the Division continued, for months together, at higher rates than in any other part of India. Steps are now, however, I am glad to say, being taken to remedy this state of things. The project for a branch line to connect Daltonganj with the South Bihar Railway at Dehri (on the Sone Canal) has been sanctioned by the Government of India, and the work will be put in hand during the next cold weather; and a survey has just been completed under the auspices of the Bengal Nagpur Railway Company for a line to run east and west from the centre of the Division (at Ramgurh in the Damodar valley), crossing that Company's main line (on its way to Midnapore) between Purulia and Asansole, with a light feeder branch to Ranchi and Lohardaga opening out the Ranchi plateau. To accomplish the proper opening up of the Chota Nagpur Division and complete the through connection between the North-West Provinces and the south-eastern sea board of Bengal, there will then only remain the link between Daltonganj and Ramgurh, the survey of which portion was made some years ago.

60 The principal internal trade routes of the Division are the metalled roads already mentioned between Ranchi and Hazaribagh to the railway stations at Purulia and Giridih respectively; the Grand Trunk Road, which runs through the Gobindpur subdivision of Manbhum and the Hazaribagh district, metalled roads between Ranchi and Hazaribagh (58 miles), from Ranchi to Lohardaga (47 miles) the principal mart on the Ranchi plateau, and in the Singhbhum district from Chaibassa to the Bengal-Nagpur Railway Station at Chakradharpur 16 miles, and unmetalled roads from the town of Lohardaga to the equally important mart, Chatra, in Hazaribagh, passing on northwards to the Grand Trunk Road and thus giving an exit into the Gaya district Traffic by the above routes, excepting the last, is by bullock-carts, which are hired for the most part from Bihar and the Burdwan and Bankura districts Along the last of the above routes goods are carried by pack-bullocks, as is the case with most of the interior trade of all the districts. Palamau is especially badly off in the matter of communications and carriage There is no metalled road, and scarcely a bullock cart in the district, practically the whole of the trade being carried on pack-bullocks.

Trade in food-grains

61 As regards food-grains, it used formerly to be supposed that there was a balance of trade in favour of all the districts, Palamau only excepted But as regards Hazaribagh, Manbhum and Singhbhum, the railway statistics, so far as they go, for they are only available for the last three or four years, seem to upset this theory They show a ± balance for rice and all other food grains in the case of these three districts, as noted on the margin Lohardaga, however, is still known to be a somewhat heavily exporting district numerous droves of pack bullocks coming every year from Palamau, and also from Hazaribagh and even Gaya, to take away rice from the large marts of Lohardaga and Chainpur on the Ranchi plateau. Palamau, on the other hand, is considered by the Deputy Commissioner always to be a deficit district in the matter of food grains, drawing its requirements from Lohardaga and the neighbouring Tributary States The latter source of supply was, however, closed to it during the late scarcity, as the several Chiefs passed orders (with my approval) at an early period of the distress forbidding the exportation of food-grains from the different States.

Years.	Hazaribagh	Manbhum	Singhbhum
1	2	3	4
	Mds	Mds.	Mds.
1894-95	—1,32,970	—41,642	—93,994
1895-96	—1,59,774	—1,96,275	—46,298
1896 97	—2,32,991	—2,40,510	+78,180
1897 98	—2,24,602	—3,32,396	—12,128

Trade in articles other than food grains

62 In regard to articles other than food grains, the exports consist chiefly of coal, oilseeds, hides, timber, raw tussor, silk, tea and mica (from the mines in Manbhum and Hazaribagh), besides large quantities of *mahua*, lac and other jungle products, the imports being salt, piece-goods, tobacco, sugar, kerosine oil, and other ordinary commodities

* * * * * * *

XVII—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION

107 The demands and collections of land revenue in the several districts of the Division for the past two years are compared below —

District	Number of estates		Demand						Collections					
			1896-97			1897-98			1896-97			1897-98		
	1896-97	1897-98	Current	Arrear	Total	Current	Arrear	Total	Current	Arrear	Total	Current	Arrear	Total
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
			Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs
Hazaribagh	106	101	1 [illegible],082	2065	1 30,170	1 70 083	2 714	1,33 797	1,27,052	280	1 27 432	1 [illegible], [illegible]	[illegible]	1 30 [illegible]
Lohardaga	215	215	56,746	1 [illegible]71	57 887	48 805	5 914	54 270	51,051	1 [illegible]98	53 [illegible]03	[illegible]	5 [illegible]61	[illegible]
Manbhum	261	261	1 02 [illegible]48	13 [illegible]78	1 16,026	1 02 103	34,403	1 36 [illegible]95	98,197	12 863	61 002	[illegible]	[illegible]	[illegible]
Singhbhum	26	29	78 462		82 462	82 462		82 462	82 462		82 462	79 931		[illegible]
Kolhan	3	3	52 970	1 [illegible]64	54,634	1 34 [illegible]96	2	1 34,597	53,026	290	53 [illegible]16	1 [illegible]37 [illegible]79	2	1 [illegible]
Total	709	713	4 48 [illegible]55	16,249	4,64 [illegible]04	4,97 706	43,123	5 40 [illegible]38	3 74 [illegible]54	13 [illegible]31	3 [illegible]8 [illegible]3	4 48 [illegible]55	[illegible]	1 84 [illegible]

There was a decrease of six estates in Hazaribagh under class II, owing to their transfer to, and amalgamation with, estates under class III Two of these were, under the orders of the Deputy Commissioner, brought under *khas* management on the cancellation of *ijara* leases, while the remaining four were transferred under the orders of the Board of Revenue

108 The total current demand of revenue in the several districts, including the Chutia Nagpur Tributary States, was Rs 4,97,706, against Rs 4,16,156 in the previous year, showing a net increase of Rs. 81,550, due mainly to the resettlement of the Singhbhum Kolhan.

109 The current collections amounted to Rs 4,48,654, against Rs 3,74,642 in 1896 97, thus showing an increase of Rs 74,012, which is almost commensurate with the increase in the year's demand, so that the percentage of current collections has remained almost the same as in the previous year, viz, at 90 14, against 90 02 in 1896-97 Taking the districts separately, it appears that the current collections have been satisfactory in Hazaribagh, Manbhum and Singhbhum, being respectively 98 6, 96·9 and 98 4 per cent, against 97 9, 100 0 and 99 9 in the previous year, fair in Lohardaga, being 91 5 per cent, against 90 7 in 1896-97, and bad in Palamau, being only 62 3 per cent., against 66 5 per cent in the preceding year This decrease in Palamau is mainly due to the poor collections in the Government khas mahals, and is attributed by the Deputy Commissioner, Mr Renny, to the Government raiyats being hard pressed by the famine and unprecedentedly high prices of food-grains which prevailed up to September 1897. He adds that there is not the least doubt of the raiyats in Palamau, whether Government or zamindari, having been impoverished to a very great degree by the above causes, and that time is required to enable them to pull themselves together again My own opinion is that Mr Renny is much too ready to accept excuses in this matter, and that the Government raiyats in Palamau are quite as well off as in any of the other districts The Deputy Commissioner hopes, however, to be able to materially reduce the outstanding balances as soon as the lac and other crops lately reaped reach

the market The arrear demand for all the districts amounted to Rs 43,122, out of which Rs 35,563, or about 54·4 per cent, was collected

Operations of the sale law

110 The number of estates which became liable to sale during the year for non-payment of Government dues was five in Hazaribagh, of which one was exempted on payment of all the arrears due on issue of sale notice The arrears of the remaining four estates were not paid, and consequently they were notified for sale on the 1st June 1898 In Palamau the provisions of the sale law were not applied to the newly-created estates, which are still being dealt with under the Public Demands Recovery Act. They will, however, be brought under the sale laws from the date of the next *kist*. Of the old estates in pargana Belonja, 13 fell into arrear, viz., 3 estates on the first, 3 on the second and 7 on the third *kist* day, but none were sold, as the amounts were paid on the day following the *kist* days The amounts of arrears in all these cases were very small and below Rs 50

Road and public works cesses

111 The following table shows the demands, collections, remissions and balances of road and public works cesses in the several districts of the Division —

District	Net demand after excluding reductions and remissions.			Collections (including advance collection)	Percentage of collection on current demand (columns 2 and 5).	Balances	Percentage of balances on gross demand (columns 7 and 4)	Remissions
	Arrear	Current	Total.					
1	2	3	4	5	6	7	8	9
	Rs	Rs	Rs.	Rs		Rs		Rs
Hazaribagh	1,10,387	3,926	1,14,313	1,07 533	97 41	5 915	5 12	1 197
Lohardaga	94 528	22,551	1,17 079	1,03,658	109·67	13,221	11 29	8
Palamau	43,524	8,813	52,338	43 861	97 88	11,359	21 70	
Manbhum	25,910	47,504	1,43,414	1 15 915	120 85	27,499	19 17	
Singhbhum	16,246	12	16,258	16 258	100·07	Nil		1
Total	3,60,595	82,805	4,43,400	3,86,125	107·08	57,994	13 0,	1 206

In all the districts both the cesses were levied at the maximum rate allowed by law.

112 In Hazaribagh the current collections were above 90 per cent, in Lohardaga they were above 80 per cent., but below 90, in Palamau and Manbhum they were below 80 per cent., but above 75 per cent In Singhbhum alone the entire current demand was collected during the year

113 The arrear demands in Lohardaga and Singhbhum were collected in full In Hazaribagh 9 1 8 per cent of the arrear demand was collected, while in Palamau and Manbhum the percentages were 99 6 and 89 4 respectively

114 In Hazaribagh, out of the balance of Rs. 5,915, a sum of Rs 3 0 1 has been realized since the close of the year, and the rest are in course of recovery under the certificate procedure

In Lohardaga the entire balance has been realized since the close of the year In Palamau the balance is on account of *kists* ending 20th October 1897, 28th January 1898, and 28th March 1898 For the arrears of the first two *kists* coercive measures have been taken, and for those of the March *kist* certificates will shortly be issued Out of the outstanding balance, Rs 2,543 are reported to have been realized since the close of the year In Manbhum, out of the balance of Rs 27,499, Rs 15,358 were due from the encumbered estates. Certificates have been issued for the realization of the residue There was no balance in Singhbhum at the end of the year

Revaluation

115. There was no regular revaluation in Hazaribagh, but there was an assessment for cess purposes of two revenue paying estates and three rent-free tenures under the special sanction of the Board given under section 37 of the Cess Act A general revaluation of the entire districts of Lohardaga and Palamau was sanctioned during the year, and in the former district the operations were commenced from the 4th December 1897. Some 5,582 notices were issued direct to the different tenure-holders without waiting for the return from the

Maharaja of Chutia Nagpur, whose estate comprises the entire district No action could, however, be taken on the returns submitted by the tenure holders pending the receipt of the Maharaja's return In Palamau the revaluation Deputy Collector joined his appointment on the 18th February, and the work commenced from March Beyond issuing notices on all revenue free and revenue paying estates, nothing further could be done within the year.

Public Demands Recovery Act

116. The total number of certificates pending from the previous year was 475, and the number filed during the year was 2,277, making a total of 2,752 for disposal, of which 1,713 were disposed of, leaving 1,039 pending. Of the 1,039 pending cases, 50 were pending for more than six months and 991 for less than six months The number of institutions has increased in the aggregate by 755 This increase is shared more or less by all the districts In Hazaribagh the increase is attributed to the effects of the prevailing scarcity. In Lohardaga the increase is slight, and calls for no special explanation In Palamau the increase is due to the fact of the Palamau Government estate having come under *khas* management, and to larger institutions in consequence of dak cess assessment in the district having been made on all estates, including those paying revenue at below Rs. 50 per annum In Manbhum the increase is due to the fact that in the previous year certificates in cases of road cess below Rs 5 were not issued, while they were issued during the year of report in respect of balances of both years In Singhbhum the increase is mainly due to a large number of institutions by the Dhalbhum encumbered estate, against none in the year before. Under special orders of the Board this estate has been declared ripe for the application of the certificate procedure.

Land acquisition.

117 In Hazaribagh no fresh case was instituted during the year In Lohardaga one case was pending at the close of the previous year, and one fresh case instituted during the year of report. Both these were disposed of during the year In Palamau there was one case for the acquisition of land required for the out houses of the Daltonganj charitable dispensary, It is still pending. In Manbhum there were three new cases and three old ones pending from the previous year Out of these six cases, in four awards were made within the year and in one after its close The other case, which is one of the three pending from 1896 97, is still in appeal in the Court of the Judicial Commissioner Besides the six cases mentioned above, there were a number of small projects for the acquisition of lands for railway purposes, in 12 of which the proceedings were confirmed by the Board, in two final reports were submitted but not confirmed, while in five others the proceedings were finished, though the final reports remained to be submitted Only six small projects were pending at the close of the year In Singhbhum acquisition proceedings continued to be held in connection with the Sini Midnapur-Calcutta Cuttack section of the Bengal-Nagpur Railway, and the total area acquired during the year was 1,256 acres, and there were altogether 66 cases for disposal in connection with the acquisition The total area acquired during the two years 1896 97 and 1897-98 was 3,255 acres over a length of 64 miles, and the number of cases disposed of was 197 The work was undertaken in 1896-97 and lasted for about 20 months. The total expenditure incurred during the year was Rs 1,30,569-7-3, out of which Rs 1,18,681-6 were paid as compensation. The rate of compensation averaged about Rs 35 per acre

Survey

118. No survey was undertaken during the year in any of the districts of the Division

Settlements.

119 There was no regular settlement made during the year in the districts of Hazaribagh, Lohardaga, Palamau and Singhbhum. In Manbhum the proceedings in connection with the settlement of the Mahta and Koilapal estates were revised by the Settlement Officer, Babu Harbans Sahai, from the attestation stage After reattestation the rate reports were submitted by him, and *jamabandies* published in August and September last. The Settlement Officer's proposal to fix the Government revenue at 50 instead of at 33 per cent. of the gross assessment as formerly has been approved by me, and orders have been issued to the Deputy Commissioner to offer the settlement to the proprietors on the above terms In Palamau the settlement operations of the Palamau Government

estate were finally closed, and the final report on the settlement submitted during the year The total cost of the settlement operations during the year amounted to Rs. 3,880 In Singhbhum the settlement of the Kolhan estate was completed during 1896 97, and the final report was submitted during the past year The work of distributing copies of the record of rights and *pattas* and of taking *kabuliyats* still remains to be done

* * * * * * *

XXIII—RAILWAYS AND OTHER PUBLIC WORKS

Railways.

163. The only railway line under construction during the past year was the Sini-Midnapore-Cuttack Howrah extension of the Bengal Nagpur Railway in Singhbhum, all earthwork and bridges in connection with which, except the one on the Subarnarekha, were completed during the year The final survey of the Baroon Daltonganj line in Palamau was taken in hand and completed during the year It is understood that the earthwork on this line will commence during the approaching cold weather. The survey of the proposed line from Midnapore *viâ* Bankura to Jharia in Manbhum and thence to Ramgurh in Hazaribagh with a narrow-gauge branch line to Ranchi and Lohardaga was undertaken during the year by the Bengal-Nagpur Railway Company, and I understand that good progress has been made A special report was submitted to Government on the latter portion of this project in this office No 46M R., dated 19th April 1898

Works under the Public Works Department

164 The Executive Engineer has forwarded me a list of some 43 works under this head which were carried out at a total cost of Rs. 36,270 during the past year Of these the following may be mentioned —

Work.	Cost
	Rs
Diversion of 47th mile of the Ranchi-Purulia road	7,928
Provision of water-supply to Central Jail, Hazaribagh	5,762
Construction of record-room, Deputy Commissioner's Court, Chaibassa	2,020
Iron latrines, Purulia, Hazaribagh, and Chaibassa Jails and at certain police-stations in Hazaribagh	3,090
Extension of European cemetery at Hazaribagh	646
Erecting stained glass window in St. Stephen's Church, Hazaribagh	179

The remaining items consist chiefly of repairs to Government buildings and the maintenance of Provincial roads and bridges.

Works of improvements in Government estates and estates under Government management

165 Twenty-two *bandhs* or irrigation reservoirs and a well and 23 *dari* wells were constructed, repaired or improved in the Government estates of Hazaribagh at a total cost of Rs. 1,941. In the Dhanwar Court of Wards' estate in the same district the construction of 15 *bandhs* was also taken in hand, seven of which have been completed Thirty eight *dari* wells were also constructed, the total cost incurred in this estate in the construction of *bandhs* and wells amounting to Rs. 7,775 A sum of Rs 2,220 was also spent by the encumbered estates of the district in the construction and improvement of 16 irrigation *bandhs*. In Lohardaga in the Government estates a sum of Rs. 3,147 was spent on works of miscellaneous sanitary and agricultural improvements.

In Palamau the total expenditure on miscellaneous, agricultural and sanitary improvements in the Palamau Government estate amounted to Rs 4,028, out of which Rs. 1,638 were spent on works of irrigation, and Rs 1,100 in sinking wells for the supply of drinking water

In Manbhum a sum of Rs. 3,955 was spent from the funds of four wards' and encumbered estates in the construction and repairs of tanks and wells In Singhbhum out of a sum of Rs. 6,000 allotted for miscellaneous improvements, &c., in Government estates, a sum of Rs 431 was spent in the construction of a well in the Chaibassa mela hat, Rs. 2,741 in the construction and repairs of irrigation *bandhs*, and Rs. 1,991 in the repairs of roads and culverts in the Singhbhum Kolhan. The Dhalbhum encumbered estate expended a sum of

Rs 2,108 in the construction of irrigation *bandhs* and wells and in repairing culverts and drains in the town of Ghatsila

Famine and *quasi* famine relief works (other than roads)

166 Besides the above works, very considerable improvements were effected in most of the districts in connection with water-supply and irrigation by means of the famine relief works undertaken by Government itself or by private landlords from funds advanced by Government under the "Special famine conditions" The following statement shows the expenditure incurred in the different districts in this manner —

District	Sums expended from Government funds on the construction or repairs of water works (re ief tanks, irrigation *bandhs* and wells)	Amounts advanced to zamindars in loans under the Land Improvements Loans Act (under famine conditions or otherwise for construction or repairs of water-works, &c., &c.)	Total
1	2	3	4
	Rs	Rs	Rs
Hazaribagh	1,202	9,776	10 978
Lohardaga "	2 0 8	18,780	15,788
Palamau	31,739	32,024	63,764
Manbhum	19,899	33 147	53,046
Singhbhum	1,265	400	1,665
Total	56,113	69,127	1 45 240

Improvements in water-supply in Municipalities and by Road Cess Committees

167 In addition to the works referred to above, the following improvements effected by various municipalities and Road Cess Committees may here be left on record

In Hazaribagh the Road Cess Committee cleansed two old *dari* wells and constructed eight new ones, and the two municipalities of Hazaribagh and Chatra cleansed sixteen old wells, constructed six new ones, and cleansed and re excavated two old tanks. In Lohardaga the Road Cess Committee re excavated a tank, the Ranchi Municipality constructed some new wells and cleansed all the old tanks and wells, and the Lohardaga Municipality excavated two tanks, cleansed an old one and a well, and re-constructed the embankments of a large reservoir which forms the main water-supply of the town In Manbhum the Purulia Municipality constructed a new well and cleansed and re-excavated a tank and constructed an irrigation *bandh*

XXIV.—COMMUNICATIONS.

(*a*) Provincial roads

168. As reported last year, the following roads are maintained by the Public Works Department —

(1) The Grand Trunk Road.
(2) Gumdih and Dumri Road.
(3) Hazaribagh and Bagodar Road.
(4) Hazaribagh and Ranchi Road,
(5) Hazaribagh and Barhi Road
(6) Ranchi-Purulia Road
(7) Ranchi Chaibassa Road
(8) Chord Line between Amandih and Churra in Manbhum.

Besides these, there are two other provincial roads, viz., the Chas-Goolberia and the Purulia-Burrakar roads, which have been placed under the supervision of the Manbhum District Road Committee, and for the maintenance of which a

yearly contribution is made from Provincial funds All these roads are reported to have been maintained in fair order. An attempt was made during the past year to remove the large boulders from the crossings of the Burrakur and Damodar rivers on the Dumri-Giridih and the Hazaribagh Ranchi roads, but the work seems to have not yet been completed. The surface of the stone causeway across the Burrakar and its ramps on both banks of the river have been considerably injured, while a portion of the causeway over the Damodar has been washed away, with the consequence that the inconvenience to wheeled conveyances in their passage over these two rivers has been much increased I fear in deed that there will be no material improvement until both crossings are bridged On the Ranchi-Purulia Road a diversion was made on the 47th mile from Purulia, avoiding two crossings of a stream. This has materially improved this road

(b) District roads

169. In Hazaribagh nothing was spent under the head of original works, but 814 miles of district and village roads were repaired and maintained in proper order at a total cost of Rs 25,304. Mr. Herald, the Deputy Commissioner, states that most of the expenditure (Rs 6,941) on village roads was incurred in the maintenance of the Giridih town roads The question of extending the Bengal Municipal Act to this town is under discussion between myself and the Deputy Commissioner

170 In Lohardaga no original works could be undertaken, as a sum of Rs 7,000 had to be diverted from the allotment for such works to famine relief, but materials were collected for the construction of a masonry bridge over the river Sankh on the Ranchi-Lohardaga road at a total expenditure of Rs 1,496 This road carries a fairly heavy cart traffic, so that it cannot be maintained in thorough order during the rains unless it is metalled About 20 miles of it were regravelled during the past year Besides this, about 825 miles of the district and village roads were improved and maintained at an aggregate cost of Rs 31,445, which includes Rs. 10,101 spent on famine-relief test works On four of the more important district roads 35 temporary bridges were renewed with dry rubble masonry abutments and wing walls and salwood roadways, while on the Ranchi-Lohardaga road a culvert was reconstructed

171 In Palamau three bridges and culverts were constructed at a total expenditure of Rs 1,204, while 302 miles of the district and village roads were repaired and maintained at a cost of Rs. 7,894 The work on the second section of the Garhwa Surguja Road was unfortunately allowed to remain uncompleted, as the balance of the Government grant for its construction was diverted for expenditure on famine relief. The aggregate length of the roads undertaken as famine relief works was 80½ miles, out of which 42½ miles were new construction and 38 miles reconstruction of existing unraised district roads

172 In Manbhum a sum of Rs. 2,112 was spent on original works, and a further sum of Rs 20,226 on repairs and maintenance of nearly 421 miles of district and village roads. Part of the District Road funds ordinarily available here for repairs to roads had to be diverted for famine-relief operations, and the amount spent on them was consequently less than in previous years It may, however, be noted that the relief works included roads of an aggregate length of 250 miles, of which those from the Anara Railway Station to Para, Chinpina to the Adra Railway Station, Nirsha and Kharkabad to the Kulabathan Railway Station, Katras and Bhalwerah to the Katras Railway Station and Pokhuria to Gobindpur, aggregating a length of 29 miles, will prove useful feeder roads, while several others, when completed, will materially improve the internal communications of the district.

173 In Singhbhum nearly 413 miles of the district and village roads were improved and maintained at a total expenditure of Rs 9,861, out of which Rs 4,367 were spent on original works and Rs. 5,474 on repairs A sum of Rs 1,149 was also spent in this district within the Kolhan Government estate on road works out of the Government Estates Improvement Fund. The income of the District Road Cess Committee is very small, amounting to only Rs. 7,914, and hence an annual contribution of Rs. 10,000 is made out of Provincial revenues for the improvement of the communications in the district.

174 The following statement gives the particulars of road works executed by famine labour and the expenditure incurred thereon :—

District	Number of roads	Length in miles		Amount spent.
		Repaired.	New construction.	
1	2	3	4	5
				Rs
Hazaribagh ...	48	186	...	27,183
Lohardaga .	31	Not given	..	11,566
Palamau .	29	38	42½	20,818
Manbhum ..	38	93	157½	1,11,749
Singhbhum ..	2	Not given	.	357
Total ...	148	317	200	1,71,673

Arboriculture

175 In Hazaribagh about 7,000 existing trees were maintained and 500 new trees planted along roadsides at a total cost of Rs. 1,186 The nursery attached to the Road Cess Office compound contains about 3 097 young plants of sorts. In Lohardaga 9,800 existing trees were maintained, and 350 new ones were planted along road sides at a cost of Rs. 750 The District Road Committee also maintained three nurseries, viz , one at the head-quarters station, and the other two at two of the inspection bungalow compounds In Palamau nothing was done beyond maintaining the existing trees along roadsides out of the provision for the repairs of the roads In Manbhum 5,069 old trees and 2,064 new ones were maintained and planted out by the Public Works Department along the three provincial roads noted on the margin, while the District Road Committee spent Rs 337 in the maintenance of existing trees along the sides of district roads and Rs 2,024 along the provincial roads in their charge. Only 60 new trees were planted in this district along the sides of the district roads and 156 on the sides of the provincial roads. In Singhbhum Rs 225 were spent on arboriculture.

Ranchi Purulia Road Aimandi Churra Road Grand Trunk Road (Kandra section)

176. I have lately called the attention of the Inspector of Works to the desirability of making much greater use of the mango-tree for roadside avenues than is now done. I find that many of the young trees, though interesting enough from a botanical point of view, belong to kinds which are otherwise of little or no use. Both as regards shade and a means of future income the mango-tree cannot well be improved upon.

* * * * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

205. The local affairs of the division are managed by Municipal, Road Cess, and Education Committees at the head-quarters of each district, and there are in addition Municipal Committees at Chatra, Lohardaga, Jhalda and Raghunathpur and a Branch Road Cess Committee at Giridih in the Hazaribagh district The elective system is in force in the municipalities of Hazaribagh, Chatra, Ranchi and Purulia. In the rest of the municipalities as well as in the case of the Road Cess and in Education Committees of all the districts the members are appointed by Government. The Chairmen of all the municipalities are also appointed by Government

Municipal Committees

206 The Hazaribagh Municipality is composed of fifteen members including the Chairman (the Deputy Commissioner) Of the total number of Commissioners, ten are non-officials and five officials. During the year under report 13 general meetings were held, at all of which a *quorum* was obtained, the percentage

of attendance being 53·3, against 41·3 in the previous year In this as in all the other municipalities in this Division the form of assessment is a tax upon persons according to their circumstances under section 85(*a*) The total income of the municipality including the opening balance was Rs 9,187, against Rs 11,389 in the preceding year, the decrease being due to the prevailing scarcity The total expenditure amounted to Rs 8,502, of which Rs 3,027 were spent on conservancy and Rs. 807 on works of improvement, against Rs 2,886 and Rs. 2,226 respectively in the previous year. The town of Hazaribagh was kept throughout the year in a satisfactory sanitary condition

207 The Chatra Municipal Board consists of fifteen members, excluding the Chairman, of whom ten should be elected by the rate-payers and five appointed by Government. But at the general election which was held during the course of the year, the rate-payers elected only six of the Municipal Commissioners, the number appointed by Government being therefore nine During the year under report 16 meetings were held, at 13 of which there was a *quorum*, the percentage of attendance being 46 8, against 43 1 in the previous year The total income of the year including the opening balance amounted to Rs 5,571, against Rs. 5,571, and the total expenditure to Rs. 5,791, against Rs 5,033 in the previous year, of which Rs 1,390 were spent on conservancy and Rs 1,124 on works of improvement, against Rs 1,248 and Rs 412 respectively in the preceding year. The affairs of this municipality, especially as regards sanitation, were much mismanaged during the time of the late Committee as noticed in last year's report, but much improvement is expected by the Deputy Commissioner in these respects under the new *regime*.

208. In the Ranchi Municipality excluding the Chairman (the Deputy Commissioner) there are fifteen Municipal Commissioners, of whom ten are elected and five appointed. The Commissioners held ten meetings during the year, the percentage of attendance being 56 0, against 48 7 in the preceding year Much good work was done during the year, the Commissioners being reported to take much interest in the welfare of the town.

209 The Lohardaga Municipal Board is composed of 11 members including the Chairman, all of whom are appointed by Government There were 29 meetings during the year with a percentage of attendance of 60 9 In this municipality a regrettable disagreement occurred between the Chairman and the Vice-Chairman, which resulted in the latter absenting himself from meetings and finally resigning his post The municipality is practically managed by the Chairman, the Munsif-Deputy-Magistrate, and appears, on the whole, to be worked efficiently.

210 The Daltonganj Municipality consists of nine members excluding the Chairman (the Deputy Commissioner), all appointed by Government Ten meetings were held during the year with a percentage of attendance of 55 0 The total income including the balance of the previous year amounted to Rs 6,771, and the total expenditure to Rs. 4,616, leaving a balance of Rs 2,155 at the close of the year.

211. The Purulia Municipality consisted of 18 Commissioners excluding the Chairman, of whom 12 are elected and 6 appointed. Of the total number of Commissioners 14 are non-officials and five officials. A general election was held on the 3rd April 1897, at which eight of the old Commissioners were re-elected, and four were newly elected The number of meetings held was 15, the percentage of attendance being only 42 1 The reports of the Officiating Deputy Commissioner and of the Civil Medical Officer regarding the sanitary condition of the town are not so satisfactory as I could wish, and the necessity of various improvements in this regard have lately been pressed upon the Municipal Commissioners.

212. In the Jhalda Municipality there are nine Municipal Commissioners including the Chairman, all of whom are appointed by Government Ten meetings were held during the year, the percentage of attendance being 48 0 The municipality spent about Rs. 180 on works of sanitary improvements The

Chairman, Babu Srikanta Roy, who is the Rural Sub Registrar, is reported to have attended properly to his duties.

213 The Raghunathpur Municipality is composed of nine Commissioners excluding the Chairman, all of whom are appointed by Government. In the last reorganization of the Committee, six of the old Commissioners were reappointed, three being newly appointed The Commissioners held 15 meetings during the year, the percentage of attendance being 57·0. The amount spent on sanitary improvements during the year was Rs. 95 The Vice-Chairman, a local pleader, is reported to have performed his duties satisfactorily.

214 The Chaibassa Municipality consists of 12 Commissioners excluding the Chairman (the Deputy Commissioner), all of whom are appointed by Government The municipality held 14 meetings during the year, the percentage of attendance being 56 5. The total income including the opening balance amounted to Rs. 7,325, and the total expenditure to Rs 5,665, leaving a balance of Rs 1,680 at the close of the year The town of Chaibassa is in a progressive state as evidenced by the increased tendency to rebuild existing houses as well as by the number of applications received for new building sites

215 None of the municipalities were inspected by either the Deputy Sanitary Commissioner or the Sanitary Commissioner during the year

District Road Cess Committees

216 There was no change in the *personnel* of the District Road Cess Committee of Hazaribagh during the year. Only four meetings were held, the average attendance being 9 2, against 12 4 in the previous year. The Deputy Commissioner attributes the indifferent attendance partly to the distance at which several of the members reside from head-quarters, and partly to the want of interest taken by those living at head quarters in the affairs of the interior. This cannot, in the present backward state of education, be remedied, but the disadvantage is in effect more apparent than real, the executive responsibility resting with the Chairman and other Government officers who are well acquainted with the district requirements This remark applies, with greater or less force, to all the districts of this Division During the year under report the Committee transferred Rs 37,000 from their own to the Provincial funds for the purpose of famine relief, the few number of meetings held being due, as in the case of Lohardaga, to this fact

217 The District Road Cess Committee of Lohardaga held only three meetings during the year, against ten in 1896-97, the average attendance being 6 0, against 5 0 in the previous year The falling off in the number of meetings is explained by the Deputy Commissioner to be due to the fact that the whole of the available funds of the Committee were diverted for famine relief and test works under the Deputy Commissioner's direct control. There thus remained practically nothing for the members of the Committee to do excepting for those of them who were specially employed on famine duties.

218 The District Road Cess Committee of Palamau held eight meetings during the year under report with an average attendance of 4 6.

219 The District Road Cess Committee of Manbhum held 13 meetings during the year with an average attendance of 5 3.

220 The District Road Cess Committee of Singhbhum held five meetings during the year under report, the average attendance of members at each meeting being 5 8

District Education Committees.

221 The District Education Committee of Hazaribagh held two meetings during the year with an average attendance of 6 0 The Education Committee of Lohardaga held only one meeting attended by 8 out of 22 of its members The District Education Committees of Palamau and Manbhum held no meetings during the year under report, while the Singhbhum Education Committee held two meetings attended by 8 out of 15 of its members

222 The different Local Committees, both Road Cess and Municipal, have, on the whole, worked well during the past year. The Municipal Commissioners have shown themselves ready to accept the advice given from time to time by this office in regard to their budget requirements, and on general questions of sanitation, assessments and other matters, and they have given their respective Chairmen ready support in taking such initial measures as were considered necessary to guard against the introduction of the plague, and especially against the occurrence of any foolish or unreasonable scare. The usefulness of the Road Cess Committees is much circumscribed by the narrow limits within which their action is confined by the existing Act; and I have no doubt, after a year's further experience, regarding the advisability of extending the provisions of the Local Self-Government Act, *minus the elective system*, to this Division. Proposals to this effect have been submitted to Government in this office No. 291T. J., dated 9th December 1897, and the matter need not further be noticed here.

WEATHER AND CROP REPORT

For the week ending the 12th December 1898

Burdwan.—No rain Weather seasonable Harvesting of *aman* paddy continues Cold-weather crops doing well A few cases of cattle-disease reported Fodder and water sufficient Common rice selling as follows —

		Srs	
Sadar	...	14 to 17	per rupee
Kalna	...	14½ „ 15	
Katwa	...	17	
Raniganj	...	16	

Birbhum.—No rain Weather seasonable Harvesting of *aman* continues vigorously Price of common rice at Sadar 18 seers, and at Rampur Hat 17½ seers per rupee. Fodder sufficient

Bankura.—No rain Weather seasonable Harvesting of *aman* rapidly going on *Rabi* crops thriving Fodder and water sufficient. No cattle-disease reported. Rice is selling at 19½ seers per rupee at Sadar and 16½ seers at Vishnupur

Midnapore.—No rain. Harvesting of *aman* going on. Prospects of standing crops very good Common rice sells as follows —

	Srs	
Sadar	15 to 18	per rupee
Contai	16	
Tamluk	13 to 16	
Ghatal	[illegible]	

Hooghly.—No rain. Reaping of winter rice crop going on Prospects of *rabi* crops good Cattle disease prevalent in some parts Common rice sells from 12 to 14 seers per rupee

Howrah.—Rainfall nil Weather seasonable Harvesting of *aman* continues Out turn favourable Sowing of *rabi* going on. Fodder and water sufficient. Common rice sells at 12 to 14 seers per rupee

24 Parganas.—Rainfall nil Weather seasonable Prospects of standing crops good Harvesting of *aman* paddy going on No cattle-disease Fodder and water sufficient Common rice sells as follows —

	Srs. Srs.	
Sadar	12½ to 13½	per rupee
Barasat	17	
Basirhat	15½	
Diamond Harbour	16	

Nadia.—No rain Weather fine and cool Sowing of *rabi* crops almost finished Harvesting of *aman* going on Prospects of standing crops good. Common rice selling at 11 to 17 seers per rupee Fodder and water sufficient. No cattle-disease reported

Murshidabad.—No rain. Weather seasonable Harvesting of *aman* still going on State of *kalai*, *rabi*, indigo and mulberry good Fodder and water sufficient No cattle-disease reported Common rice sells as follows —

		Srs	
Sadar	...	18	per rupee.
Kandi	...	19	
Jangipur	...	20	

Jessore.—Rainfall nil Weather seasonable. Prospects of standing crops good. *Aman* paddy is being harvested Sowing of indigo over No cattle-disease reported Fodder and water sufficient Common rice sells as follows :—

		Srs.	
Sadar	...	16 to 20	per rupee
Jhenida	...	18 „ 20	
Magura	...	16 „ 22	
Narail	...	19	
Bangaon	...	20	

Khulna.—Rainfall nil. Weather seasonable *Aman* is being harvested Sowing of winter crops continues. Prospects good. Fodder and water sufficient Common rice sells as follows —

		Srs	
Sadar	19 to 22		per rupee
Bagerhat	19		
Satkhira	16 and 20 (new *aus*).		

Rajshahi.—No rain. Prospects of standing crops good. Harvesting of winter paddy progressing, Sowing of *rabi* crops continues. No cattle disease. Fodder and water plentiful Common rice sells from 16 to 28 seers per rupee

Dinajpur—No rain. Weather fine and cool Harvesting of *haimanti* paddy continues *Rabi* crops good No cattle-disease Fodder and water plentiful Rice 17 to 18 seers a rupee.

Jalpaiguri.—Rainfall nil Weather seasonable Harvesting of *aman* paddy going on Transplantation of tobacco and cultivation of *rabi* crops finished Fodder and water sufficient. Common rice sells from 8 to 20 seers a rupee

Darjeeling—No rain. Weather seasonable Hills—*Haimanti* paddy, *bara marua* and *kalai* being harvested, wheat, barley, *phaphar* and *tori* progressing Terai—*Haimanti* paddy being harvested, mustard, potatoes, and *kalai* progressing Sugarcane being cut Coarse rice sells as follows —

	Srs.	
Hills	11 to 12	per rupee
Terai	14 to 19	

Bhutta sells at Darjeeling 25 seers and at Poolbazar 40 seers per rupee

Rangpur—No rain Weather fine and cool Transplantation of tobacco and reaping of winter rice going on *Rabi* crops being sown in places Prospects good Common rice (new) selling at 14 to 20 seers per rupee Fodder and water sufficient

Bogra—No rain Harvesting of *aman* in progress. *Rabi* crops doing well Common rice sells from 17½ to 23½ seers a rupee Fodder and water sufficient

Pabna—Rainfall nil Weather seasonable Winter crops good Price of rice 14 to 20 seers per rupee

Dacca.—Rainfall nil Weather seasonable Prospects of standing crops favourable Fodder available No cattle-disease Common rice 14 to 19 seers per rupee

Mymensingh—No rain *Aman* continues to be harvested and promises to be a bumper crop Cultivation of *rabi* crops going on Rice sells from 16 to 21 seers per rupee No cattle-disease reported Water and fodder available

Faridpur.—No rain. Weather seasonable. Prospects of crops good Rice 20 seers a rupee.

Backergunge.—Rainfall nil Weather fine Prospects of crops good Common rice sells from 12 to 19 seers (old *aman*), and from 13 to 22 seers (new *aman*) per rupee

Tippera.—No rain Harvesting of *aman* continues *Rabi* being sown Prospects good Rice 15 to 26 seers per rupee

Noakhali.—No rain. Crops good except in Hatia and Sandip Cultivation of land for *rabi* crops continues. No cattle-disease. Fodder good except in Lakhmipur Water good Price of rice stationary.

Chittagong.—Rainfall nil. Weather seasonable Reaping of *aman* continues *Rabi* crop is being sown. Prices stationary. Water and fodder sufficient.

Patna—No rain *Rabi* sowing completed. Harvesting of paddy and sowing of poppy in progress. Prospects favourable. Prices almost stationary Common rice in Patna sells at 22 seers per rupee. Fodder and water for cattle sufficient

Gaya—No rain. Harvesting of paddy continues. Prospects of *rabi* and poppy good Common rice selling at 20 seers per rupee.

Shahabad.—No rain Weather cold. Paddy harvesting continues Standing crops good Poppy germination satisfactory. Rice sells at Arrah 15 seers per rupee Fodder and water for cattle sufficient

Saran—No rain Weather seasonable. Paddy cutting going on. Prospects of *rabi* and poppy good Average price of common rice 17½ seers and of *makai* 28½ seers per rupee

Champaran—No rain Winter rice harvest progressing Prospects of *rabi* and poppy favourable Common rice sells at 16½ seers and maize at 25 seers per rupee

Muzaffarpur—Rainfall nil Winter rice being harvested *Rabi* crops promising well Prospects good No cattle-disease Prices are—Common rice 12 to 17 seers, wheat 15 to 18 seers, barley 30 to 35 seers, gram 20 to 25 seers, rahar 22½ seers, maize 20 to 25 seers, and *marua* 27½ seers per rupee

Darbhanga—No rain Paddy is being harvested and threshing going on *Rabi* shows good prospects Weather continues favourable for poppy, the seed has germinated satisfactorily Weeding and irrigation commenced Fodder sufficient Ordinary rice sells at Sadar 16 seers per rupee

Monghyr—No rain Weather cold with westerly wind Harvesting of winter paddy going on *Rabi* sowings in progress. Young plants coming up well Sugarcane pressing continues. Opium prospects hopeful and young plants thriving well. No cattle-disease Common rice sells as follows:—

	Srs	
Monghyr	14	per rupee.
Begusarai	13 to 15	
Jamui	21 (new)	

Bhagalpur—Rainfall nil Weather seasonable Harvesting of winter rice continues *Rabi* crops doing well No cattle-disease reported. Fodder and water sufficient Prices stationary

Purnea—No rain Weather seasonable Harvesting of winter rice in progress *Rabi* crops doing well Tobacco plants are being transplanted. Cattle-disease reported from both subdivisions Fodder and water sufficient. Common rice sells as follows:—

	Srs	
Sadar	20	per rupee
Kishanganj	20	
Araria	21	

Malda—No rain Weather seasonable. Harvesting of winter paddy in full swing *Rabi* crops growing well Ordinary rice (*bhadoi*) selling at 20 seers per rupee at English Bazar Fodder sufficient

Santhal Parganas.—Rainfall nil. Weather seasonably cold. Reaping of paddy in full progress, outturn good. *Rabi* crops doing well Fodder sufficient Price of rice varies from 18 to 24 seers, and of maize from 35 to 40 seers per rupee.

Cuttack—Rainfall nil Weather warm *Laghu sarad* being harvested *Guru sarad* maturing and in places being cut *Biri, kulthi,* and *arhar* are in flower and pod Sugarcane being harvested. Tobacco being planted. Condition of cattle generally good Fodder and water sufficient. Common rice sells as follows:—

	S.	ch.	
Cuttack	18	6	per rupee
Jajpur	19	11	
Kendrapara	21	0	
Banki	22	14	

Balasore—Rainfall nil. Harvesting of *sarad* and *bali* continues Sugarcane being pressed *Dalua* being sown *Rabi* crops in flower Cattle-disease reported from Basudevpur circle Rice sells from 17 to 24 seers per rupee in the interior, and at 18 and 21 seers per rupee at Balasore and Bhadrak respectively Fodder and water sufficient

Angul—No rain Prospects of *rabi* and oil seed crops good. Fodder and water sufficient No cattle-disease Common rice selling at 26 seers per rupee in Angul and 19 seers in Khondmals

Puri—No rain. *Sarad* being cut *Dalua* being sown. *Kulthi* and *arhar* growing well Sugarcane is being pressed. Fodder and water sufficient. Cattle-disease continues in some parts Price of common rice (new) almost stationary

Hazaribagh.—Rainfall nil. Weather seasonable Harvesting of rice finished Prospects of *rabi* crops excellent. Poppy sowings completed and seedlings are healthy. Common rice selling at 14 to 21 seers per rupee

Lohardaga—No rain Paddy harvesting continues. State of standing crops good Rice sells at Ranchi 19 seers per rupee, and in the interior from 19 to 22 seers per rupee No report of cattle-disease Fodder and water sufficient. Grain in stock sufficient.

Palamau.—No rain Weather seasonable Paddy harvesting about finished *Rabi* crops want rain Fodder and water sufficient Rice sells from 15 to 24 seers per rupee

Manbhum.—Rainfall nil Weather seasonable Prospects of crops on the ground are good Most of the paddy has been cut. Cattle-disease reported from thana Purulia Fodder and water sufficient Average price of common rice at Sadar 21 seers 10 chitaks and at Gobindpur 20 seers per rupee Supply sufficient

Singbhum.—Rainfall nil Prospects of crops good. Rice selling at 20 to 24 seers per rupee Cattle-disease reported from Chakradharpur

General Summary.—There was no rain during the week. The harvesting of the winter rice crop is being pushed on rapidly everywhere, and a good outturn is generally expected The young *rabi* crops are doing well. Reports of the poppy crop in Bihar and Hazaribagh are good. Tobacco is promising The pressing of sugarcane is proceeding in some districts No important change in the price of common rice has been reported since last week There was some cattle-disease in Hooghly, Purnea, Balasore, Puri, Manbhum, and Singhbhum The fodder-supply is reported sufficient everywhere except in a part of Noakhali

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 13th December 1898.

F A. SLACK,
Offg Secretary to the Govt. of Bengal.

STOCKS OF RICE IN AND AROUND CALCUTTA.

No 844Stats —The following is published for general information

F A. SLACK,
Offg Secy. to the Govt of Bengal

Statement showing the Stocks of Rice in and around Calcutta during December 1898

STATISTICAL DEPARTMENT,
The 13th December 1898

F A, SLACK.
Offg Secretary to the Government of Bengal

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of November 1898

	Inches	Date	Hour
The mean pressure of the month	29 930		
The average pressure of November from 24 years' registers	29 970		
The highest pressure in the month	30 131	30th	10
The lowest pressure in the month	29 756	13th	16
The range of pressure	0 375		
	Hours		
The total number of hours of bright sunshine during the month	238 7		
The maximum possible number of hours of sunshine	330 8		
	°		
The mean temperature of the month	72 2		
The average temperature of November from 24 years' registers	74·8		
The highest temperature in the month	85 7	9th	
The lowest temperature in the month	57 7	16th	
The range of temperature during the month	28 0		
The mean daily range of temperature	18 4		
The greatest range of temperature in one day	23 1	15th	
	Per cent		
The mean humidity of the month	77		
The average humidity of November from 24 years' registers	72		
	Inches		
The mean vapour tension of the month	0 595		
The average vapour tension of November from 9 years' registers	0 616		
The mean cloud proportion of the month	1 71		
The average cloud proportion of November from 21 years' registers	2 39		
	Ins.		
The total rainfall of the month	Nil		
The total rainfall indicated by a Beckley's self registering rain-gauge (mouth of the gauge about 52 feet above the ground)	Nil		
The average fall of November from 48 years' registers	0 65		
The greatest fall in 24 hours	Nil		
	Days		
The number of rainy days in the month	Nil		
The average number of rainy days in November from 24 years' registers	2		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	135 5		
The mean difference of sun and air temperatures	53 5		
The greatest sun temperature	143·3	6th	
The greatest excess of sun over air temperature	61 2	18th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	56 5		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	7 3		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	10 0	14	
	Miles.		
The mean movement of the wind per day	48 7		
The greatest movement of the wind in one day	86·0	7th	
The greatest movement of the wind in one hour	9 0	28th noon to 1 P M, and 30th, 10 to 11 A M, and 11 to noon	

The number of hours with winds from each of the 8 points—
N. 319, N.E 36, E 22, S.E. 25, S. 4, S W 8, W 72, N.W 117, Calm 121

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore 003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1 6 lower, and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory

G W KUCHLER,

For Meteorological Reporter to the Govt of India

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Calcutta, the 12th December 1898

	%
The mean relative humidity	75
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inches
The total fall of rain from 4th to 10th December 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	Nil
The total fall from 1st January to 10th December 1898	59 52
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65 19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

☼, dew

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL

Political Department.

NOTIFICATION—No. 2717R.

The 20th December 1898.

THE Lieutenant-Governor has heard with deep regret of the death of the Hon'ble Maharaja Sir Lachhmeswar Singh Bahadur, G.C.I.E., of Darbhanga, on the morning of the 17th instant.

One of the foremost landholders and noblemen of the Province, the late Maharaja fulfilled with distinguished public spirit and liberality the duties of his high position, and won the esteem of all classes of the community and of the Government. He rendered valuable service as a Member of both the Legislative Council of His Excellency the Viceroy and the Bengal Council, and his generosity in relieving distress and assisting in works of public utility was conspicuous. His death at an early age will be deplored throughout the Province.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

CALCUTTA,
The 19th December 1898

NOTIFICATIONS OF THE BOARD OF REVENUE

No 2355B

APPLICATIONS for Tickets of admission to the Opium Sale Rooms for the year 1899, should be made at the office of the Board of Revenue, Lower Provinces on or after the 21st December 1898

Tickets for the year 1898, which have not already been surrendered, should be returned at the same time

By order of the Board of Revenue, L P,
H J MCINTOSH, *Offg Secretary*

CALCUTTA, *the 3rd December 1898.*

No 2323B

NOTICE is hereby given that the First Sale of Opium, the Provision of 1896-97, will be held at the Government Opium Sale-Room, No 2, Bankshall Street, on Wednesday, the 4th January 1899, at 11 A M., and will comprise 3,400 chests, viz —

	Chests.
Opium manufactured at the Patna Factory	1,450
Ditto at the Ghazipur Factory	1,950
Total	3,400

2nd—The general conditions of the sale now advertised will be the same as usual They may be ascertained by reference to the Notification issued on the 30th November 1898, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue

3rd—The latest dates for deposit and clearance will be the 9th and 19th January 1899, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P M of Monday the 9th January 1899, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3 30 P M of Thursday, the 19th January 1899

4th—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1899, about the dates specified below The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so —

	Total		17,400	23,400	40,800

The following are the conditions of sale:—

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P M in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1 30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

Deposit	
When the amount bid is less than	Rs 200 per chest
On bids of Rs 1,200 and upwards but less than	Rs 1,600 per chest Rs 300 per chest
On bid of Rs 1,600 and upwards but less than Rs 2,000 per chest	Rs 400 per chest
And so on Rs 100 being added to the deposit for every bid additional, to the extent of Rs 400	

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining uncleemed at 3-30 P M of the fifth day following the day of sale, or 1 30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any

of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1 30 P M , and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue — No 1, certificate of the opium advertised for sale, No 2, report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1897 98, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes and to have the due proportion of opium put into each cake An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue But, in accordance with established usage under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment

By order of the Board of Revenue, L P ,

H J McINTOSH,

CALCUTTA, *the 29th November 1898.* *Offg Secretary*

FINANCE AND COMMERCE DEPARTMET.

NOTIFICATION

Calcutta, the 14th December 1898.

No 5475 G—His Excellency the Governor General in Council desires to place on record his sense of the loss which the public service has sustained by the death, on the 11th December, of Mr Stephen Jacob, C S I, Officiating Secretary to the Government of India in the Finance and Commerce Department.

Mr Jacob entered the Finance and Commerce Department as Under Secretary in 1879 80, and for the last eight years he held the responsible offices of Comptroller General and of Secretary to the Government of India in that Department

The Government of India lose, by his untimely death, the services of an officer whose advice they highly valued, and whose conscientious industry and wide knowledge of financial affairs eminently qualified him for the high offices in which the later years of his life were passed

LAND SALE NOTICES

Advertisement of Sale under section 37 of Act II (B C) of 1882

NOTICE is hereby given that, owing to the abandonment of the D Schedule Embankments, Nos 1 2 and 4 on the right and left banks of the river Selye in the district of Midnapore which are mentioned in Act II (B C) of 1882, the right and title of Government to the embankment lands, as specified in the conditions of sale below will be put up to sale at the Midnapore Collectorate on Thursday the 12th January 1899 corresponding to the 29th Pous 1305 B.S and 30th Pous 1306 Amli —

Conditions of Sale.

1 The lands to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the lands will be considered to have acquired revenue free title to the lands.

2 If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once

3 If the amount of purchase-money exceed Rs 100, one fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale

Genkai nada—Non-existence of rock

With reference to Notice to Mariners No 236, dated 7th November last, issued by this office, the British Admiralty has given further notice (No 691 of 1898) that the rock reported to lie about 5 miles north-eastward of Yebosi has been unsuccessfully searched for the position and surrounding area for about a mile were closely sounded and a look out kept at the masthead without any indication of shoal water being observed the local fishermen also state that no rock exists hereabouts, though a tide race having the appearance of broken water is sometimes seen northward of Yebosi This was considered to have disproved the existence of the rock, and it has been therefore erased from the Charts.

Approximate position, lat 33° 45′ 20″ N, long 130° 2′ 40″ E

EASTERN ARCHIPELAGO—Borneo

Pulo Laut strait—Gas buoys

With reference to Notice to Mariners No 247, dated 31st December 1897, issued by this office, the British Admiralty has given further notice (No. 705 of 1898) that the following gas buoys have been established in Pulo Laut strait, Borneo :—

1 On the eastern edge of the 1½ fathom reef extending eastward from Suangi island, a black *gas* buoy showing an *occulting* light every *twenty seconds* (*light, ten seconds, eclipse, ten seconds*) has been moored, with north-east point of Suangi island bearing N. 20° W, distant 9 cables, and the south-east point of the same island S. 35° W

Approximate position, lat. 3° 25′ 25″ S, long 116° 2′ 0″ E

2 On the western edge of the reef marked on the Chart "dries 3 feet," a white *gas* buoy showing a *white fixed* light is moored, with south point Suangi island bearing S 87° W, distant 6 cables, and the north-east point of the island N 1° E

Approximate position, lat 3° 27′ 40″ S, long 116° 1′ 40″ E.

JAPAN—Noto Peninsula

North Nanao harbour—Non-existence of rock—additional soundings

In continuation of Notice to Mariners No 218, dated the 24th October last issued by this office, the British Admiralty has given further notice, that an examination of the spot shows that the rock, with 3½ fathoms on it, reported to lie 2 cables southward of Fudou saki, Nanao harbour, does not exist, soundings of 9 fathoms having been obtained near the assigned position; the local fishermen, moreover, have no knowledge of any rock in that locality, it has therefore been erased from the Charts

Approximate position, lat. 37° 10′ 50″ N, long 136° 59′ 55″ E

Also, that the following shoal soundings have been obtained on the Okinami bank —

a A depth of 3 fathoms with Toyogadake bearing N W. by N ⅝ N, distant 18½ cables, and south extreme of Hechiwa saki W ⅝ S

b A depth of 5½ fathoms with Toyogadake bearing N W ⅝ N, distant 18½ cables, and Hechiwa saki W by S ⅝ S

c A depth of 5 fathoms with Toyogadake bearing N W by N ⅝ N, distant 20½ cables, and Kagata bana W. ⅛ S

d A depth of 6½ fathoms with Toyogadake bearing N W by N, distant 29¾ cables, and Bagaura saki W by S ⅝ S or approximately in lat 37° 10 4″ N, long 137° 3′ 55″ E

NEW ZEALAND—COOK'S STRAIT

French Pass—Sandbank

THE British Admiralty has given notice (No 660 of 1898) of the existence of a sand bank, discovered by Mr McLean, Master of the S S *Penguin*, situated at the eastern entrance to French Pass, Cook's strait

This bank is composed of fine sand and shells, with patches of dwarf kelp Its length within the 3-fathom line is a quarter of a mile E N E and W S W, and a quarter of a cable broad, the least depths being 2½ to 2¾ fathoms, low-water springs From the eastern limit of the 3 fathom line, the south extreme of Reef Point bears E N E, distant 3⅔ cables, and Collinet Point, S E ½ S

Approximate position, lat. 40° 55′ 10″ S, long 173° 51′ 45″ E

It is intended to mark this bank by a buoy

There is a channel with 8 to 10 fathoms, one cable wide, between the west end of the bank and Reef Point, and another, 2¼ cables wide, with 9 to 12 fathoms water, between the east end and Collinet point

D'Entrecasteaux channel—New beacon erected

THE British Admiralty has given notice (No 669 of 1898) that a beacon painted black has been erected in 16 feet low-water springs between Three Hut and Long bay beacons, D Entrecasteaux channel

From it Long bay beacon or pile bears N 5° E , distant 1 mile, and north extreme of Simpson point N 53° E

Approximate position, lat 43° 15′ 20″ S , long 147° 16 5″ E

(*Variation 10° Easterly in 1898*)

AUSTRALIA—CAIRNS HARBOUR, TRINITY BAY

Depth of water in entrance channel

THE Portmaster, Brisbane, has given notice (No 19 of 1898) that the available depth of water in the dredged entrance channel to Cairns Harbour is 13 feet 6 inches at low-water springs

The depth available at any time is to be obtained by adding 13 feet 6 inches to the height shown on the dial of the tide-gauge at the Fairway Beacon, instead of 12 feet 6 inches as hitherto

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR THE YEAR 1897-98.

GENERAL DEPARTMENT—EDUCATION

Calcutta, the 10th December 1898

RESOLUTION—No 3747

READ—

The Report on Public Instruction in Bengal for the year 1897-98

Dr C A Martin was in charge of the Education Department as Director of Public Instruction throughout the year, and has submitted the report with most commendable punctuality. In accordance with the orders of Government, that details should be entered into only in alternate years, Dr Martin has, in the report under review, discussed certain matters at some length, but at the same time conciseness has not been lost sight of He has, however, introduced into the body of the report and solicited the orders of Government on other matters involving changes of considerable administrative importance which should have formed the subject of separate references

2 *Number under instruction* —The following table shows the number of schools and colleges in Bengal, and the number of pupils in them, at the end of the years 1896 97 and 1897-98 —

Class of Institution	1896-97		1897 98	
	Schools	Pupils	Schools	Pupils.
1	2	3	4	5
PUBLIC INSTITUTIONS—				
University .. Arts Colleges ..	28	2 884	38	6 440

Primary { Upper primary schools	4 638	163,871	4 118	165 198
Lower ditto	45,612	1 061 453	43 442	1 036 035
Special (including Madrassahs and institutions for professional training)	216	19 219	129	9 574
Female	3 281	69 410	3 861	63 147
Total ..	55 640	1,548 593	53 100	1,504 972
PRIVATE INSTITUTIONS—				
(1) Advanced teaching—				
(a) Arabic or Persian	1 219	14 014	1 201	13 946
(b) Sanskrit ..	1 743	17 627	1 661	16 593
(2) Elementary teaching a vernacular only or mainly—				
(a) With 10 pupils and upwards	598	9 428	605	9 777
(b) With less than 10 pupils ..	3 807	21 409	3 452	21 (93
(3) Elementary teaching the Koran only ..	4,717	58 790	4 [illegible]	5 840
(4) Other schools not conforming to the Departmental standards	208	3 990	188	3 474
Total	12,807	126,188	11 413	110 923
GRAND TOTAL	67 647	1 674 775	64,513	1 624 815

Compared with the figures for 1896 97, the total number of institutions decreased in 1897-98 by 3,334, or 4·91 per cent , and the pupils attending them by 49,960, or 2 97 per cent The number of colleges remained stationary, but there was a slight increase in the number of pupils attending them There was some increase in the number of high English, middle English, and upper primary schools and in the number of pupils attending them, but there was a falling off both in the number of, and attendance at, all other classes of schools. The lower primary schools decreased by 2,130 and the pupils attending them by 44,797 The Lieutenant-Governor observes this with much regret Similarly in private institutions there was a loss of 794 schools and of 6,2)9 pupils The falling off has been in both cases attributed generally to the scarcity, and no doubt this must have been an important factor in the very large decrease which has taken place, but the subject merits further examination than has been bestowed on it by the Director in his report It is difficult to believe that so large a decrease can be solely attributed to the famine, which at the commencement of the year had already almost reached its zenith, especially when it is remembered how surprisingly quick and complete was the return to prosperity, and that in the previous year the loss of pupils attributed to famine was only 2,227.

Turning to results by divisions, it would appear from the figures in Table VIII that in Patna, where the famine was severest, there was only a

decrease of 886 pupils, while Chittagong shows a decrease of 16,518 pupils, Dacca of 7,229 pupils, the Presidency of 6,442, Orissa of 6,307, and Chota Nagpur of 3,464 It is hoped that the decreases in Dacca and Chittagong may be largely attributed to distress caused by the earthquake and the cyclone, and that they are temporary in nature, but the decrease in all five divisions seems larger than can fairly be attributed to the national calamities for which the year 1897 is so memorable, and Government awaits from the Director of Public Instruction further information as to the causes which led to this decrease and the arrangements that have been made for recovering lost way

3 *Ratio of pupils to population* —The population of Bengal, excluding Hill Tippera, and the Tributary States of Chota Nagpur, the schools of which are not included in the educational returns, is 73,043,697, of whom 36,412,749 are males and 36,630,948 females This gives, at the usual rate of 15 per cent, 5,461,912 male children and 5,494,642 female children of school-going age Of the pupils on the educational returns 1,520,000 were boys and 104,815 were girls Thus of all boys of school going age 27 8 per cent and of all girls of school going age 1 0 per cent. were at school in 1897 98 The percentages in the previous year were 28·5 and 2 0 respectively As has been before remarked the percentage of pupils at school to the number of boys of school-going age varies enormously from district to district Progress has, however, been made in the more backward districts Thus where there were ten districts in 1894-95 that showed a percentage of less than 15, there are only seven now Muzaffarpur, Bhagalpur, Darbhanga and the Santhal Parganas have risen out of this class, and it is hoped they will maintain their improved position On the other hand, Champaran has descended in the scale, and the percentage in Saran has also decreased It is on the most backward districts that the Department's most fostering care must be bestowed, and the Director is requested to ensure this being done

4 *Schools classified according to their management.*—The following table classifies the colleges and schools according to their management —

	1897		1898	
	Schools	Pupils	Schools	Pupils
1	2	3	4	5
PUBLIC INSTITUTIONS.				
Under public management				
Managed by Government	252	25,644	171	24 767
Managed by District or Municipal Boards.	200	13,097	195	13 498
Under private management.				
Aided by Government or by District or Municipal Boards.	41 179	3,302 992	37 970	3 117 633
Unaided	14,016	208,160	15 464 (a)	243,980
Total	55,640	1,548,893	53,100	3 104,878
PRIVATE INSTITUTIONS				
Of indigenous instruction ...	12,207	126,182	11 413	119 935
GRAND TOTAL	67,847	1,674 775	64,513	3 6.4,813

(a) Including schools maintained by Native States.

The decline in the number of schools managed by Government, from 252 to 171, is due chiefly to the abolition of the guru-training classes attached to middle schools The schools managed by District Boards decreased by five. The number of aided schools diminished by 3,902, while the number of unaided schools rose by 1,448

5 *Financial results.*—The total expenditure during the year under report was less than that of the previous year by Rs. 26,140 The expenditure from Provincial revenues fell off by Rs 2,09,176, from District funds by Rs 59,326, and from Municipal funds by Rs 3,811 The decrease under the first head is solely due to the fact that much less was expended on buildings, the reduction on this account alone amounting to nearly two lakhs and a half The total income from other sources on the other hand increased by Rs. 2,46,173, and betokens, on the part of those for whom education is provided, a satisfactory

appreciation of the advantages offered, and an increased readiness to avail themselves thereof. The increase of Rs 39,818 against superintendence was due mainly to the appointment of two Inspectors to the Bhagalpur-Chittagong and Rajshahi circles which have been newly formed

6 *Inspection tours* —The Director of Public Instruction was on tour for 51 days outside Calcutta, and visited the districts of Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Singhbhum, Patna, Cuttack, Dacca and Chittagong The Lieutenant Governor is aware of the heavy office duties that chain the Director to head quarters, but the importance of inspection by the head of the Department is so great that it seems to His Honour essential that some adjustment shall be made to enable the Director to make more frequent tours It is not by statistical tests and correspondence that the Director can best inform himself of the character of the work that is being done, and of the efficiency of the subordinate staff, or compare the relative results in different parts of the province No one can make these comparisons with such experience and authority as the Director himself, and it is on his judgment that in all such matters the Government itself must expressly rely The subject will be taken up separately, but the Lieutenant-Governor desires that the Director will give it his early consideration The time spent on inspection by the inspecting staff of the Province is shown and compared with that of the preceding year in the following statement —

	1896-97		1897-98	
	Number of officers	Average number of days	Number of officers	Average number of days
1	2	3	4	5
Inspectors	5	176	7	146
Inspector, European Schools	1	74	1	69
Inspectress of Schools	1	67	1	40
Assistant Inspectors	10	161	10	153
Deputy Inspectors	48	174	48	177
Sub Inspectors	210	221	210	218

The increase in the number of Inspectors has been alluded to in paragraph 5 The work done by these officers is reported to have been satisfactory, though the large decrease in the number of days devoted to inspection can scarcely be compatible with the maintenance of the very high standard of supervision that has heretofore obtained, and the Lieutenant Governor must ask that orders be issued to ensure that the period of inspection tours be restored to its former level. The Inspector of European Schools and the Inspectress of Schools have heavy inspection duties at head-quarters, and are not expected to go as much into the interior as their brother officers do The Assistant Inspectors, who have very little office work to do, are expected to show a higher average than only 153 days touring in the year Some of them have, indeed, exceeded 180, and there is no reason why others should not do the same Four Deputy Inspectors failed to put in the prescribed minimum of 150 days touring, but in only one case was the explanation unsatisfactory The prescribed minimum of 200 days' touring for Sub Inspectors has on an average been exceeded in all Divisions though there have also been individual short comings in all. The proposal to allow District Boards at their option to substitute for Inspecting Pandits a limited number of "Assistant Sub-Inspectors," who would be drawn, to a great extent, from the same class of men as the present Sub-Inspectors, is under the consideration of Government

The principle of Dr Martin's recommendation that Inspectors of Schools should be convened to attend quinquennial conferences at which matters

relating more closely to inspection work should form the chief topic of discussion, and that Inspectors of Schools should hold similar biennial or triennial conferences with their Assistant and Deputy Inspectors appears to the Lieutenant-Governor worthy of consideration; but the present proposals are of course mere suggestions, and before sanction can be given to any final action being taken in the matter, a definite programme of work and a list of the subjects which require more thorough discussion should be drawn up and submitted for the approval of Government.

7 *District Boards*.—It is satisfactory to notice that the relations between the District Boards and the Educational Department continued on the whole to be harmonious

8. *Municipal Boards*.—Most municipalities are merely called upon to supply the money required for the provision of primary education to one-half the number of boys of school-going age. Thus they do, but as they to a great extent act without guidance from any one experienced in educational matters, it is feared that the best use is not made of the money so provided. Dr Martin thinks it would be very desirable that the Deputy Inspector should be *ex-officio* a member of each municipality in his district, and that, as in the case of District Boards, the Commissioners should appoint an Educational Sub Committee, of which the Deputy Inspector should be a member This suggestion will be referred to the Municipal Department for consideration.

9 *University education*.—The number of Arts Colleges open during the year was 38, the same as in the previous year The Uttarpara College has been transferred from the aided to the unaided list The Harendra Lal College, at Munshiganj, and the Hetampur College in Birbhum (both unaided) appear in the list for the first time, while the Calcutta Boys' School, College Department, and La Martiniere for Girls, disappear from it Eleven colleges are supported by Government, 1 (at Midnapore) by Municipal funds, 6 are aided and 20 are unaided. The total number of college students increased from 6,384 to 6,440

10 *Cost of College education*.—The total expenditure on colleges rose from Rs 7,47,764 in 1896 97 to Rs 7,71,372, or by 3 1 per cent, as against an increase of 5 7 per cent in the preceding year This increase was mostly in unaided colleges, while both in the Government and the aided colleges the cost decreased by over Rs 10,000 The expenditure from Provincial revenues on Government colleges declined from Rs 2,69,884 to Rs 2,49,710, due to the transfer of certain officers from the head "Government colleges" to that of "Inspection" There was a decrease of Rs 9,610 in the Presidency college, Rs 6,731 in the Hooghly College, Rs 8,431 in the Patna College, Rs 3,283 in the Ravenshaw College, and Rs 3,134 in the Rajshahi College, while there was an increase of Rs 6,729 in the Krishnagar College and Rs. 3,631 in the Bethune College The expenditure from Provincial revenues on aided colleges remained nearly the same as in the preceding year, the small reduction being chiefly due to the reduced grant to the Victoria College, Narail The annual cost per student under collegiate instruction declined from Rs. 113-13-7 to Rs 111 8 5 and the Government share from Rs 45 2 0 to Rs 39-11 6.

11 *Success at University examinations*.—Two thousand seven hundred and twenty-four candidates appeared at the First Arts Examination held in March 1898, as compared with 2,631 in 1896 97 The percentage of successful candidates increased from 38 to 46; In Government colleges the percentage was 55, in aided colleges 49, in the Municipal College at Midnapore 47, and in unaided colleges 43 All Government colleges, with the exception of those at Hooghly, Patna and Rajshahi, passed more than half the candidates, the Presidency College having passed 76 per cent Of the aided colleges, the General Assembly's Institution passed 55 per cent of its candidates Among the unaided colleges the Loretto House passed all its three candidates, and the Braja Mohan Institution, Barisal, and the Hetampur College passed 66 per cent, the Century College 65, the Arya Mission Institution 62, and the Bangabasi College 53 per cent of their candidates

The total number of candidates for the B A. degree rose from 1,521 in 1896 97 to 1,588, or by 4 4 per cent, and the number of successful candidates increased from 886 to 891, or by 1 2 per cent The percentages of successful

candidates in both courses together were 35 2 in Government, 22 3 in aided, and 19 9 in unaided colleges. Of 991 candidates in the A course, 26 3 per cent passed as against 26·1 in 1897, while of 597 candidates in the B course, 21 7 per cent passed as against 28·9 in 1897 In the A course the Government colleges passed 39 4 per cent, the aided colleges 24 2, and the unaided colleges 20·2 per cent. In the B course the corresponding percentages were, respectively, 29 3, 18 3, and 19 4 Among Government colleges, the highest place, as usual was taken by the Presidency College, which passed 46 8 per cent of its candidates—62 per cent. in the A and 31·8 per cent in the B course

Though the number of candidates for the M A degree declined from 194 in 1897 to 172, the number of those successful was the same as in the previous year, *i e*, 83. Of the successful candidates, 51 belonged to Government colleges, 21 to aided colleges, and one only to an unaided college, while of the remaining ten, 9 were private students and one a teacher The Presidency College again shows by far the best results.

12 *Secondary Education.*—The main statistics relating to secondary schools for the last five years are shown in the following statement —

Year	Number of schools	Number of pupils	Expenditure		
			Public funds	Private funds	Total
1	2	3	4	5	6
			Rs	Rs	Rs
1893 94	2,373	198,736	5 94,328	21,33,751	27,28,079
1894 95	2,397	206,989	6,09,740	21 85,658	27,9 ,398
1895 96	2,422	207,542	6,07,983	22,61,106	28,69,089
1896 97	2,451	215,131	6,01,526	22,95,876	28,97,102
1897 98	2,453	220,159	5,99,672	23,46,117	29,45,789

Secondary schools of all classes taken together increased slightly in the last year from 2,451 to 2,453, and the pupils attending them from 215,131 to 220,159 High schools showed an increase of seven in number and of 2,264 pupils Middle English schools increased by six and their pupils by 2,83 , while middle vernacular schools decreased by 11 and their pupils by 71 The expenditure from public funds decreased by Rs 1,854, while that from private funds increased by Rs. 50,241. The total expenditure on secondary education increased from Rs 28,97,402 to Rs 29,45,789

13 *High schools.*—The number of Government high schools increased by one, owing to the Uttarpara Collegiate School (returned in the previous year as aided) having been separated from the Uttarpara College and taken over as a Government school from 1st April 1897 The number of schools under the management of District or Municipal Boards remained the same, viz five Though the number of aided schools decreased by one, there was an increase of 516 pupils The number of unaided schools increased by seven and the pupils attending them by 996 At the University Entrance Examination 2,658 boys passed out of 4,754 candidates (55 8 per cent) against 2,792 out of 4,667 candidates (59 6 per cent.) in 1896-97 The Hindu School, the Hare School and the Dacca Collegiate School also each gained over 50 in merit marks

14 *Drawing.*—In conformity with the orders of Government, that the marks obtained by candidates in drawing at the Entrance Examination in 1897 and subsequent years, should be taken into consideration in the award of junior scholarships, arrangements for teaching this subject have been made in all Government high schools (except Rangamati, and in many of the schools under private management The number of candidates who took up this subject in Government schools rose from 589 to 655, but the number who came out successful fell from 217 to 199, due, it is believed, to the test being more difficult in 1897-98 The University, the Lieutenant-Governor is glad to see,

contemplates making the drawing examination a greater test of merit than it has hitherto been

15 *Middle schools.*—The middle English schools increased from 927 with 67,769 pupils in 1896 97 to 933 with 70,604 pupils. The number of schools under public management remained unchanged, but the pupils attending increased by 102, or 4 7 per cent. The aided middle English schools decreased from 657 to 654, but their pupils increased from 48,956 to 50,218, or by 2 5 per cent. The number of unaided schools increased by nine and the pupils attending them by 1,471.

The number of middle vernacular schools fell from 1,140 with 65,441 pupils in 1896-97 to 1,129 with 65,370 pupils. The schools maintained by Government rose from 37 to 39, owing to the establishment of two schools in the Chota Nagpur Division The number of schools managed by District or Municipal Boards decreased by five. The aided schools declined from 811 with 45,035 pupils to 799 with 44,547 pupils The unaided schools rose from 143 with 8,782 pupils to 147 with 9,234 pupils.

The following table shows in a condensed form the results of the Middle Scholarship Examination from the two sets of schools (Middle English and Middle Vernacular) for the last two years —

	Number of candidates.	Passed at the Middle English examination	Passed at the Middle Vernacular examination	Total
1896 97				
Middle English schools	3,315	938	1,089	2 081
„ Vernacular schools	3 452	81	2,018	2,099
Total	6 767	1,019	3,098	4 117
1897-98				
Middle English schools	3 483	858	901	1 759
„ Vernacular schools	3 428	96	1,494	1 590
Total	6,861	954	2,395	3,349

The Lieutenant Governor desires further enquiry regarding the causes of this serious retrogression, being unable to accept as a complete explanation the reason given by the Director, viz , that it is due to a year of disaster

16 *Discipline and moral training* —The Lieutenant-Governor has read with regret the list of cases of breach of discipline mentioned in paragraph 90 of the Director's report

Happily, there has been a considerable reduction both in the number and the degree of gravity of the more serious offences but much remains to be done Three cases of assault with violence on masters are reported, while at one school two boys were expelled for bringing a courtezan into the school house at night There are still cases of boys and masters tampering with school registers and certificates, while punctuality and regularity in attendance are both on the part of masters and pupils often not even aimed at or expected, and are almost always poor. The Director of Public Instruction fully recognises the gravity of the whole question A power of maintaining discipline and imbuing his pupils with a good moral tone is the first essential in a schoolmaster, the absence of which will be held an insuperable barrier to promotion, or to the holding of positions of responsibility which necessitate its exercise

17 *Boarding-houses.*—The number of hostels or boarding-houses for boys and girls, and the number of their inmates at the end of the year, were, respectively, 195 and 5,475, as compared with 170 and 4,483 in the previous year The growing recognition of the value of these institutions and the growing generosity of the public in providing them have the Lieutenant Governor's warm appreciation The total expenditure in these boarding-houses also increased from Rs 2,23,123 to Rs 2,42,845, and the results of the year under this head are most satisfactory

18 *Physical training* —Cricket and foot ball are reported to continue in undiminished popularity, and to be extending to many places in the mufassal Country games, too, have been increasing in favour, specially among boys who cannot afford to buy any expensive article for the play ground The question of the introduction of physical drill in schools with a view to eventually

making it compulsory to all is one which might receive the consideration of the Director and his subordinates. In addition to the benefit to health that is derived therefrom, the habit of prompt obedience and orderliness it develops is certainly useful as a factor in improving the standard of discipline

19 *Primary education* —The number of primary schools and their pupils during the past five years is shown in the following statement —

Year.	Upper primary		Lower primary	
	Number of schools.	Pupils	Number of schools	Pupils
1	2	3	4	5
1893 94	3,763	141,483	44,020	988,745
1894-95	3,901	150,878	45,897	1,055,253
1895-96 ..	3,944	153,070	47,054	1,087,356
1896 97	4,020	161 102	45,612	1,081,432
1897 98	4,107	165,057	43,482	1,036,635

The steady increase in the number of upper primary schools notwithstanding many exceptionally adverse circumstances is a sign of healthy development, since it takes years for a lower primary to develop into one of the upper class As regards the lower primary schools, Dr Martin expresses his surprise that a much larger number did not collapse during the last two years As regards the decreases shown in the various divisions, that in Chittagong is, as was surmised in paragraph 2, attributed to the cyclone, the storm-wave and the cholera epidemic which succeeded it while in Noakhali and Tippera floods and failure of crops are held to be responsible No specific reasons other than the scarcity are advanced for the other decreases

20 *Cost of primary schools to Government* —The expenditure incurred by Government and by District Boards on account of primary schools for native boys and girls for the last two years is compared in the following table —

Description of schools and expenditure	From Provincial revenues		From District funds		Total	
	1896 97	1897-98	1896 97	1897-98	1896-97	1897 98
1	2	3	4	5	6	7
	Rs	Rs	Rs	Rs	Rs	Rs
Stipendiary schools	1,27,359	1,27,769	1,80,915	1,71,137	3,08,274	2,98,906
Non stipendiary schools	26,847	20,919	3 69,066	3,21,989	3,95,913	3,42,908
Subordinate inspecting agency	13,326	14,196	90,572	88,628	1,03,898	1,02,8 4
Lower primary scholarships	2,873	2,902	23,274	24,047	26,147	26,219
Buildings and furniture	5,723	5,067	1,402	978	7,125	6,045
Charges for abolished schools	3,339	4,541	12,588	9,538	15,927	14,079
Examinations, prizes and rewards.	4,759	5,828	38,153	32,596	42,912	38,424
Miscellaneous ..	13,170	9,058	22,194	24,348	35,364	33,406
Total .	1,97,396	1,89,880	7,38,164	6,73,261	9,35,560	8,62,811
Allotments ..	2,01,428	1,97,470	7,53,245	7,46,616	9,54,673	9,41,086
Savings ..	4,032	7,890	1 5,081	73,355	19,113	81,215

The above table does not include the expenditure on primary schools which are aided from the grant-in aid and circle funds Nor does it include a sum of Rs 1,73,616, which represents 80 per cent of the charges on account of Sub-Inspectors, and under Government orders is chargeable to the cost of primary education The expenditure on primary education came to Rs 8,62,841 as against Rs 9,35,560 in the preceding year The allotments from District funds were Rs 7,46,616 as against Rs. 7,83,245, but the savings effected came up to very nearly 10 per cent of their allotments in 1897-98 The Lieutenant Governor trusts that as District Boards recover from the severe strain that has been put on their finances by the famine, the earthquake and the cyclone they will at all times be mindful of the primary claim elementary education has to being helped from the funds at their disposal The Municipal expenditure on primary schools for boys and girls was Rs 62,319 as against Rs 63,095 in 1896-97.

21 *Comparison of cost of upper and lower primary schools* —The apportionment of the grants from Provincial revenues and District funds between upper and lower primary schools and the relative cost of both classes are shown division by division in the following table, which has been condensed from that in paragraph 103 of the report —

Division	Allotment	Expenditure		Number of schools		Number of pupils		Cost per school in rupees		Cost per pupil in annas	
		Upper	Lower	Upper	Lower.	Upper	Lower	Upper	Lower	Upper	Lower
1	3	3	4	5	6	7	8	9	10	11	12

The annual cost of each pupil in an upper primary school has fallen from 20 6 annas in 1896-97 to 20 1 annas, and in a lower primary school from annas 10 to annas 9 7 The Director remarks —

"The comparative advancement of different districts explains the wide variation in cost in the different divisions The strange divergence which appears in the cost of educating each pupil in districts which adjoin each other, and which are apparently similarly circumstanced, is to be found in the extent to which the stipendiary system is followed in them Thus, in Birbhum, where the stipendiary system is wholly abolished, the annual cost of an upper primary school was only Rs 27 4, whereas in the adjoining district of Burdwan, where the stipendiary system is more in favour, it was Rs 42 2 The average cost of upper primary schools is heavy in the Patna Division, owing to stipends being given on a more liberal scale than in the districts of Bengal Proper This is also the case in the Monghyr, Bhagalpur, and Purnea districts of the Bhagalpur Division"

The Lieutenant Governor has read with much interest Mr Pedler's remarks on the comparative merits of the stipendiary and payment-by-result systems and Dr Martin's remarks thereon The discussion of such an important matter is perhaps hardly within the scope of an ordinary Annual Report, but Sir John Woodburn welcomes so thoughtful an examination of our

methods, and will be glad to consider any proposals Mr Pedler may wish to make on the subject There is, however, no concealing the fact that in the present state of Provincial finances any scheme, however good in itself, which involves a heavy increase of expenditure, is beyond the range of practical consideration, and upon the merits it is open to question whether the time is not yet far distant when considerations of the quality of our primary schools can supersede the supreme and imperious necessity of providing elementary instruction to the children of the poor. As Dr Martin says, England is not India, and the lessons of English experience India is not sufficiently advanced to assimilate In the practical application of their respective theories, however, the Director and his highest officer do not appear to reach very different results, and if the outcome of the discussion is to be the necessary improvement of the inspecting gurus and the establishment of a single stipendiary model school in each subdivision, the Lieutenant-Governor ventures to hope that it may be possible to meet their united conclusions without a material opposition from the Financial Department of this Government

22 *Relative position of districts* —In paragraph 104 of his report, the Director has given the usual table showing the number of pupils in each district and division in the different stages of primary instruction, and comparing its relative position with reference to the progress made in this respect The principle on which the table has been compiled is the same as in previous years, and the divisional figures showing the percentage of merit marks to the male population of school going age are reproduced in the margin The order of the divisions arranged by this standard remains the same as last year Patna and Bhagalpur continued to show the worst results.

Divisions	Merit marks.
Burdwan	132 5
Chittagong	98 0
Presidency	80·97
Orissa	75·4
Dacca	74 4
Rajshahi	60 1
Chota Nagpur	41 6
Bhagalpur	35·7
Patna	32 4

23 *Primary Scholarship Examinations* —The results of the Upper Primary Scholarship Examination for boys, including candidates from upper primary schools and private students for the last four years, are shown in the following statement —

Year	Number of competing schools.	Number of successful schools	Number of candidates.	Number of successful candidates	Percentage of successful schools	Percentage of successful candidates.
1	2	3	4	5	6	7
1894-95	2,464	1,618	8,968	3,751	65	46 8
1895 96	2,627	1 943	6 102	3 466	73	56 2
1896-97	2,682	2 037	6,518	3 824	75·9	58 6
1897-98	2,647	2 115	6 113	4 051	79·9	66 3

The yearly increase in the percentages of successful schools, and of successful candidates, indicate a most satisfactory improvement in the progress of education

In the Lower Primary Scholarship Examination the number of competing schools increased from 13,326 to 13,725, and the number of successful schools from 10,063 to 10,460. The number of successful candidates advanced from 27,088 to 28,761 and the number of successful Muhammadan candidates from 5,235 to 5,884

24 *School Post Office* —There were 745 school post offices during 1897-98 as against 697 in the preceding year The system is generally working well, but a complaint comes from one district that schools suffer greatly by this arrangement, since during school hours teachers are interrupted when the mail is received and despatched It was a condition of the experiment that postal work was to be considered subordinate to educational duties, and where such a practice prevails the Deputy Inspectors of Schools should address the Inspectors of Post Offices with a view to the removal of the hindrance

25 *Training Schools.*—The number of training schools for teachers of both sexes was 29 as against 118 in the previous year, and the pupils in them decreased

from 1,770 to 1,262 The guru-training classes attached to middle schools were, with the exception of three schools in the Chota Nagpur Division, abolished during the year As in the previous year, there were 9 aided training schools for mistresses, but the pupils attending them increased by 26. The expenditure from Provincial revenues on all these institutions increased from Rs. 97,055 to Rs 97,648, or by Rs. 593, while the total expenditure from the District funds, fees and fines, and other sources declined by Rs 49, Rs 2,853 and Rs 9,668, respectively, the net result being a decrease of Rs 11,977 The average cost of each pupil per annum in the Government training schools increased from Rs 137-7 to Rs 154-7, chiefly on account of the poor attendance in the English classes which were opened in 1896 in connection with the training schools at Calcutta, Hooghly, Dacca, Patna and Cuttack for the training of English teachers for secondary schools The experiment has not yet been given a long enough trial to warrant any final opinion being passed as to its want of success It will be time enough to consider the proposal of stopping it if after three years no greater measure of success is obtained

The results of the English Teachership Examination show that 12 certificates were granted, seven in the second grade and five in the third grade The total number of candidates that appeared at the Vernacular Mastership Examination held in 1898 was 420 as against 412 in the previous year, but the number of successful candidates was only 275 as against 292 A common examination for a special certificate in drawing was held for the training schools, and the results are shown in the following statement —

	Total
Calcutta	4
Hooghly	6
Dacca	3
Chittagong	2
Rangpur	2
Total	17

26 *Law Classes* —The number of law schools was the same as in the preceding year, viz 16, but the number of pupils attending them increased by 83 The average annual cost of educating each pupil in the law departments of the Government colleges was nearly Rs. 52 4 5 as against Rs 51 6 in 1896-97 The number of pupils reading for the degree of Bachelor of Law fell off by 32, while the students attending the pleadership classes increased by 115

The total number of candidates who appeared at the last examination for the degree of Bachelor of Law was 468 as against 409 in the previous year, while the number of successful candidates also increased from 204 to 239, of whom the Ripon College passed no fewer than 120

27 *Medical schools* —The total number of medical institutions fell off from 11 to 9, and the number of students attending them from 1,950 to 1,815 The total strength of the Medical College at the beginning of the session was 583 as against 588, 511, 484 and 419 of the four preceding years Of the students that competed at the various examinations 44 per cent. were successful against 53 2 per cent. in the previous year

The number of students in the Campbell Medical School at Sealdah on the 31st March 1898 was 229, of whom 15 were females. Sixty-eight male and 10 female students appeared at the second or final diploma examination, 50 of the former and 9 of the latter being successful. All the female students, excepting one, who is married, were boarders in the Lady Elliott Hostel The number on the rolls of the Dacca Medical School on the 31st March last was 145, of whom 9 were females Thirty-eight students (one female) succeeded in passing the final examination. The number attending the Temple Medical School at Patna on the 31st March 1898 was 136, of whom four were females Twenty-eight candidates passed at the final examination In the Cuttack Medical School the number of pupils on the rolls on the 31st March 1898 was 99, of whom 4 were females Thirty-one students passed the final examination.

28. *Sibpur Engineering College*.—In the Engineering Department, which is affiliated to the University, there were 118 students, all of them, with the exception of 5 Europeans and Eurasians and two Muhammadans, being Hindus In the Apprentice or Foreman Mechanic Department, there were 184 students, of whom 153 were Hindus, 30 Europeans and Eurasians, and one a Muhammadan, while the Artizan class had 11 students. An Agricultural Department was opened in connection with the college in June 1898 There was an increase of 20 pupils in the Engineering Department and a falling off of 21 pupils in the Apprentice Department. The Artizan class gained four pupils The total strength of the college on the 31st March 1898 was 313 as against 310 in 1896-97 At the L. E Examination, two candidates appeared, both of whom failed At the B. E. Examination, 13 candidates appeared, of whom six passed—two in the first division and four in the second division. Of the 15 candidates for the B E. and L E. Examinations of the University, 10 were students of the college, and five ex-students, who had failed previously Three Overseers' and 20 Sub Overseers' certificates were granted to students leaving the college without going through the full course The results of the annual examination of the Apprentice Department were satisfactory The mining scholarships are reported to be unpopular, only one student having elected, since the scholarships were established, to undergo a mining course The attempt to induce B E's to undergo a special training in electricity, so as to pass the Honours' examination in Engineering in this subject, has not met with success The electric light installation was in working order in July 1897, and on the whole the plant has been successful. Of the high merit and value of this college there can no longer be any doubt. Its students get employment as fast as they are declared qualified. It so clearly meets a great want, under the conditions of the time, that it is entitled to and will receive all the help the Lieutenant Governor can give it He considers it of such importance that the 23 industrial schools in the mufassil, which are affiliated to it, should be brought to a useful standard and enabled to supply well trained students to the higher instruction of the college itself, that Mr. Slator, the Principal at Sibpur, has been deputed to examine each one and report in detail on the character of the instruction and the sufficiency of the necessary appliances

29 *Survey schools*.—The number of pupils in the three Government survey schools at Dacca, Patna, and Cuttack, on the 31st March 1898, was 190, 182 and 84 respectively as compared with 324, 194 and 73 the previous year The large decrease in the Dacca School is attributed to a rumour that vernacular students were not qualified for admission, and to the enforcement of the rule that only those who had some knowledge of English should be allowed to join the second year class The latter proved a bar to the progress of 60 out of the 113 pupils who appeared at the annual examination Practical training receives much attention at the Dacca and Patna Survey Schools, especially in cadastral survey with plane tables and theodolites. The number of pupils from these schools who appeared at the final examinations was 235, the number who passed being 158

30 *School of Art*.—The number of students on the rolls on the 31st March 1898 was 226, of whom 206 were in Division I, the practical art side, and 20 in Division II, the fine art side of the school The course in Division I includes, besides the general classes for drawing, classes for architectural and mechanical drawing, lithography and wood engraving and modelling Division II affords an ordinary artistic training in drawing, painting and sculpture, similar to that given in art academies in Europe. The intention of the new regulations was, on the one hand, to develop the practical side of the school, especially in the direction of decorative art and, on the other, to give a higher aim and better training to those who entered the school to become painters or sculptors. In Division I special attention is given to fresco decoration for walls, the designing and making of stained glass windows, and lacquer work and stenciling. Under the new regulations specially low fees are charged to those actually employed in any branch of industrial art The number of pupils admitted in the Artizan class under these rules at the close of the year was 12, most of whom were the sons of silversmiths

31. *Female education* —The main statistics of female education, *i.e*, the attendance and expenditure in schools for native girls, are shown in the following table —

Class of Schools.	Number of schools.	Number on the rolls on the last March 1898.	Average monthly roll number	Average daily attendance.	Expenditure— From public funds. Provincial revenues.	District funds.	Municipal funds.	From private funds. Fees.	Other sources.	Total.

There was a large falling off both in the number of schools for girls and of the pupils attending them during the year under review, which is ascribed to the great agricultural distress which prevailed during the year 1897 Besides the girls shown in the above table, there were also 36,806 girls in boys' schools, as against 38,530 in the previous year The net result of the year is a loss of 401 schools and of 8,125 pupils, including the girls in boys' schools The decrease in the number of schools was largest in the Chota Nagpur and Bhagalpur Divisions, and was considerable in the Presidency, Dacca, and Chittagong Divisions On the other hand in Calcutta, there was an increase of more than 11 per cent. in the number of schools, and of more than 3 per cent in the number of girls. There was a decrease of Rs. 12,723 in expenditure from public funds, and of Rs 425 from private funds The net decrease in expenditure during the year under review as compared with that of 1896 97 was Rs 13,148. The only two girls' schools maintained by Government are the Bethune Collegiate School in Calcutta and the Eden Female School in Dacca The Bethune School sent up seven girls at the last Entrance Examination, of whom three passed, while in 1897 all the six candidates sent up passed. The total number of girls who passed the modified middle English, middle vernacular, upper primary, and lower primary examinations for boys was 4, 13, 82, and 899, respectively,—figures which show a very material advance on those of 1896-97, and fully justify the Director's contention that if the quantity of female education has decreased, its quality has improved. The question of unifying the standards for girls' examinations over the whole Province is still pending, and practically nothing further in this direction has been done in the year under review The question must not be considered as disposed of, however, and it is trusted that the Director will see a way to overcoming the difficulty. The question referred to by the Director of substituting prizes for scholarships in the cases of Hindu and Muhammadan girls will be separately considered on receipt of definite proposals on the subject, should he consider a change advisable

32 *Education of Europeans* —The following table shows the number of Government, aided and unaided, schools for European education for Bengal, and the number of pupils attending them for the last two years —

	31st MARCH 1897				31st MARCH 1898.

Unaided schools	14	1,403	375	1,778	14	1,304	360	1,664
Grand Total of all Schools	77	4,481	3,079	8,130	74	4,555	3,665	8,220

During the year a new Government school for girls has been opened at Kurseong The number of schools fell from 77 in 1896 97 to 74, while the number of pupils attending them increased from 8,130 to 8,220 The total cost of European education was Rs. 13,84,365 as against Rs 13,56,392 in 1896-97, of which Government contributed Rs 2,07,346 as against Rs 2,27,579 The number of candidates from European schools for the University Entrance Examination was 30 as against 100 in the previous year, and the number of successful candidates was 24 as against 66. Of this number, three pupils gained scholarships, the corresponding number last year being two The Inspector of European Schools explains that this falling off in the number of candidates for the Entrance Examination is due mainly to the majority of schools adopting the High School Pass Examination, in the belief that the proposed High School Honour Examination will be shortly established as the test of students wishing to qualify for entrance into Government service

The proposals made by Mr Peake regarding the professional training for teachers in European schools, the provision by Government of funds to assist the establishment of Kindergartens, and the affiliation of the Victoria School and others to the Sibpur Engineering College, on which the Director has requested the special orders of Government, are not matters that can be satisfactorily dealt with in this Resolution, the necessary details not having been furnished The Director is desired to make each the subject of a separate correspondence

33 *Muhammadan education.*—The total number of Muhammadan pupils decreased from 477,019 to 445,179, *i.e.*, by 1 0 per cent In public institutions there was a decline of 25,614 Muhammadan pupils, and in private institutions of 6,226 Muhammadan pupils With the exception of the lower primary schools, training schools, and Madrasas, all classes of public institutions gained pupils of the Muhammadan persuasion. Arts colleges, middle English schools, middle vernacular schools, upper primary schools, professional colleges, and technical schools showed an increase both in the number and in the percentage of Muhammadan pupils, while high English schools showed an increase in the number of pupils only as compared with the previous year. On the other hand, both the number and the percentage of Muhammadan school going pupils, decreased very much in lower primary schools, which were the first to feel the effects of the calamities of the year. The loss in private institutions, mainly due, it is said, to the above cause, was shared by all classes of schools, the *Koran* schools and elementary schools having suffered most. There was a decrease of Muhammadan pupils in all divisions, with the exception of Burdwan, in which there was a slight increase. In Chittagong the loss of Muhammadan pupils reached the enormous total of 20,119, owing to the cyclone and tidal

wave which swept away almost all the school buildings in the parts chiefly affected by these calamities There were heavy losses in the Presidency, Rajshahi, Patna, and Dacca Divisions, and everywhere the causes are alleged to have been the scarcity and the agricultural depression which affects Muhammadans more than the rest of the community

There was a slight increase in the number of successful Muhammadan candidates at the B A and F A. Examinations, but a heavy decrease in the number who were successful in the Entrance Examination The total number of successful candidates at these and the M A. examinations was 267, as compared with 308 in the previous year

The number of candidates at the central examinations of Madrasas declined from 261 to 205, and that of successful candidates from 155 to 123 This decrease is shared by all the Madrasas, except those of Dacca, Sasaram, and Sitakund. The total number of pupils in the Madrasas under Government management was 1,570 as against 1,667 in the preceding year The total receipts and expenditure were Rs 32,129 and Rs. 69,021 respectively, as against Rs 24,455 and Rs 54,877 respectively in 1896-97. The increased expenditure is due to a great extent to the increased salaries which several officers draw under the system which came into force when the Department was reorganized

34 *Education of aborigines*.—The number of pupils of aboriginal races decreased from 37,848 in 1896-97 to 33,708 in 1897 98, or by 4,140 The decrease is shared, more or less, by upper and lower primary schools for boys', and by girls' schools. The loss of aboriginal pupils in the lower primary schools was 2,992 Upper primary and girls' schools lost 385 and 1,022 respectively, while high schools gained 7 pupils, middle English 37, middle vernacular 163, and special and private schools 52 The decrease of these pupils is found in all the divisions of Bengal, except Orissa, where there is an increase The five missions in Chota Nagpur maintained 192 schools with 6,329 pupils in 1897-98, as against 208 schools with 6,271 in the preceding year This year no aboriginal pupil passed the last Entrance Examination, but 683 pupils, as compared with 627 in the previous year, passed other Departmental examinations, and the increase in the middle scholarship examinations was very marked.

35 *Private institutions*.—There are a large number of private institutions scattered throughout the Province which do not conform to any particular departmental standards of instruction, and submit to no public test, but adhere to indigenous modes of teaching They include the elementary schools for reading and writing, Sanskrit *tols*, and *maktabs* for teaching the *Koran* or Arabic and Persian The number of these schools and that of the pupils attending them during the last two years are shown below —

	1896-97.	1897-98.
Schools ...	12,207	11,413
Pupils ..	126,183	119,923

36 *Sanskrit*.—The number of Sanskrit *tols* decreased by 122 and their pupils by 1,034 With reference to this the Director writes —

"The education imparted in the *tols* has been rendered methodical, and their standard of teaching and general tone have been elevated since they have been brought under the rules and regulations prescribed by Government. Two separate examinations for *tols* are now conducted with the same examiners and the same set of questions prepared under the general supervision of the Principal of the Sanskrit College. The standards for these examinations were so arranged as to lead up eventually to the Sanskrit Title examination, which has been annually held since 1878 Now that regular courses are prescribed for these institutions and their progress is tested by examinations held under the auspices of the Department, it appears that the time has come when those which appear on the books of the 'Registrar of the Examinations for Sanskrit *tols*' should be transferred from the class of private institutions conforming to no departmental standards to the class of institutions for special instruction"

The Lieutenant Governor agrees with the opinion expressed above and desires that steps may be taken to effect the transfer At the Sanskrit First examination 463 candidates passed in 1898 as against 411 in 1897. at the

Second examination 178 passed as against 187 in 1897. At the Sanskrit Title examination 87 out of 217 candidates passed in 1898 as against 61 out of 168 in the previous year The total expenditure during the year under review from Provincial revenues for the encouragement of Sanskrit learning in *tols* amounted to Rs 21,270, exclusive of Rs. 700 spent on the conduct of Sanskrit Title and Sanskrit First and Second examinations.

37 *The Central Text book Committee* —The Central Text book Committee now consists of 20 members, with the Hon'ble Mr. Justice Guru Das Banerjea as President and the Inspector of Schools, Presidency Circle, as *ex officio* member and Secretary. All the members, with three exceptions, are Fellows of the Calcutta University, and 11 are unconnected with the Education Department During the year under review the Committee dealt with 283 new books, of which 64 were approved for various purposes, 97 were rejected, and upon the rest no opinion had been recorded before the close of the year owing to the fact that no less than 164 were submitted for examination in the last month of the year. Besides the Central Text book Committee, sitting at Calcutta, there is a Branch Committee at Patna for the selection of Hindi and Urdu books, and another at Cuttack to consider Uriya publications The Patna Committee dealt with 43 books, and prepared during the year a revised list of books approved as text and prize-books The Orissa Committee reported on 12 books during the year, of which 3 were approved

38 *Conclusion* —Dr C A Martin has administered his Department with an enthusiasm and assiduity which the Government and his subordinates alike appreciate, and the thanks of the Lieutenant-Governor are due to him and to the Principals, Professors, Inspectors, Assistant Inspectors and other officers who have been specially mentioned

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secretary to the Government of Bengal

FINAL REPORT ON THE BHADOI CROPS IN BENGAL, 1898

THE following is published for general information

F A SLACK,

The 17th December 1898. Offg Secy to the Govt of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

Final report on the bhadoi crops in Bengal 1898

Explanatory.—Estimates of area and outturn of all the *bhadoi* food and non food crops are furnished in this report The food crops, of which *bhadoi* paddy, maize and millets are the most important, occupy 81 per cent of the total *bhadoi* area, the remainder being occupied by non food crops, which include jute, indigo and cotton

2. *Character of the season* —In April, the rainfall was deficient over the whole of Bengal proper, it was nearly normal in Bihar and Chota Nagpur and a little in excess of the normal in Orissa. In May, it was slightly in defect in almost all parts of these Provinces. In June, it was above the average in Bengal and Chota Nagpur and below

the average in Bihar and Orissa In July, it was generally below the normal In August, on the other hand, it was in excess everywhere, excepting in parts of North Bengal and North Bihar In September, it was heavier and more continuous than usual All parts of these Provinces except Orissa received an excess of rain in this month The heaviest falls were in Bihar and North Bengal, where floods damaged the crops in large areas to some extent In October, Bihar and Chota Nagpur received less than the normal rain and all the other Divisions received more than the normal. In November, there was little or no rain.

3. *Area cultivated*.—No alterations have been made by District Officers in the revised figures of normal areas as given in the preliminary *bhadoi* forecast of September last, except in the case of Purnea where the Collector has slightly modified his figures Figures showing the areas cultivated this year and last have been slightly modified in some cases The district returns now appended to this note show an area of 16,189,800 acres under all *bhadoi* crops this year as compared with 16 109,300 acres estimated to have been cultivated in these crops last year The increase, amounting to 80,500 acres or ·5 per cent, is only nominal Taking *bhadoi* food crops and *bhadoi* non food crops separately, the former show an increase this year of 281,300 acres over the corresponding area last year, and the latter, a decrease of 200,800 acres This result, as pointed out in the preliminary forecast, is mainly due to the cultivation of paddy this year on lands hitherto sown with jute

4 *Character of the crops*.—The appended returns show that 14 districts report better crops than those estimated in September last, while in 11 districts the crops have not proved so good as was anticipated In the remaining 20 districts, the estimates of September remain unchanged The floods of September last did much damage to the *bhadoi* crops in Saran, Champaran and Muzaffarpur districts of North Bihar, where, over an area of 1,805,200 acres, the estimate of outturn has been reduced by 40 per cent. A smaller reduction of estimates on account of floods has also been made in Burdwan, Midnapore, Murshidabad, Jessore, Shahabad, Darbhanga and Monghyr, while it is now reported from Midnapore, that the damage done by grasshoppers to the *bhadoi* paddy crop was confined to a small area of about 17 square miles in the Chandrakona thana

These adverse circumstances have been more than compensated for, however, by the improvement in the outturn of many important districts, such as Dinajpur, Dacca, Mymensingh, Faridpur and Hazaribagh, and the final crop for Bengal generally may be estimated at 94 per cent

N N BANERJEE,
Asst Director of Land Records and Agriculture, Bengal.

Countersigned.

P. C LYON,
Director of Land Records and Agriculture, Bengal.

CALCUTTA,
The 15th December 1898.

Final Report on the Bhadoi Crops of Bengal, 1898

1	3	4	5	6	7	8	9	10	11
Districts.	Total area of district in acres.	Name of Bhadoi crops.	Approximate normal area under each specified Bhadoi crop in acres.	Approximate area last year under each specified Bhadoi crop in acres.	Estimated area this year under each specified Bhadoi crop in acres	Taking 100 to represent the normal outturn per acre how much cultivated per acre turn last year?	Taking 100 to represent the normal outturn per acre how much will represent this year's outturn?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal
Burdwan	1,926,400	*Bhadoi* paddy	172,700	172,500	172,500	119	100	Owing to want of rain at the time of sowing and transplanting and subsequently the outturn of main food-crops was less than that of last year.	
		Indian-corn (maize)	3,600	5,600	6,100	68	85		
		Other *Bhadoi* cereals and *Bhadoi* pulses.	9,100	8,150	7,100	104	85		
		Other food-crops (*e.g.* vegetables)	2,700	2,500	2,300	100	85	The outturn would have been more than the normal had not there been damaged to some extent by flood water	
		Other non-food-crops (*e.g.* jute, indigo, *Bhadoi* til sann hemp, mulberry &c. &c.)	25,000	24,500	25,300	92	85		
		Total	213,500	210,850	211,900	114	98

FINAL REPORT ON THE WINTER RICE CROP IN BENGAL, 1898

THE following is published for general information

F A SLACK,
The 17th December 1898 *Offg. Secy to the Govt of Bengal*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

Final report on the Winter Rice Crop in Bengal, 1898.

1. *Character of the season.*—The character of the season up to September last was described in the first forecast of the winter rice crop, issued on the 5th of October In April, the rainfall was somewhat deficient over the whole of Bengal proper, was normal in Bihar and Chota Nagpur, and slightly above the normal in Orissa In May, it was a little below the average in almost all parts of these Provinces. In June, the rainfall was abundant in Bengal proper and Chota Nagpur, and was evenly distributed In Bihar and Orissa, it was in defect In July, it was generally below the normal, and, in August, in excess of the normal everywhere, excepting parts of North Bengal and North Bihar, where rain was wanted at that time for transplantation In September, excessive rain fell throughout all parts of these Provinces excepting Orissa, where the deficiency interfered with the work of transplantation The falls were heaviest in Bihar and North Bengal. There was a small excess in Lower Bengal, and a moderate excess in Chota Nagpur As already reported in the preliminary forcast, this abnormal rain caused high floods in several parts of Bihar, but the damage done has not been so great as was feared in October last Although the crop in low lying lands suffered seriously, outside the submerged tracts and on high lands, the heavy rain was of actual benefit In October, less than the normal rain fell in Bihar and Chota Nagpur and more than the normal elsewhere In November, there was practically no rain, only a few slight showers being received in Darjeeling, Jalpaiguri and Puri This has been favourable to harvesting operations Damage was done by grasshoppers in Midnapore, the extent of which is noted in the Provincial statement appended to this note Insect pests appeared in Backergunge and Balasore, but they do not appear to have done much injury

2. *Area cultivated.*—The normal area under winter rice was shown in the forecast of October last to amount to 31,195,600 acres. This area was arrived at partly from a consideration of the areas sown during the past five years and partly from figures obtained by special enquiry Further revision has been made since, by the District Officers of the 24 Parganas, Champaran and Cuttack, in consequence of which, the normal area for the Province now stands at 30,987,000 acres as shown in column 5, page 14 of the

appended statements No alterations have been made in last year's area, but revised figures for this year's area have been received from Rajshahi, Faridpur, Tippera and Champaran, and the area under cultivation this year for the whole Province is now estimated at 31,944,400 acres, against 31,815,500 acres estimated to have been cultivated last year The increase in cultivation is due, as explained in the first forecast, to seasonable weather and to the cultivation of winter rice in preference to jute.

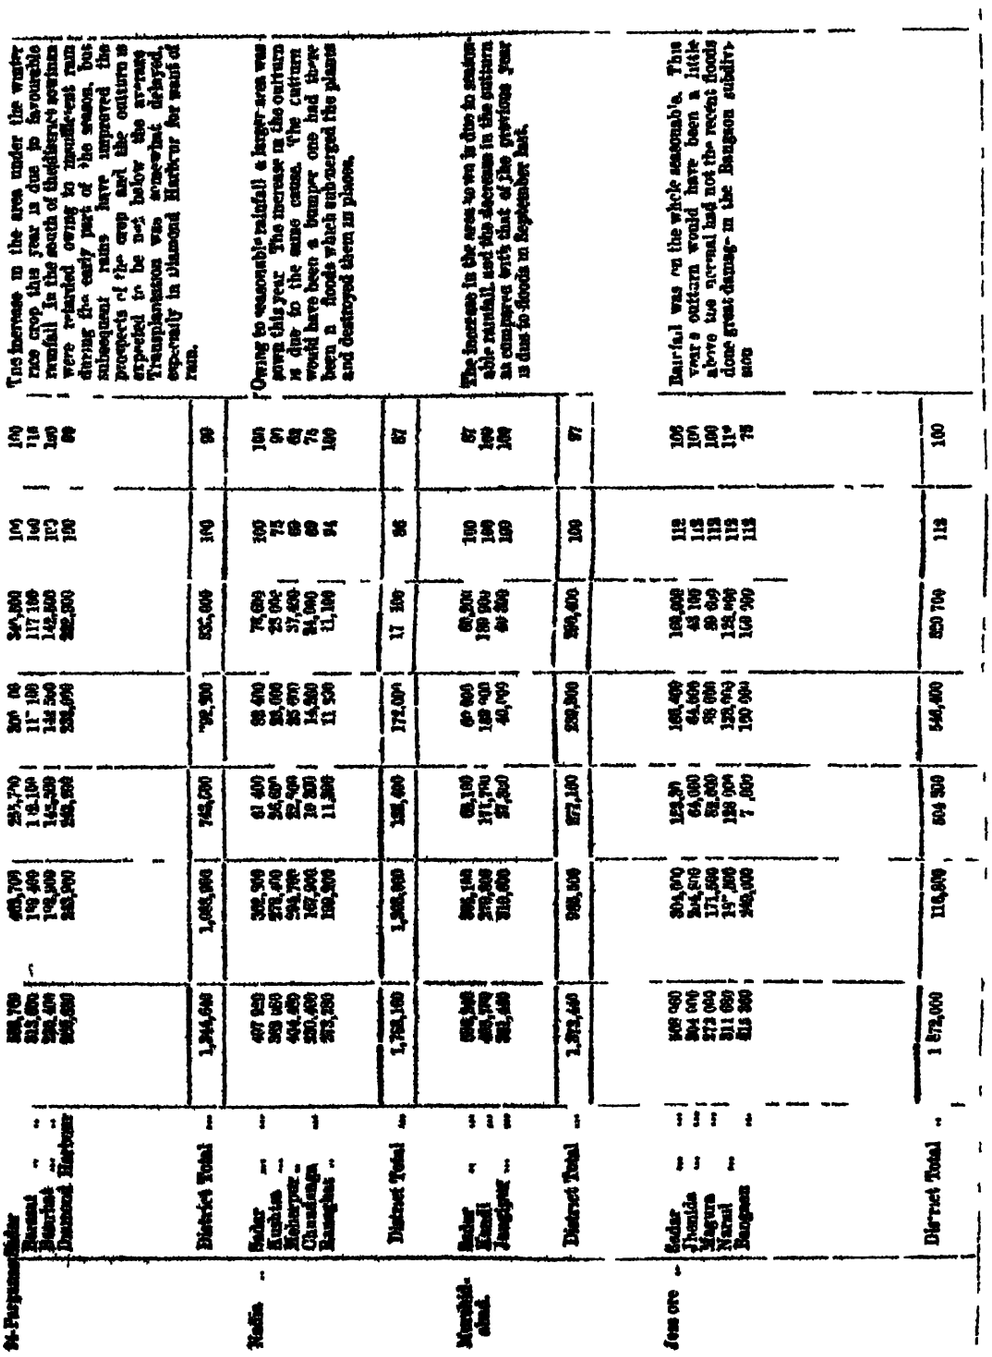
3 *Character of the crop* —In the forecast of October last, the winter rice crop was roughly estimated by this Department as a 95 per cent crop. It was doubtful at the time how far the floods of September had injured the crop It would now appear that the damage done has been confined to comparatively small areas and has not in any way affected the Province as a whole. In fact, the heavy rain of September and the good weather of October have done much good to the rice crop in many parts of these Provinces The local officers of no fewer than 20 districts now anticipate a higher outturn than was looked for at the time of the first forecast, while 11 officers have made no change in their estimates and 14 have reduced them Of the 45 districts of these Provinces, 18 districts report crops above the normal (100 per cent crop), 7 districts report normal crops, 19 districts crops between 75 per cent and 100 per cent , and only one district, viz Muzaffarpur (where the crop was much damaged by flood water), reports a crop (54 per cent) less than 75 per cent. It seems clear, therefore, that the prospects of the crop have been favourably affected by the weather of the past three months, and that an outturn somewhat in excess of the normal may be expected I have accordingly estimated the crop at 105 per cent The outturn last year, as shown in column 8, page 14 of the Provincial statement annexed hereto, amounted to 97 per cent., and this crop was reaped over a slightly smaller area than that sown in the present year.

4 *Gross outturn* —Accepting 105 per cent as the best estimate for this year, the gross outturn of cleaned winter rice for the Province will amount to 369,642,300 cwts. against 340,101,200 cwts , the yield for last year produced from a 97 per cent. crop

N N BANERJEI,
Assistant Director of Land Records and Agriculture, Bengal

(Countersigned)

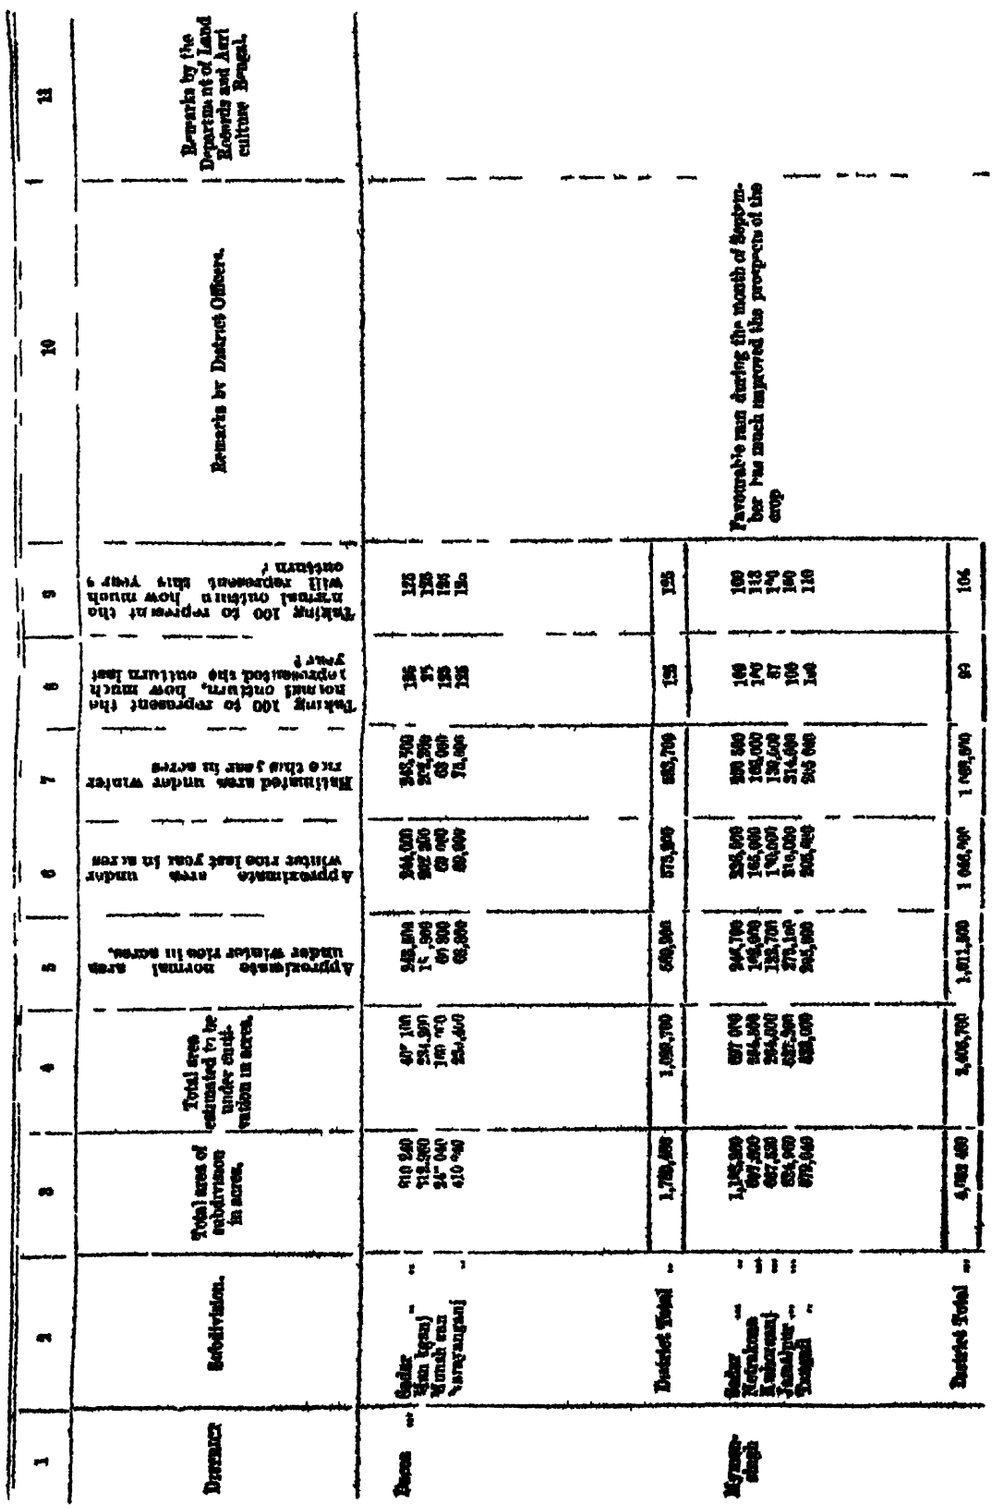
P. C. LYON,
Director of Land Records and Agriculture, Bengal.



CALCUTTA,
The 15th December 1898.

APPENDIX I

Final Report on the Winter Rice Crop of Bengal 1898



1	2	3	4	5	6	7	8	9	10	11
District	Subdivision.	Total area of subdivision in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under winter rice last year in acres.	Estimated area under winter rice this year in acres	Taking 100 to represent the normal outturn how much representing this outturn last year?	Taking 100 to represent the normal outturn how much will represent this year's outturn?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Burdwan	Sadar	726,000	696,960	351,000	434,340	432,000	125	125	Owing to sufficient and seasonable rainfall throughout the year the outturn will be above the normal throughout the district.	
	Kalna	276,480	224,000	115,200	138,000	138,000	125	125		
	Katwa	225,280	168,000	120 000	140,000	140,000	125	125		
	Ranigan[illegible]	423,040	254 720	220,800	275 200	220,000	125	125		
	District Total	1 726,000	1 243,680	806,000	987,540	930 000	125	125		
Birbhum	Sadar	709,120	900,000	395,200	380 000	338 300	119	119	There has been more than sufficient rain during the last rainy season. Some slight damage was done to the crop in Rampur Hat by excessive rain in October. The crop on the whole is not far short of a bumper crop	
	Rampur Hat ...	413,500		211 600	225 000	238,100	113	113		
	District Total	1 121 620	900 000	604,000	615,000	576,400	1 2	113		

1	2	3	4	5	6	7	8	9	10	11
District	Subdivision	Total area of subdivision in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under winter rice last year in acres	Restricted area under winter rice this year in acres.	Taking 100 to represent the normal outturn how much will represent this year's outturn?	Taking 100 to represent the normal outturn, how much will represent this year's outturn?	Remarks by District Officer.	Remarks by the Department of Land Records and Agriculture, Bengal
Bankura	Sadar	1,227,480	498,000	246,000	246,000	235,000	113	113	Owing to favourable rainfall in October last the outturn is estimated above normal	
	Vishnupur	446,000	314,000	160,400	151,000	103,000	125	125		
	District Total	1,677,480	812,400	397,000	397,000	337,000	118	118		
Hooghly	Sadar	2,408,160	1,200,160	717,120	727,200	720,000	106	93	The area brought under cultivation this year is smaller than that of last year, every where except in the Sadar subdivision and in the submersion of some lands under water in the Sadar subdivision the outturn has been good. In Tamluk and Ghatal the crop has been damaged by floods and in Contai by heavy rain in September. Grasshoppers also damaged the crops badly in Arambagh and Contai	Good rainfall well distributed at the end of the season has improved the prospects of the crop.	93	91	The Collector reports that in Ghatal 6 per cent. of the crop was affected by the ravages of grasshoppers over an area of 10 800 acres in these Chakdraksas, and that in Contai 15 per cent. was so affected in these Mals covering an area of 33,000 acres, and 25 per cent. in Patnagar covering an area of 24,000 acres
	Tamluk	2,078,400	1,111,200	717,120	727,200	720,000	106	93

	11
Bengal	The outturn in columns 7 and 8 have been calculated with reference to the area and percentage outturn and to the normal rate of yield which has been assumed to be 14 maunds of cleaned rice to the acre.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PATNA DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—MISCELLANEOUS

Calcutta, the 20th December 1898

RESOLUTION—No 3837.

READ—

The Annual General Administration Report of the Patna Division for the year 1897 98

Mr Bourdillon was in charge of the Division from the 1st April 1897 till the 18th of March 1898, when he was succeeded by Mr Collier, by whom the report was submitted only four days after the date it was due There were changes of officers in all districts and also in all subdivisions except four

2 *Tours and Inspections*—The necessities of famine work and the inspection of the various plague camps interfered greatly with the Commissioner's regular work of inspection, but these very causes enabled him to move more about his Division than a Commissioner ordinarily can No record, however, appears to have been kept of the actual number of days he was on tour The Collector of Patna, Mr Inglis, was on tour for 77 days only, and Mr Blackwood, the Subdivisional Officer of Samastipur, for 87 days only These shortcomings have been duly explained, and, excepting them, all the tours were adequate in the matter of inspections and largely above the average in length

3 *Weather and crops*—The rainfall during the year was plentiful and on the whole well distributed The eastern portion of the Saran district was flooded to the extent of about 800 square miles by the abnormal rainfall in the last week of June, and the *bhadoi* crop was thereby reduced to a 14-anna outturn Excessive moisture was the cause of the *bhadoi* crops in Champaran showing a similar yield, and of the outturn in Patna being only 9 annas In the remaining districts there was not much variation from the 16 anna average crop The *aghani* crop was everywhere either an average one or above that standard This result is attributable to the unusually favourable rainfall in October, which was also the cause of the excellent *rabi* crops that were obtained throughout the Division On the whole the year was a fairly favourable one for the poppy crop, but the indigo crop was poor

4 *Public health*—In all the districts of the Division, except Gaya and Shahabad, the year was healthier than the preceding one, in spite of the famine In Gaya the increased mortality is said to have been partly due to the success of the efforts to obtain improved registration, while in Shahabad the epidemic of fever that raged in that district at the end of the rains is assigned as the cause The material condition of the people was far below the normal during the first five months of the year, but a succession of good crops quickly improved their condition, and the Commissioner considers that by the end of the year the normal condition of affairs had revived, with perhaps the one exception that indebtedness had increased to some extent

5 *Emigration and Immigration*—The number of emigrants to the Colonies and the tea districts decreased considerably as compared with 1896-97, the figures being 1,329 and 447, as compared with 1,997 and 834, respectively This is attributed partly to the South Bihar-Moghulsarai Railway extension work and partly to the famine relief works, which afforded ample employment for such as wanted it. The general condition of the depôts was fair There is no immigration into the Division

6 *Prices of food and labour*—At the beginning of the year the prices of food grains were in some districts double those which obtained at the commencement of the previous year, and they continued to rise till well on into August By the end of September the fall became marked, and at the close of the year common rice was only 13 to 33 per cent. above the

normal price This rise in prices had but little effect on the wages of labour, which are chiefly paid in kind In Gaya the wage of blacksmiths did indeed rise, but this was due to the large increase in the demand for the labour of artizans of this class, caused by the construction of the two railway lines

7 *Trade and Statistics*.—The total traffic of the Division increased by over 19 lakhs of maunds. Imports, of which over 48 per cent were food-grains, rose from 108¾ to 147¾ lakhs of maunds, while exports, of which only 26 per cent. were food-grains, fell from 71½ to 52½ lakhs of maunds The chief imports were rice and paddy, of which no less than 25 lakhs of maunds were imported from Calcutta alone as compared with 6 lakhs of maunds in 1896-97 and 292 maunds in 1895-96 This increase was, of course, entirely due to the demand for Burma rice created by the famine Gram and pulses formed the principal articles of export The traffic to and from Bihar *vid* the Nadia rivers was again very insignificant

8 *Civil Justice*.—The number of civil suits disposed of by the District and Subordinate Judges was almost the same as in the previous year, while those disposed of by Munsifs rose from 38,259 to 41,345, the increase being chiefly under the head of rent suits, of which Munsifs decided 24,770 No explanations of the fluctuations have been furnished by the District Judges

9 *Crime*.—There was a very serious increase of over 38 per cent in the number of cognizable offences reported, the number being 41,149 as against 30,056 the previous year. The increase was common to all districts in the Division and is attributed to the scarcity From the fact that there was an increase of no less than 9,951 (nearly 90 per cent of the entire increase) in the number of offences against property, it would seem that the explanation offered is correct, and it is hoped that the figures of the current year will support this opinion There was a trifling increase of 370 in the number of non cognizable cases reported Though there was an increase of 239 in the number of bad livelihood prosecutions instituted, only 26 7 of the cases were tried in or near the villages of the accused This is doubtless partly accounted for by Subdivisional Officers being prevented by famine work from making their regular tours, yet there is no disguising the fact that such a state of affairs is most unsatisfactory, and the Lieutenant-Governor would impress on all District Officers the paramount importance in cases of this nature of checking and verifying among the neighbours the information as to the evil repute of the accused, for it is only by so doing that there can be any certainty of arriving at a just or true decision The question of the Dome settlements is receiving the separate consideration of Government

A separate resolution concerning the police and chaukidars having already been issued from the Judicial Department, the facts now reported need no detailed comments, but the Lieutenant-Governor would observe that the Commissioner's remarks in paragraph 117 have his entire approval

10 *Criminal Justice*.—On an average there were nearly ten more Magistrates sitting than during the preceding year (when the number of Magistrates was also exceptionally large), and per officer the number of cases disposed of rose from 194 to 210 4 , while there was a slight decrease in the number of witnesses examined, as also in the proportion of witnesses detained over two days, the percentage in the latter being 4·2 as against 4 8 the previous year The very material improvement which has taken place in this respect in Patna and Bark has been noted with satisfaction, though the percentage in the latter (10·8) is still much higher than it should be A similar remark applies to Hajipur and Samastipur, where the figures were 9 53 and 13 3, respectively The percentages were lowest in Dinapore (1 58), Gopalganj (7), and Aurangabad (22) In the last-named place, if the figures have been correctly given, the result is extremely creditable, as there was only one Magistrate employed, who disposed of no fewer than 596 cases, with an average of 4 5 witnesses in each . Taking the working year as containing 280 days, it would appear that this Magistrate on the average examined daily 9 6 witnesses, a singularly large number, and the Commissioner should satisfy himself of the accuracy of these figures.

The ratio of A forms remanded six times or more to total A forms was 5 8 as against 8·01 for the Division, and was highest in Buxar (22), Sasaram

(14 6), Bankipore (12 7) Samastipur (11 9), Sewan (11 58) The attention of the various District Officers concerned, and especially of the Magistrate of Shahabad, should be drawn to these figures From the Commissioner's remarks it would appear that in Shahabad this delay is to some extent inexcusable

The ratio per cent of decisions confirmed on appeal to the total appealed against was 80 9 as compared with 79 9 of the previous year, and not (as is shown by the Commissioner in paragraphs 118 and 119), 76 5 as compared with 80 4 It is presumed that the statistics furnished in paragraph 118 of the Commissioner's report have been compiled from those in Table XI, but they appear to be utterly inaccurate both in this respect and in the number of witnesses detained two days and in the ratio of A forms remanded six times or more The figures utilised in this review have been taken direct from Table XI The Commissioner's attention is drawn to this discrepancy, and he is requested to take steps to prevent its recurrence With the exception of Madhubani, where the percentage of sentences confirmed on appeal to those appealed against was 47 8, all the subdivisions return a percentage under this head of 70 or over The bad results in Madhubani are solely due to the work done by M Gauhar Ali, only 25 per cent of whose judgments, out of a total of 59 appealed against, were upheld on appeal The percentage of sessions cases in which convictions were obtained to the total number disposed of was 76 9, as compared with 72 7 the previous year Shahabad showed the worst result and Gaya and Darbhanga the best Shahabad occupied the same unenviable position last year, while in Patna the percentage decreased from 90 to 70 Out of Rs 1,92,611, the total of the fines outstanding for collection, Rs 88,024 only were collected during the year, and Rs. 38,998 7-10 were written off, leaving a balance of Rs 64,648 9 1 to be collected While the Lieutenant Governor agrees with the Commissioner that there is a tendency to keep unrealised fines in the Register much longer than is necessary or even expedient, he cannot go quite so far as the Commissioner in the opinion that if an accused has no property the fine should be written off at once Such a procedure would absolutely prohibit the levy of fines from offenders whose sole means of livelihood was their monthly salary, and from whom the police are, in the existing state of the law, fully justified by realising in instalments The state of the balance sheet is far from satisfactory, and there is no surer index to the character of an officer's criminal work than the judgment he displays in the imposition of fines The power of fining when used by a good officer is one of the most salutary means for ensuring effectual criminal administration, but when, as from these figures it would appear to be the case in the Patna Division, fines have been imposed indiscriminately and with no regard to the power of the person fined to meet the demand made, a very powerful weapon of oppression is put into the hands of the police Under the law imprisonment in default does not exonerate the convict from the payment of the fine and the constant dread of measures for its enforcement The results were most unsatisfactory in Champaran, where only 31 per cent. of the total outstandings was realised, and best in Darbhanga, where 64 per cent. was realised.

It is to be regretted that discrepancies, similar to those between the figures in Statement XI and paragraph 118, are also found between the statement in paragraph 123 and Statement XII in which statistics of the work done by Honorary Magistrates are examined It would appear from the former tables that the Divisional percentage of witnesses detained over two days to those examined was 9 03 (and not 9·4) as against 5 3 of the previous year, while the percentage of successful appeals to appeals preferred was 70·4 (and not 73·0) as against 62 9 the previous year. It is not certain on the papers whether the Honorary Magistrates are responsible for these delays. They may be due to unpunctuality in attendance, they may be due to insufficient attention by the District Magistrates in the allotment of cases to the fixed dates for the sitting of the Honorary Magistrates. The Commissioner will be requested to enquire into the matter From Honorary Magistrates sitting singly the best results are due, as they have not to contend with the difficulty experienced in Benches, where despatch in the disposal of case work is dependent on the regularity of a colleague's attendance It is, however, observed, with much regret, that the worst figures appear against the names of certain of these

officers, but for such there may be, it is hoped, some satisfactory explanations, though none have been given by the Commissioner

The only Benches in which similarly bad results are shown are those of Aurangabad (27 67), Buxar (23·5), Madhubani (29 3) and Samastipur (22 9) As the Commissioner has remarked, the entire working of the two last-named Benches has been most unsatisfactory It is pleasing to turn from this list of shortcomings to notice the good work done by the Nawada, Jahanabad, Sewan and Daudnagar Benches, and above all by the Gaya Bench

11 *Registration of documents.*—Two new offices were opened in the Division during the year, one in Saran and the other in Muzaffarpur. There was a large increase in the number of documents registered which rose from 156,233 to 195,010 The scarcity which prevailed during the first half of the year is assigned as the cause

12 *Land Revenue* —The current demand for land revenue during the year was Rs 82,21,300 as against Rs 82,22,835 in the previous year. The difference is trifling The percentage of current collections to total current demand was 97 1 as against 96 9 in the previous year, and of total collection to total demand 96 11, the same as in 1896-97. In permanently-settled estates the current collections were 98 2 of the current demand as against 98 09 the previous year In Shahabad the number of estates defaulting rose from 5,326 to 7,040, but the number sold also increased from 49 to 205 It is clear from the figures of previous years that in Shahabad defaults are made habitually, and it is trusted that steps will be taken to check the growth of this habit.

The collections in temporarily settled estates and in estates held direct by Government are exhibited below and compared with the standard district by district —

	Temporarily settled estates.	Government estates
	Per cent	Per cent
Standard	95	90
Patna	77 42	67 49
Gaya	96 01	82 56
Shahabad	87 11	56 24
Saran	91 46	52 33
Champaran	84 29	
Muzaffarpur	81 07	
Darbhanga	96 29	69 49

The sale law throughout the Division was applied with moderation, only 5 3 per cent. (as against 4 3 per cent in the previous year) of the estates which had rendered themselves liable to sale having been actually sold It is satisfactory to note that Register D has been re-written in all the districts of the Division, except Saran, and that the outturn of partition work was so satisfactory Under the Land Improvement Act, XIX of 1883, Rs 20,360 were advanced in Darbhanga With a view to enabling raiyats impoverished by the famine to purchase seed and cattle a sum of 12 lakhs of rupees was placed at the disposal of District Officers, of which only some 7 lakhs were actually given out Of this sum over two lakhs were distributed in each of the districts of Saran and Champaran, and in Muzaffarpur Rs. 1,75,000 odd The total collections were Rs 91,487.

13 *Wards' and attached estates* —Charge of the Bettiah Estate was assumed on the first of April 1897, but, owing to the release of the estate of Kuar Bhagwant Prashad of Patna, the number of estates at the end of the year was the same as in 1896 97 The Government demand on account of revenue and cesses amounted to Rs. 12,28,066 as against Rs 5,94,384 in the previous year, the increase being due to the assumption of charge of the Bettiah Estate, and to a complete year's demand having been shown against the Hatwa Estate Of this sum, Rs. 11,52,838 were collected, and, with the exception of Rs 2,279 due from two very heavily involved and petty estates in Saran, the balance is being or has been realised

The rent and cesses due to the estates amounted to Rs. 43,01,402 current and Rs 26,50,659 arrear The total collections amounted to Rs 43,47,110 or 62 5 per cent on the total as against 36·3 in the previous year It is satisfactory to

note that the arrear is now less than the current demand Rupees 1,31,374 were remitted during the year, leaving a balance of Rs. 24,25,762 outstanding at the close of the year The Lieutenant-Governor would have been glad of an assurance that full attention had been given to the classification and remission of arrears, but he fears that the figures in the report show that much still remains to be done under this head The debts due from the estates at the commencement of the year amounted to Rs. 92,20,395, of which no less than Rs. 82,23,760 are owed by the Bettiah Estate alone. By the close of the year the total of the debts due from all estates was reduced to Rs. 99 30,067 The cost of management fell from 17 1 on the current rent and cess demands of all estates to 9 01, mainly owing to the cheapness of management in the Bettiah Estate, where almost all the dues are collected from ticcadars. The total expenditure on improvements amounted to Rs. 4,11,238. Almost all the estates showed an increase in this respect over the figures of the previous year, the most marked increases being in the Tikari Estate in Gaya and the Bhalvadia Prashad Sing Estates in Shahabad, while the Majhauli and Hatwa Estates in Saran showed a decrease

14 *Excise Stamps and Income tax* —The excise revenue, which up to 1896-97 had been steadily growing, sustained during the year under report a further check in its growth Whereas last year the deficit was a little over a lakh, the figures of the present year show a decrease of over two lakhs as compared with those of 1896-97 This was undoubtedly due to the famine, and a substantial increase of revenue may be expected with the return of prosperity. The opium revenue of the Division decreased by Rs 1,235, but the decrease was confined to the two districts of Patna and Gaya, and in the latter it was inappreciable There was an increase of Rs 27,767 in stamp revenue, the total of which for the year under report was Rs 22,83,777. The most substantial increase (Rs 44,165) occurred under impressed sheets, and is attributed to the execution of a large number of bonds and deeds of sale as a result of the famine There were large decreases under court fees (Rs 16,796) and hundis (Rs. 11,803), which of course illustrate the reflex action of the scarcity on the sale of stamps. There was an increase of 2 9 per cent in the final demand on account of income tax, which stood at Rs 4,59,581 All the districts of the Division not only reached the prescribed standard of collections, but showed percentages of 97 and over of collections to final demand The increase, though at first sight strange as occurring in a year of famine, was the necessary outcome thereof. There are but few trades or manufactures in the Division, and the year was one of enormous profit to money lenders and grain merchants, who form the bulk of the assessees.

15 *Railways* — The construction of the South Bihar Railway line is nearly finished, and is expected to be open for goods traffic from 1899 About three fourths of the total earthwork and one third of the bridgework on the Moghalsarai Gaya Railway have been completed. The construction of the feeder line in Champaran and the Hajipur-Katihar and Sakri-Jainagar extensions in connection with the Bengal and North-Western Railway were in progress Complaints continue to be made about the unpunctuality of the train service in the Patna Gaya and Bengal and North Western Railways.

16 *Canals* —As was to be expected, the area irrigated from the Sone Canals decreased from 522,143 bighas to 414,915 bighas, but it is still largely in excess of the area irrigated in 1895-96. The collections increased from Rs 9,58,920 to Rs 11,37,821, and the percentage of collections to total demand from 99·02 to 99 87, figures which reflect the greatest credit on the management Several important irrigation schemes were started in Saran and Champaran as relief works; but the more important of them have not been yet finished.

17 *Communications.*—With the exception of Shahabad, the state of communications is said to have been fair in all the districts of the Division. In Shahabad the exigencies of the famine, the construction of the plague camp at Chausa, and the absorption of the subordinate staff on those works is said to have caused such damages to the state of the roads that two years will elapse before they are repaired. With the exception of the plague camp, these causes also operated in other districts, and laxity of supervision or an absence

of forethought and organization must also have contributed to this result All the District Boards except those of Gaya and Saran worked fairly well up to their allotments. In the former the cause assigned is a strike (which has since been overcome) on the part of the contractors against making a security deposit in cash; and in Saran it is partly ascribed to the fact that a large number of bills were received too late to be settled within the year Though it is satisfactory to note the improvement that has taken place in Saran, much remains to be done. With regard to the planting, the attention of the Commissioner is specially drawn to the remarks made on the subject in the Government resolution dealing with the General Administration Report of the Presidency Division, 1897-98, as they are specially relevant to the roadside lands in Bihar

In future, as regards wells, the tabular statement should make some distinction between masonry and temporary wells, for the permanent value of the work done in ordinary years depends on whether it was carried out on masonry wells

18. *Education* —The number of schools in the Division fell from 6,431 to 6,236, and the number of pupils from 178,011 to 177,125 The decrease in the number of scholars is wonderfully little, considering the vicissitudes of the year, and it occurred chiefly in primary schools The districts of Shahabad and Saran show the largest decrease in the number of pupils The others were but little affected by the famine, while Champaran and Muzaffarpur actually showed an increase

19 *Dispensaries and Hospitals* —Three new dispensaries were opened during the year, two in Champaran, and one in Darbhanga The total income of all dispensaries, of which 38 8 per cent was derived from private subscriptions, was Rs. 1,94,097, an increase of Rs 6,259 in the previous year's total The total number of patients treated declined from 630,425 to 607,388, and the falling-off is attributed to the unusual healthiness of the year, to the attendance at famine hospitals, and to the absurd scares with regard to plague precautions which for a time gained such wide credence

20 *Local Self Government Institutions* —It is satisfactory to learn that good progress has been made in improving the drainage of Patna, and since the report has been submitted the difficulty of obtaining a competent Secretary and one who would be acceptable to the Commissioners has been solved Real progress is now expected in the improvement of the management and cleanliness of this important but unwieldy Municipality The finances of the Arrah Municipality have engaged the attention of Government, and the Municipal Commissioners have but to utilise the powers placed in their hands by law to restore them to a sound footing The marked improvement in the municipal administration in Saran, and more especially in Chapra, is one on which the Magistrate is to be congratulated In Muzaffarpur all the municipalities showed a decrease both in income and expenditure The omission to furnish an explanation on the subject should not recur In Champaran and Darbhanga the administration was satisfactory The District Boards are again reported to have worked harmoniously. Their total income was Rs 18,77,028 as against Rs 16,86,966 in the previous year, while the expenditure decreased from Rs. 18,39,859 to Rs 15,13,838.

21. *Employment of Muhammadans* —The percentage of appointments of all kinds held by Muhammadans to total employments fell from 30 9 to 24 5, but was still far in excess of the proportion of Muhammadans to the entire population, which was only 11 32

22. *Post-offices* —The total amount paid on inland money orders (exclusive of money-orders remitting revenue or rent) in the various post offices in Bihar was Rs 1,18,14,072 as against Rs 1,10,86,359 in 1896 97 This large increase of over seven lakhs, which was, however, accompanied by a decrease of 46,606 in the number of money-orders, is attributed to the increase, owing to the scarcity, in the number of temporary emigrants who had to remit money to their families There was a similar increase of over seven lakhs in the amount of money remitted on money-orders issued at the various post offices in the Division, and this is attributed to the sums which the officials on the large famine staffs had to send to their families and to the increase in the importation of grain.

23 *Public feeling*.—The relations between Hindus and Muhammadans were on the whole satisfactory, and though there was some slight friction in the Bihar subdivision of Patna and in Gaya, no actual conflict took place The year was rather remarkable for the series of absurd rumours which found much credence among the public The Commissioner remarks —

"The use of permanganate of potassium to purify some wells in Muzaffarpur apparently gave rise to the widely spread rumour that Government had ordered all the wells to be poisoned, presumably to reduce the redundant population and expenditure on famine relief in the future This rumour also spread into the neighbouring district of Saran Another scare was in connection with the total eclipse of January 21st, which was confidently expected to be followed by all kinds of horrors The publication of the original plague notifications started another panic, and thousands of the population fled away from Patna This panic was echoed at Gaya, Arrah, Muzaffarpur, and Darbhanga, and the three municipalities in Saran The publication of the revised plague regulations, the speeches of Sir Alexander Mackenzie at Bankipore and Muzaffarpur, and the explanations and influence of the District Officers caused the alarm to subside"

24 *Conduct of zamindars*.—The generosity of the Maharaja of Darbhanga and the Raja of Hatwa in assisting their tenants in the famine, was continued during the year under report, and has been an example and incentive to their brother landlords of the Division It has been a source of great satisfaction to the Lieutenant-Governor to hear of the good work done by the Shahabad and Saran zamindars The thanks of Government have already been conveyed to the planting community for the invaluable assistance they afforded during the famine, and Sir John Woodburn would again put on record his sense of the obligation owed to them as a body The Lieutenant-Governor has with deep regret just received the sad news of the death of the Maharaja of Darbhanga, a great landlord and a good man, to whose benevolence these reports are witness, a loss of which due acknowledgment is made in this Gazette, but which it would be impossible not to notice here.

The good work done by Mr Bourdillon has been publicly acknowledged by a well earned decoration, as also has the work of two of his Collectors. To the other officers of the Division, the Lieutenant-Governor would again tender his thanks for the devotion to duty and their ready self-denial and cheerful acceptance of hardship which were the leading characteristics of the work done in a year of special difficulty Brighter days, it is trusted, are now in store for the Division, and in spite of the buffets of fortune the year has been one of steady progress To Mr Collier his thanks are due for an interesting report, extracts from which are published for general information.

By order of the Lieutenant Governor of Bengal,

F. A SLACK,

Offg Secy to the Govt of Bengal

Extracts from the Annual General Administration Report of the Patna Division for the year 1897-98

N B —The figures in column "Actual" have been taken from the district reports for the *Sadar* but the figures for the column "normal" have been taken from the *Calcutta Gazette* which appear to be mean for the whole district.

It will be seen that in all the districts except Darbhanga the rainfall was above the normal, and in every instance greater than in the preceding year, in most cases very much so

32. The rainfall was on the whole plentiful and well distributed. There was sufficient rain to enable the land to be prepared for the *bhadoi* crop, though the excessive rain in June damaged the crop, especially in the Patna district In Saran, the heavy rain during the last week of June flooded the eastern portion of the district to an extent of about 800 square miles The *bhadoi* crops had to be resown in the flooded tract, and owing to excessive moisture and delay in resowing, the outturn was only a 14 anna one In Champaran also, the *bhadoi* crop was damaged by floods, and the outturn was the same as in Saran, viz., 14 annas. In Muzaffarpur and Darbhanga, where the rainfall in June, July and August was much less than in the other districts, the *bhadoi* crops were very fair, being estimated at 16½ and 17 annas respectively In the Gaya and Shahabad districts the *bhadoi* crops were also damaged by floods,

but did not fall very much below the average. The *aghani* crops were fair everywhere, and best in the districts south of the Ganges, and in Saran The fall in October, which was much above the normal, not only much benefited the rice crop, but facilitated the preparation of the lands for the *rabi* crop. There was sufficient rain in the cold weather to prevent the *rabi* crops from drying up, and the outturn was above the average in all the districts of the Division, except Shahabad, where only a 13 annas crop was reaped

33 The following statement gives the outturn of all three crops in the district, as estimated by the Director of Land Records, on the reports of District Officers —

District.	Bhadoi	Aghani.	Rabi
1	2	3	4
Patna	9	17	15½
Gaya	14¼	18½	16
Shahabad	15	18	13
Saran	14	17½	17
Champaran	14	16	19
Muzaffarpur	16½	16	19
Darbhanga	17	16	15¼

On the whole it is evident that the outturn of the crops of the year was decidedly good.

34. The year was, on the whole, a favourable one for the poppy The outturn was everywhere better than last year, except in the three districts south of the Ganges, which showed a falling off In the Motihari Circle, the outturn was more than double that of the preceding year, being 3,191 maunds, as compared to 1,594 maunds In the Bettiah Circle the outturn was also more than doubled The Collectors of Patna and Muzaffarpur have not mentioned the subject at all The Collector of Gaya has given no estimate of the crop in annas In Shahabad the crop is said to have been a 14-anna one In Saran it is estimated at 14 annas, as compared with 9 annas last year In Champaran the outturn is reported to have been 15 annas, as compared with 12 annas in the preceding year In Darbhanga the outturn is estimated at 17 annas On the whole, the crop appears to have been well up to the average.

35 The season commenced with good *hathia* rains, and sowings commenced early Towards the end of October there was heavy rain which retarded the completion of the sowings, and damaged the young plants which had sprung up. The rain was followed by a spell of hot and dry weather which damaged the crop on the high lands, and, in many cases, necessitated resowings. Prospects, however, appeared very good until the second week in January, when the crop began to dry up for want of the usual Christmas rain There were showers at the end of January, and also in the first-half of February, especially in the north Gangetic districts, which much improved the prospects of the crop. Some damage was done by hail in February, especially in the Aliganj Circle in Saran, where the loss of produce from this cause is estimated at 300 maunds. The setting in of strong west winds at the time of the collection of the crop impeded the free flow of the juice, and had an unfavourable

effect on the outturn The general statistical results for the Division are given below —

Season	Estimated produce.	Actual outturn	Payments to cultivators— On account of opium.	On account of leaves	On account of trash	Total.	Remarks.

The indigo crop was a poor one Particulars as to this crop will be found in paragraph 59 under "Manufactures and Mines"

IV —PUBLIC HEALTH

36 From the statement given in the margin, it is evident that the year 1897 was on the whole a very much more healthy one than the preceding year In the districts of Gaya and Shahabad the mortality increased, instead of decreasing as in the other districts The explanation of the increased mortality given by the Collectors of both districts is the same, viz, the heavy rainfall. The fact that there was a considerable increase of fever in both districts renders this explanation a probable one The increased rainfall, however, apparently had the effect of making the remaining districts of the Division more healthy. Probably the natural drainage of the districts has a good deal to do with these apparently contradictory results The reorganisation of the chaukidari system in Gaya probably has resulted in better reporting, and this fact may account for some of the apparent increase in that district As regards Shahabad, there is no room for doubt that there was a serious increase in mortality, as an epidemic of fever raged in that district at the end of the rains. It has often been remarked that the district of Shahabad has become much less healthy since the construction of the canals and their distributaries,

District	Population in 1891	Number of deaths reported 1895.	1896	1897	Ratio per mille. 1895.	1896	1897
1	2	3	4	5	6	7	8
Patna	1,780,004	58,533	73,814	56,676	30·26	41 64	31·9
Gaya	2,135,831	60,305	78 858	79,273	31	34 5	37·0
Shahabad	2,063,887	56 135	57,112	73,177	27·2	27·6	35·4
Saran	2,467,477	65 275	84,629	76,010	26 4	31 2	30 8
Champaran	1,659,485	59 992	74,925	64,717	32 26	40 29	34 8
Muzaffarpur	2,711,445	88 355	126,699	85,982	32 56	46 7	32·06
Darbhanga	2,801,965	91,805	117,467	76,565	29 19	41·9	27 3
Total ..	15,611,014	481,400	608,404	513,350	30·45	38 5	32 5

and their existence may account for the fact of an increased rainfall causing increased mortality No instances are reported of deaths from absolute starvation, though the existence of famine during the greater portion of the year must of course have had its influence on the death-rate The figures for each district may now be considered

Patna.

37 Mr LeMesurier remarks that the fact that the death rate fell in the face of the prevailing high prices, indicates that the year was an unusually healthy one. Deaths from cholera fell from 7,322 in 1896, to 1,938. There were only 19 deaths reported in the district during the first quarter of the year, but a somewhat severe outbreak occurred in the Patna Municipality in April, and spread itself to other parts of the district The number of deaths from small pox was 1,414, as compared with 2,148 in the preceding year. Excluding cholera and small pox, the reported deaths are 30 01 per mille, as compared with 36 31 per mille last year.

38 In *Gaya* the number of deaths from cholera rose to 6,425, against 4,696 in the preceding year. The Aurangabad subdivision shows the largest number of villages attacked, viz, 351 Deaths from small pox rose to 2,600, as compared with 756 in the preceding year There is said to be a very general opposition to vaccination in this district. The deaths from fever increased from 56,958 in the preceding year, to 59,449 in 1897, the rates per mille for the two years being 26 6 and 27·7 respectively It seems probable that the term "fever" is made to include a good many diseases

39 In *Shahabad* deaths from cholera increased from 2,859 in 1896, to 3,054 in 1897 Deaths from small-pox also rose from 1,429 in 1896, to 4,070 in 1897 There is some opposition to vaccination in this district, but apparently it is much less strong than in Gaya. Deaths from fever rose from 42,864 in 1896, to 55,779 in 1897

40 Of the *Saran* district, Mr Macpherson remarks as follows —

"Although the deaths recorded were fewer than those of the year 1896, the average standard of health of the people of the district was not so good as in the previous year, owing to the famine."

Assuming that the deaths were correctly recorded in the two years, the correctness of this remark seems to be improbable A lowering of the average standard of health could hardly be accompanied by a considerable fall in the death rate Deaths from cholera fell from 5,664 in 1896 to 878 in 1897, while deaths from small-pox rose from 264 to 899

41 It appears that small-pox is increasing over a large portion of the Division, and it is obvious that vaccination requires to be pushed with more vigour Deaths from fever decreased from 19·1 per mille of the population, to 17 2

42 In *Champaran* the deaths from cholera reported were 1,309, as compared with 7,376 in 1896 Deaths from small-pox rose from 659 in the previous year, to 827 in 1897 The number of deaths from fever reported in 1897 was 46,939 as against 50,359 in 1896.

43 In *Muzaffarpur* there was a remarkable decrease in the number of deaths from cholera, the figures being 23,856 for 1896, and 955 for 1897. There was also a marked decrease in deaths from small-pox, the figures having fallen from 579 to 75 Deaths from fever also fell from 86,718 in 1896, to 78,340 in 1897

44 *Darbhanga* bears the reputation of being the most unhealthy district in the Division But according to the figures reported, it was the most healthy district in 1 97, the death-rate being only 27 3, as compared with 41 9 in 1896—a most satisfactory improvement Mr Geake states that the general health of the town and the whole district was exceptionally good in 1897, and the figures certainly bear out this remark Deaths from cholera fell from 17,491 in 1896, to 420 in 1897, and deaths from small pox from 286 to 15, the latter being much the lowest figures for any district of the Division. Deaths from fever fell from 87,294 in 1896, to 65,256 in 1897.

45 The following table shows the births and deaths registered in each municipality, and the rate per mille :—

Statement showing the total number of deaths and the death-rate in the different Municipalities during the years 1896 and 1897

District	Towns.	Population.	Deaths registered.		Rate per mille.		Births registered		Rate per mille	
			1896.	1897	1896.	1897.	1896	1897	1896	1897

	Total	810 185	32,325	31 304	39 6	38'6	25,445	26 424	31 3	31 8

* Owing to the revision of the boundaries of the Siwan Municipality the area and population of the municipality have been reduced from 4 square miles and 17 709 persons to 2—6 square miles and 14,785 persons respectively with effect from the 1st April 1897 *vide* Government Notification No. 4030, dated 19th December 1896

46 It will be observed that 13 towns show a decreased death-rate, and 12 an increased rate In the Patna district, the town of Patna shows an increase in the death rate, while the three small municipalities show a decrease All the municipalities in Gaya and Shahabad show an increase, and this fact agrees with the district totals for those districts. In Saran the municipalities of Chapra and Siwan show an increase, and Revelganj a decrease All the municipalities in Champaran, Muzaffarpur, and Darbhanga show a decreased death-rate, and this fact agrees with the totals reported for those districts The most unhealthy municipality in the Division, according to the figures, is Buxar, though Bhabua, which only reported a death-rate of 19 65 per mille in 1896, now trebles those figures for 1897, by reporting a death-rate of 60 06

47 Birth registration seems to be as incorrect as usual in this Division While the population of the Division is known to be increasing rapidly, these municipalities show an average death-rate of 38 6 and a birth rate of 31 3 According to the figures, Bhabua is in a bad way, with a death rate of 60 06 and a birth rate of 20 35 As the death-rate has been raised from 19 65 in 1896 to 60·06 in 1897, the local officers should now also give their attention to the reporting of births. This remark also applies to the Siwan Municipality, which reports a birth-rate of 20 78 only.

V.—MATERIAL CONDITION OF THE PEOPLE

48 The material condition of the people, all over the Division, fell far below the normal standard during the first five months of the year As noticed by Mr Bourdillon last year (though the information actually refers to the year under report), the distress was greatest about the 5th June 1897, when the number on relief rose to 738,850, or 9·7 per cent of the population of the affected area. The favourable *bhadoi*, *bhanj* and *rabi* crops have, however, done much to ameliorate the condition of the people, which is now almost normal, except that indebtedness has increased to some extent

49 The condition of the people in the districts south of the Ganges was very much more favourable than in those to the north, throughout the year. Of the Saran district, Mr. Chapman, the Collector, remarks that its material and

industrial resources are in ordinary years entirely inadequate for the support of its population The population is denser than in any other rural district in India, having been 930 to the square mile at the last census, and now probably having reached 950 to the square mile. The pressure of the population on the means of subsistence is so great, that a large proportion of the male population has to leave the district to find work every cold weather. Mr Chapman states —

"Mr Tytler, Sub-Deputy Opium Agent of Siwan, whose knowledge of the north and west of the district is unrivalled, estimates that 95 per cent. of the ordinary raiyats live and die in debt Good seasons do not go far to increase their savings, for what profit they make is devoured immediately"

VI—EMIGRATION AND IMMIGRATION

50 The following table shows the number of emigrants registered during the last two years in the several districts of this Division —

Name of District	For the colonies.		For the tea districts.	
	1896 97	1897-98	1896-97	1897-98
1	2	3	4	5
Patna	355	364	..	.
Gaya	.	...	720	370
Shahabad	1,482	885	114	77
Saran ..	160	80	.	
Champaran	...	...		.
Muzaffarpur	.			
Darbhanga	.	.	.	..
Total .	1,997	1,329	834	447

The increase in Patna is slight, and no special cause need be assigned for it The falling off in the number of emigrants in Gaya is reported to be due partly to better agricultural prospects, and partly to the large demand for coolies on the Moghalserai and South Bihar Railways now under construction in that district The decrease in Shahabad, the Magistrate states, may be accounted for partly by the reduction in the number of sub-depôts, and partly by the fact that ample work for all who required it was supplied on the Gaya-Moghalserai Railway works, and on famine relief works. All the emigrants registered in Saran were bound for Fiji Of the 80 emigrants, only 5 were of the Saran district, 1 of Champaran, and the remaining 74 were from the North-Western Provinces and Oudh.

51 No emigrants either to the colonies or to the tea districts, were registered in the districts of Champaran, Muzaffarpur and Darbhanga The Magistrate of Champaran reports that there is usually a considerable seasonal emigration in November, and again in March, for employment in harvesting the crops in Nepal, Purnea, and North Bengal, where much higher wages than those current in Champaran can be got. I do not think that this is stated quite accurately There is certainly no emigration to Northern Bengal in March, as the *rabi* crops grown there are unimportant I doubt if there is any to Purnea The emigration in March is no doubt to Nepal only, though the emigration to the other places in November is considerable

52 Mr Chapman, the late Collector of Saran, states —

"Every year, at the slack season during the cold weather, thousands migrate to Eastern Bengal and Assam for employment, and return for the cultivation of rice and *bhadoi* at the end of May In December 1896 it was a matter of common observation, that the number of emigrants was much larger than usual The villages I visited seemed deserted of their able-bodied male population, and the roads were lined with travellers to the East I estimate that 25,000 persons, chiefly men, migrated."

There was free emigration from the Jagdispur estates in Shahabad belonging to Messrs. Mylne and Company to their grant in Burma

53. The general condition of the depôts was, on the whole, satisfactory The accommodation provided was generally sufficient, and the supply of drinking water plentiful The sanitary arrangements were fairly good. There were no complaints during the year in regard to the system of recruiting

54 There is practically no immigration into this Division.

VII—PRICES OF FOOD AND LABOUR.

55 The following statement gives the price of common rice, wheat and maize on the last Saturday of each month in the year 1897 98 —

Statement showing the number of seers of common rice, wheat and maize to be purchased for one rupee in the several districts of this Division on the last Saturday of each month in the year 1897 98

Date	Patna			Gaya			Shahabad			Saran

56 It will be observed that the year opened with very high prices In some districts the prices were just double of those which ruled in the corresponding month of the preceding year. In the months of May, June, and July, prices gradually rose higher At the end of August, there was a slight fall in some districts, due probably to the favourable prospects of the *bhadoi* crop. At the end of September, the fall was more marked At the end of November, there was a very marked fall in all the districts, no doubt due to the fact that the prospects of the crop were assured all over the province From this period to the end of the year, there was on the whole a general tendency in prices to fall At the close of the year, though still higher than usual, they were very much lower than at the beginning of the year

57 The cash wages of labour have shown very little variation. In Gaya the wages of blacksmiths are reported to have risen, in consequence of the demand for artizans of that class, occasioned by the construction of the two railway lines All over the Division, agricultural labour is usually paid in kind, and the same number of seers are given whatever their price may be The theories of political economists as to the factors which fix the rate of wages, have a very limited application in this country, where custom is almost the sole arbiter in such matters.

IX —TRADE AND COMMERCE

65 The statistics under this head, for the year under review, have been compiled in accordance with the instructions contained in Statistical Department Circular No 103, dated 22nd July 1897 From the returns supplied by the railway audit offices, the Collectors have prepared and submitted two statements of the 24 chief articles mentioned in the Government order—one for imports, and the other for exports These statements are submitted as appendices to this report, bearing Nos. XXXIII to XLVI The District Officers have also submitted statistics showing the import and export trade along the Nadia rivers, and along the canals, where available Besides the above, two more statements of exports and imports, with regard to the trade of the several districts with Calcutta, have been prepared from the monthly statements published in the *Calcutta Gazette*.

66 The following amalgamated statement, shows the up and down import and export traffic, in the 24 chief articles of commerce, which has been recorded in the several districts of the division, as carried (1) by rail, (2) along the Nadia rivers, and (3) by canal during the year They also include the trade with Calcutta, but not the frontier trade with Nepal, which is shown separately, further on in this chapter. It is to be noted, that in the statement below, the traffic between the different districts in this Division has been eliminated, and the result is that the totals represent the foreign trade of the Division as a whole, but the details for districts do not represent the total trade of each district, and therefore they will not tally with the district trade statistics to be found elsewhere in the report —

STATEMENT A

Statement showing separately the total import and export traffic carried by rail and along Nadia rivers and canals classified into up and down traffic during the year 1897 98

67 Taking the Division as a whole, its trade amounted, during the year, to 1,99,60,198 maunds, of which imports were 1,47,44,349 maunds, and exports 52,15,849, as compared to a total of 1,80,23 000 maunds, and of imports and exports, of 1,08,68,000 maunds and 71,55,000 maunds, respectively, in the previous year But I do not think that a detailed comparison with the previous year's figures will be of any use, as the returns for the year under report have been compiled on different principles, the trade of each district with other districts having been divided into up and down traffic according to the geographical position of each district, as enjoined in the Government order dated 22nd July last, while in previous years all traffic going towards Calcutta used to be treated as "down" traffic, and all traffic coming from the direction of Calcutta as "up" traffic I shall, therefore, confine my remark to a comparison of the total trade of the Division, as a whole, with previous years without going into details.

68 The subjoined statement shows an abstract of this trade, district by district, in thousands of maunds —

District.	Imports—		Exports—		Total.		Total trade.
	From up country	From down country	To up country	To down country	Imports	Exports	
1	2	3	4	5	6	7	8
	Mds	Mds.	Mds	Mds.	Mds	Mds	Mds.
Patna	4 15	43,01	3,19	17,77	47 16	20,96	68,12
Gaya	2,93	8,91	20	3,50	11 24	3 70	14,94
Shahabad	2,67	17 27	3 06	5,27	20 04	8,33	28,37
Saran	12,09	9 55	65	2,42	21,64	3 07	24,71
Champaran	14	5,19	27	2 99	5,33	3 26	8 59
Muzaffarpur	2 49	13,63	67	3,31	16,06	3 88	19 94
Darbhanga	2,68	23,31	1 32	7,64	25,99	8 96	34,95
Total	26,49	1,20,97	9 36	42,60	1,47,46	52,16	1,99 62

It will thus be seen that the total imports during the year far exceeded the total exports in all the districts, and this is due to the high prices of food-grains during the year Patna shows the largest trade and Champaran the smallest

69 The following table compares the total trade of the Division during the past two years —

	1896 97	1897-98.	Difference
1	2	3	4
	Mds	Mds	Mds
Imports—			
Up	1,01,49,843	26,48,774	—75 01,069
Down .	7,19,204	1,20,95,575	+1,13,76,371
Total	1,08,69,047	1,47,44,349	+38,75,302
Exports—			
Up	32,31,587	9,36,346	—22 95,241
Down ..	39,22,580	42,79,503	+3,56,923
Total	71,54,167	52,15,849	—19,38,318
Total Trade	1,80,23,214	1,99,60,198	+19,36,984
Net Trade	I+37,14,880	I+95,28,500	. ..

As compared with the previous year, the total imports during the year show an increase of 38,75,302 maunds, or 35·6 per cent, against 4,87,967 maunds, or 4 7 per cent, in 1896-97, while the total exports exhibit a diminution of 19,38,318 maunds, or 27 per cent., against 45 4 per cent in the preceding year As already stated, the large increase in imports, and the falling off in the export trade, are due to the scarcity of food-grains during the year The net result of the year's trade is, that in this Division the surplus of imports in 1897 98 was 48,13,620 maunds, in excess of the figures for 1896-97, but the volume of the trade increased by 19,36,984 maunds

70 The statement below shows the traffic in food grains during the past two years in thousands of maunds —

Statement comparing the Food-grain traffic in 1896-97 and 1897-98 (in thousands of maunds)

	Imports—						Exports—					
	From up country		From down country		Total		To up country		To down country		Total	
	1896-97	1897-98	1896 97	1897 98	1896 97	1897 98	1896 97	1897 98.	1896 97	897 98	1896 97	1897 98
1	2	3	4	5	6	7	8	9	10	11	12	13
Rice	26,01	2,"1	41	36,59	26,42	40 30	2 98	1,34	27	52	3 25	1 86
Paddy	5,56	91	4	7,54	5,60	8 45	54	16	5	4	59	20
Wheat	38	3,55	50	11	88	3 96	47	23	73	57	1 20	80
Gram and pulse	1 16	71	5	97	1,21	1,68	15 58	2 84	5 56	5 88	21 14	8 72
Other food grains	7,35	12,20	80	5,42	8,15	17 62	7,25	48	1,44	1 5o	8 69	2 09
Total	40,46	21,38	1,81	50,63	42,27	72 01	8,62	5 05	8,07	8,56	34 90	13 61

From a comparison of the figures in the above statement with those shown in the table in the foregoing paragraph, it will be seen that out of a total import of 1,47,44,849 maunds in the year of report, 72,00,508 maunds, or 48 83 per cent, were food-grains Similarly, out of an export of 52,15,849 maunds 13,60,962 maunds, or 26 per cent, consisted of food grains Compared with the previous year, there was an increase of 29,74,000 maunds in the total import of food-grains, while in, exports there was a decrease of 21,29,000 maunds The chief imports during the year were rice and paddy, which formed two-thirds of the total import, while the principal articles of export, were gram and pulses

71 The usual statement showing the movement of some of the principal articles of commerce, district by district, is given below —

Statement showing the movements by rail along Nadia rivers and by canals of the following articles in the districts of the Patna Division during the year ending 31st March 1898 (In thousands of maunds)

Districts.	RICE AND PADDY							WHEAT							GRAM AND PULSE

72. As remarked last year, river-borne traffic appears to have been almost entirely killed by the scarcity, as the following figures indicate —

River borne traffic between Bihar and the Nadia river.

	1895-96.	1896-97	1897-98
	Mds	Mds	Mds
Import	89,350	8,101	1,240
Export	3,80,466	2,102	3,766

73 During the year under report, statistics of river borne traffic between Buxar and Ballia (North Western Provinces) were registered for famine purposes From 26th September 1897, to 31st March 1898, the total export of food grains from Buxar was 4,66,394 maunds, while import into Buxar amounted to 2,55,606 maunds. Since the close of the year, arrangements have been made for the more thorough registration of these statistics

74 The subjoined statements exhibit separately the statistics of export and import trade, between Calcutta and the Districts of this Division, carried by all routes—rail, road, river and canal—during the year 1897-98 —

Trade with Calcutta

75 It will be seen that the total export of food-grains to Calcutta during the year remained almost the same as in the previous year, viz, 7,11,077 maunds against 7,12,802 maunds, but the total imports of food grains from Calcutta rose from 6,35,178 maunds in 1896-97 to 25,34,986 in 1897-98 This large increase occurs chiefly under the head "Rice" and this is due to the large importation of Burma rice during the famine The other items do not call for any special comment

Trade with Nepal

76. The statement below shows the statistics of the trade with Nepal during the past two years —

Statement showing Statistics of the Trade with Nepal in 1896-97 and 1897-98

	Articles.	Imports from Nepal		Exports to Nepal	
		1896-97.	1897-98	1896 97	1897 98

	Total ...	18,17,364	18,58,983	2,65,881*	4,22,407*

* Omitting the figures for piece-goods.

77 It will be seen that the total imports show a slight increase of 41,619 maunds as compared with the previous year. The principal articles of import are food-grains, oilseeds and tobacco. As regards exports, the figures, as they stand, are complicated by the fact that in 1896 97 the piece-goods traffic was shown by value, while in the year of report it is not clear whether the figures represent the value, or the weight in maunds, as in 1895 96, and the district reports do not throw any light on the subject The attention of the District Officers will be drawn to this for future guidance However, eliminating from both years the figures against articles 18 and 19, we get a total export traffic for 1896 97 of 2,65,881 maunds, and in 1897-98 of 4,22,407 maunds, showing an increase of 1,56,526 maunds, which is noticeable chiefly in tobacco, salt and kerosine oil. On the other hand, there is a falling off under the heads "Gunny bags," "Sugar," and "Coal and Coke."

* * * * * * *

XVII—CONDITION OF THE DIVISION AS REGARDS LAND AND THE LAND REVENUE ADMINISTRATION

131 The total number of estates in the Division in the year of report was 67,839, against 66,736 in the preceding year. The increase of 1,103 estates was mainly due to partitions effected during the year.

132 The current demand of the year was Rs 82,21,800 against Rs 82,22,835 in 1896 97 The demand of each class of estates is compared below with the corresponding figures for the preceding year —

	1896-97.	1897 98		Difference
	Rs.	Rs.		Rs
Class I (Permanently-settled estates)	77,59,195	77,61,076	+	1,881
,, II (Temporarily-settled estates)	2,19,433	2,20,923	+	1,490
,, III (Estates held direct by Government)	2,44,207	2,39,301	—	4,906
Total ..	82,22,835	82,21,300	—	1,535

The total exhibits a decrease of Rs 1,535, against a net increase of Rs 10,821 in 1896-97 The increase in the demand under Class I is mainly due to the transfer of the *jama* of estate Ehazi Jahangirpur Mangurpal, in the district of Patna, to this class from Class III, and to the sale of some petty Government estates in Gaya, in 1896 97, the demands of which have subsequently been transferred to Class I The increase in the demand under Class II is the net result of the resettlements at higher or lower *jamas*, and of the transfer of estates from one class to another Under Class III, the decrease of Rs 4,906, is chiefly due to the exclusion of a large amount of fictitious demand in Gaya, to the transfer of two estates, Raman Tolah and Ehazi Jahangirpur, in Patna, to Classes II and I, and of two estates in Muzaffarpur to Class II.

133 The current collections under each class of estates are compared in the margin with the results of the year 1896-97. The total exhibits a net increase of Rs 14,761 The percentage of total current collections on the total current demand, was 97 10, against 96 90 in 1896 97 The arrear collections amounted to Rs 2,02,987, or 68 69 per cent, on the arrear demand of Rs 2,95,524 The arrear and current collections together, amounted to Rs. 81,85,659, or 96 11 per cent, on the total demand of Rs 85,16,824, against Rs 85,05,945, and 96 11 per cent., in the previous year The percentage of total collections on the current demand in permanently settled estates was 99 5, against 99 3 in 1896-97 The total remissions of land revenue granted during the year under report amounted to Rs 5,497 as detailed in the margin Remissions of grace were, as usual, allowed chiefly for loss of crops and the death, desertion and poverty of tenants. Remissions of right were allowed on account of deterioration of land, and nominal remissions were granted in consequence of mistakes in the accounts in the district of Gaya, on account of estate Bishunpur Bondu Chapra, in the district of Shahabad, having been under water, and for fluctuation in the demand in *sayer* revenue as well as for the non-settlement of relinquished holdings

	1896 97	1697 98
	Rs	Rs
Class I	76,11 288	76,21 876
,, II	1 91 652	1 95,241
,, III	1,65 021	1,65 585
Total	79,67,911	79,82,672

	Rs
1 Remissions of grace	4 726
2 Ditto of right	439
3 Nominal remissions	288
Total	5,497

134 The balance amounted to Rs 3,26,668 against Rs. 2,93,662 in the previous year, as distributed under each class of estates in the margin The percentage of total balance on the total demand is 3·8, as against 3·9 in 1896 97 Of the total balance outstanding at the close of the year, a sum of Rs. 3,22,917 is reported to have been under recovery, and Rs. 2,751 is classed as doubtful and irrecoverable

	1896 97.	18 7 98.
	Rs	Rs
Class I	1 60 813	1,80,735
II	4 ,854	46 802
III	91 016	98 191
Total	2,94,682	3 25 668

135 Out of 10,392 estates and shares of estates which became liable to sale for non-payment of Government dues during the year of report, only 556, or 5 3 per cent , were actually sold. Of these, 317 were whole estates, and 239 were shares The revenue demand of the properties sold was Rs 56,744, and the dues for which they were brought to sale amounted to Rs. 33,191 The amount realised by sale was Rs. 5,38,338, or about ten times the Government revenue Four whole estates, with an aggregate revenue of Rs 3,078, were purchased by Government for Rs. 9. Deposits forfeited under section 23 of Act XI of 1859 amounted to Rs 2,994, for estates, and Rs 356 for shares The sales of 16 estates and 22 shares were annulled during the year, and recommendations for annulment of sales on the ground of hardship were made in the case of two estates and one share. The sales were most numerous in the district of Shahabad, and the large number of defaults was due to famine in the Champur pargana The law was generally enforced with moderation in all the districts

136. The total number of certificates filed during the year was 61,052 against 62,912 in 1896-97 The total number of cases for disposal during the year, including those pending on the 1st April 1897, was 89,447, of which 61,494, or 68·7 per cent , were disposed of In 15,739 cases the demand was paid on the mere issue of notice, in 27,759 cases on attachment of property of the judgment debtors, and in 1,789 cases recourse to actual sale was necessary In 4,445 cases the demand was paid on issue of warrants against the defaulters, while in three cases the debtors were imprisoned

137 The total number of estates under direct management was the same as in the previous year, viz , 220, of which 200 were the exclusive property of Government, and 20 belonged to private individuals A total sum of Rs 49,274 was spent upon the management and improvement of estates, as per details in the margin

	Rs
Management proper	28,899
Miscellaneous improvements, including agricultural improvements and experiments	18 244
Sanitary improvement	2,131
Total	49 274

138. The total number of settlement cases for disposal during the year was 92, of which 68 were disposed of, resulting in a net increase of Rs 4,500 These figures do not include the larger settlements which are under the Director of Agriculture, nor the smaller settlements under the Tenancy Act, which are under my general supervision

	Rs
Original settlements	14
Re settlements	31
Summary settlements	23
Total	68

139 The number of land registration cases pending at the close of the preceding year was 7,047, and the number instituted during the year of report was 24,246, thus making a total number of 31,293 cases for disposal during the year Of these 24,347, or 77 8 per cent , were disposed of, against 25,076 cases and 78 per cent in the preceding year. The expenditure on account of land registration charges during the year amounted to Rs 3,846 The fees realised under section 64 of the Land Registration Act amounted to Rs 1,231 The work of rewriting register D has been completed in all the districts, except Saran The mauzawar register C is being revised in the district of Muzaffarpur, while in Darbhanga and Champaran it is proposed to revise the register at the cost of the Settlement Department.

140. The number of partition cases pending at the close of the preceding year was 999, and the number instituted during the year of report being 267, the total number of cases for disposal during the year was 1,266 The number of cases disposed of was 349, and the number pending at the close of the year was 917 No case was disposed of in the district of Champaran, though there were 12 cases for disposal in this district, all pending from 1896 97 The proceedings were stayed pending completion of the cadastral survey operations. It is satisfactory to notice that the disposals exceeded the institutions in all the districts, except Muzaffarpur Special Deputy Collectors were employed for partition work in all the districts of the Division, except Champaran The new Partition Act, V of 1897, has only recently been introduced in supersession of the old Act, VIII of 1876 The

new law has simplified the procedure to be observed at different stages of partition, and is a decided improvement on the old.

141 The total number of land acquisition cases on the file was 231, of which the proceedings in 64 cases were confirmed by the Board of Revenue during the year. 295 acres 2 roods 17 poles of land required by Government, Municipalities and District Boards, &c, costing Rs. 46,885, were acquired under Act I, 1894. The Railway irrigation projects taken up during the late famine were under progress during the year

142 Under the Land Improvement Loans Act, XIX of 1883, a sum of Rs 25,500 was allotted to the several District Offices in the Division during the year, but only Rs 27,984 was actually advanced, viz, Rs 1,500 in Gaya, Rs 6,124 in Champaran, and Rs 20,360 in Darbhanga The total amount realized during the year was Rs 37,952 In consequence of the famine, there was an unusual demand for loans under the Agriculturists' Loans Act, for the purchase of seed and cattle Out of a sum of Rs. 12,05,500 placed at the disposal of the several District Officers during the year, Rs 6,98,861 only was actually given out, as noted in the margin The amount collected during the year was Rs 91,487

	Rs
Patna	2,258
Gaya	13 910
Shahabad	50,966
Saran	2,37 842
Champaran	2 19,343
Muzaffarpur	1 75,491
Darbhanga	351
Total	6,98,861

143 The relations between landlords and tenants were, on the whole, peaceful throughout the year except in the following cases —

In the Barh subdivision of the district of Patna relations are said to have been somewhat strained, and a case under section 69 of the Tenancy Act resulted in a riot.

The Moorli Indigo concern in Champaran has not yet been able to settle its disputes with its tenants, who still refuse to sow indigo on their lands In the Ramnagar estate in the same district, matters are said to be improving since the appointment of a European Manager. But the reputation which the Madhuban Babu has gained for want of sympathy towards his tenants, continues the same

144 The working of the various sections of the Tenancy Act in the Division during the two years, 1896-97 and 1897 98, is shown below —

	1896-97	1897-98
(1) Voluntary transfers, section 12 (3)	1,010	939
(2) Transfer by decree sale, section 13 (2) and 14	...	...
(3) Transfer of tenures by succession, section 15	2	4
(4) Commutation of rent payable in kind section 40	37	45
(5) Appraisement of produce where rent is paid in kinds, sections 69 and 70	283	529
(6) Registration of improvements	114	217
(7) Application for certificate of Collector as to acquisition of land for building and other purposes, section 84	1	2
(8) Notices of resumption of land by landlords, section 87-(2)	515	809
(9) Written permission to landlords to measure land, under section 90	...	...
(10) Applications for a survey and records-of-rights under Chapter X	4	1
(11) Local enquiries held by order of a Court, section 158	24	21
(12) Applications by Collectors for appointment of a common Manager, section 93	...	1

It will be seen that there has been an increase in the number of cases under all the heads except under heads (1), (10) and (11) Mr. Maxwell, the Collector of Champaran, reports that there were 662 notices of resumption of land in his district, against 403 in 1896-97. The increase is attributed to the abandonment of a large number of holdings near the Dhanauti river, which has got the reputation of being very unhealthy.

* * * * * * *

XIX.—EXCISE

153 The following statement shows, district by district, the total revenue derived from excise in the year of report and in each of the previous five years —

District	1892-93	1893-94	1894-95	1895 96	1896 97	1897 98	Increase or decrease in the last year compared with the year 1896 97
1	2	3	4	5	6	7	8
	Rs	Rs	Rs.	Rs	Rs	Rs	Rs
Patna	6 50,796	6 63,037	6,82,276	7,36 845	7 19 249	6 37 100	—82 149
Gaya	5,37,231	6,14 126	6,25,089	6,25 960	5 57,873	5,13,976	—43,897
Shahabad	3 19,938	3,27 221	3,26,568	3,17,529	3 08,276	2,6?,797	—4? 479
Saran	3 22 741	3,29 346	3 20,250	3 33,509	3 22 795	3,15 191	— 7 604
Champaran	2 16,496	2 16,696	1,97,535	2,10,431	1,99,171	1,92,001	— 7 170
Muzaffarpur	2 42,338	2 55,328	2,64,885	2,69,615	2,66,578	2,59 005	— 7 579
Darbhanga	2 01,588	2,27,576	2,20,175	2,44,631	2 60,665	?,50 605	—10 260
Total	24 91,128	26,33,861	26,38,784	27,28,2?0	26,34,807	24,30,675	2 04 132

154 The year under review was not favourable to excise settlements, on account of the famine, and the revenue which has shown a steady increase for some years past, suffered a diminution of about a lakh of rupees in 1896 97, and a further loss of about double the amount during the year of report The decrease occurred in all the districts.

155 A comparison of the details of revenue derived under each head of exciseable articles during the year under review, with the results of the previous year, shows that the falling off was the largest under the heads "Country spirits" (Rs 1,36,655), "Tari" (Rs. 6,381), "Ganja and Bhang" (Rs 60,839), and "Opium" (Rs 1,2?5).

156 The decrease under the head of "Country spirit" is shared by all the districts The largest fall was in Gaya, where the decrease amounts to Rs 52,39?, next to it comes Patna with a decrease of Rs 37,289, and next Shahabad, where the decrease is Rs 19,761 In Saran the falling off amounts to Rs 14,29?, and in Champaran and Muzaffarpur, to Rs 6,693, and Rs 5,574, respectively while in Darbhanga it is only Rs 652. The decrease in the revenue is attributed by all the District Officers to the short consumption of distillery liquor on account of the famine, and to the settlement of outstills at reduced fees owing to the high prices of food-grains which prevailed at the time the shops were settled Mr. Oldham, the Collector of Gaya, has also assigned the following reason for the large decrease in the revenue in his district —

"A great difficulty was experienced in the settlement of outstill licenses owing to the high incidence of taxation on outstill liquor in this district, as compared with the other districts in the Division, the generally poorer condition of the local *abkars*, the dearness of *mahua*, and finally a strong combination among the *abkars* against taking settlement at the upset fees The Excise Deputy Collector visited several other districts in the Patna and Bhagalpur Divisions, and succeeded in importing a number of substantial *abkars* and settling with them outstills and other shops bearing more than half the total amount of annual fees"

157 Under the head "Tari" there has been a large decrease of Rs 16,658 in Patna, but this was greatly counterbalanced by the increase of revenue under this head, amounting to Rs. 7,624, in the district of Gaya. Mr LeMesurier, the Collector of Patna, ascribes the falling off in his district to the non payment of advance fees for 1898-99, as no *tari* shops were settled until after the close of the year, owing to the lateness of the *tari* season, and to a smaller collection of the current demand, as a greater portion of it was paid in advance in 1896 97

158 The fall of revenue in *ganja* and *bhang* occurred in Patna (Rs 25,844), Shahabad (Rs 25,523), Darbhanga (Rs 10,320), Champaran (Rs 2,692), and Muzaffarpur (Rs. 2,266 In Patna and Shahabad the decrease is attributed to the smaller export of the drug to the North-Western Provinces, and in Darbhanga, Champaran and Muzaffarpur to the smaller export to Nepal In the two remaining districts of Gaya and Saran, there was an increase of revenue to the extent of Rs. 576, and Rs. 5,230, respectively In the former district, the increase is attributed to the settlement of the shops at favourable rates, and to the payment of advance fees in March 1898, while in the latter it is chiefly due to the export of about 25 maunds of *ganja* to the North-Western Provinces, against only 11 maunds in 1896-97, on payment of duty

159 The net falling off in the receipts from opium amounted to Rs 1,235 The decrease in the revenue occurred only in the two districts of Patna and Gaya In the former district, the decrease (Rs. 2,519) is attributed (*a*) to the issue of licenses at reduced fees, (*b*) to the short collection of advance fees, and (*c*) to the strict supervision exercised over the vendors to check smuggling of opium to Bengal In Gaya the decrease is small, being Rs 89 only It calls for no special notice

160 The increase in the revenue in the remaining districts of the Division is ascribed by the Collectors to the consumption of a larger quantity of hot opium, on account of more close supervision

161 The total population of the Division being 15,815,121, and the total excise revenue Rs 24,30,675, the incidence of revenue per head of population is 2 annas 5 pies per annum

162 The figures in the margin show the number of persons arrested during the years 1896 97 and 1897 98, for offences against the excise and opium laws These figures show the arrests made by both police and excise officers

District	1896 97	1897 98
Patna	199	87
Gaya	145	144
Shahabad	44	27
Saran	85	75
Champaran	69	60
Muzaffarpur	59	83
Darbhanga	47	19
Total	648	444

163. The following figures show the number of prosecutions for drunkenness in the municipalities, in each district, during the last two years —

District	Number	
	1896-97	1897-98
Patna	533	392
Gaya	65	47
Shahabad	112	87
Saran	159	77
Champaran	38	40
Muzaffarpur	64	108
Darbhanga	78	59
Total	1,049	805

There was generally a falling off in the number of cases, which may be attributed to the famine.

XX—STAMPS

164 The total revenue derived from the sale of stamps and Court paper during the year under review, was Rs. 22,83,777, against Rs. 22,56,010 in 1896-97, showing an increase of Rs 27,767, as compared with the preceding year, and of Rs. 1,46,308, as compared with the year 1895-96. The statement

below shows the revenue derived from the sale of each kind of stamps during the two years 1896 97 and 1897-98 :—

Description	1896-97	1897-98	Increase	Decrease
1	2	3	4	5
	Rs.	Rs	Rs	Rs
Court-fees	15,01,060	14,84,284		16,796
Stamps for copies	1,07,380	1 14,353	7,023	
Impressed sheets	5,80,146	6 24,311	44,165	
Receipt stamps	17,638	21,772	4,134	
Notarial stamps	106	52		54
Hundi stamps	19,810	8,007		11 803
Court papers	29,900	30,998	1,098	
Total	22,56,010	22,83,777	27,767	

165 It will be observed that there has been an increase under four, and a decrease under three heads Under "Court fees" there has been an increase in the districts of Shahabad and Darbhanga, to the extent of Rs 18,739, and a falling off in the remaining five districts, to the extent of Rs 35,535 The increase in the districts of Shahabad and Darbhanga is attributed by the Collectors, Messrs. Cargill and Geake, to the large number of civil suits instituted during the year, while the falling off in the other districts is reported to have been due to the fact that there were fewer suits of high value instituted during the year, owing to the scarcity Mr Maxwell, the Collector of Champaran, also attributes the decrease in his district to the slackness of the settlement operations necessitated by the famine. Under the head "stamps for copies" there was a total increase of Rs. 7,383 in the five districts of Patna, Shahabad, Saran, Muzaffarpur and Darbhanga, and a total decrease of Rs 360 in the remaining two districts of Gaya and Champaran No special reason has been ascribed for the fluctuation by most of the Collectors But in Patna Mr LeMesurier attributes the increase to the large number of copies issued in one very protracted and important criminal case, while Mr. Maxwell, the Collector of Champaran, ascribes the falling off in his district to the smaller number of copies issued owing to the slackness of the settlement operations To the large increase under the head "Impressed sheets" (non judicial), all the districts contribute, except Gaya The increase is attributed to the execution of a large number of bonds and deeds of sale, owing to the distress on account of the failure of crops in the previous year, and to the high price of food grains throughout the greater portion of the year under report In Gaya the Collector, Mr Oldham, also ascribes the falling off in the revenue to the scarcity, which he states kept in abeyance all transactions requiring stamps of high value. The increase under the head "Receipt stamps" is shared by all the districts, and is generally attributed to the large number of agricultural and land improvement loans advanced during the year, and to the numerous payments made to contractors and to employés in the famine relief operations The decrease under the head "Notarial stamps" was very small, and does not call for any special remark, while that under the head of "Hundi or bill of exchange stamps," which occurred in all districts, except Shahabad, is reported to have been due to the dullness of trade, owing to the scarcity which prevailed during the year. Mr. Macpherson, the Collector of Saran, ascribes the decrease in his district more particularly to the failure in business of several bankers The increase in the "Sale of Court papers" is trifling, and does not call for any special notice.

166. There were 412 cases of unstamped or insufficiently stamped documents detected by the Civil Courts and Revenue authorities during the year of report, against the same number of cases in the preceding year. The amount of duty and penalty realised was Rs. 5,396, against Rs. 4,881 in 1896 97

167 The number of prosecutions instituted for breaches of the stamp law, during the year of report, was 32, in which 38 persons were brought to trial, against 31 cases, in which 47 persons were brought to trial, in the preceding year Of the 38 persons brought to trial, 29 were convicted, and 4 acquitted The amount of fines imposed during the year was Rs 491, against Rs 253 in the previous year. No rewards were paid

XXI.—INCOME-TAX.

168 The number of persons finally assessed during the year 1897-98 was 15,800, and the final demand amounted to Rs. 4,59,581 The corresponding figures for the preceding year were 15,862 and Rs. 4,46,516, respectively Thus, in the year of report there was again a large increase of Rs. 13,065, or 2 9 per cent, in the final demand, notwithstanding a decrease of 62 in the number of assessees

169 The final demand under each part was as follows —

	Rs		Rs.	
Part I	37,292	against	38,748	in 1896-97
„ II	1,233	„	1,772	„ „
„ IV	4,21,056	„	4,05,996	„ „
	4,59,581		4,46,516	

170 As compared with the previous year, there was an increase in the final demand in all the districts of the Division, except Patna, where there has been a decrease of Rs 340, caused by the decrease of 94 in the number of assessees, due to the exemption of petty dealers who suffered losses on account of scarcity In Shahabad, Saran, and Darbhanga the final demand increased with the increase in the number of assessees, ranging from 180 in Darbhanga to 62 in Saran, due to the careful revision of assessment, but in the remaining districts of Gaya, Champaran and Muzaffarpur, there was a decrease in the number of assessees, ranging from 150 in Gaya to 64 in Champaran, due to the same cause as in Patna The final demand, nevertheless, increased, as the assessments on capitalist traders were enhanced in accordance with the instructions contained in paragraph 58 of the Board's Income-Tax Administration Report for 1896-97, as they made large profits by money lending and grain dealing during the late famine

171 The collections amounted to Rs. 4,56,423, or 99·3 per cent, on the final demand, against Rs 4,41,059, or 98 7 per cent., in the previous year The district of Patna alone succeeded in collecting the entire demand within the year The collections were over 99 per cent in Gaya (99 8), Champaran (99 8) and Saran (99 6), and over 98 per cent in Muzaffarpur (98 9) and Shahabad (98 8), and over 97 per cent. in Darbhanga (97 8) It is satisfactory to observe that in all the districts of this Division the collections exceeded the standard of 95 per cent. fixed by Government and the Board. The percentage of tax contributed by each part on the total amount of tax collected is given in the margin

Part I	8 1	against	8·3	in 1896-97
„ II	8	„	4	„
„ IV	91 1	„	91 3	„

172 The arrears of previous years collected during the year under report, excluding the amount remitted as irrecoverable, amounted to Rs. 5,171, and penalties, fines, and costs, amounting to Rs 4,631, were also collected during the year Thus, the gross collections amounted to Rs. 4,66,225, against Rs 4,51,926 in the previous year, out of the gross demand of Rs. 4,71,908, as compared with a gross demand of Rs 4,61,755 in the previous year It will be seen that the collections, as in the previous year, kept pace with the increased demand, and this satisfactory result is due to the assessment in all the districts having been completed early enough to allow of the bulk of the current demand being realised before the close of the year.

173 The outstanding balance on account of tax, penalties and costs for the year under report, was as follows.—

	Rs		Rs.		
Tax	3,950	against	7,616	in	1896-97
Penalties	1,350	„	1,628	„	„
Costs	383	„	585	„	„
Total	5,683		9,829		

The result is satisfactory, the total balance outstanding at the close of the year being much less than that of the preceding year.

174 The percentages of the number of assessees under each class, on the total number of assessees, show that the assessees, under the first six classes make up 88 71, or '29 less than 90 per cent, of the total number as shown in the margin These six classes have contributed 44 9 per cent of the total amount of tax collected during the year Assessees having incomes from Rs 2,000 to Rs 10,000, formed only 9 83 per cent of the total number, and they contributed 32 59 per cent of the total amount of tax collected Persons with incomes of more than Rs 10,000 formed but 1 46 per cent of the total number, while the assessment imposed on them was 22 51 per cent of the total amount

Class I	49·9
„ II	15 8
„ III	12 01
IV	5·3
V	3 6
VI	2 2
	88 71

175. As in the previous year, the largest contributions to the tax were made by the following classes —

	Rs		
Money-lending class	1,56,322, or 34 2	per cent	of the total tax
Grain merchants	76,147, or 10 1	„	„
Piece-goods merchants	34,835, or 7 6	„	„

176 The total actual expenditure of the year under review for assessing and collecting the tax, amounted to Rs 18,900, as compared with Rs 18,611 in the preceding year, showing an increase of Rs 289 The percentage of charges on collections was 4 02, against 4 09 in the previous year

177 The system of payment of income-tax by money-orders continues to rise in public favour, as the Division shows an increase of 2 3 per cent in the number of money orders, and of 5 2 per cent in the amount remitted by them during the year under report Altogether, a sum of Rs. 1,38,670 was remitted to the Collectors in the Division by 7,781 money-orders, during the year of report, as against Rs. 1,31,696 remitted by 7,607 money orders in the previous year

178 The number of firms and other employers who undertook to collect the tax under section 9 (2), Act II of 1886, was 11, against 10 in the previous year The total amount of tax collected by them during the year of report was Rs 4,035, against Rs 4,119 in the previous year The total amount of remission allowed under rule 13 of the Bengal Government Rules was Rs 177, against Rs 139 in the previous year. The amount actually credited into the treasury during the year, therefore, amounted to Rs 3,858, against Rs 3,980 in the previous year

179 Out of 15,800 persons finally assessed, coercive measures were taken only against 834, or 5 3 per cent, as compared with 934, or 5 9 per cent, in the preceding year Property was distrained in 484 of these cases, but was only actually sold in 56 cases, against 522 and 63 cases, respectively, in the previous year As in the previous year, Gaya shows the largest number of sales, though the number of sales in that district fell from 47 to 27 in the year under report

180 It is satisfactory to observe that the number of distress warrants issued was smaller than in the preceding year, and the number of cases in which actual sale was resorted to fell from 63 to 56

181. In Saran, at the instance of the Collector of Calcutta, a notice was issued on the branch firm at Chapra of Jugal Kishore Rektakesh, calling upon the agents to make a return of income, and to produce their account books in support of it The two agents of the firm refused to receive the notice and

prevented its service They were therefore prosecuted, with the Collector's sanction, and convicted under section 173, Indian Penal Code, and sentenced to a fine of Rs 40 each, or in default to undergo rigorous imprisonment for 15 days Their petition of motion before the Sessions Judge was rejected In Muzaffarpur, a tahsildar appointed by the Collector to sell properties for recovery, reported two cases in which the defaulters had rescued the attached property from the custody of the chaukidars The Income Tax Deputy Collector, who made enquiries into these cases, recommended the prosecution of the defaulters under section 183 of the Indian Penal Code The cases are pending before the Subdivisional Officer of Sitamarhi. In Shahabad, during the year under report, Shah Mohiuddeen of Sasaram, Sajada Nashin of Sasaram Endowment, instituted a suit in the Civil Court to set aside an assessment under Part I The Munsiff's Court gave a decree to the plaintiff, and an appeal was preferred before the District Judge The Judge upheld the order of the Lower Court The Collector states that steps will probably have to be taken, as soon as a copy of the Judge's order is received, to move the High Court to decide the question of the Civil Court's jurisdiction in the matter

182 In two cases in Muzaffarpur, and in one case in each of the three districts of Patna, Shahabad and Champaran, the taxes were compounded for three years under section 31 of the Act

* * * * * * *

XXIII—RAILWAYS AND OTHER PUBLIC WORKS

East Indian Railway.

187 In the Patna district, a new railway station at Neora was opened for traffic during the year There were 41 railway accidents during the year, against 38 in the preceding year, in which 31 persons were killed and 12 wounded There were also two instances of moving trains colliding with loaded waggons, and the railway employés at fault were criminally prosecuted and punished

In the Shahabad district there were 13 accidents, against 14 in the preceding year In these eight persons were killed and five wounded

Patna-Gaya Railway

188 As reported last year, complaints of want of punctuality and of insufficient accommodation for the third class passengers on the occasion of large gatherings, of pilgrims, still continue to be made The Collector of Gaya remarks —

"I have travelled two or three times up and down this line, and on no occasion did I find the trains up to time On one occasion going from Gaya, and on one occasion coming from Bankipore, the trains were an hour and-a-half late in *starting* This sort of delay causes serious inconvenience to passengers."

South Bihar Railway.

189 The construction of this line of railway is in progress, from the east bank of the Phalgoo to Lakhisarai The earthwork is finished, and all the bridges and culverts, with the exception of the major bridge over the Phalgoo river, are now ready for girders. Stations are also in progress of construction, and it is possible that this portion of the line will be open for goods traffic in January 1899

Mogalsarai-Gaya Railway

190 The construction of this line of railway is in progress It traverses the Babhua and Sasaram subdivisions of the Shahabad district, and passes on to Gaya About three fourths of the total quantity of earthwork, and about

one third of the total work on the major and minor bridges, have been completed Collection of the permanent-way materials is in progress, and the laying of the line has been commenced from the Gaya end since the close of the year

THE BENGAL AND NORTH WESTERN RAILWAY, INCLUDING TIRHUT STATE RAILWAY

191 Complaints of want of punctuality continued to be made, as reported last year The railway authorities have begun to fence the line

192 In the Saran district there were 13 railway accidents during the year, in which eight persons were killed and three wounded In the Champaran district there were two accidents during the year, but they are reported as not due to negligence on the part of the railway servants The only railway line open in this district during the year was a portion of the Tirhut State Railway which runs to Bettiah

193 Several complaints were made against the working and management of the Bengal and North-Western and Tirhut State Railways, by the merchants of the Motihari and Bettiah towns, in respect of theft of goods The matter has been enquired into, and the result reported to the Consulting Engineer to the Government of India

194 The construction of a light feeder line of railway from Segowlie to Ruxaul was pushed on

195 In the Muzuffarpur district there were 21 railway accidents (against eight in the preceding year), in which eight persons were killed and five wounded One railway servant was punished for negligence of duty

196 In the Darbhanga district the construction of the railway line from Hajipur to Katihar through Samastipur, and another extension from Saka to Jamagar, were in progress. A branch line of railway from Roserah to Dalsing sarai is under contemplation by the railway authorities

197 There were eight railway accidents reported from Samastipur (against two in the preceding year), in which three persons were slightly injured and one killed There was also one derailment through the wrong adjustment of the points, but without any loss of life

198 The complaints against the railway authorities do not appear to have been remedied The Magistrate of Darbhanga remarks —

"As regards the deficiency in rolling stock noticed in the last year's report, I am not sure whether any improvement has been made in this respect Judging from the delay in delivering both goods and parcels, I surmise that the railway is still unable to cope with the traffic"

TRAMWAYS

199 The District Board of Patna is trying to have a tramway constructed from the Bakhtiarpur Railway Station to Bihar A prospectus was widely published, and tenders were received from several firms No final arrangements have yet been made.

200 The income of the Patna City Tramway, which extends over a length of five miles, was Rs 31,346, against Rs 34,586 of the past year The falling off in the income is due partly to the scarcity, and partly to the competition of a better class of ekkas Eight accidents occurred during the year The drivers, who were tried in two cases, were discharged, and the remaining cases were entered as accidental.

ARRAH WATER-WORKS

201 The supply of filtered water remained constant throughout the year In the month of August 1897 a high flood of the Sone washed away a large portion of the river bank immediately above the intake Steps have been taken to prevent further encroachment. The amount of filtered water drawn off the standposts varied from 100,000 gallons per diem in the cold weather, to 150,000 gallons in the hot weather. This quantity cannot be exceeded until more standposts are provided

EMBANKMENTS.

202 In the Patna and Gaya districts there is only one embankment called the Sakri Bandh, which is situated near the trijunction of the districts of Monghyr, Patna, and Gaya Its maintenance charges were very small during the year

203 In the Saran district, the embankment along the right bank of the Gandak is maintained by Government from a cess bond from the proprietors of lands benefited by the embankment The following table shows the financial results of the administration of the embankment during the year —

Arrear demand.	Current demand	Total.	Collection during the year	Balance.
1	2	3	4	5
Rs 15,983	Rs. 23,682	Rs 39,665	Rs 25,720	Rs. 13,945

204 From the above table it will be seen that the percentage of collection was 64 8, against 58 4 of the past year. The cost of maintaining the embankment was Rs 30,420 The continual encroachment that was occurring almost every year, as reported last year, has now stopped

205 In the Champaran district, the Gandak embankment is the only public embankment, and it is maintained by the Public Works Department as before The expenditure incurred on construction and maintenance during the year, amounted to Rs. 16,597, against Rs. 13,794 of the previous year

206 The construction of a retired line of embankment at Sagrampur, which was commenced towards the close of the previous year, was completed at a cost of Rs 22,760, of which Rs 19,000 were paid from the Famine Fund and the balance, Rs 3,760, by the Public Works Department

207 The subjoined table compares the collection of the contract rates for the maintenance of the embankments during the past three years —

YEAR	Arrear demand	Current demand.	Total	Collection during the year	Balance
1	2	3	4	5	6
	Rs.	Rs	Rs.	Rs	Rs
1896-97	2,344	13,000	15,344	9,743	5,601
1897 98	5,601	13,000	18,601	15,530	3,071
Difference	+3,257	.	+3,257	+5,793	−2,530

208 The percentage of collections during the year was 83·4, against 63 3 of the past year Out of the balance outstanding at the end of the year, Rs 489 were realised after the close of the year A further sum of Rs 223 was realised during the year, on account of advance for the current year 1898 99.

209 In the Muzaffarpur district, there are two lines of embankments called the Gandak and Turki embankments. The former is maintained under the contract system, and the latter under the taccavi system. Both the embankments are properly maintained A third embankment, viz., that at Daudpur, constructed as a protection to the whole town of Muzaffarpur, has just come under the Act The total demand including arrears was Rs. 41,181, out of which Rs. 15,532 was realised, and Rs 111 adjusted from previous advance collection The balance outstanding on 31st March 1898 was Rs. 24,538

210 In the Darbhanga district, there are two lines of embankments, viz, the Ganges and the Gandak embankments, which were maintained on the

contract and taccavi systems, respectively The financial results of the cesses levied for these two systems during the year, will appear from the subjoined table —

Embankment	Arrear of last year	Demand for current year	Total	Remission	Collection	Balance	Interest
1	2	3	4	5	6	7	8
Ganjak Ganges	Rs A P 1,453 3 11 96 1 10	Rs A P 3,119 0 5 3,367 6 7	Rs A P 3,572 4 7 3,463 8 5	Rs A P 20 2 1	Rs A P 2,158 0 1 2,666 10 7	Rs A P 1,416 4 6 768 11 9	Rs A P 61 11 1
Total	1,549 5 9	6,486 7 3	7,036 12 0	20 2 1	4,824 10 8	2,185 0 3	113 12 [illegible]

Canal Irrigation

211 The Sone Canals remained under the direct management of the Public Works Department The subjoined statement shows the area irrigated, and the main financial statistics in connection with the levy of water rates during the last three years, in the districts of Patna, Gaya and Shahabad —

District	Year	Area irrigated in acres	Total demand	Collection	Remission	Total adjustments	Balance	Percentage of total adjustments on total demand
1	2	3	4	5	6	7	8	9
			Rs A P	Rs A P	Rs A P	Rs A P	Rs A P	
Patna	1895 96	39 526	83,504 15 4	79,456 10 4	192 4 3	79,648 14 7	3 856 0 9	9[illegible] 3

Saran Canals

212 These canals were directly managed by the Public Works Department It was reported last year that the canals were opened in November 1896 to enable the raiyats to irrigate their *rabi* lands, after the serious failure of rain in 1896 They were utilised to a small extent by the cultivators, and the total area irrigated during the year was 1,[illegible]2 acres, of which 1,187 acres were *kharif*, 309 hot weather crops, and the balance of 56 acres was indigo The cost of maintaining the canals was Rs 3,887

213 The excavation of the Sadowa Channel in the Gopalganj subdivision, which was started before the commencement of the year, as a famine relief work, was designed with the intention of irrigating some rice *chours*, and a

sum of Rs 10,345 was sanctioned for the acquisition of the land required for the project The work was not completed during the famine operations and though the project afforded work to the famine-stricken population of the neighbouring villages, the channal could not serve the purpose of irrigation

Madhuban Canal.

214 In the Champaran district, there is only one canal called the Madhuban Canal, which is maintained by Government. No water rates are levied on this canal, owing to arrangements made with the zamindars of Madhuban

215 The area irrigated from the canal during the year was 1,970 acres, as against 11,251 acres in 1896.

216 Several important projects of irrigation and drainage were started during the year, to provide employment to famine relief labour The distributary of the Madhuban Canal, called the Lakhowra distributary was commenced by famine labour, but was not completed

217 The excavation of nine canals or irrigation distributaries was undertaken during the year, as a famine relief work to improve the water supply, as well as to afford work to the famine stricken, and Rs 1,78,797 was spent on them from the Relief Fund They were all completed, with the exception of the Tribeni and the Dhaka Canals, on which Rs 1,38,506 was spent

Roadside Wells

218 The following statement shows what has been done to improve the roadside wells, during the last two years, in each of the districts in this Division —

District	1896-97				1897-98			
	Number of wells repaired or cleared	Number of new wells constructed.	Number of wells provided with chain, bucket &c	Cost of operations in columns 2, 3 and 4	Number of wells repaired or cleaned.	Number of new wells constructed.	Number of wells provided with chain bucket &c	Cost of operations in columns 6, 7 and 8.
1	2	3	4	5	6	7	8	9

* * * * * * *

XXVI—EDUCATION

234 The total number of schools in the Division again fell during the year from 6,431 to 6,236, and the number of pupils decreased from 178,011 to 177,125. There was thus a decrease of 195 schools and of 886 scholars The decrease occurs chiefly in primary schools.

235 In Patna the number of schools and pupils increased by 59, and 5,190, respectively, as compared with the figures for 1896 97 The increase is noticeable under the head "Primary schools," and is attributed to the revival of some of the schools closed last year on account of the then prevailing scarcity The decrease of one middle English school is due to the closure of the school at Badalpura The upper primary schools show a loss of one school, which is due to the conversion of one non-stipendiary upper primary to the standard of lower primary. The lower primary schools increased by 71, and the increase is attributed, as stated above, to the comparatively better agricultural conditions of the year under report.

236 In Gaya there was a decrease of 21 schools with an increase of 2,58 pupils One high class English school, viz., the Indian Moral Institution, ceased to exist during the year owing to financial difficulties The number of lower primary schools fell from 928 to 903. This decrease is due to the fact that several gurus left off teaching for want of local support, in consequence of the high prices of food grains that prevailed during the first half of the year The pupils, however, who had been attending these pathshalas, joined other schools in the neighbourhood

237 In Shahabad there has been a decrease of 151 schools and 4,015 pupils This decrease is due to the fact that the stipendiary schools of municipalities were abolished, owing to the withdrawal of the Government primary grant from them, and that the District Board educational budget estimates for the year under review were curtailed by Rs 5,051, owing to famine Consequently the rates of reward were reduced by half The number of upper primary schools decreased by one, owing to the Jagdispur upper primary school having been abolished during the year under report

238 In Saran there was a decrease of 110 schools and 2,259 scholars High English schools increased by one, with the recognition by the Calcutta University of the new school started at Chapra, under the name of the Chapra Collegiate School There was a decrease of one middle English school, owing to the abolition of an unaided school at Sutihar There was a gain of two upper primary schools Lower primary schools declined by 112 The loss is due to the strictness with which schools were selected for the reward examinations by the Sub Inspector The Chapra Zilla school continues to work without any cost to Government, the income from fees and subscriptions being more than sufficient to meet the entire cost It is reported that there was no improvement in the results of the departmental examinations, as many candidates were absent This is due to the fact that just at the time these examinations were to be held, an exodus of the people from the town was going on on account of the sanitary measures ordered to be adopted for the prevention of the plague

239 In Champaran the total number of public schools rose from 641 to 655, and the number of pupils attending them from 15,913 to 16,096, showing an increase of 14 schools and 153 pupils The increase occurs chiefly in lower primary schools

240 In Muzaffarpur public schools show a gain of 15 institutions and 874 pupils. The number of middle English schools was unchanged, but while the school at Harauli was abolished early in the year under review, one at Paharpur was opened later on with the grant of the closed institution The decrease in the number of middle vernacular schools is explained by the abolition of the school at Tepra maintained by the Darbhanga Raj, on account of the want of appreciation by the local public The fluctuation in the number of upper primary schools, is due to the abolition of the non stipendiary school at Berna, and to the raising of the lower primary schools, at Karhari and Sahtha, to the status of upper primary schools The lower primary schools have increased by 15. The Sanskrit school at Hajipur was revived during the year under report

241 In Darbhanga, there were 897 public schools, with 26,688 pupils, during the year under report, against 912 schools with 27,024 pupils, in the preceding year, showing a loss of 15 schools and 336 pupils This decrease shows the effect of the last famine on education. There is a Sanskrit school in Madhubani, aided by the Education Department. There were 58 boys on the roll

on the 31st March 1898, against 54 in the previous year Five boys were sent up at the Prathama Pariksha and three at the Madhyam Pariksha. All of them have passed

242 Throughout the Division, the proportion of boys of a school going age, who are attending school, has decreased from 15·5 to 14·7. The decrease is probably due to the scarcity and high prices. Patna, with a percentage of 33 6, still stands first, and Saran, with 10 2 percentage, stands last

243 Taking the Division as a whole, the average annual cost of educating each pupil was Rs. 4-11-1, against Rs 4 8-11 in the preceding year The highest cost was in Patna (Rs. 5-11-9) and the lowest in Darbhanga (Rs. 3 1 8)

244 The following table gives the number of schools for females, and the number of pupils attending them, in the several districts of the Division, during the past two years —

District.	1896-97		1897 98	
	Schools.	Pupils	Schools	Pupils
1	2	3	4	5
Patna	100	1,468	103	1,442
Gaya	17	388	13	430
Shahabad	16	368	15	399
Saran ..	64	955	45	714
Champaran ..	5	121	3	99
Muzaffarpur	14	396	16	395
Darbhanga	40	622	40	663
Total	256	4,318	235	4,142

245 There is thus a falling off of 21 schools and 176 pupils, during the year, as compared with the preceding year. Besides these girls' schools, a large number of girls attend boys' schools.

246 The decrease in the number of girls' schools in Gaya and Shahabad, is due to the closure of schools in those districts in consequence of high prices The loss in girls' schools in Champaran, is reported to be due to the fact that the Bishunpur and Fulwari Rewarded Girls' Schools were amalgamated with the boys' schools, owing to the insufficient number of girls attending them. Two Bengali girls passed from the Bankipore Girls' School, at the upper, and four at the lower primary examination. Five girls passed the lower primary examination from the Darbhanga district, held in December 1897 Mr. Macpherson, Magistrate of Saran, states that all the schools for the education of girls owe their existence to the efforts of Government Not a single pice is paid by the people, and the prejudice against the education of girls, even at the public cost, is still very great.

247 As an encouragement to Muhammadan education, stipends are given in certain maktabs in the Patna district In Saran special facilities, in the way of free studentships and studentships on reduced fees, are offered by the District Board for the education of poor Muhammadans There was a decrease in Muhammadan pupils in Champaran. It is explained to be due to the fact that

Muhammadans, as a class, were affected by the famine, to a far greater extent than the Hindus

248 There were 2,980 private institutions, and 28,818 pupils attending them, as shown below. These are indigenous patshalas and maktabs, and do not conform to the rules of the department:—

District	Number of private institutions	Number of pupils
1	2	3
Patna ..	534	5,374
Gaya	508	4,877
Shahabad	278	3,091
Saran	240	2,568
Champaran	140	1,779
Muzaffarpur	722	5,317
Darbhanga	558	5 812
Total ..	2,980	28,818

249. The total number of special schools was 20, against 19 in the preceding year The increase of one school is due to the raising of one maktab to the status of a Madrasa in the Patna district.

* * * * * * *

XXXII—POST-OFFICES AND TELEGRAPH

287 The general working of the Postal and Telegraph Departments has continued to be satisfactory The following statement shows the number of inland money orders issued and paid in each district during the last two years, exclusive of money orders used for transmitting rent and revenue These figures have been furnished by the Deputy Postmaster General, Bihar —

Name of District	1896-97				1897-98.			
	Issued		Paid		Issued		Paid	
	Number	Amount	Number	Amount.	Number	Amount.	Number	Amount
1	2	3	4	5	6	7	8	9
		Rs		Rs		Rs.		Rs
Patna	72,499	13 98 597	127 074	17 88 378	77 798	12,82,312	116 882	21 04,908
Gaya	88,000	10,45,346	123,057	16,08,501	83 1 7	11 5 394	1 27 640	17 1 563
Shahabad	41 231	8 23 659	384 880	20 71 136	62, 81	9 0 , 834	1 3,488	25 03 128
Saran	33,008	6 71 154	176,806	20,02 670	44 707	7 37 833	190,966	27 79 572
Champaran	43,452	7 0 236	9,389	2,33,547	49 774	8,30 234	16 650	2 74 670
Muzaffarpur ..	49,086	8 82 902	101,940	13,90,581	54,445	9 1 437	10 734	13 1 702
Darbhanga	36,710	9,27,554	82,431	9,37 194	45 104	11,37,080	57 607	8 5 230
Total ..	354,704	65,47,238	709 772	1 16,96,359	418 087	70 32 037	654,196	1,18 14 073

It will be seen that the number of money orders issued in this Division has risen from 354,704 in 1896-97, to 418,087 in the year of report The increase occurs in all the districts The amount remitted has risen from Rs 65,47,238 to Rs. 70,32,037 The rise is noticeable in all the districts, except Patna, which shows a falling off. The increase may partly be attributed to the fact, that a large number of persons were employed on famine duty in the Division during the year, who had to remit money to their families The increase may also be partly due to the importation of grain

288 As regards money orders paid, there has been a decrease of 46,606 in their number, but an increase of Rs 7,27,713 in the amount transmitted by them The increase in the amount remitted, is probably due to temporary emigration having increased on account of the scarcity

289 The following statement shows the Post Office Savings Bank transactions in the last two years. The figures speak for themselves and indicate unmistakably that the system is growing in popularity —

NAME OF DISTRICT	Deposits.						Withdrawals						Total number of accounts open on 31st March		Total amounts in deposit on 31st March

An imperial mail line (Bhagwanpur to Mohwa) in the Muzaffarpur district was opened during the year under report

290 In October 1897 a highway mail robbery took place in the Sasaram subdivision, and property worth about Rs 100 was looted The case was successfully enquired into and committed to the Sessions, and resulted in the conviction of three out of six accused persons. There was one case of temporary misappropriation of Government money, by the postal officials of Jaintpur in the district of Muzaffarpur No prosecution was undertaken for want of evidence, but the case was dealt with departmentally A case of theft of seven registered articles containing, amongst other enclosures, currency notes for Rs 1,800, occurred at Pupri, in the district of Muzaffarpur, in the month of January Enquiries were made departmentally, and the Postmaster of Pupri, who was suspected of complicity, was made over to the police but, although the stolen property was recovered buried in the backyard of the postmaster's quarters, no prosecution was undertaken, for want of evidence. The postmaster was dealt with departmentally and degraded

291. A new Postal and Telegraph office was opened at Arwal in the Gaya district during the year. Two combined Post and Telegraph offices were opened, one at Nagra, and the other at Dighawara, in Saran, and the Telegraph office at Daraunda in the same district was closed in the year of report Telegraph offices at Pupri and Sitamarhi, in the district of Muzaffarpur, were opened during the year

XXXIII(*b*) —FAIRS.

294 The most important fair in this Division is the Sonepore fair in Saran It is held at Sonepore at the confluence of the Ganges and the Gandak This fair is held annually at the full-moon of Kartik Last year the fair was held from 30th October to the 18th November 1897 As usual, the sanitary and conservancy arrangements were made under the supervision of the Magistrate, the District Engineer, the District Superintendent of Police, and the Civil Surgeon. The total expenditure amounted to Rs 28,487, as compared with Rs 3,672 in the preceding year. There were three cases of cholera during the fair On the whole the health of the fair goers was good The average daily attendance was roughly estimated by the police, to have been about a lakh. Prizes for cattle were distributed as usual A sum of Rs 145 was distributed in prizes to 20 persons, for 6 bullocks, 7 cows and 8 buffaloes The Government of Bengal sanctioned Rs. 250 for making

arrangements for the safe picketting of elephants, brought for sale at the fair, out of which sum Rs 70 only was paid to 7 mahouts at Rs 10 each There are four other fairs in the district of Saran, held at Silhori, Mehuar, Thawaj and Kochakote The usual sanitary and conservancy arrangements were made There was no outbreak of cholera, or of any other epidemic, at these fairs

295 In Patna there are a number of fairs which are not important No epidemic broke out at any of them

296 In Gaya, the principal fairs are in the *Chait Sankrant* or *Bisua mela*, held in April, and the *Kartik Purnamashi mela*, held in November Both these fairs are held at Salempur, on the east bank of the Phalgu river, opposite the old town of Gaya. The attendance is said to have been rather less than in the preceding year, but the number of cattle brought for sale was about the same Besides these are the *Deokund*, *Phalgun* and *Baisakhi melas*, held in March and May, the *Kartik Chhat* and *Chait Chhat melas*, held at Deo in April and October, and the Rafiganj *mela* held in April The largest of these fairs is the Rafiganj *mela*, which lasts for 15 days The attendance was larger than usual, but there was a falling off in the number of cattle brought for sale, a fact which indicates an improvement in the condition of the raiyats A recently established fair, held in village Kako in the Jehanabad subdivision, is reported to be growing in popularity, owing to the exertions of the local proprietors About 3,000 head of cattle were brought for sale in the past year The usual sanitary arrangements were made at all these fairs, and the water supply was adequate.

297 The chief fairs in Shahabad, are those held at Barahpur in the Buxar subdivision, in February and April These are essentially cattle fairs, but horse dealers also attend The number of cattle brought for sale at the April fair in 1897 was 23,343, as compared with 20,085 in the preceding year, and the attendance was larger than usual At the February fair in 1898, the number was 18,700, as compared with 20,451 in the preceding year, and the attendance was much less than usual The falling off was due to rumours about the plague The usual conservancy and police arrangements were made In connection with the February fair, an agricultural exhibition is held, and prizes are given for live-stock and agricultural produce In addition to the above, three fairs are held at Buxar, viz., the Khichari, Amawas and Saturn fairs They are bathing fairs This year the Amawas fair coincided with the total eclipse of the sun, and the result was a very large gathering at Buxar In Sasaram the Bhalum fair is reported to have been attended by 30,000 persons There was no outbreak of any disease at these fairs

298 The principal fairs in Champaran are those held at Bettiah, Triveni and Arreraj, the Bettiah fair being the most important The Arreraj fair is held twice a year—once in February, and once in April The gathering at the fair held in February last, was larger than usual, in consequence of the order passed by the Nepal Government, prohibiting pilgrims from India from visiting the shrine of Pasupatinath at Katmandu, on the occasion of the *Sivaratri* festival celebrated in that month This order led many who would have otherwise gone to Katmandu, to make their offerings at the temple of Mahadeva at Arreraj No disease of any kind broke out in any of the fairs during the year

299 The only important fair in the Muzaffarpur district is the Sri Ram *Navami* fair, held at Sitamarhi. This, besides being a large general fair, is also a cattle fair, and it is estimated that more than a lakh of people came to it, and about 60,000 or 70,000 cattle were brought for sale There are many small fairs held in this district. This year, the number both of people and of cattle brought for sale at the fairs was very much smaller than usual This appears to be due to the various rumours on the subject of plague

300 There are no important fairs in Darbhanga

WEATHER AND CROP REPORT

For the week ending the 19th December 1898

Burdwan.—No rain. Weather seasonable Harvesting of *aman* paddy continues *Rabi* crops and potatoes doing well. A few cases of cattle-disease reported. Fodder and water sufficient. Common rice selling as follows —

	Srs	
Sadar	15 to 17	per rupee
Kalna	14 „ 16	
Katwa	16½	
Ranigunj	16½	

Birbhum.—No rain Weather seasonable Harvesting of *aman* going on briskly Price of common rice at Sadar 18 seers, and at Rampur Hat 17½ seers per rupee Fodder sufficient

Bankura.—No rain Weather occasionally cloudy at the beginning of the week Harvesting of *aman* still continues. *Rabi* crops and sugarcane doing well. Fodder and water sufficient No cattle disease reported Rice selling at Sadar 19½ seers and at Vishnupur 16½ seers per rupee

The average fall of the corresponding period for 24 years, Surveyor-General's Office	35 23

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

Δ, dew.

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M, in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been

DEPOSIT

When the amount bid is less than Rs 1 00 per chest Rs 200 per chest
On bids of Rs 1 200 and upwards, but less than Rs 1 600 per chest Rs 300 per chest
On bids of Rs 1 600 and upwards but less than Rs 2,000 per chest Rs 400 per chest
And so on Rs 100 being added to the deposit for every bid additional, to the extent of Rs 400

delivered in, shall be re sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulters, whilst any profit accruing from such re sale shall be forfeited to Government

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P M of the fifth day following the day of sale, or 1 30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1 30 P M, and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book, or his authorized agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue — No 1, certificate of the opium advertised for sale, No 2, report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1897 98, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment

By order of the Board of Revenue, L P,

H J McINTOSH,
Offg Secretary

Orders and Notifications by the Government of India, &c

[*Reprinted from the "Gazette of India"*]

MILITARY SECRETARY'S OFFICE

NOTIFICATION.

Calcutta, the 27th December 1898

No 2544-M—With reference to Home Department Notification No 2022, dated the 21st December 1898, published in the *Gazette of India Extraordinary* of the same date, relative to the arrival of the Right Honourable the Lord Curzon of Kedleston in Calcutta (Howrah Railway Station) at 4 30 P M (Calcutta time), on Tuesday, the 3rd January 1899, it is hereby notified for general information that the route of the *cortége* will be by Strand Road, Fairlie Place, Dalhousie Square, North, and O'd Court House Street to Government House through the North East Entrance

Gentlemen entitled to the Private Entrée at Government House will enter by the South West Gate, alight at the South Entrance, and proceed through Government House to the top of the Grand Staircase

The carriages of Gentlemen (except such as have the Private Entrée) will enter the North-East Gate, set down at the Grand Staircase, and pass out by the North West Gate

The Gates of Government House compound will be closed at 4-30 P M, Calcutta time, after which no carriages will be allowed to enter the compound till after the arrival of Lord Curzon

By Command,
A DURAND, *Colonel,*
Military Secretary to the Viceroy

The following orders, issued by the Government of India in the Home Department, are republished for general information

C W BOLTON,
Chief Secy to the Govt of Bengal

NOTIFICATION

PUBLIC.

No 2522

Calcutta, the 21st December 1898

THE Right Honourable the Lord Curzon of Kedleston in the Peerage of Ireland is expected to arrive at Aden on or about the 25th instant, and at Bombay on the 30th instant, to assume the office of Viceroy and Governor General of India

The Resident at Aden will receive Lord Curzon with all the honours and distinctions which are due to the Viceroy of India

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the landing and reception of Lord Curzon at Bombay with all the honours and distinctions which are due to the Viceroy of India

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon Lord Curzon throughout his journey from Bombay to Calcutta

At the Railway stations at which halts for an hour and upwards are made for rest and refreshment, Lord Curzon will be met by one Civil and (if a Military station) one Military Officer only There will also be a Guard of Honour upon the platform

Should Lord Curzon make any stay at Allahabad, His Honour the Lieutenant Governor of the North Western Provinces will make all arrangements, in communication with the Military authorities, for His Lordship's reception in a suitable manner

At stations between Bombay and Howrah other than those mentioned in the two preceding paragraphs, the attendance of officers is dispensed with

Proper Police precautions will be taken at all the stations along the line at which the train stops

Upon Lord Curzon's arrival at the Howrah terminus of the East Indian Railway, His Lordship will be received by the Secretaries to the Government of India and by the Military Secretary and Aides de-Camp to the Viceroy

The following officers will also be in attendance upon the Howrah Railway platform —

The Commissioner of Burdwan
One of the Secretaries to the Government of Bengal
The Brigadier-General Commanding the Presidency District with the District Staff
The Commissioner of Police, Calcutta
The Chairman of the Commissioners of Calcutta
The Sheriff of Calcutta
The Magistrate of Howrah

A Guard of Honour of the East Indian Railway Volunteer Corps will be drawn up at the Howrah Railway Station, and a Guard of Honour of Native Infantry outside the Station

Lord Curzon, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and Aides de Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages escorted by the Body Guard and the Calcutta Light Horse

The line of route will be lined throughout by troops under the orders of the Brigadier-General Commanding the Presidency District

A Royal salute will be fired from the ramparts of Fort William as the *cortège* appears upon the Hooghly Bridge.

A Guard of Honour of British Infantry and a Guard of Honour of the Calcutta Volunteer Rifles will be drawn up opposite the grand entrance of Government House

Lord Curzon will be received as he alights from the carriage at the foot of the grand staircase by His Honour the Lieutenant Governor of Bengal attended by his personal staff

All the Civil and Military Officers of Government at the Presidency will be in attendance upon the grand staircase of Government House Consular Officers and other Representatives of Foreign Governments at Calcutta and all non-official gentlemen are invited to be present upon the grand staircase

His Excellency the Viceroy and Governor-General, attended by his personal staff and the Members of the Governor-General's Council, will receive Lord Curzon at the top of the grand staircase, and will conduct His Lordship to the Throne Room

The troops will then be withdrawn

Full dress will be worn by Civil and Military Officers, and morning dress by all gentlemen not entitled to wear uniform

The date and hour of Lord Curzon's arrival at Howrah and the ceremonial to be observed on his assumption of the office of Viceroy and Governor-General of India will be notified hereafter

The 22nd December 1898

Advertisements.

[N B—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday]

LAND SALE NOTICES.

Advertisement of Sale under section 87 of Act II (B C) of 1882

NOTICE is hereby given that, owing to the abandonment of the D Schedule Embankments, Nos 1 2 and 4 on the right and left banks of the river Selye, in the district of Midnapore which are mentioned in Act II (B C) of 1882, the right and title of Government to the embankment lands, as specified in the conditions of sale below, will be put up to sale at the Midnapore Collectorate on Thursday, the 12th January 1899 corresponding to the 29th Pous 1305 B S and 30th Pous 1805 Amli —

Conditions of Sale

1 The lands to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale The purchaser of the lands will be considered to have acquired revenue free title to the lands

2 If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once

3 If the amount of purchase money exceed Rs 100, one-fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale

A. C. MACKENZIE, Deputy Collector, for Collector on tour

Midnapore Collectorate, the 7th October 1898.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estate, situate in the district of Bankura, will be put up to sale at the Bankura Collectorate on Wednesday, the 8th February 1899, corresponding with the 26th Magh 1305 B S

The purchasers will be subject to the following conditions of sale —

Conditions of Sale.

1st —The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity

2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities

3rd —If the amount of purchase money do not exceed Rs 100 the whole amount to be paid down at once

4th —If the amount of purchase-money exceed Rs 100 one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION

FROM 1st April 1898 the price of this quinine will be as follows —

1 Pound tin	Rs 17,	or post free,	Rs 17 12
½ „	„ 8 8	„ „	„ 9
¼ „	„ 4 4	„ „	„ 4 12

Analysis shows this quinine to be of the purest manufacture and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine It is for sale only to Government officers and only for cash and may be had from the Superintendent Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাশুল সমেত ১৭৸০

।। আধ „ „ ৮।৹ „ „ „ „ ৯৲

। শিকি „ „ ৪।৹ „ „ „ „ ৪৸০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।
